

COVID-19 Update

1 February 2021

E2 Metals **(E2 or the Company)** advises that exploration and drill operations at the Conserrat gold and silver project, located in the Santa Cruz province of Argentina, have restarted. This follows a 7-day shut down that was announced last week in response to several employees and contractors testing positive to COVID-19 (*see ASX announcement, 25 January 2021, COVID-19 Update*).

The Company remains on track to complete 7500m of combined reverse circulation (RC) and diamond drilling by the end of Q1 with a second diamond rig arriving on site next week.
