

QUARTERLY ACTIVITIES REPORT

For the period ended 30 September 2026

HIGHLIGHTS

HORN SILVER PROJECT – UTAH, USA¹⁻⁴

- **Completed the acquisition of an 80% interest in the Horn Silver Project**, consisting of 101 unpatented claims and 101 patented claims in Utah's historic Frisco Mining District. The Project contains the historical Horn Silver Mine which produced ~17Moz of Silver at 604 g/t Ag¹
- **First pass reconnaissance rock sampling returned high grade silver, gold and copper mineralisation** across multiple prospects, including:
 - **Buckhorn:** 4,190 g/t Ag, 1.40 g/t Au and 2.41% Cu.
 - **Washington:** 1,730 g/t Ag and 5.74 g/t Au; and 1,475 g/t Ag, 7.57 g/t Au and 3.37% Cu.
 - **Accrington:** 985 g/t Ag and 6.99% Cu; and 861 g/t Ag and 4.16% Cu.
 - **Michigan:** 18.05 g/t Au, 199 g/t Ag and 2.07% Cu; and 6.23 g/t Au and 2.14% Cu³
- Exploration and drill target definition advanced through mapping, regional sampling and integration of historical geological, geochemical and geophysical datasets, targeting interpreted extensions to the historic Horn Silver Mine and regional polymetallic prospects.²⁻⁴

STAR RANGE PROJECT – UTAH, USA⁵⁻⁸

- **Maiden diamond drilling commenced at the North Star Prospect**, with an initial program of diamond drilling designed to test high-priority silver-antimony-copper-gold targets beneath high grade surface mineralisation and coincident IP anomalies.⁷ Drilling was completed after the end of the quarter and results are expected in Q4/2026.
- Exploration continued across the broader Star Range Project, with the prospective silver-antimony trend at South Star extending more than 3,000m and an approximately 400m copper-in-soil anomaly identified at East Star.⁷

CORPORATE^{1,4,8}

- Completed Tranche 2 of the A\$3.5 million placement to support ongoing exploration activities across Horn Silver and Star Range.⁸
- Issued 36,000,000 fully paid ordinary shares as consideration for the acquisition of an 80% interest in Antler Resources LLC, with the shares subject to escrow arrangements.¹
- Appointed Mr Patrick Say as Non-Executive Director, strengthening the Board's geological and project management experience.¹

Diablo Resources Ltd (ASX: DBO, OTCID: DBORF) (“Diablo” or the “Company”) is pleased to provide an overview of its activities for the three months ended 30 September 2026 (the “Quarter” or the “Reporting Period”), to accompany the Company’s Appendix 5B Quarterly Cash Flow Report.

During the Quarter, Diablo progressed its Utah critical minerals strategy, completing the acquisition of an 80% interest in the Horn Silver Project and reporting high-grade silver, gold and copper reconnaissance sampling results across multiple prospects.

The results added to the Company’s existing exploration target pipeline and are being integrated with historical exploration datasets to refine and rank priority targets ahead of future drilling.

At the Star Range Project, Diablo commenced diamond drilling at the North Star Prospect. The initial program was designed to provide the first modern subsurface geological information from priority targets identified beneath high-grade surface results and coincident geophysical anomalies. Drilling was completed post Quarter with results expected in Q4/2026.

The Company’s exploration programs were supported by completion of a A\$3.5 million placement in May and July 2026, providing funding to progress drilling, geological evaluation and regional exploration activities across the Utah portfolio.

Figure 1 – Location Map

HORN SILVER PROJECT¹⁻⁴

During the quarter, Diablo acquired an 80% interest in Antler Resources LLC, securing control over the Horn Silver Project in Utah's historic Frisco Mining District, which includes the past-producing **high grade Horn Silver Mine (17Moz @ 604 g/t Ag)¹** and a range of high-priority polymetallic exploration targets, and positioning the Company to advance exploration, permitting and drill planning.

Figure 2 – Horn Silver Project – Overview

Rock Sampling

First-pass reconnaissance rock sampling was completed across the unpatented claims with 66 samples collected from historical workings, outcrop and float material.³

The program was designed to verify historical results, trace extensions to known anomalies and identify previously unrecognised mineralised zones across the broader project area.

Results returned high-grade silver, gold and copper mineralisation from multiple prospects, including Buckhorn, Washington, Accrington and Michigan. The results also identified elevated lead, zinc, molybdenum and tungsten values, supporting the Company's interpretation of a broader polymetallic mineralised system.

Prospect	Highlights
Buckhorn	Up to 4,190 g/t Ag, 1.40 g/t Au and 2.41% Cu ;
Washington	Strong polymetallic results including 1,730 g/t Ag, 5.74 g/t Au, 14.5% Pb and 20.6% Zn ;
Accrington	Significant copper-silver mineralisation with up to 985 g/t Ag and 6.99% Cu ;
Michigan	High-grade gold target returning up to 18.05 g/t Au, 199 g/t Ag and 2.07% Cu

The results are being integrated with historical geological, geochemical and geophysical datasets to refine structural interpretations, improve target ranking and guide follow-up exploration and future drilling.

Reconnaissance mapping and sampling is continuing at the Horn Project .

Figure 3 – Sampling Location Map

Target Pipeline

In parallel with the reconnaissance sampling program, the review and integration of historical geological, geochemical and geophysical datasets to advance priority drill target definition across the Horn Silver Project continued.²⁻⁴

The Project contains a pipeline of prospective near-mine and regional targets, including:

- **Horn Silver Mine Extensions:** Interpreted extensions beneath and adjacent to the historic Horn Silver Mine, where IP anomalies coincide with interpreted mineralised trends.
- **Gossan Target:** An untested IP anomaly located within a prospective geological and structural setting.
- **Buckhorn:** Historical workings and prospective structural trends reinforced by recent high-grade surface sampling.
- **Horn South:** Shallow gold-silver mineralisation on the periphery of the historic Horn Silver Mine,
- **Regional Polymetallic Targets:** Additional copper skarn prospects, historical mines and structural corridors across the wide project area.

STAR RANGE PROJECT⁵⁻⁸

Exploration activities at the Star Range Project advanced during the Quarter, with the completion of drill-site earthworks and commencement of maiden diamond drilling at the North Star Prospect.

Regional mapping, soil sampling, rock-chip sampling and geological interpretation also continued across the broader Star Range Project to refine and rank targets beyond the initial drilling area.

North Star Prospect

Maiden diamond drilling commenced at the North Star Prospect during the Quarter, representing the first modern subsurface test of the priority silver-antimony-copper-gold targets identified through surface exploration and geophysical modelling⁷.

Results from the initial drilling campaign are intended to guide follow up exploration across the broader Star Range Project. Drilling was completed post Quarter with results expected in Q4/2026.

Figure 4 – Drone Photograph, looking west across North Star Prospect

Regional Exploration

Regional exploration continued across the Star Range Project during the Quarter, with geological mapping, soil sampling, rock-chip collection and historical data compilation contributing to ongoing target refinement⁶⁻⁷

The prospective silver-antimony soil anomaly trend at South Star was extended for more than 3,000m, while an ~400m copper-in-soil anomaly has been defined at East Star.⁸

Ongoing regional geological interpretation and data compilation will assist in determining the priority of further work across this area and other prospective targets.

Figure 5 – South Star Ag (upper) and Sb (lower) soil and previously reported rock results

PHOENIX COPPER PROJECT

The Company continues to assess the Phoenix Copper Project within the context of the broader US critical minerals portfolio and current operational properties.

During the previous Quarter, Diablo completed a geological review to assist in planning further exploration and project rationalisation. Following that review, the claim package was reduced from 315 to 133 claims at the 1 September 2026 renewal. The retained claims cover the priority Philly and Stateline prospects and structural trends east of the Lisbon Valley copper mine.

KING SOLOMON PROJECT

Diablo continues to assess strategic options for the King Solomon Project as it prioritises exploration and development of its Utah critical minerals portfolio.

CORPORATE

During the Quarter, Diablo completed Tranche 2 of its previously announced A\$3.5 million placement, following shareholder approval received on 29 June 2026⁸

The total placement comprised approximately 269,230,769 fully paid ordinary shares at an issue price of \$0.013 per share raising \$3.5 million before costs.

The funds raised support Diablo's exploration strategy across the Horn Silver and Star Range Projects, including maiden drilling at North Star, regional geological exploration, drill target definition and working capital requirements.

Horn Silver Acquisition

On 17 August 2026, Diablo completed the acquisition of its 80% interest in Antler Resources LLC, issuing 36,000,000 fully paid ordinary shares to Opal Resources Pty Ltd as consideration for the transaction.¹

Under the terms of the acquisition, 25% of the shares issued to Opal were escrowed for six months, while the remaining 75% were escrowed for 12 months from the date of issue.

The acquisition secured Diablo's interest in the Horn Silver unpatented claims and the option rights over the patented claims, which were formally exercised in September.⁴

Board Appointment

During August 2026, Diablo appointed Mr Patrick Say as Non-Executive Director, bringing additional geological and project management experience to the Company's Board.¹

Mr Say has more than 20 years of experience, including approximately 10 years as Chief Geologist with Rex Minerals Limited, where he led the geological team involved in the delineation and evaluation of the Hillside copper-gold deposit through feasibility study level.

The appointment adds technical and operational expertise as Diablo advances exploration and drilling activities across its US project portfolio.

ASX Additional Information

- 1) ASX Listing Rule 5.3.1: Exploration and Evaluation Expenditure (including CEO salary) during the Quarter was \$365,000. Full details of exploration activity during the Quarter are set out in this report.
- 2) ASX Listing Rule 5.3.2: There were no substantive mining production and development activities during the Quarter.
- 3) ASX Listing Rule 5.3.5: A total of \$61,250 was paid to related parties during the quarter comprising Director fees and consulting fees.

-END-

This announcement has been authorised for release by the Board.

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

Consolidated statement of cash flows		Current quarter \$A'000	Year to date (3 months) \$A'000
4.5	Effect of movement in exchange rates on cash held	(15)	(15)
4.6	Cash and cash equivalents at end of period	1,562	1,562

5.	Reconciliation of cash and cash equivalents at the end of the quarter (as shown in the consolidated statement of cash flows) to the related items in the accounts	Current quarter \$A'000	Previous quarter \$A'000
5.1	Bank balances	1,562	1,250
5.2	Call deposits	-	-
5.3	Bank overdrafts	-	-
5.4	Other (provide details)	-	-
5.5	Cash and cash equivalents at end of quarter (should equal item 4.6 above)	1,562	1,250

6.	Payments to related parties of the entity and their associates	Current quarter \$A'000
6.1	Aggregate amount of payments to related parties and their associates included in item 1	56
6.2	Aggregate amount of payments to related parties and their associates included in item 2	-
<i>Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.</i>		

7.	Financing facilities <i>Note: the term "facility" includes all forms of financing arrangements available to the entity. Add notes as necessary for an understanding of the sources of finance available to the entity.</i>	Total facility amount at quarter end \$A'000	Amount drawn at quarter end \$A'000
7.1	Loan facilities	-	-
7.2	Credit standby arrangements	-	-
7.3	Other (please specify)	-	-
7.4	Total financing facilities	-	-
7.5	Unused financing facilities available at quarter end		-
7.6	Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		

8. Estimated cash available for future operating activities	\$A'000
8.1 Net cash from / (used in) operating activities (item 1.9)	(273)
8.2 (Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	(365)
8.3 Total relevant outgoings (item 8.1 + item 8.2)	(638)
8.4 Cash and cash equivalents at quarter end (item 4.6)	1,562
8.5 Unused finance facilities available at quarter end (item 7.5)	-
8.6 Total available funding (item 8.4 + item 8.5)	1,562
8.7 Estimated quarters of funding available (item 8.6 divided by item 8.3)	2.45
<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>	
8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer: N/A.	
8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Answer: N/A.	
8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?	
Answer: N/A.	
<i>Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.</i>	

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date: 29 October 2026

Authorised by: The Board of Directors
(Name of body or officer authorising release – see note 4)

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.

Annexure

1. Expenditure incurred during the quarter

Appendix 5B reference	ASX description reference	Company Summary
1.2(e)	Administration and corporate costs	This item relates to costs for and associated with operating the Company's corporate office and primarily includes ASIC & ASX fees, insurance, travel and company marketing costs, legal, company secretarial and accounting costs including amounts accrued in previous periods.
2.1(d)	Exploration and evaluation (if capitalised)	This item relates to drilling and support activities, sampling and mapping, claim staking and BLM fees as well as fees paid to the CEO.
6.1	Aggregate amount of payments to related parties and their associates	These costs pertain to payments of non-executive directors' fees and consulting fees including any amounts accrued in the previous quarter.

2. Tenements held:

The following tenements were held at the end of the quarter:

Project	Claim number	Ownership	Location
Phoenix Copper	CC005-008, 097-99, 101-108, 122-127, 129, 131-135	100%	Utah, USA
	LVU07-10,12,21,23-26,28		Utah, USA
	LVC001-34, 41-64, 71-82, 85-96,103-114		Colorado, USA
Lone Pine	LP-11, 13, 15, 17 to 21, 23, 25, 27, 29, 43 to 51, 53, 55 U.P Patented Claim Burlington Patented Claim	100%	Idaho, USA
Star Range	MFD001-238 ML54698	100%	Utah, USA
Horn Project	Refer Appendix	80%	Utah, USA

The following tenements were acquired during the quarter:

Project	Claim number	Ownership	Location
Horn Project	Refer Appendix	80%	Utah, USA

The following tenements were disposed/relinquished during the quarter:

Project	Claim number	Ownership	Location
Phoenix Copper	CC001-4, 009-096, 100, 109-121, 128, 130, 136-143	-	Utah, USA
	LVU001-006, 11, 13-20, 22, 27, 29-34		Utah, USA
	LVC0035-40, 65-70, 83-84, 97-102,115		Colorado, USA
	CCX01-15		Utah, USA
	PCC001-008
