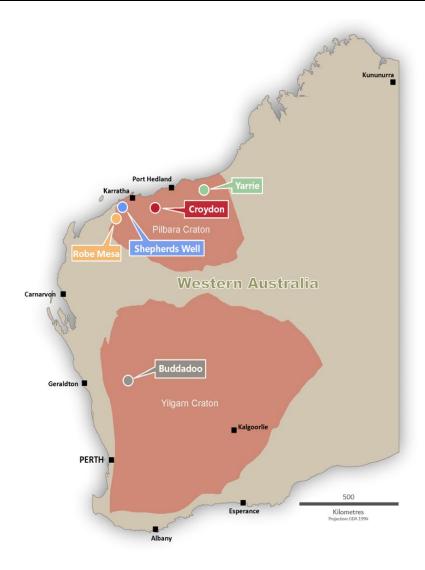

Figure 1. Location CZR projects in Western Australia

OVERVIEW

CZR is a Western Australia focused mineral exploration and development company with five projects, all in joint-venture with its major shareholder, Creasy Group. All projects are strategically located, proximal to infrastructure and cover prospective geology with established iron ore, gold and base metal endowment.

CZR's primary development asset is the Robe Mesa iron ore deposit, part of the Yarraloola project. The Company announced the results of the Definitive Feasibility Study (DFS) in October 2023, targeting a production rate of 3.5Mtpa - 5Mtpa over an initial 8-year mine life (ASX announcement 10 October 2023).

On 11 January 2024 CZR announced it had entered into a binding share sale agreement with Miracle iron Resources Pty Ltd to sell its 85% interest in Robe Mesa and supply chain infrastructure for \$102 million.

The transaction is subject to certain conditions precedent, with a key condition achieved on 28 February 2024 when CZR shareholders voted overwhelmingly in favor of the transaction. FIRB and Chinese government approvals are well advanced and the Company remains confident the transaction will settle prior to the end of May 2024.

In addition to the development of Robe Mesa, CZR is also progressing several prospective exploration projects – well located in close proximity to major mines, discoveries and infrastructure.

ROBE MESA IRON-ORE DEPOSIT (Yarraloola Project) – WEST PILBARA (CZR 85%)

Location

The Robe Mesa deposit is adjacent to the Robe River JV operations (Rio Tinto 53%, Mitsui 33%, Nippon Steel 14%) operated by Rio Tinto. Rio Tinto has been mining the Robe Valley since the 1970's and has current mining operations at Mesa A, B, C, H, J and Warramboo, with rail linking to export facilities at Cape Lambert.

Miracle Iron Resources Transaction

On 11 January 2024 CZR announced it had entered into a binding Share Sale Agreement (the **Agreement**) for the sale of Zanthus Resources Pty Ltd (**Zanthus**), a wholly owned subsidiary that controls an 85% interest in the Robe Mesa Iron Ore Project (**Project**), to Miracle Iron Resources Pty Ltd (**Miracle Iron**) for \$102 million (the **Transaction**).

The Transaction has the following key terms:

- CZR will sell its 85% interest in the Robe Mesa iron ore project and associated assets through a share sale of its wholly owned subsidiary Zanthus Resources Pty Ltd
- Miracle Iron to pay a \$1 million Exclusivity Fee to CZR. Exclusivity commences on the date of the Agreement and will finish on the earlier of completion, the 'Sunset Date' for satisfaction of the conditions precedent to the Agreement, which is currently 31 May 2024 (Sunset Date), or the date on which the Agreement is terminated (Exclusivity Period).
- CZR to receive \$102 million cash, comprised of:
 - \$81.6m on completion; and
 - \$20.4m on the earlier of first shipment or 30 June 2025
- Completion is conditional upon shareholder approval (achieved 28 February 2024), FIRB and Chinese government approvals and other conditions customary for a transaction of this nature

- CZR is subject to exclusivity arrangements requiring it, amongst other things, not to engage with third
 parties during the Exclusivity Period, subject to customary fiduciary carve outs
- Up until completion occurs or the Sunset Date, Miracle Iron will provide funding to Zanthus of up to \$3.9 million to cover project expenditure during the pre-completion period.

Indicative Timetable and Next Steps

Event	Date
Despatch of notice of meeting to shareholders	Complete

The above timetable is indicative only and all dates are subject to change, with any such change likely to have consequential effects on other anticipated dates in the indicative timetable. CROYDON GOLD PROJECT (CZR 70%)

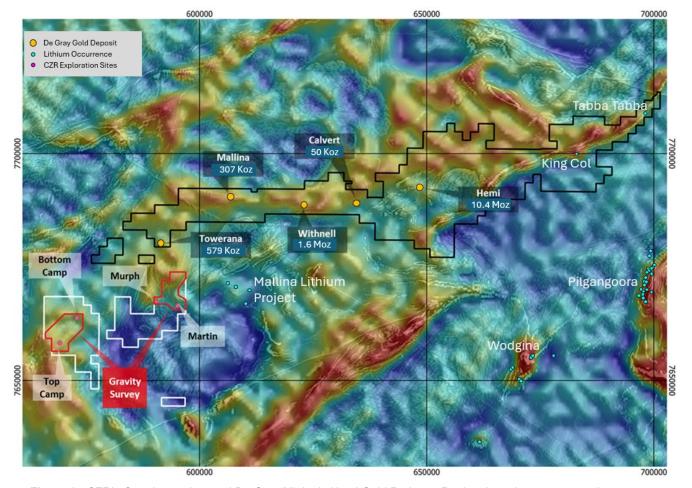

Figure 3. CZR's Croydon project and De Grey Mining's Hemi Gold Project – Regional gravity over magnetics

The Croydon project is located in the Mallina Basin between Karratha and Port Hedland. The region contains De Grey Mining Limited's (DEG) Hemi gold deposit with a Mineral Resource of 10.4 Moz (DEG release to ASX; 21 November 2023). The Mallina Basin is emerging as a major gold province and CZR's Croydon project covers approximately 40km strike of the Mallina Basin, about 50km south-east of Hemi (Figure 3).

In addition to the gold potential, the region is an emerging centre for lithium mineralisation. Wildcat Resources' Tabba Tabba and De Grey Mining's King Col deposits are located along a similar geological setting to the northeast, and Morella Corporation Limited's Mallina lithium project earn-in with Sayona Mining is located only 10km east of CZR's Croydon project.

No field activities were undertaken at Croydon during the quarter. CZR received approval for its exploration program of works from the Department of Energy, Mines, Industry Regulation ad Safety (DEMIRS) and lodged a heritage clearance notice with the Ngarluma Aboriginal Corporation (NAC) during the quarter, covering gold exploration targets across the Croydon project.

CZR was also notified post quarter end that it was successful in its government co-funded exploration drilling application. The co-funded drilling grant covers exploration targets identified at the Top Camp and Bottom Camp prospects, where gravity survey and interpretation has identified potential Hemi-style intrusions beneath known gold mineralisation in the overlying Mallina Basin sediments. CZR is looking forward to working with NAC to gain heritage clearance and drill these prospective gold targets in the coming months.

BUDDADOO PROJECT (CZR 85%)

The Buddadoo Project covers 125km² approximately 200km east of the port of Geraldton in the mid-west region of Western Australia. The project hosts copper, gold and vanadium-titanium-magnetite (VTM) mineralisation, with the most advanced prospect a 6km long by 300-500m wide zone of gabbro with massive and disseminated VTM (Buddadoo Mafic Complex).

Figure 4. Buddadoo Project - regional scale showing proximal vanadium projects and infrastructure

The Mid-West region is experiencing an increase in VTM development. The recently completed \$217 million merger between Australian Vanadium (AVL) and Technology Metals Australia (TMT) (ASX Announcement 22 January 2024) provides further evidence of the regions potential to become a significant source of vanadium production.

During the quarter, CZR lodged a Mining Licence application covering the Buddadoo Mafic Complex (MLA 59/784) and received approval for its exploration program of works from DEMIRS, covering infill resource definition drilling across the Buddadoo VTM deposit. CZR also submitted a heritage clearance notice to the Yamatji Southern Regional Corporation, representing the Yamatji Nation native title holders over the Buddadoo project and have a heritage clearance survey scheduled for mid-May.

OTHER PROJECTS

No field activities were undertaken during the quarter at the Yarrie or Shepherds Well Projects

Miracle Iron will pay into Zanthus's account the forecast expenditure amounts for each relevant month in the agreed budget (or such other revised amount as may be agreed between the parties). If completion occurs, all budget expenditure amounts will remain due by Zanthus to Miracle Iron. However if the Share Sale Agreement is terminated such that Completion does not occur, Zanthus must repay (and if Zanthus doesn't repay, the Company must repay) all budget expenditure amounts within 10 business days of a Competing Proposal being entered into or the next capital raising (of at least the lesser of \$4,000,000 or the amounts advanced by Miracle Iron pursuant to the budget) after the termination of the Share Sale Agreement, such capital raising to be undertaken by the Company within three months of termination of the Share Sale Agreement.
