

ASX Announcement | 07 February 2025

## **Corrective Announcement**

Battery and critical metals explorer and developer, **Flagship Minerals Limited** (ASX: FLG) (“Flagship”, “FLG” or “Company”), provides this Corrective Announcement regarding the Corporate Presentations released on 13 January 2025 and 03 February 2025, specifically:

1. The Chart titled ‘Significant Mine Increases to 2028’ located on slide 7 of the 13 January 2025 Presentation and slide 5 of the 03 February 2025 Presentation has been updated to include ownership and location details of the projects listed; and
2. The cautionary statement relating to the drill supported RK Lithium Project - BT Lithium Prospect JORC Exploration Target on slide 25 of the 13 January 2025 Presentation and slide 18 of the 03 February 2025 Presentation were incomplete and should have read:

*Readers are advised that, for the Exploration Target, the potential quantity and grade is conceptual in Nature. There has been insufficient exploration to estimate a Mineral Resource, and that it is uncertain if further exploration will result in the estimation of a Mineral Resource.*

The following updated Corporate Presentation includes these adjustments.

FLAGSHIP MINERALS LIMITED (ASX: FLG)

### About Flagship Minerals

Flagship Minerals is an exploration and development company focused on securing and developing assets which are situated in superior strategic settings, and which will produce the critical resources required for electrification and a low carbon future. As electrification gains momentum we provide exposure to the metals that matter, copper and lithium. We do this in a responsible manner. With community and environment in mind, we aim to produce better outcomes.

### Our Strategy

Flagship Minerals' strategy to secure and develop projects which it believes will position the Company as a low cost producer of copper and lithium, metals that matter. Specifically, Flagship Minerals seeks to secure low capital intensity projects in low cost jurisdictions and infrastructure rich settings, projects which are positioned for high margin outcomes, and projects which are proximal to industry, chemical processing, and manufacturing. We believe that, ultimately, a project's cost environment and geographic setting will be the key determinants of economic success, assuming positive metallurgy.

### Our Values

Our value proposition centers on an inclusive approach to our business, delivering positive outcomes for all stakeholders, including the communities and environment we operate in. We believe in reciprocity – when communities thrive, we thrive. We envision a future where exploration and mining coexist harmoniously with community development, cultural preservation, and sustainable growth, delivering positive outcomes for all stakeholders.

*Metals that Matter.*

# Corporate Overview

February 2025

# Strategy

Secure and develop projects in superior strategic settings to position the Company as a low-cost producer of Copper and Lithium.

1

**Low Cost**

Projects in low cost jurisdictions which are positioned for high margin outcomes

2

**Proximal**

Projects which are proximal to chemical processing, industry, and Infrastructure.

3

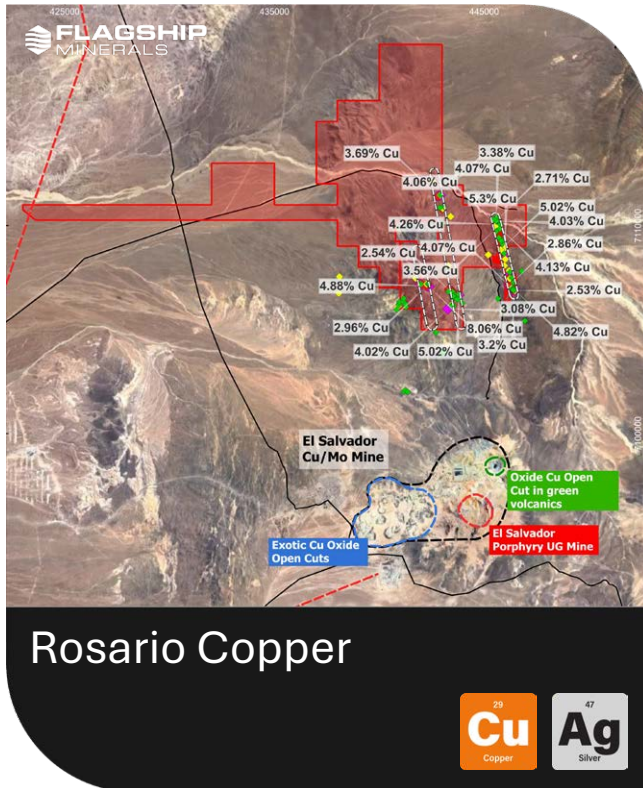

**Relevant**

Metals that Matter, with appropriate underlying volume, and supply - demand dynamics.

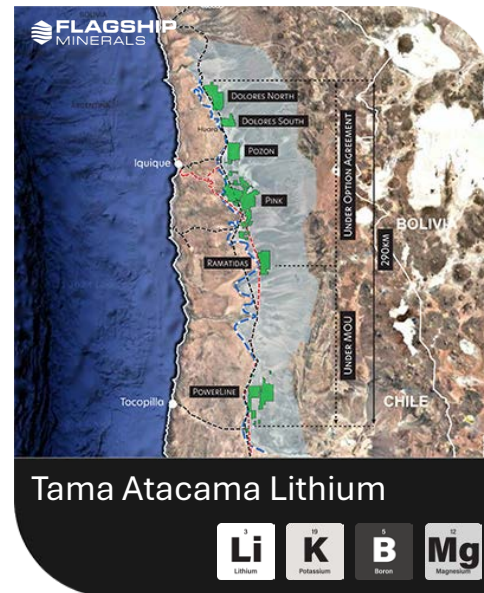

# Projects portfolio

Strategy on Point – A focus on Copper, starting with the Rosario Copper Project and building out from there.

Flagship's Lithium assets are highly strategic, positioning Flagship for high quality industry partners.

# Corporate snapshot

## Experience and skin in the game

### Capital Structure<sup>1</sup>

Market Cap <sup>1a</sup>	<b>A\$10M @ 5.1c/share</b>
Shares on issue <sup>1a</sup>	203,594,215
Options 1	5.3M 2yr 15c Options
Options 2	10m 12.5c & 10 M 20c 5yr Options
Convertible Notes <sup>1b</sup>	A\$0.93m & A\$0.25m, staggered maturity

### Key Shareholders<sup>2</sup>

Board & Management		>35%

**Paul Lock**

**Chairman & Managing Director**

- Broad experience in international mineral resource initiatives
- Former project financier and corporate advisor with big balance sheets and boutiques
- Former commodities trader with Marubeni and derivatives trader with Rothschild

**David Hobby**

**Technical Director & Chief Geologist**

- An Economic Geologist with 30+ years field experience
- Exposure to a variety of geological terrains in Asia, Australia, Argentina, USA and Africa
- Experienced in all facets of the minerals project cycle

**David Docherty**

**Non-Executive Director**

- Involvement in the resource sector since 1965, MD, Mining Finance Corporation (ASX) in 1969
- MD, Sedimentary Holdings (ASX) 1980-87, foundation member of the Thai Chatree gold prospect discovery team
- Exec. Chairman, Thai Goldfields NL since 2002

**Thanasak Chanyapoon**

**Non-Executive Director**

- Partner at The Capital Law Office, a leading Bangkok legal practice
- NED of Cal-Comp Electronics PLC, a company listed on the Stock Exchange of Thailand
- Well established in the Thai business community

# Copper, the backbone of electrification

**Copper concentrate supply constrained and smelter capacity growing. Energy transition pushing ahead, increasing demand.**

**The copper inventory is critically low, the future supply-demand balance is uncertain.**

**There has been a shortage of investment in exploration, with no new major new discoveries.**

**Electrification / AI Data Centres putting pressure on supply, deficits expected from late '20s.**

**Ongoing warnings of a shortfall as early as 2025 from mining companies, metal traders are market commentators alike.**

**Ongoing permitting process delays for new projects in most jurisdictions.**

**A backdrop of fiscal uncertainty persists amid heightened geopolitical tensions.**

**Copper Mine Production and Demand (kt)**  
Supply Gap Rapidly Approaching

**Significant Mine Increases to 2028**  
The Project Pipeline is Desperately Thin

A close-up photograph of mineral specimens, likely copper and silver, showing vibrant blue-green and golden-brown hues. The minerals have a crystalline, somewhat jagged texture. Overlaid on the left side of the image are geometric shapes: a solid white hexagon at the top, followed by a white outline of a hexagon, and then an orange outline of a hexagon. A thin orange line extends from the bottom of the orange hexagon towards the bottom left corner of the frame.

# Rosario Copper Project

High grade Cu-Ag next to El Salvador

# Rosario Cu

## Infrastructure rich setting.

Chile has a world class copper endowment.

Rosario is a high grade Cu-Ag project located in a highly active mining district.

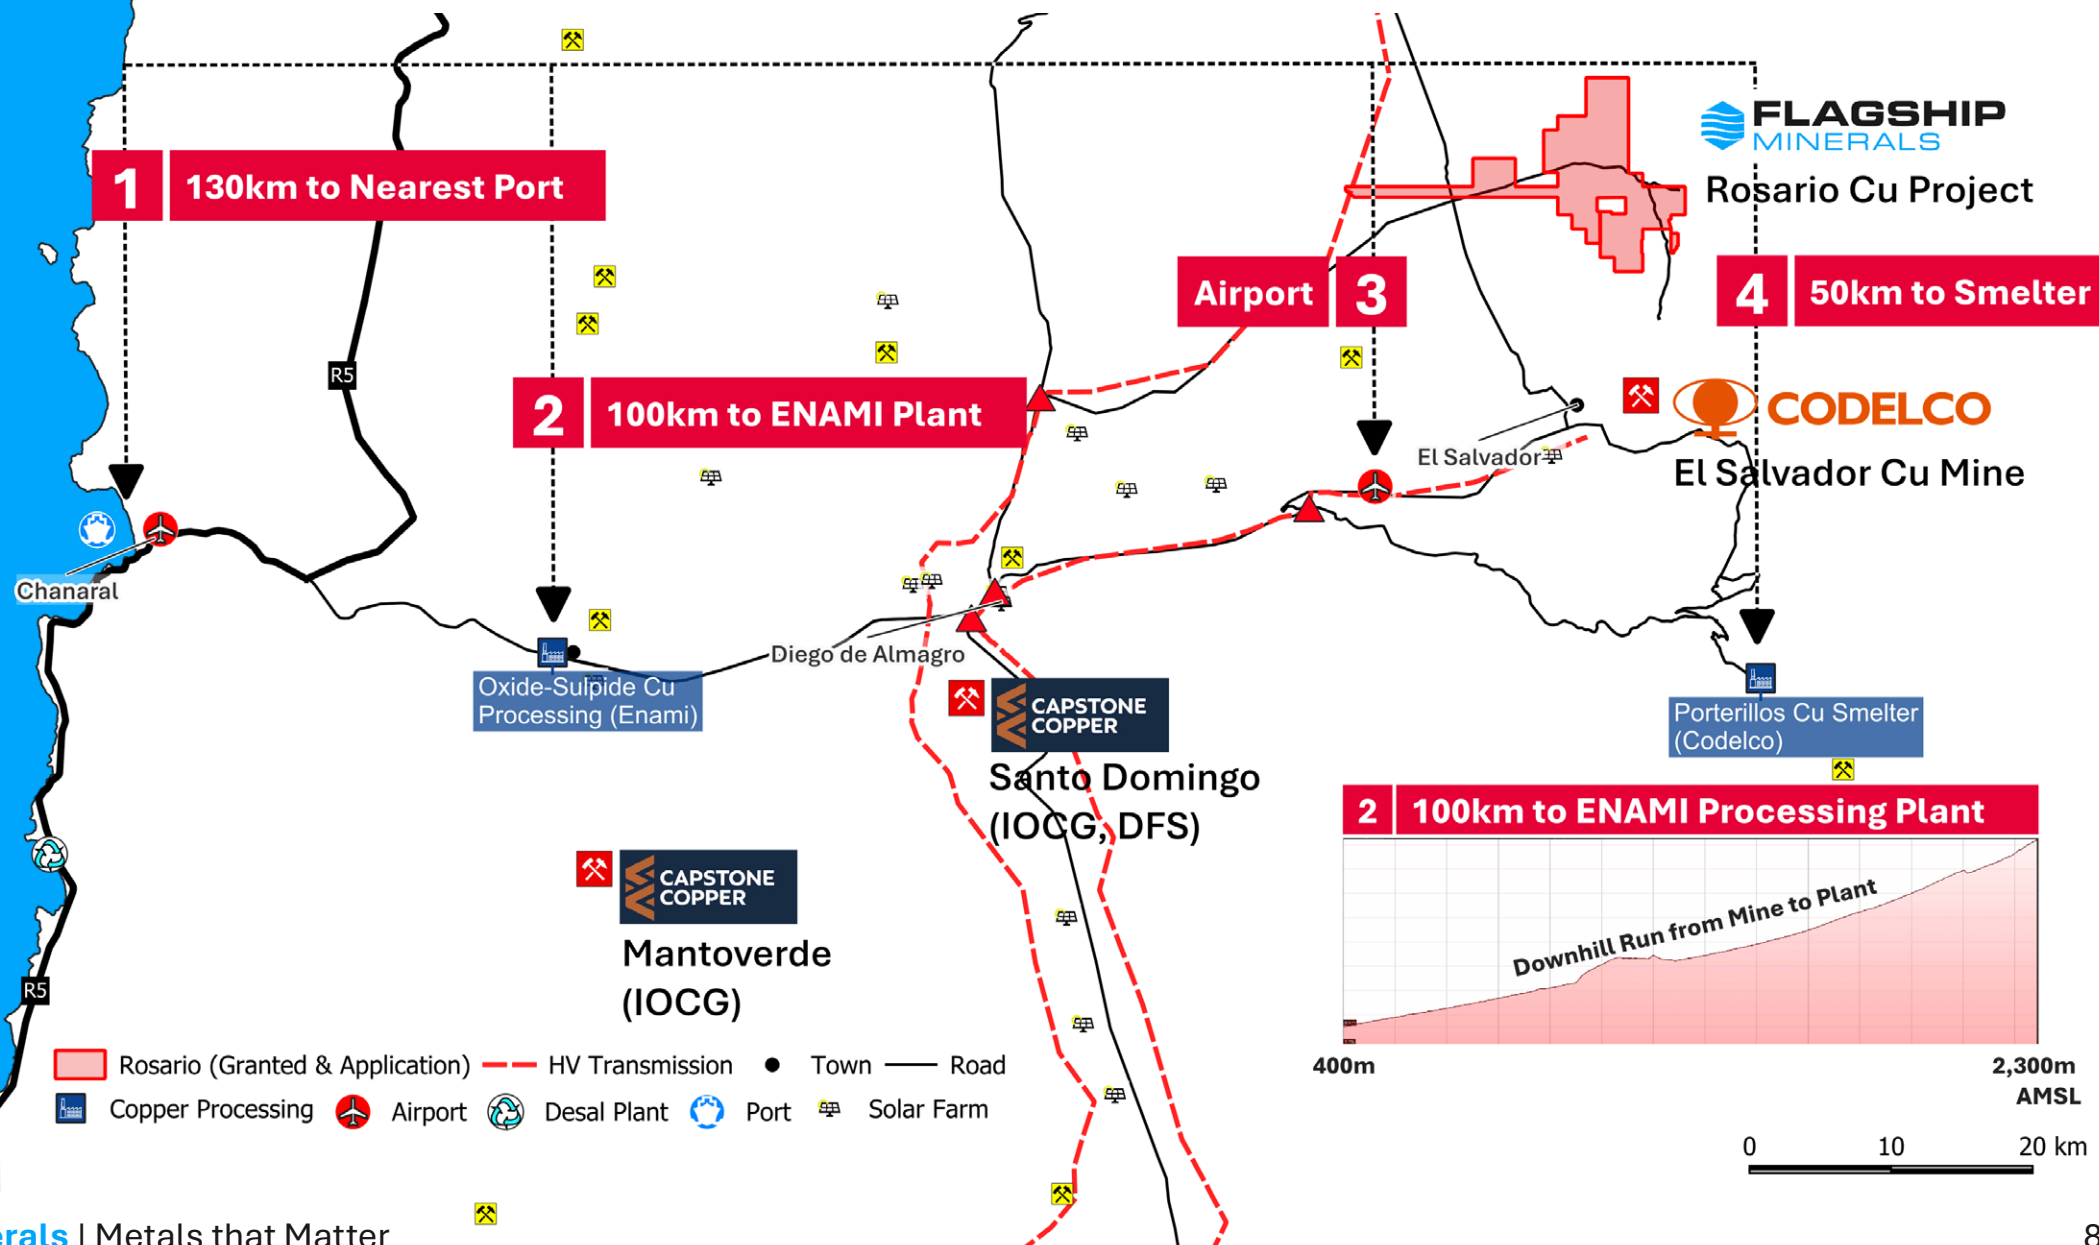

Situated in an infrastructure rich setting, next to the El Salvador copper mine.

Oxide and sulphide processing and copper smelting plant is near by.

The project is at ~2,500m alt, 40km from an airport and easily accessible by road.

It is 100km from a copper processing plant and 130km from the nearest port.

# Rosario Cu

**Highly prospective, under explored.**

Three distinct prospective trends with a combined strike length of ~15km.

The zones are interpreted to be from 20m wide up to 200m wide, with assays up to >8.9% Cu.

50% of rock chips >0.10% Cu average 2.06% Cu and 12ppm Ag.

33% of rock chips > 0.75% Cu average 3.15% Cu and 18ppm Ag.

Mineralised zones are associated with fractured and brecciated rocks.

Manto style copper is responsible for a significant portion of copper production in Chile.

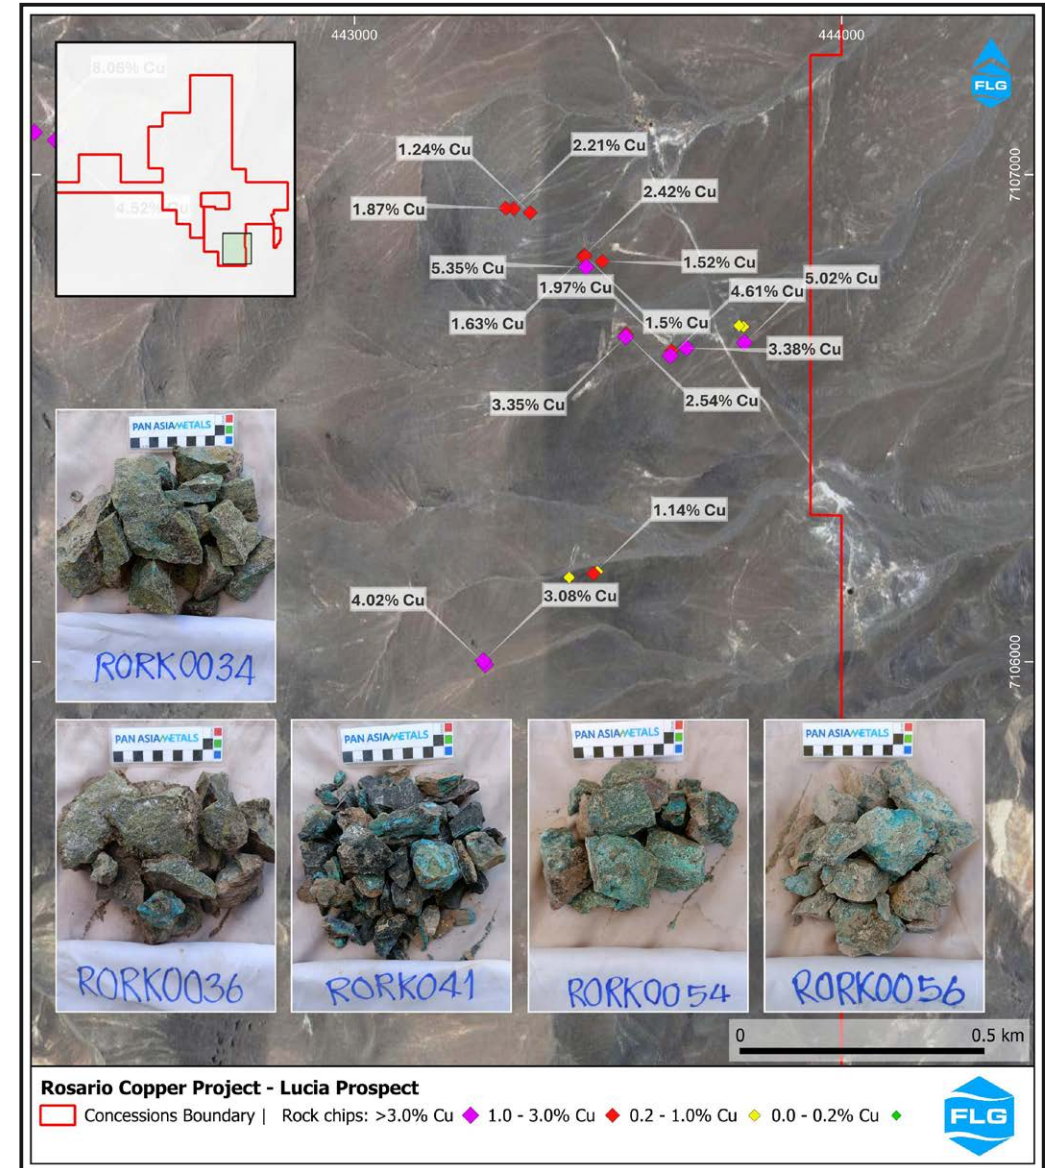

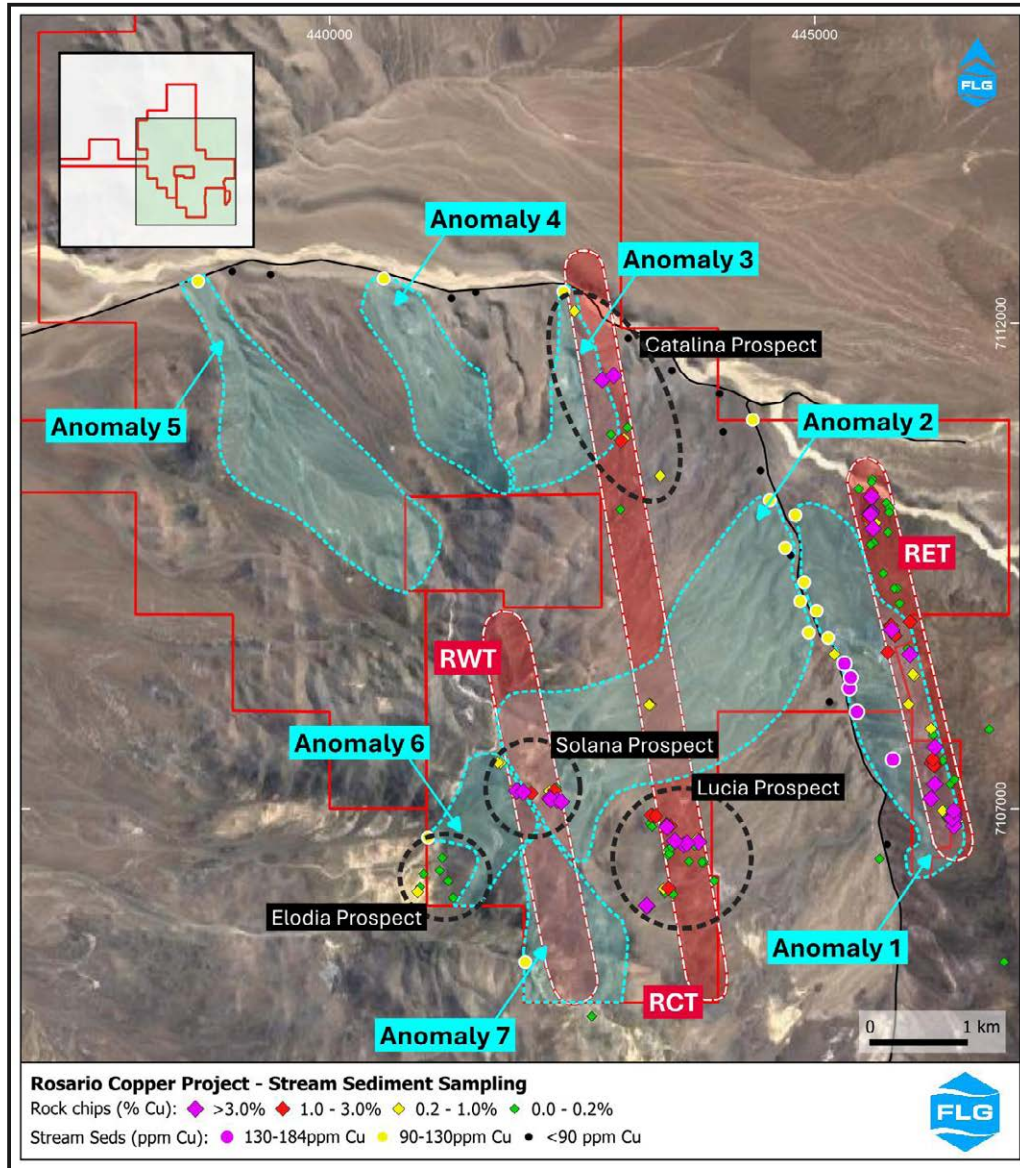

Rosario has all the hallmarks of a low cost high margin project.

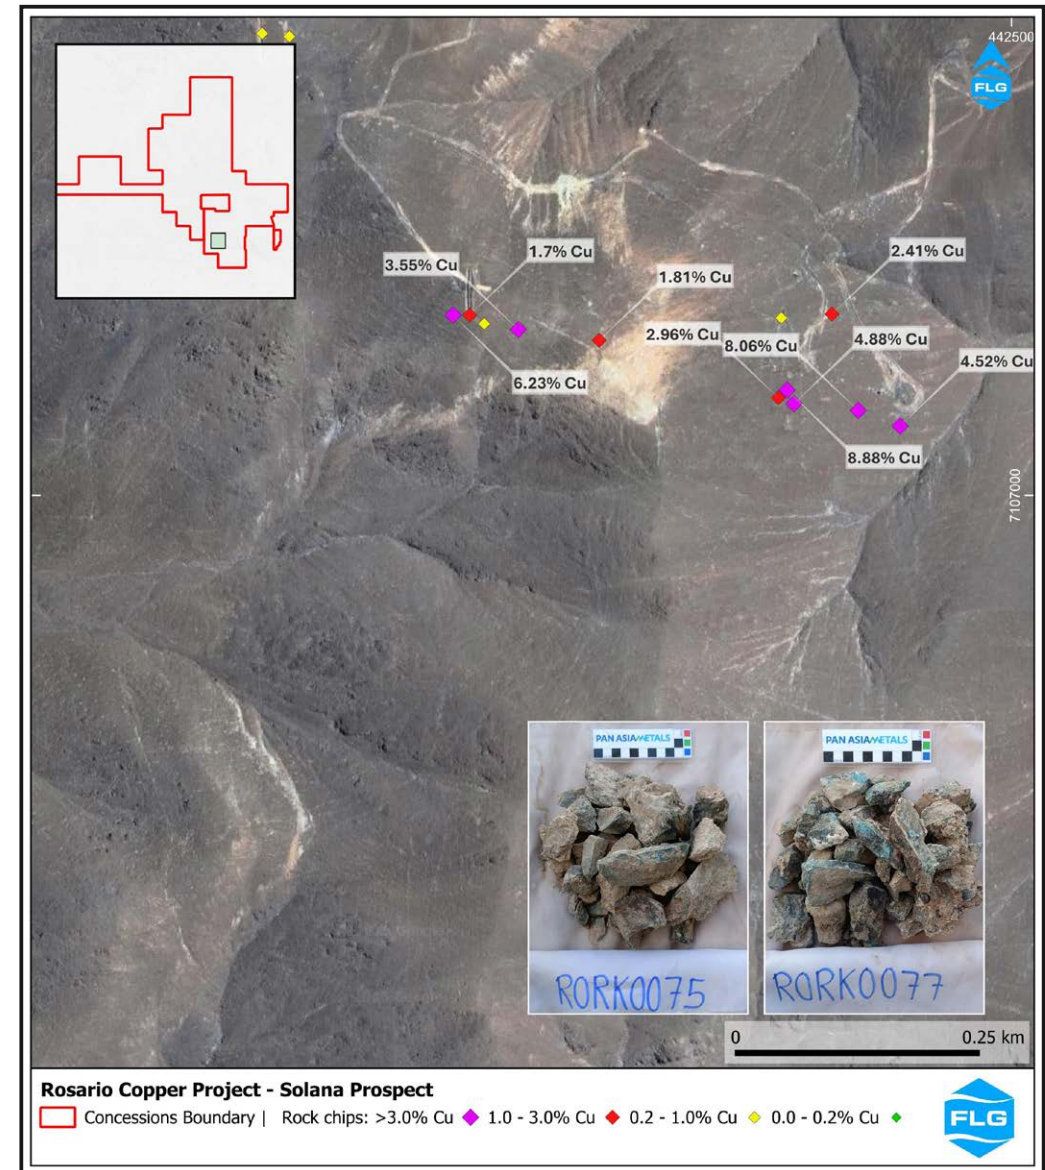

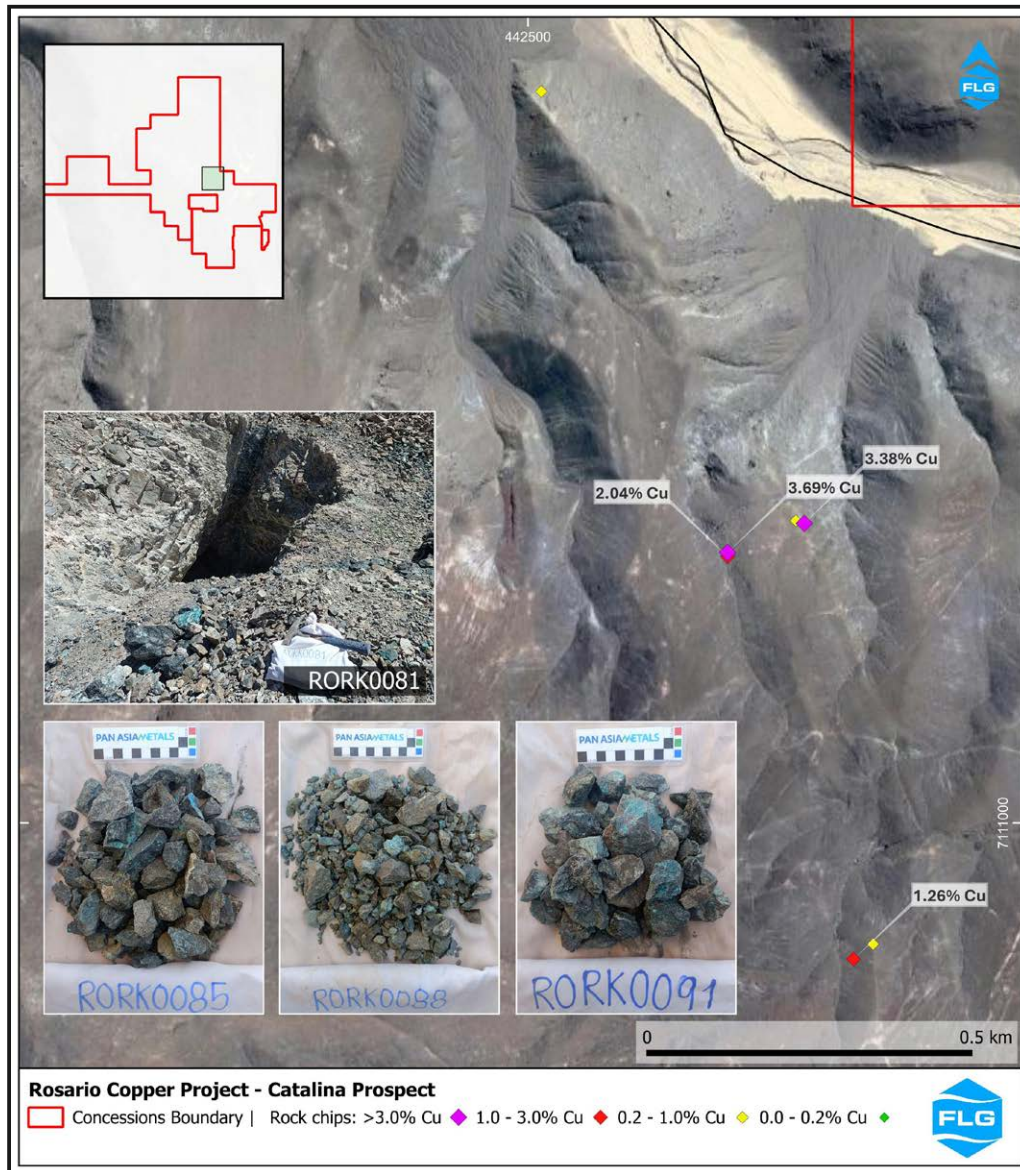

# **Tama Atacama Lithium Project**

## Strategic high grade Lithium brine

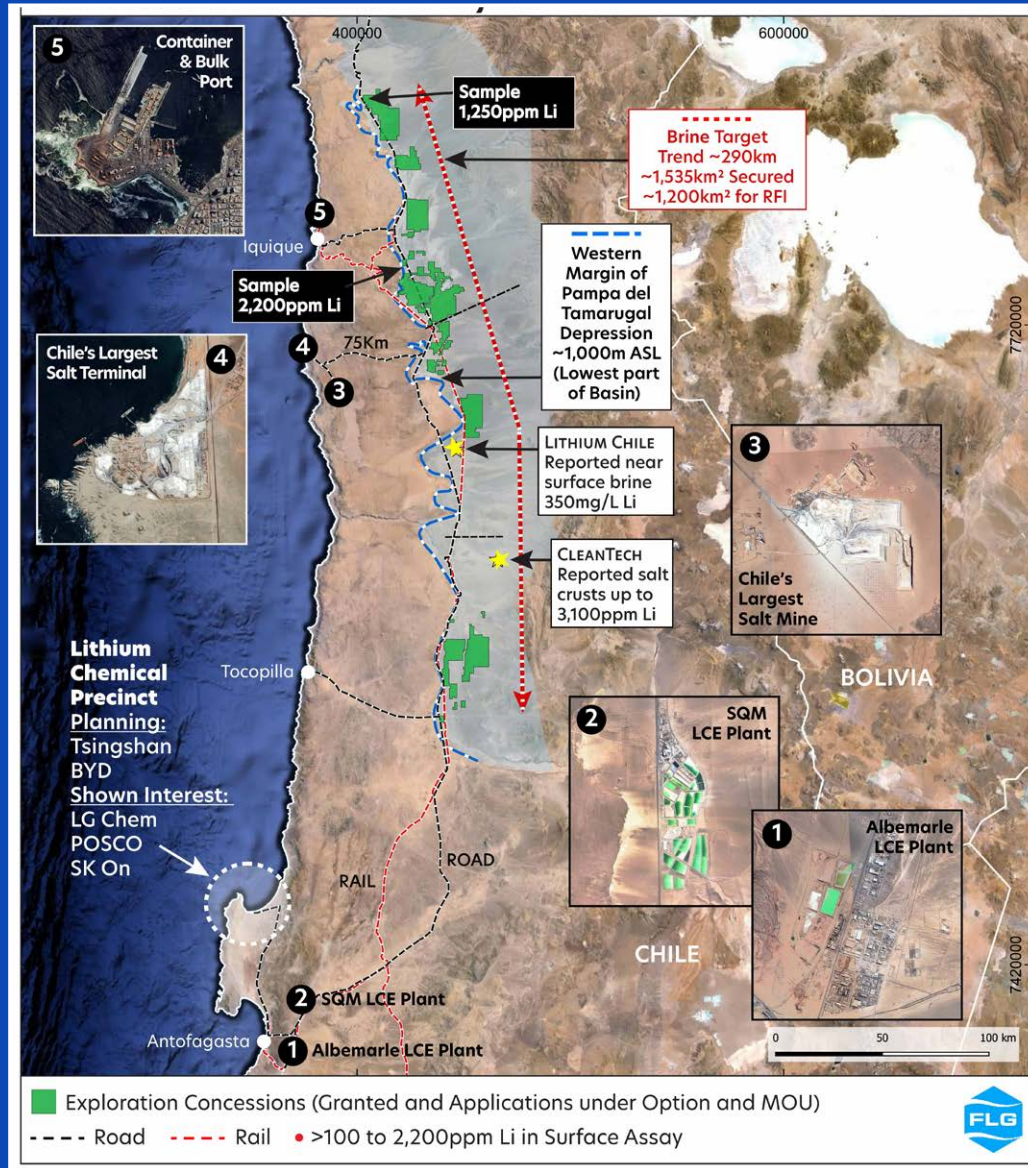

# Tama Atacama Li

## Tier 1 Lithium Brine project.

Circa 120,000ha (~1,200km<sup>2</sup>) under Option for 100% containing ~103,600Ha (~1,036km<sup>2</sup>) of granted Exploration Concessions.

Surface assays up to 2,200ppm Li, average 700ppm Li.

- Comprises six key project areas in northern Chile, extending over 290km north to south and covering an area >1500km<sup>2</sup>.
- Circa 1,200km<sup>2</sup> is under Option ~400km<sup>2</sup> is under MOU.
- Well-established geology and work completed to date confirms strong potential for Li brine deposits
- Highly elevated Li with 56 of 177 surface assays >270ppm Li averaging 700ppm Li and up to 2200ppm Li.
- 800-1100m ASL in a hyper-arid environment
- Elevated boron, potassium and magnesium.
- Surface geochemical signature similar to Salar de Atacama.
- Excellent infrastructure including energy, ports, road, rail.

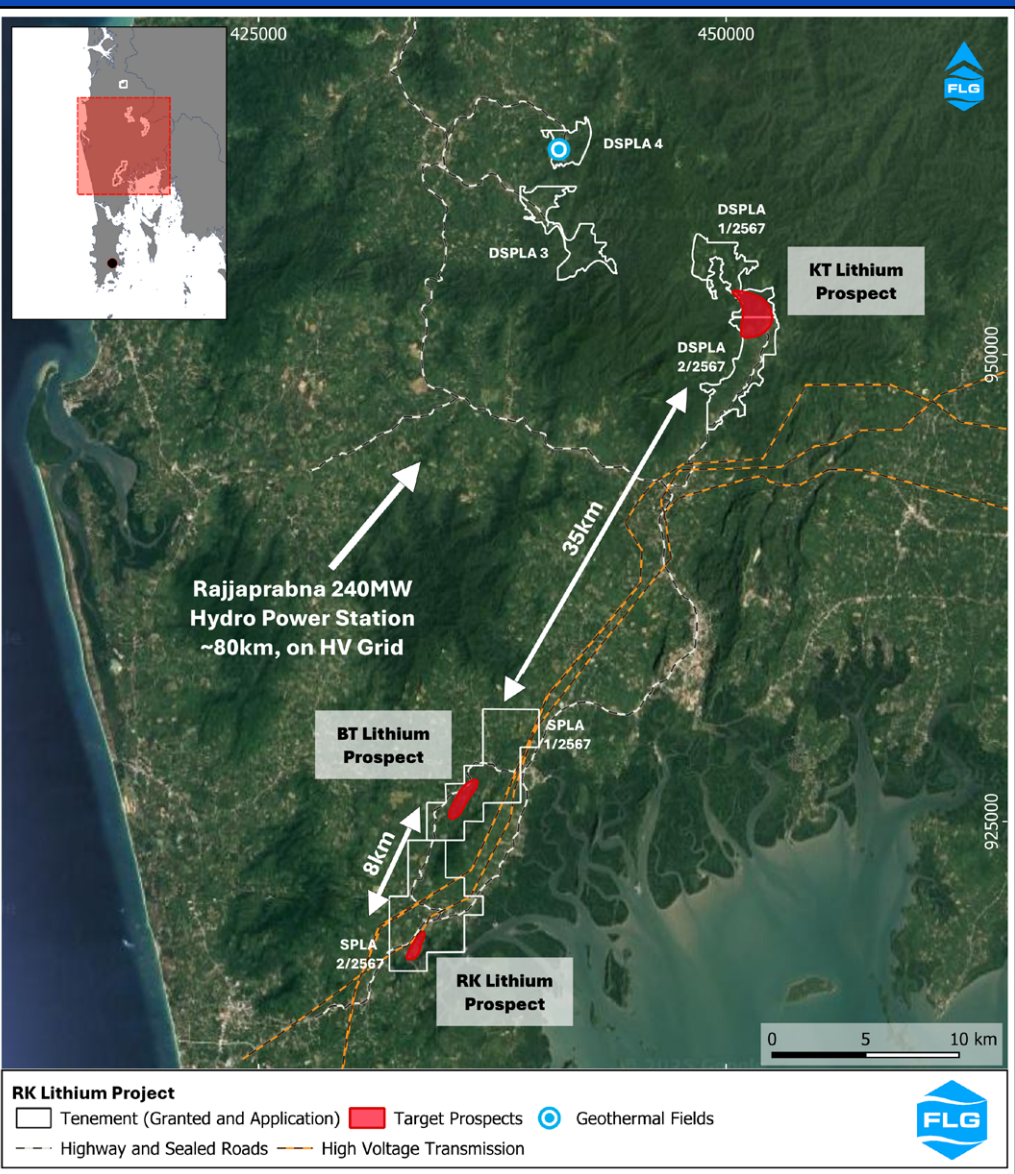

# **RK Lithium Project**

## **Only JORC Li Resource in SE Asia**

# RK Lithium

## Mineral Resources Defined, set for substantial Resource expansion

RK Lithium is aligned with Thai Govt. EV and LIB manufacturing policies

- FLG has Thai Federal, provincial and local Govt. and community support.
- RK Lithium is proximal to all required infrastructure.
- Ore sorting, metallurgical, roasting and leaching test work yields exceptional results.

### RK Lithium Prospect - Mineral Resource Estimate (JORC 2012)

RESOURCE CATEGORY	M t	Li 2 O (%)	Sn (p p m)	Ta 2 O 3 (p p m)	Rb (%)	Cs (p p m)	LCE (t)
Measured	7.80	0.44	410	74	0.20	230	85,289
Indicated	3.26	0.49	349	85	0.20	261	39,375
Inferred	3.74	0.41	390	78	0.19	229	38,252
Total	14.80	0.45	391	77	0.20	237	164,500

Mineral Resource is reported above 0.25% Li<sub>2</sub>O cut-off. Appropriate rounding applied. Refer to ASX announcement dated 02 November 2023.

RESOURCE CAT. / ZONE	M T	Li 2 O (%)	Sn (p p m)	Ta 2 O 5 (p p m)	Rb (%)	Cs (p p m)
All - Fresh	11.38	0.42	424	76	0.20	222
All - Ox/Trans	3.42	0.51	278	84	0.19	285

## Disclaimer

This presentation has been prepared by Flagship Minerals Limited, a Singapore based company with Reg. No. 201729187E ('FLG' or 'Pan Asia' or 'Company'). This presentation has been prepared in good faith, as a summary only, and does not contain all information about Pan Asia's assets and liabilities, financial position and performance, profits and losses, prospects, and the rights and liabilities attaching to Pan Asia's securities. The securities issued by Pan Asia are considered speculative and there is no guarantee that they will make a return on the capital invested, that dividends will be paid on the shares or that there will be an increase in the value of the shares in the future. Pan Asia does not purport to give financial or investment advice. No account has been taken of the objectives, financial situation or needs of any recipient of this presentation. Certain information in this document has been derived from third parties and although FLG has no reason to believe that it is not accurate, reliable or complete, it has not been independently audited or verified by Pan Asia. Recipients of this presentation should carefully consider whether the securities issued by Pan Asia are an appropriate investment for them in light of their personal circumstances, including their financial and taxation position. Investors should make and rely upon their own enquiries before deciding to acquire or deal in the Company's securities.

## Forward Looking Statements

Various statements in this presentation constitute statements relating to intentions, future acts and events which are generally classified as "forward looking statements". These forward looking statements are not guarantees or predictions of future performance and involve known and unknown risks, uncertainties and other important factors (many of which are beyond the Company's control) that could cause those future acts, events and circumstances to differ materially from what is presented or implicitly portrayed in this presentation. For example, future reserves or resources or exploration targets described in this presentation may be based, in part, on market prices that may vary significantly from current levels. These variations may materially affect the timing or feasibility of particular developments. Words such as "anticipates", "expects", "intends", "plans", "believes", "seeks", "estimates", "potential" and similar expressions are intended to identify forward-looking statements. Pan Asia cautions security holders and prospective security holders to not place undue reliance on these forward-looking statements, which reflect the view of Pan Asia only as of the date of this presentation. The forward-looking statements made in this presentation relate only to events as of the date on which the statements are made. Except as required by applicable regulations or by law, Pan Asia does not undertake any obligation to publicly update or review any forward-looking statements, whether as a result of new information or future events. Past performance cannot be relied on as a guide to future performance.

## Important

To the extent permitted by law, FLG and its officers, employees, related bodies corporate and agents (Agents) disclaim all liability, direct, indirect or consequential (and whether or not arising out of the negligence, default or lack of care of FLG and/or any of its Agents) for any loss or damage suffered by a Recipient or other persons arising out of, or in connection with, any use or reliance on this presentation or information.

## RK Lithium Project - BT Lithium Prospect JORC Exploration Target

At its BT Lithium Prospect which is a part of the RK Lithium Project, FLG has generated a drill supported Exploration Target of 16-25 million tonnes grading 0.4-0.7% Li<sub>2</sub>O as defined under JORC Code (2012).

Readers are advised that for the Exploration Target. The potential quantity and grade is conceptual in nature, there has been insufficient exploration to estimate a Mineral Resource, and that it is uncertain if further exploration will result in the estimation of a Mineral Resource.

Readers are advised to refer to the following ASX release for details on the Exploration Target: 10 Jul 2023 - Bang I Tum Lithium Prospect Exploration Target Update.

The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements and that all material assumptions and technical parameters continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcements.

Please refer to other relevant Competent Persons statements, references and ASX Releases as listed in this section and the following pages.

# Important information

## Competent Persons Statement (Excluding RK Lithium Project MRE)

The information in this Public Report that relates to Exploration Targets, Exploration Results, Mineral Resources or Ore Reserves is based on information compiled by Mr David Hobby, who is a Member of the Australasian Institute of Mining and Metallurgy. Mr Hobby is an employee, Director and Shareholder of Flagship Minerals Limited. Mr Hobby has sufficient experience that is relevant to the style of mineralization and type of deposit under consideration and to the activity that he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Hobby consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

## Competent Persons Statement for RK Lithium Project MRE

The information in this report that relates to Mineral Resources is based on information compiled by Ms Millicent Canisius and Mr Anthony Wesson, both full-time employees of CSA Global. Mr Anthony Wesson is a Fellow and Chartered Professional of the Australasian Institute of Mining and Metallurgy and Ms Millicent Canisius is a Member of the Australasian Institute of Mining and Metallurgy. Mr Anthony Wesson and Ms Millicent Canisius have sufficient experience, relevant to the style of mineralisation and type of deposit under consideration and to the activity which they are undertaking, to qualify as Competent Persons as defined in the 2012 Edition of the Australasian Code for the Reporting of Exploration Results, Mineral Resources and Ore Reserves (JORC Code). Mr Anthony Wesson and Ms Millicent Canisius consent to the disclosure of the information in this report in the form and context in which it appears. Ms Millicent Canisius assumes responsibility for matters related to Sections 1 and 2 of JORC Table 1, while Mr Anthony Wesson assumes responsibility for matters related to Section 3 of JORC Table 1.

Readers are advised to refer to the following ASX release for details on the Mineral Resource: 28 Jun 2022, Reung Kiet Lithium Project - Inaugural Mineral Resource Estimate; and 02 Nov 2023, Reung Kiet Lithium Project Mineral Resource Update.

The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements and that all material assumptions and technical parameters continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcements.

## Notes and References (Capital Structure)

Data is generally sourced from professional and company reports and presentations, and FLG research. Any peer group comparisons comprise primarily listed companies.

1. The Capital structure is as at 31 December 2024, unless otherwise stated; 1a. Market Cap based on closing bid and shares on issue as at 31 January, 2025; 1b. Convertible Note has a term of 12 and 15 months, yields 16% and is convertible into FLG shares at \$0.075 and \$0.15c, see FLG ASX announcements dated 28 Mar, 2024, and titled 'Convertible Note Funding and 01 October, 2024, and titled 'Convertible Note Funding - Updated Terms'.
2. Key shareholders as at 31 January, 2025, percentages are calculated based on the shares outstanding in 1a above. 2a. This amount includes Paul Lock's official holding of 10.5M shares plus 36,666,667 shares held by Citicorp Nominees on behalf of Global Emerging Markets (GEM) as escrow and loan shares in relation to the A\$35M equity facility that FLG has with GEM., but 2b. FLG Director David Docherty is a substantial shareholder of Sydney Equities Pty Ltd and Thai Goldfields NL; 2b. Flagship Minerals Limited is obligated to pay Thai Goldfields NL (TGF) up to \$2m upon first WO<sub>3</sub> production at the Khao Soon Tungsten Project (see Note 3).
3. Flagship Minerals Limited will pay Thai Goldfields NL (TGF) a A\$2m cash payment upon first WO<sub>3</sub> production being achieved for a tungsten project on Special Prospecting Licence Application No. 1/2549 (TSPLA 1/2549) or its successor title over the historic Khao Soon Tungsten Mine. David Docherty is a Director of Flagship Minerals and TGF.
