

ACTIVITIES REPORT FOR THE SEPTEMBER QUARTER 2026

Dome Gold Mines Limited (“Dome” or “Company”) (ASX code: DME) is pleased to report activities at its industrial sand-magnetite-heavy mineral Sigatoka project and the Nadrau copper-gold projects in Fiji for the period ended 30 September 2026.

Highlights

- **Draft Environmental Impact Assessment (EIA) on Sigatoka Project Undergoing 21-day Public Review as per Department of Environment and Climate Change Regulations**
- **Developments Concerning Resumption of Exploration of Nadrau (SPL1452) Project**
- **Relinquishment of Ono Island Special Prospecting Licence (SPL1451) Finalised with the Mineral Resources Department**
- **Continued Suspension of Trading While Conditions for Completion of the Company’s Annual Accounts for the 2025-26 Year are Finalised**
- **Annual General Meeting Scheduled to be Held November 26, 2026**

SIGATOKA PROJECT UPDATE (SPL1495)

Public Review of Sigatoka Environmental Impact Assessment (EIA) Report

On 10 September 2026 the Company submitted its draft EIA report on the Sigatoka Project to the Department of Environment and Climate Change (DOE) and was later notified that the public review of the Sigatoka Project EIA report would commence for the statutory 21-day period ending the 30 October 2026 (see ASX release dated 16 October 2026). The public review period will be followed by meetings open to the public at Sigatoka on the 6 and 7 of November where representatives of the Company and the environmental consultants who authored the EIA report will present the baseline data collection methods and findings of the study followed by questions from those in attendance. After the public exposure period concludes the DOE will analyse the report and all comments submitted and determine the next steps in the assessment process.

Announcement of the public review period has created much public and media comment on the proposed sand mining project ranging from those who oppose to those who support the project among the local community. The Company believes the concerns of the people who object will be fully addressed by the content of the document and the experienced environmental experts who were responsible for its content.

NADRAU (SPL1452) PORPHYRY COPPER-GOLD

Since announcing its intention to resume exploration for porphyry copper-gold-silver deposits on SPL1452 several expressions of interest have been received to fund the proposed programs either by direct investment in Dome or via an earn-in joint venture arrangement. Non-disclosure agreements have been signed with two potential investment groups. The Company welcomes the interest and will advise the market should commercial terms acceptable to the Company be finalised.

For more information on SPL1452 see www.domegoldmines.com.au

RELINQUISHMENT OF ONO ISLAND (SPL1451) GOLD

Confirmation has been received from the Mineral Resources Department that all conditions for the relinquishment of SPL1451 have been met and environmental bonds and the balance of rental payments have been released to the Company. The Company wishes to thank the MRD for completing the process and of course the people of Ono Island for their hospitality and assistance during our exploration effort.

SUSPENSION OF TRADING OF THE COMPANY'S SECURITIES

The Shares of Dome have been suspended from trading since the Company's inability to complete the audit process for the financial year ended 30 June 2026. Principal requirements for completion of the audit are the provision of an independent valuation of the Company's Sigatoka Project by a qualified valuer and a cash position that will satisfy going concern conditions. The Company has located an independent firm qualified to complete the valuation and is in negotiation to fund the valuation and provide working capital on terms that are acceptable.

ANNUAL GENERAL MEETING

The Annual Report, which includes the Financial Statements for the year ended 30 June 2026, will be posted and tabled at the Annual General Meeting (AGM) when the audit has been finalised. The AGM date has been set for 26 November 2026.

CORPORATE FUND RAISING

The Company has issued a funding proposal using Convertible Notes to raise up to \$3,000,000 to provide capital to complete its principal objectives;

- 1) Fund the final work programs necessary for compilation and sign-off of the Sigatoka Feasibility Study to obtain a Mining Lease.
- 2) Fund penetrative airborne geophysical programs over an area of anomalous copper, gold and silver geochemistry on SPL1452 to focus future geological exploration and drilling.

- 3) Fund the employment of senior technical and marketing management with experience in the successful development and operation of magnetite and construction sand projects as planned for Sigatoka.
- 4) Working capital.

Subsequent to the end of the quarter, on 6 October 2026, the Company issued a further 30,000 convertible notes for a total value of \$30,000. The Company will issue new convertible notes if required under a new offering.

CORPORATE AND ADDITIONAL INFORMATION

Dome Gold Mines Limited (“Dome” or “the Company”) provides this additional information regarding the quarterly activities report for the quarter ended 30 September 2026.

During the Quarter the Company expended \$45K on exploration and related activities. The majority was spent on exploration activities at the Sigatoka Project in Fiji, which is wholly owned by Dome. Approximately \$34K was spent on Sigatoka FS program, which includes Fiji office operations and consultants’ fees. The balance was expended on sundry exploration and tenement and administration related costs. No expenditure was incurred during the Quarter on mining production and development activities.

Payments to related parties of the entity and their associates for operating and investing activities during the September 2026 quarter totaled \$10K, which were directors’ fees and superannuation guarantee. As at 30 September 2026, Dome had a nil cash position. The Company is operating on loan facilities.

For further information about Dome and its Fijian projects, please refer to the Company’s website www.domegoldmines.com.au or contact the Company at (02) 8203 5620.

This quarterly report has been approved by the Board of Dome Gold Mines Ltd.

J.V. McCarthy
Chairman

Competent Persons Statement

The information in this Quarterly Report that relates to Exploration Results is based on information compiled by John V McCarthy. Mr McCarthy is the non-executive Chairman of the Company and a Member of the Australasian Institute of Mining and Metallurgy and has sufficient experience which is relevant to the style of mineralisation and type of deposits under consideration and to the activities which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the ‘Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves’. Mr McCarthy, through his family superannuation fund, holds shares in the Company and is paid fixed directors fees for his services. He consents to the inclusion in this Quarterly Report of the matters based on his information in the form and context in which it appears.

No Material Changes

The Company confirms it is not aware of any new information or data that materially affects the information included in this quarterly activities report and that all material assumptions and technical parameters underpinning the exploration activities in this market announcement continue to apply and have not materially changed.

ABOUT DOME

Dome is an Australian mining company that listed on the ASX on the 22 October 2013. The Company is focussed on gold-copper and magnetite (iron ore) and industrial sands in Fiji, where it presently holds two exploration tenements. Dome's objective is to become a major force in the mining industry of Fiji by the discovery and development of mineral resources within its Fijian tenements.

Sigatoka is a heavy mineral sand project containing abundant magnetite and construction sand. Drilling to establish an initial resource estimate for the project has been completed, and final stages of a feasibility study are well underway. Commencement of production magnetite concentrate and construction sand at Sigatoka by conventional sand mining and wet processing is anticipated.

Dome's Nadrau project warrants additional exploration programs for copper-gold porphyry and/or vein gold-silver deposits are warranted given the property is contiguous with the world-class Namosi porphyry copper-gold deposit. Plans are in place to resume field programs followed by airborne geophysics to define drill targets.

Dome's Board and Management team has a high level of experience in Fiji, where the Company has been actively exploring since 2008.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: Exploration for and Evaluation of Mineral Resources and AASB 107: Statement of Cash Flows apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's Corporate Governance Principles and Recommendations, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
