Exploring the 'last El Dorado': A country-scale gold opportunity

OCTOBER 2025

Greater Oko Acquisition Presentation

ASX: **ALR** | [altairminerals.com.au](http://altairminerals.com.au)

**ALTAIR**  
MINERALS

# Disclaimer and Forward-Looking Statements

This presentation has been prepared by Altair Minerals Limited (“the Company”, “ALR”) for informational purposes only. It is not a prospectus, product disclosure statement, or other offering document under Australian law or any other law.

The information contained in this presentation is provided in good faith, but no representation or warranty, express or implied, is made by the Company or its directors, employees, or advisors as to the accuracy, adequacy, or completeness of such information.

This presentation contains forward-looking statements based on assumptions and information available to the Company as of the date of this document. These statements are subject to known and unknown risks, uncertainties, and other factors that may cause actual results to differ materially from those expressed or implied by the forward-looking statements. Readers are cautioned not to place undue reliance on these statements, which speak only as of the date they are made.

The securities issued by the Company are speculative, and there is no guarantee of a return on investment, payment of dividends, or capital growth. Potential investors should conduct their own due diligence and consult with independent advisors before making investment decisions.

Except as required by law, the Company disclaims any obligation to update or revise forward-looking statements or to provide further information regarding the contents of this presentation. The Company accepts no liability for any loss or damage arising from the use or reliance on the information contained in this document.

## **Foreign Resource Estimate Statement**

The Foreign Estimate of mineralisation included in this presentation is not compliant with the Australasian Code for Reporting Exploration Results, Mineral Resources and Ore Reserves (2012 JORC Code) and is a “Foreign Estimate”. A competent person has not done sufficient work to classify the Mineral Resources in accordance with the JORC Code 2012, and it is uncertain that following evaluation and/or further exploration work that the estimate will be able to be reported as a Mineral Resource or Ore Reserve in accordance with the JORC Code 2012. Any reference to The Greater Oko Project in terms of “Resource”, “Estimate”, “Historic Resource” within this announcement, is a reference to a Foreign Resource Estimate as described above, please refer to original announcement 5th August 2025 for more details.

## **Proximity Statement**

This presentation contains references to exploration results derived by other parties either nearby or proximate to the ALR Projects and includes references to topographical or geological similarities to that of the ALR Projects. It is important to note that such discoveries or geological similarities do not in any way guarantee that the Company will have any success or similar successes in delineating a JORC compliant Mineral Resource on the ALR Projects, if at all.

## **Compliance Statement**

This document contains information extracted from ASX market announcements reported in accordance with the 2012 edition of the “Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves” (2012 JORC Code) and available for viewing at <https://altairminerals.com.au/>. ALR confirms that it is not aware of any new information or data that materially affects the information included in any original ASX market announcements.

The release of this document on ASX has been authorised by the Board of Altair Minerals Limited

## **Competent Persons Statement**

This announcement regarding the Greater Oko Project has been prepared with information compiled by Mr Robert Wason BSc (Hons) Geology, MSc (Mining Geology), a Competent Person who is a Member of the Australasian Institute of Mining and Metallurgy. Mr Wason is an employee of Mining Insights. Mr Wason has sufficient experience relevant to the style of mineralisation and type of deposit under consideration to qualify as a Competent Person as defined in the 2012 edition of the “Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves”. Mr Wason consents to the inclusion in this announcement of the matters based upon the information in the form and context in which it appears. The competent person has not done sufficient work to classify the Mineral Resources (“Foreign Estimate”) referred to in the announcement, in accordance with the JORC Code 2012, and it is uncertain that following evaluation and/or further exploration work that the estimate will be able to be reported as a Mineral Resource or Ore Reserve in accordance with the JORC Code 2012.

## **References**

All figures, tables and data throughout this presentation has been referenced with a numerical figure on the slide and can be referred to the original source and/or streamlined cross-referenced Altair announcements by visiting the last slide of this presentation

# Greater **Oko Project**

*A Strategic Land Position and Irreplicable Opportunity*

## THE EXPLORERS CHALLENGE IN GUYANA

### Limited Size

Exploration permits in Guyana have maximum size of 5km<sup>2</sup>.

### Consolidating

Building a contiguous 100km<sup>2</sup> land position would require negotiating between ~10 to 15 different private citizens.

### Fragmented Ownership

Permits have been arbitrarily distributed to private citizens.

### Major Barrier to Entry

Has prevented exploration by majors & juniors on Tier-1 geology – an extension of West Africa greenstone belt.

## ALTAIR'S SOLUTION & IRREPLICABLE POSITION

### Greater Oko Vendors – 590km<sup>2</sup>

A 3<sup>rd</sup> generation gold mining family who have consolidated 590km<sup>2</sup> of contiguous ground.

### Multi-Project Potential

Consolidation of entire Tier-1 greenstone belt and historic goldfields. Potential for not just one, but multiple world class discoveries.

### New Frontier Consolidation

This scale & quality of consolidation is rarely seen in the industry; Alan Bond (Kalgoorlie Superpit), Robert Friedland (Kamoa-Kakula), Lundin Family (Vicuna/Filo Mining).

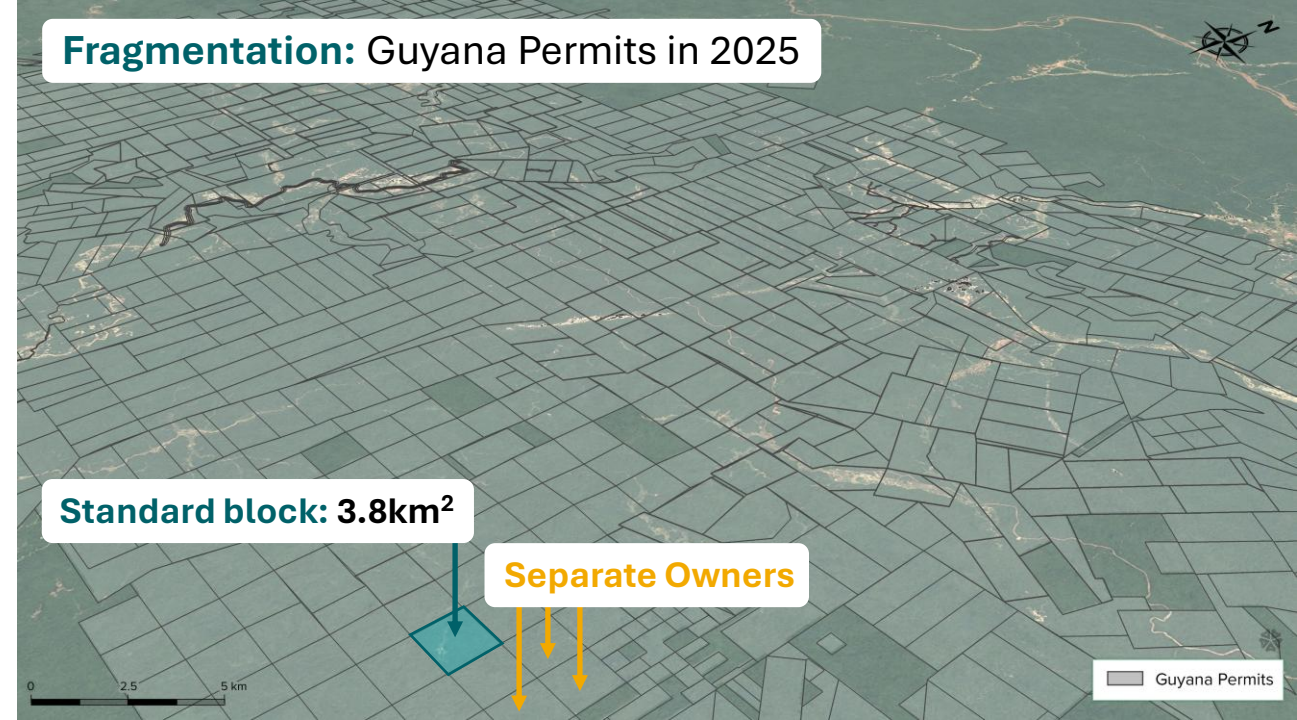

### Up to 3,000km<sup>2</sup>

Of additional permits to be potentially added into Greater Oko strategically

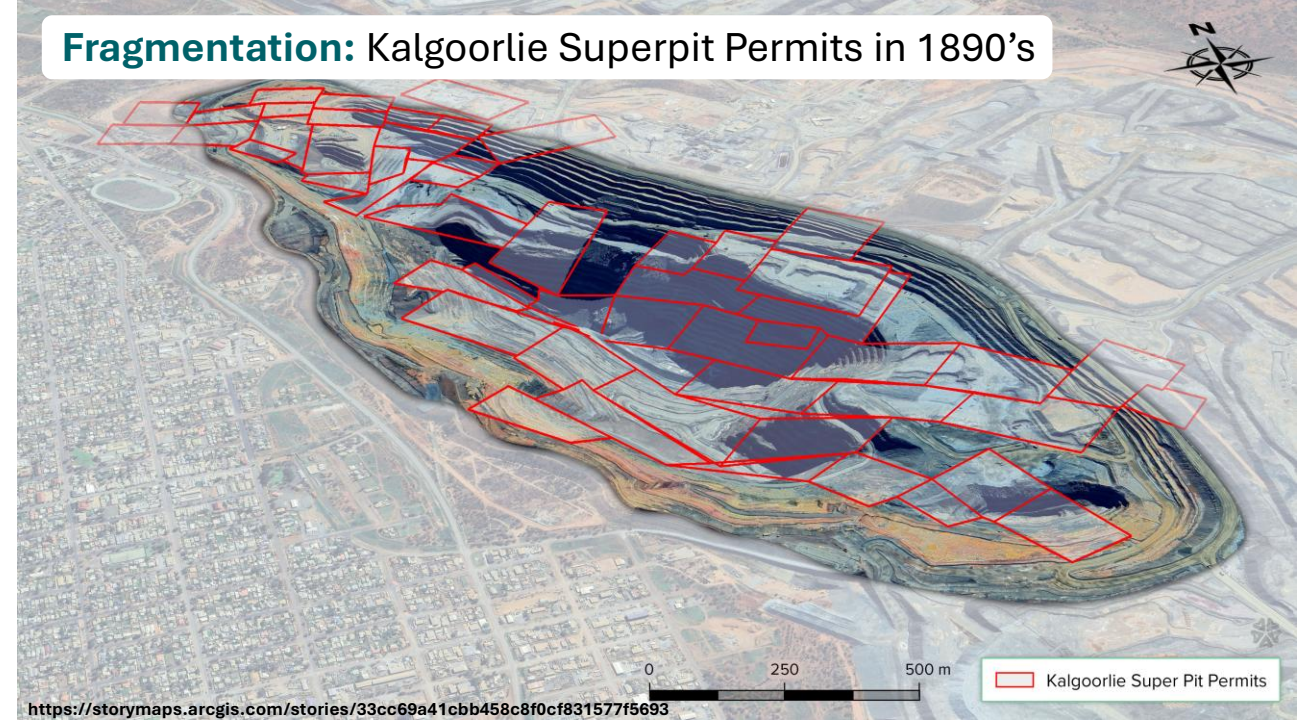

### Largest Gold Project

Greater Oko is the largest gold exploration project in Guyana's history with irreplicable land position.

## Fragmentation: Guyana Permits in 2025

## Fragmentation: Kalgoorlie Superpit Permits in 1890's

# Greater Oko Project

*A Monopoly of Exploration Ground*

TWO COMPANIES HAVE DRILLED OUT  
5KM OKO SHEAR TO DATE:

**GMining Ventures**<sup>4,5</sup>

- OKO WEST – 5.9Moz @ 2.2g/t Au
- Oko West taken over for \$1Billion

**G2 Goldfields**<sup>6,7</sup>

- OMZ & GHANIE – 3Moz @ 4.3g/t Au
- \$1.2Billion Market Capitalization

ALTAIR BECOMES THE 3RD COMPANY IN HISTORY  
TO TEST THE UNEXPLORED **15KM OKO SHEAR**

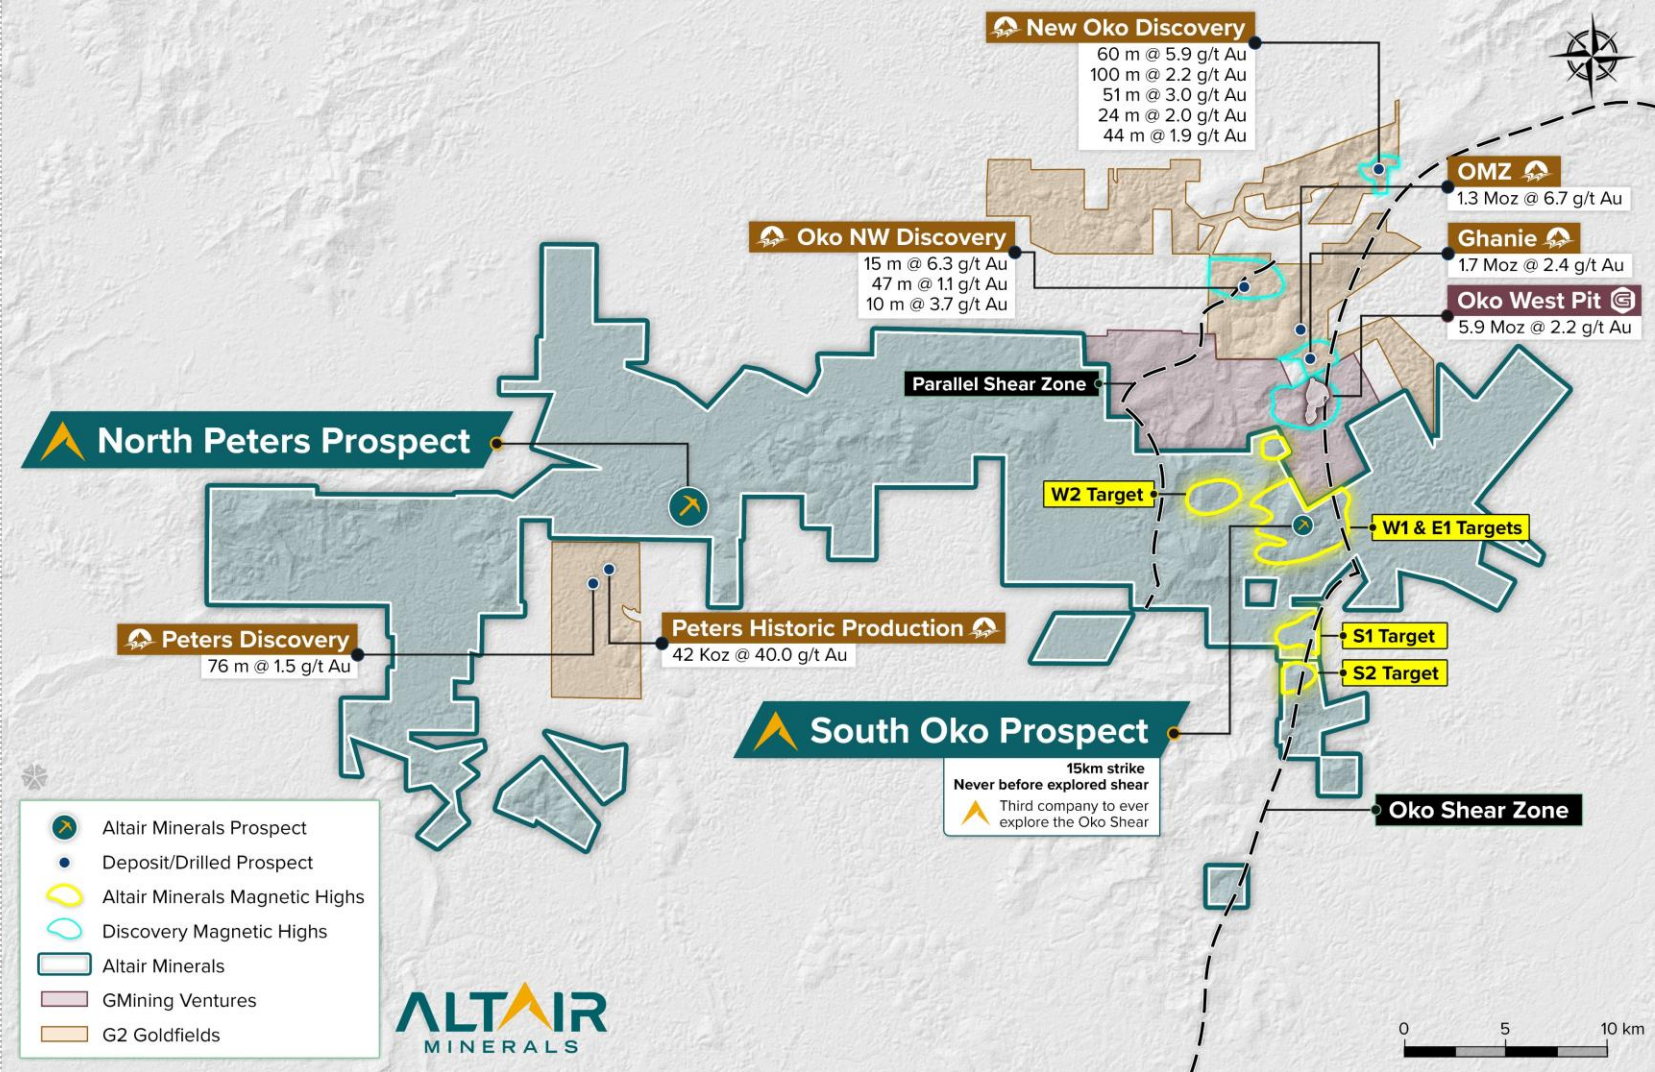

**Altair Greater Oko Project has:**

**5x times** The land-size as G2 and GMIN's Oko Projects Combined

**3x times** The strike of the Oko Shear than G2 and GMIN have in combined drilled out for 9Moz Au

ASX: **ALR** | [altairminerals.com.au](http://altairminerals.com.au)

Diamond MM02-05<sup>8</sup>

**262m @ 1.6g/t Au from 30m, Incl. 38m @ 8.5g/t from 30m**

Diamond MMT003

**43m @ 10.6g/t Au from 0m, Ending 8m @ 8.0g/t from 35m**

Diamond MM01-05

**178m @ 1.7g/t Au from 24m, Incl. 83m @ 3.4g/t from 24m**

Diamond MM41-06

**109m @ 2.0g/t Au from 47m**

Diamond MM08-06

**20m @ 5.8g/t Au from 45m**

Diamond MM7507

**107m @ 1.4g/t Au from 52m**

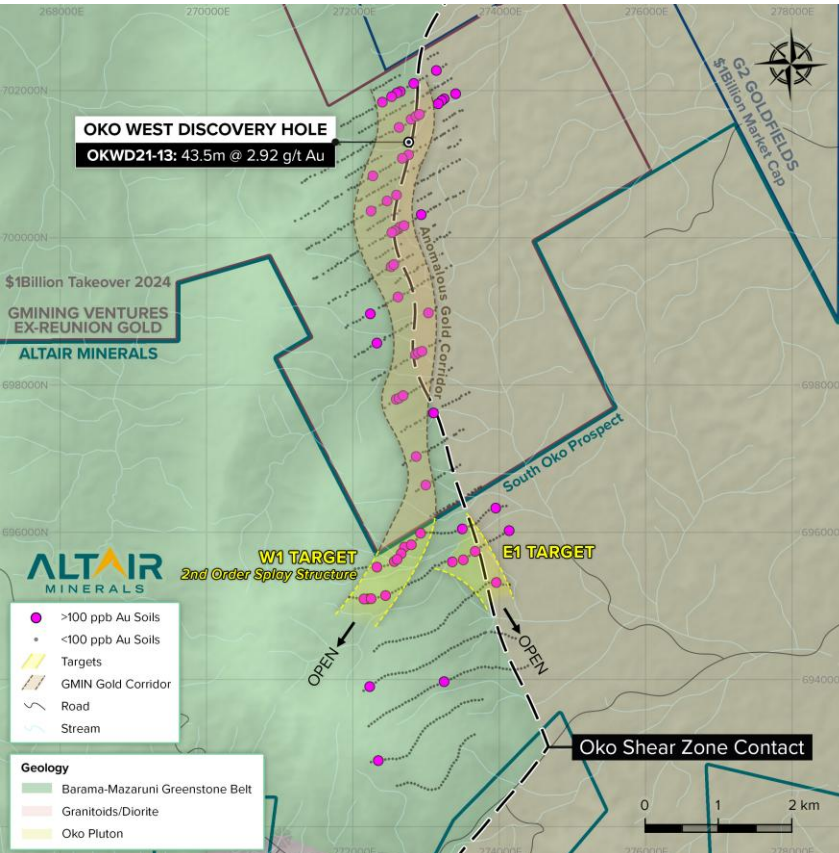

# South Oko Prospect

ALONG STRIKE TWO MAJOR DISCOVERIES

## The Oko Shear

- Oko Shear is currently the most prominent emerging greenstone shear zone in West Africa and South America.
- Only 2 companies have drilled out 5km which has led to 9Moz Au of discoveries. **Both companies have achieved over billion dollar valuations.** Altair is now the third.

## South Oko Soils & Magnetic: E1 & W1 Targets

- W1 anomalous footprint (>100ppb Au contour) is 2km and open, already larger than the 1.7km (>100ppb Au) soils footprint the led to Oko West discovery (6Moz Au)
- E1 & W1 soil anomaly also coincides with the largest magnetic high on the Oko Shear.
- All major discoveries by Reunion and G2 to date on Oko Shear coincides with magnetic high, with exception of OMZ deposit.

## South Oko Potential

- **Proven Extensions to North:** G2 Goldfields have drilled 10km north of their deposit, 60m @ 5.9g/t Au, 100m @ 2.2g/t Au, 51m @ 3.0g/t Au, 44m @ 1.9g/t Au etc.<sup>22</sup>
- **South Oko covers entire untested southern extension of Oko Shear**

Soil anomalies of GMIN & ALR direct comparison with residual magnetics overlay<sup>11</sup>

GMIN (Ex-Reunion Gold) soil anomalies >100ppb Au in direct comparison with Altair soil anomalies<sup>9</sup>

# North Peters Prospect

## High-Grade Drill-Ready Target | 40km West of South Oko

**HISTORIC NI-43-101 RESOURCE\* – 251KOZ @ 4.91G/T AU**<sup>14,15 (NON-JORC)</sup>

- Resource delineated from auger holes to max depth of 30m
- Open in all directions:** Confirmed from subsequent diamond drills
- High grade and thick intercepts below historic resource**

### OPEN IN MULTIPLE DIRECTIONS<sup>16</sup>

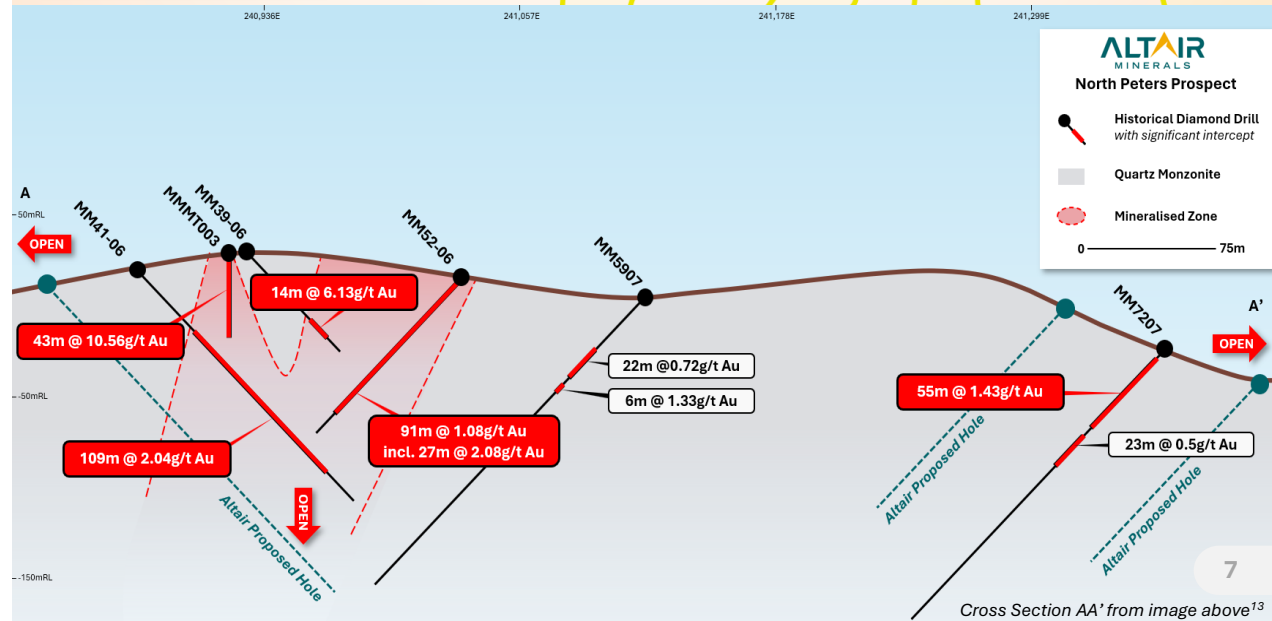

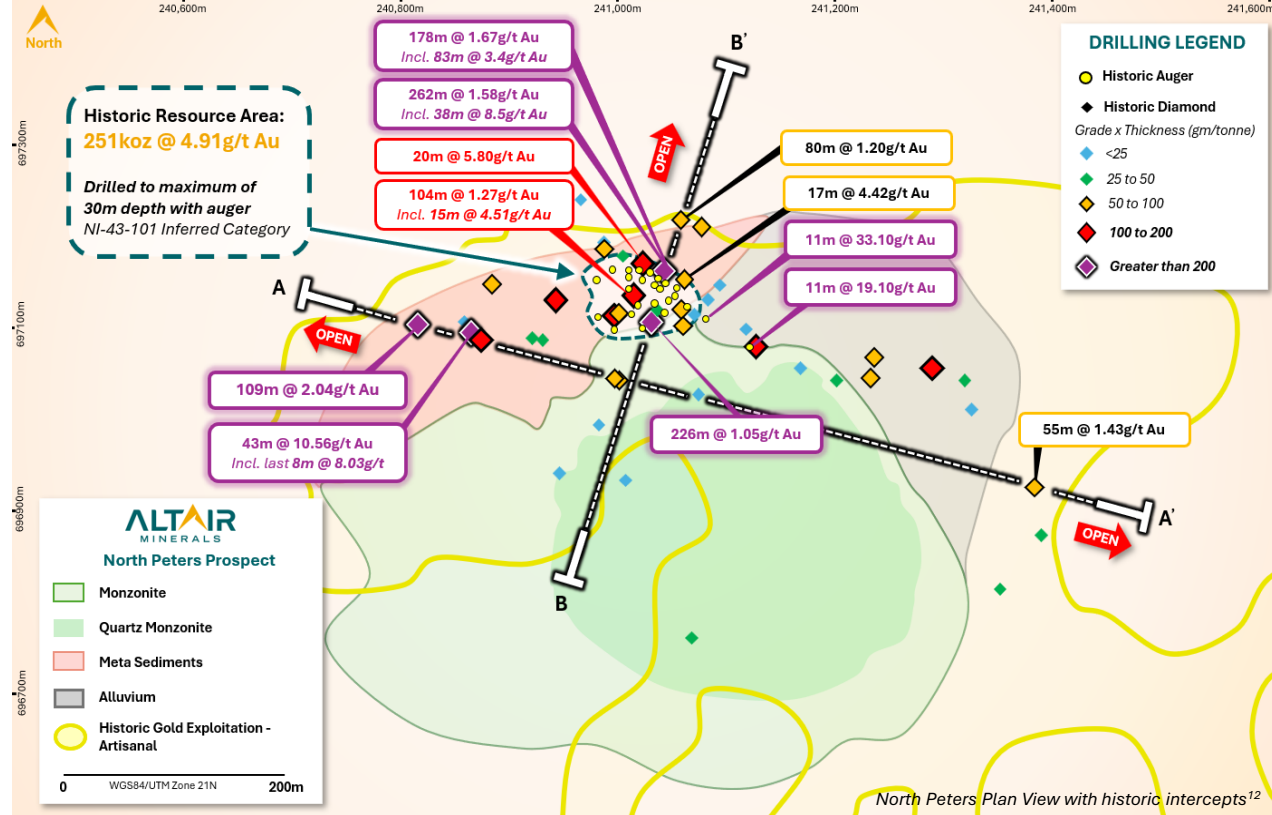

- Northern-end hole:** 80m @ 1.20g/t Au from 123m – Open to North
- Eastern-end hole:** 55m @ 1.43g/t Au from 3m – Open to East
- Western-end hole:** 109m @ 2.04g/t Au from 47m – Open to West
- Deepest hole:** 262m @ 1.58g/t Au from 30m – Open at Depth

### EXCEPTIONAL DRILL INTERCEPTS – OVER 600M STRIKE & OPEN

- 11m @ 33.1g/t Au** from 5m ending in mineralisation (AG-37-96)
- 11m @ 19.1g/t Au** from surface ending in mineralisation (AG-46-96)
- 17m @ 8.5g/t Au** from surface ending in mineralisation (AG-26-98)
- 262m @ 1.6g/t Au** from 30m including **38m @ 8.5g/t Au** (MM02-05)
- 43m @ 10.6g/t Au** from surface (MMM02-03)
- 109m @ 2.0g/t Au** from 47m (MM41-06)
- 178m @ 1.7g/t Au** from 24m including **83m @ 3.4g/t Au** (MM01-05)
- 107m @ 1.4g/t Au** from 52m (MM7507)
- 104m @ 1.3g/t Au** from surface (MM17510)
- 46m @ 20.7g/t Au** from trench (TR005G3NS)

ASX: **ALR** | [altairminerals.com.au](http://altairminerals.com.au)

\*The resource reported is considered a Foreign Resource Estimate (Non-JORC Compliant), please see disclaimers and ASX: ALR Ann. 05/08/25

# Value Proposition

- Altair remains the lowest valued active explorer in the Guiana Shield – sitting 1/3<sup>rd</sup> of the value of the closest valued peer (Greenheart Gold)
- Largest land position in Guiana Shield by a substantial margin – with the most upside discovery potential compared to all peers
- Highest Grade global resource (Note: Non-JORC Compliant) – remains open in all directions and modelled to only 30m depth
- Altairs Top 4 drill intercepts are on par with Founders (\$831M Market Cap) and G2 (\$1.2B Market Cap) – while sitting at a fraction of the market cap of all peers

	Explorers									Developers						Construction

# Board & Management

*A team which has done it before in Guyana*

## Greater Oko Leadership

### Faheem Ahmed Altair CEO

- Over a decade experience in mining, project financing, M&A.
- Has led transformative M&A transactions and exploration programs, including, most recently the Colossus transaction for Viridis Mining & Minerals (ASX:VMM)
- Also serving as NED at ASX:VMM and ASX: I88

### Rich Munson Guyana Executive Director

- Over 20-years experience in Guyana Mining industry
- Previously CEO of ETK/Sandspring Resources where he led the largest gold discovery in Guyana this century with the late John Adams – 10Moz Au Toroparu Deposit
- Raised over US \$500M for mineral projects in Guyana

*Toroparu*

### Pascal Van Osta Head of Exploration

- Held senior exploration leadership roles at Etruscan Resources & Endeavour Mining
- Track record of discoveries includes Tabakoroni, Samira Hill, Agbaou, Morila, Toroparu, Sona Hill
- Previously Exploration Manager for Toroparu discovery in Guyana, working with Rich Munson

*Toroparu*

### Dennis Lahondes – GexplOre Structural Geologist Team

- Ex-Reunion Gold Exploration Manager
- Conducted structural & petrological work for drill targeting at Oko West (Reunion Gold) and Antino (Founders Metals)
- GexplOre consists of a team of discovery specialists in Guiana Shield

*Oko West & Antino*

## Board & Management

### Mordechai Benedikt Chairman

- Mr Benedikt is an experienced businessman with an extensive background in Australasia imports and exports trade over 12-years
- Vast business and capital markets network internationally, actively involved in commercial property and substantial public sector investments

### Jamie Larmont Non-Executive Director

- Seasoned mining professional and corporate strategy expert with vast business and capital markets experience
- Extensive project operational and commercial background in the mining sector
- Over 10-years experience working with Rio Tinto and BHP

### Bilal Ahmad Non-Executive Director

- Accomplished private investor with 15-year track record of financing and investing into ASX-Listed companies
- Extensive experience in providing hands-on and capital support to drive growth for listed companies
- Also serving as NED at ASX: DAL and ASX: CRR

### Justin Mouchacca Company Secretary

- Over 17 years' experience in public company responsibilities including statutory, corporate governance and financial reporting requirements.
- Principal of JM Corporate Services and has been appointed Company Secretary and Chief Financial Officer for over 20 ASX-Listed Companies

# Key Project Takeaways

## Land Position – Unparalleled & Irreplicable

- Largest Gold Exploration Project in Guyana – 590km<sup>2</sup>

## Proven Strategic Location – Untested Potential

- Adjoining and along strike two billion dollar discoveries – Extensions never tested

## World Class Team – Execution Track Record

- Same team behind the largest gold discovery in Guyana this century – Toroparu

## High Impact Catalysts – 24 months Consistent Newsflow

- Continuous exploration campaign to progress over next 2-years

## Undervalued – Compared to all Peers

- Altair is the cheapest active explorer Guyana – sits 1/3<sup>rd</sup> of valuation of 2<sup>nd</sup> cheapest

## Scale – Multi-Million Ounce Discovery Potential

- Greater Oko is 2x the size of every current actively drilled gold project in Guyana combined

## Irreplicable Strategic Asset

- **Size:** Largest gold exploration opportunity in Guyana's history
- **Fragmented Ownership:** Irreplicable deal and landholding due to fragmented ownership – the final major exploration project in Guyana
- **Consolidation:** 5km of Oko Shear drilled-out to date has led to 9Moz of discoveries, Altair controls >15km and consolidated entire greenstone

## Greenfield & Brownfield Targets

- **South Oko: Greenfield Target**
  - Consolidated entire greenstone and 15km strike of unexplored Oko Shear – 3x the strike drilled out by the two billion dollar neighbours
  - 100ppb Au soil anomaly (open) coinciding with largest magnetic high on Oko Shear. Larger than Oko West's soil anomaly (100ppb Au).
- **North Peters: Brownfield Target**
  - Historic Resource to 30meters depth: **251koz @ 4.91g/t Au**
  - Subsequent diamond drilling confirmed extensions: **262m @ 1.6g/t Au, 43m @ 10.6g/t Au, 109m @ 2.0g/t Au, 178m @ 1.7g/t Au**
  - Significant upside, with true scale of system remaining poorly tested

## First Class Team & Unparalleled Expertise

- **Reuniting the leadership & discovery team behind Toroparu:** The largest gold discovery this century in Guyana
- **Technical Experience:** Entire ground geological team has previous experience at either Toroparu (10Moz Au) or Oko West (6Moz Au)
- **Proven Track Record:** Guyana leadership team have in combined raised over US \$650M for mining projects

## Vision & Opportunity

- **Proven Discovery Model:** Mineralised structural shear > historic artisanal goldfields > soil sample > trench > Drill for primary source below artisanal fields (Aurora/Toroparu).
- **Greater Oko Vendors:** Third generation mining family, part of major mining, construction and real-estate conglomerate, with unparalleled knowledge on gold mineralisation and prospects in Guyana.
- **Multiple Discovery Potential:** Vendors have partnered with Altair to consolidate all remaining untested historic goldfields into one major project, envisioning to replicate multiple Aurora/Toroparu style discoveries.
- Landholding and exploration model paves way for establishing **the largest gold company in Guyana's history**

# Next Steps & Upcoming Newsflow – Greater Oko
