Iron Road's principal project is the Central Eyre Iron Project, South Australia (Figure 2). The wholly owned Central Eyre Iron Project is a collection of three iron occurrences (Warrambo, Kopi & Hambidge) with an exploration potential of 2.8-5.7 billion tonnes magnetite geiss*.

* Coffey Mining (Iron Road Limited ASX announcement 01 September 2009).

The information in this report that relates to Exploration Results is based on and accurately reflects information compiled by Mr Milo Res who is a fulltime employee of Iron Road Limited and a Member of the Australasian Institute of Mining and Metallurgy. Mr Res has sufficient experience relevant to the style of mineralisation and type of deposits under consideration and to the activity, which he is undertaking to qualify as a Competent Person as defined in the 2004 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Res consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.
