

HIGH RESOLUTION AEROMAGNETIC SURVEY COMPLETED

- Exploration through conducting a high resolution aeromagnetic and radiometric survey on the Amersfoort project has completed successfully
- Aircraft have completed flying 11,563 line kilometre survey covering 474Km² of the Amersfoort project
- Kinetiko anticipates that the results from the survey by the end of this month and if successful will provide identify areas for well tests and further pilot production fields

Kinetiko Energy Ltd (“**Kinetiko**” or “**Company**”) (ASX:KKO) is pleased to announce through its incorporated joint venture Afro Energy (Pty) Ltd (“**Afro Energy**”) in collaboration with its joint venture partner in South Africa Badimo Gas (Pty) Ltd (“**Badimo**”), that a high resolution aeromagnetic and radiometric survey has completed to follow up the success of a similar survey completed in June 2014.

This survey successfully flew 11,563 line kilometres survey over the largest portion of the Amersfoort project as illustrated at Figure 1 and constitutes a 325% larger survey than that completed in 2014 which provided unprecedented geological detail that led to increases in certified resource calculations. The results from the survey are anticipated to be received by the end of July and if successful will identify areas for well tests and further pilot production fields.

About Kinetiko Energy and Afro Energy

Kinetiko Energy is an Australian gas explorer focused on advanced shallow conventional gas and coal bed methane (CBM) opportunities in rapidly developing markets in Southern Africa. South Africa has extensive gassy coal basins, extensive energy infrastructure and a growing gas demand, making it an attractive area for investment. The Company has a large potential exploration area, of which approximately 7000km² is granted and being explored.

Afro Energy (Pty) Ltd. was incorporated as a joint venture founded in 2015 by Kinetiko Energy Ltd (49%) and Badimo Gas (Pty) Ltd of South Africa (51%) as a JV company to own 100% of the exploration rights with required BEE (Black Empowerment Endowment) certification, and facilitate South African investment in order to continue to explore, develop, and commercialise gas production.
