DURATEC SECURES OVER $200M IN CONTRACT AWARDS

HIGHLIGHTS

- **Duratec Limited awarded a four-year integrated maintenance services contract with Santos Limited**
- **Duratec awarded a contract by the Department of Home Affairs for the redevelopment of the Yongah Hill Immigration Detention Centre**
- **Duratec's wholly owned subsidiary, EIG Australia, secured a fuel fabrication, construction and installation project with Sitzler for works associated with the Defence Fuels Resilience Program at RAAF Base Learmonth**

Australian engineering, construction and remediation contractor Duratec Limited (**Duratec** or the **Company**) (ASX: **DUR**) is pleased to announce it has secured three new contracts across its core Energy and Defence sectors, with a combined value of over $200m.

Duratec has secured a four-year integrated maintenance services contract with Santos Limited across its Darwin LNG and Varanus Island operations. The contract includes two additional two-year extension options (extension options not included in the $200m value listed above), providing a potential total term of eight years. The scope includes mechanical, electrical and instrumentation, crane and lifting, safe access and fabric maintenance services. The first package of work is scheduled to commence in the latter part of FY27.

The Company has also been awarded a contract by the Department of Home Affairs for redevelopment works at the Yongah Hill Immigration Detention Centre in Western Australia. The scope includes building construction and support and maintenance and repair services. Design activities have commenced with completion due in FY28.

In addition, EIG Australia, Duratec's wholly owned fuel and electrical services subsidiary, has secured a fuel fabrication, construction and installation project with Sitzler for works associated with the Defence Fuels Resilience Program at RAAF Base Learmonth. On-site work is anticipated to commence late in the second half of FY27. The award further strengthens the Group's fuel infrastructure capability and its involvement in critical Defence infrastructure.

Duratec Managing Director, Chris Oates, commented:

"The Santos contract builds on an established relationship and significantly broadens the services we provide across our Energy sector. This award is strategically significant for Duratec, providing a long-term, recurring maintenance platform with Santos across two key Australian energy assets. The potential eight-year contract period provides strong work visibility and supports the continued growth of our Energy business.

"The Yongah Hill and EIG awards demonstrate our ability to deliver complex construction and fuel infrastructure projects across the Infrastructure and Defence sectors. Together, these awards enhance the Group's current order book and provide long-term visibility into FY28 and beyond. The Santos and Learmonth awards also demonstrate the value being created through Duratec's targeted acquisition strategy. Collectively, the awards reinforce our position across the Energy and Defence sectors."

Authorised for release to the ASX by the Managing Director of Duratec Limited.
