INVESTMENT PHILOSOPHY	OBJECTIVE	PORTFOLIO CONSTRUCTION	INVESTMENT RISKS
To invest in outstanding companies at attractive prices, while exercising a deep understanding of the macroeconomic environment to manage investment risk.	The Fund aims to outperform the MSCI World Net Total Return Index (AUD), after fees, over periods of three years or longer.	A portfolio of typically 20-40 investments which we believe can achieve sufficient diversification to ensure the Fund is not overly correlated to a single company, or to industry specific or macroeconomic risks. The Fund aims to invest in companies that have sustainable competitive advantages which translate into returns on capital in excess of their cost of capital for a sustained period of time.  Cash and cash equivalents exposure between 0 - 5%.	All investments carry risk, returns are not guaranteed and there is a risk that investors may lose money on any investment they make. The Fund's Product Disclosure Statement (PDS) sets out the significant risks relevant to the Fund. You can view the PDS at <a href="http://www.magellaninvestmentpartners.com">www.magellaninvestmentpartners.com</a>
