

Advanced Human Imaging concludes Formal Agreements with Peruvian based Nextmedicall S.A.C

Advanced Human Imaging Ltd (ASX: AHI) is pleased to update shareholders of the signing of the Master Services Agreement (“MSA” or “agreement”) with digital health and medical group NEXTMEDICALL S.A.C (“Nextmedicall”).

The parties have executed the standard AHI MSA which entails the legal and contractual terms in which AHI agrees to grant Nextmedicall the right to use AHI’s licensed Software Development Kits (SDKs) for IOS and Android platforms for body circumference measurements and face scan measurements and related intellectual property once integrated into the Nextmedicall application/platform.

The MSA incorporates the following information and guidelines, Commercial undertakings, Software Development Kit, End User License, Technology Support, Data Processing Agreement, Fee Schedule and Professional Services, including implementation support and training services, to be provided by AHI for the agreement with Nextmedicall. The initial term of the MSA is for 1 year from commencement and will automatically extend for subsequent consecutive periods each of equivalent length to the initial term. Early termination procedures are included for either party to the MSA.

At the request of Nextmedicall, AHI has also granted Nextmedicall a 180-day non-solicitation and non-compete clause and minor pricing adjustments.

Nextmedicall is currently integrating the AHI MultiScan SDK (software development kit) into the Nextmedicall application and platform. The initial integration will allow access to the FaceScan followed by the proprietary BodyScan, empowering its users with an ability to track and ascertain dimensional base risk assessment and vitals sign.

The financial impact of this MSA on AHI cannot be currently quantified and there are no minimum order requirements contained in the agreement.

About Nextmedicall S.A.C

Nextmedicall is a Peruvian medical and technology company pioneering in telemedicine focusing on chronic disease patients in Latin America, supplying a digital ecosystem that connects healthcare stakeholders, to improve the quality of life of patients at home and abroad.

Nextmedicall has an extensive network of doctors and specialists spanning, Traumatology, Orthopaedics, Oncology, Gastroenterology Rehabilitation, Neurosurgery, Gynaecology, Obstetrics, Psychiatry, Dermatology, Paediatrics, Nutrition, and Ophthalmology, specializing in remote personal care.
