

MIDAS MINERALS' SEPTEMBER 2025 QUARTERLY ACTIVITIES REPORT

Highlights

Otavi and South Otavi Copper Projects - Namibia

- A key milestone in Midas' acquisition of the Otavi Copper Project in Namibia was achieved in August when Otavi Copper Project licences were transferred to the target entity Otjitombo Mining (Pty) Ltd ("Otjitombo")
- Midas plans to commence drilling at the Otavi Copper Project in Q4 CY2025, subject to completion of the acquisition which is expected to occur in November 2025
- Widespread in situ copper mineralisation discovered in trenching and mapping along more than 2km strike in a favourable geological setting at the nearby South Otavi Project
- Midas commenced a 140-hole drill program at South Otavi, which completed in October

Corporate

- Midas received firm commitments for an \$11.5 million placement at \$0.37 per share
- Placement received strong support from new and existing institutional shareholders
- Proceeds of the Placement will fund:
 - Acquisition costs for the Otavi Copper Project, and
 - Accelerated exploration of the Otavi and South Otavi Projects.

Midas Minerals Ltd ("Midas", or "the Company") (ASX: MM1) is pleased to report on its activities during the September Quarter.

ACQUISITION OF OTAVI COPPER PROJECT, NAMIBIA

In August 2025, a key milestone in Midas' acquisition of the Otavi Copper Project in Namibia, a tier 1 African mining jurisdiction, was achieved when the Namibian Ministry of Mines and Energy approved the transfer of the 10 Otavi Project licences from the seller to the target entity, Otjitombo Mining (Pty) Ltd ("Otjitombo").

The condition precedent requiring Midas to raise A\$10M in funding, was also satisfied during the quarter, with Midas conducting an \$11.5m share placement in September 2025.

The final third-party approval to satisfy the conditions precedent is the Namibian Competition Commission's ("NaCC") consideration of the Acquisition, with clearance received from the NaCC subsequent to the end of the quarter. The parties are now undertaking steps to move towards and give effect to completion, which is expected to occur in November 2025.

The Otavi Project covers ~1,776km² near the town of Otavi, and is about 360km northeast of the capital of Namibia, Windhoek. The Project includes two notable deposits awaiting resource definition - **T13** and **Deblin** - and underexplored targets, providing Midas with strong potential for immediate exploration success.

The Otavi Project is situated in northern Namibia and is near key transport routes that provide access to various mining operations and industrial hubs in Namibia. It is connected to major cities via well-maintained roads and the Windhoek-Tsumeb railway line.

The Otavi region has a strong mining history, quality infrastructure and expertise, and is well located relative to competitive engineering capacity in neighbouring South Africa.

At completion of the acquisition of the Otavi Project from the Brazilian base metals producer Nexa Resources S.A. (NYSE: NEXA) ("Nexa"), Midas will pay Nexa upfront cash consideration of US\$3M.

Deferred cash consideration of US\$3M is payable by Midas on completion of a pre-feasibility study, followed by US\$2M upon Midas' decision to develop a mine and a further US\$2M within 12 months of the commencement of commercial production. Also, Nexa will be granted a net smelter return royalty of 1%, of which Midas may acquire half for US\$2M in cash.

Midas is actively preparing to commence resource definition drilling on known deposits, as well as regional exploration drilling, at the Otavi Copper Project, once the acquisition process is complete. To this end, the Company has commenced building an experienced Namibian technical team and secured an office, core-shed and long-term accommodation in the centrally-located town of Otavi. The Company has commenced acquisition of necessary capital items and consumables required for initial exploration drilling. In addition, Midas has commenced core logging and further geophysical data has been acquired, with evaluation of the new and open-file data continuing.

SOUTH OTAVI PROJECT, NAMIBIA

South Otavi is located near the Otavi Copper Project in the Otjozondjupa region of northern Namibia. Shortly after acquiring an option over the South Otavi project in Namibia in May 2025, Midas commenced soil sampling and trenching at the 195km² project.

During the quarter, Midas completed nine trenches totalling 692m on the Deutsche Erde prospect soil anomaly, inclusive of a re-cleared historic trench. The trench exposures were useful in understanding the geological setting, orientation and styles of copper mineralisation. The mineralised bedrock is thought to be part of the upper Nosib Group; it is locally a subvertical, folded Askevoid meta-volcanic schist, variably epidote-altered with calcite veining.

As evidenced by trenching, oxide and sulphide copper mineralisation occurs in at least six separate zones within a corridor that is at least 100m wide.¹ Trenching and mapping has located mineralisation over at least 2km strike, however based on prior exploration the zone likely extends for 8km before disappearing again under shallow cover. The best interval reported from trenching was **2m of 2.41% Cu and 28.5g/t silver**.¹

Midas commenced drilling at South Otavi in early September, with the first phase of RC drilling focussed on:

- Confirming and refining a **>4.6km long** historic bedrock gold anomaly co-incident with geophysical anomalies and pathfinder elements Ag, As, Sb and Pb, discovered in 1997-2000. The anomaly required drilling due to variable calcrete cover. Midas completed 133 shallow holes in the initial phase, totalling 3092m. Initial assays results are expected in the December Quarter.
- Completing an initial seven RC holes totalling 601m on the Deutsche Erde copper-silver trend. The trend has multiple zones of copper oxides and sulphides within schists of the Askevoid sequence. Initial assays results are expected in the December Quarter.

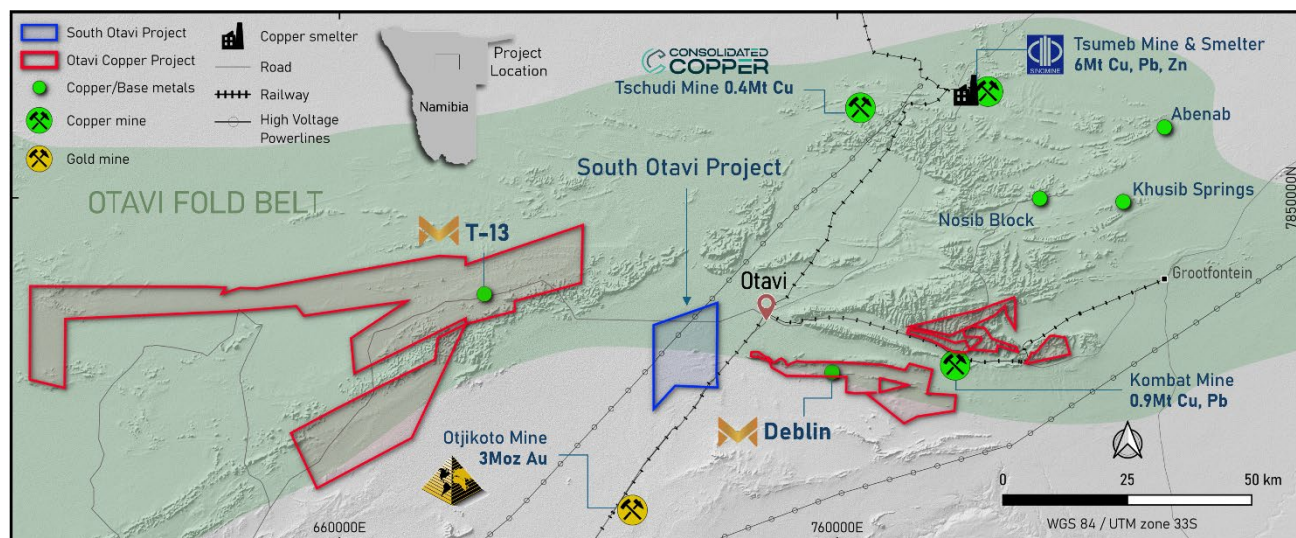

Figure 1: Otavi and South Otavi Project locations.²

CHALLA PROJECT, WESTERN AUSTRALIA

Recent exploration by Midas on the 848km² Challa Project in Western Australia continued to define targets for further exploration. Midas received and reported 117 assay results for infill soil samples during the quarter,

The soil samples were analysed using a Portable XRF (**pXRF**) spectrometer for base metals and gold pathfinders and using the patented and CSIRO-invented detectORE™ for low level gold. This uses pXRF technology further developed and commercialised by Portable PPB Pty Ltd (**Portable PPB**). The 117 assay results from the laboratory confirmed the general suitability of the detectORE™ method for geochemical sampling on the Challa project and anomalous base metals and rare earth anomalies indicated by pXRF were confirmed by the follow-up laboratory analysis.

The geochemical sampling results highlight the exploration potential of the Challa project, returning three anomalous gold trends over a 9km strike, as Midas continues to refine the extensive gold and base metal anomalies on the property.³

NEWINGTON PROJECT, WESTERN AUSTRALIA

There were no substantive exploration activities undertaken on Midas' Newington project during the quarter.

GREENBUSH AND REID-AYLMER PROJECTS, CANADA

There were no substantive exploration activities undertaken on Midas' Canadian projects during the quarter.

CORPORATE

\$11.5M SHARE PLACEMENT

In September 2025, Midas received firm commitments from institutional, sophisticated and other investors to raise up to \$11.5m through a placement of up to a total of 31,081,082 fully paid ordinary shares at \$0.37 per share. Midas will use proceeds of the placement towards its acquisition of the Otavi Copper Project in Namibia, and to accelerate exploration activities at the Otavi and South Otavi Projects, plus working capital and costs of the placement.

The issue price represented a discount of 8.6% to the last traded price of \$0.405 on 15 September 2025, a discount of 10.7% to the five-day volume weighted average price ("VWAP") of \$0.414 and a 0.5% premium to the 15-day VWAP of \$0.368.

Canaccord Genuity (Australia) Limited was Lead Manager to the Placement, with Euroz Hartleys Limited acting as Co-Lead Manager.

The first tranche of 31,026,082 Shares was issued on 25 September 2025 using the Company's existing capacity under ASX Listing Rules 7.1 and 7.1A to raise a total of \$11,479,650 (before costs).

A second tranche of up to 55,000 Shares ("Tranche 2 Shares") will be issued to Non-Executive Director Michael Bohm (or his nominee/s) to raise up to an additional \$20,350 subject to shareholder approval, which Midas intends to seek at a general meeting to be held in December 2025. A notice of general meeting will be sent to shareholders in due course.

CASH POSITION

As of 30 September 2025, Midas held ~A\$15.3 million in cash and cash equivalents (30 June 2025: ~A\$4 million).

LISTING RULE 5.3.5 DISCLOSURE

Payments to related parties of the entity and their associates: During the quarter \$183,929 was paid to Directors and director-related entities, comprising the Managing Director's salary and superannuation and Non-Executive Director fees and superannuation. (refer to Appendix 5B, Item 6).

TENEMENT SUMMARY

In accordance with Listing Rule 5.3.3, please refer to Appendix 1 for a listing of all tenement holdings.

ENDS

The Board of Midas Minerals Limited authorised this release.

About Midas

Midas Minerals is a junior mineral exploration company with a primary focus on copper and precious metals. Midas' Board and management has a strong track record of delivering value for shareholders through mineral discoveries and mine development and growing microcap explorers into successful ASX100-ASX300 companies. The Company has the Newington and Challa Projects located in Western Australia, as well as two lithium projects in Canada. The Company has also entered into an agreement to acquire the Otavi Project in Namibia and an option to earn an interest in the South Otavi project.

Otavi Project: Midas has entered into an agreement to acquire the ~1,776km² high-grade Otavi Copper Project in Namibia. The Otavi Project has exceptional exploration upside, with an abundance of historic shallow, high-grade drill intercepts including 17.2m at 7.24% Cu and 144.4g/t Ag (*refer ASX release dated 16 May 2025*), and significant untapped potential for future discoveries due to modern exploration covering <40% of the tenure. Midas is actively preparing to commence drilling immediately upon completion of the acquisition.

South Otavi Project: Midas has an option to acquire 80% of the ~195km² South Otavi Project in Namibia, located proximal to the Otavi Copper Project. Exploration has commenced to test extensive areas of known copper and gold anomalism.

Newington Project: 212km² of tenements located at the north end of the Southern Cross greenstone belt, which are highly prospective for gold and lithium. The project has significant prior gold production and significant

drill intercepts on existing mining leases including 4m at 16.6g/t and 2m at 17.5g/t (*refer ASX release dated 17 April 2024*) and Midas has identified a number of undrilled targets.

Challa Gold, Nickel-Copper-PGE Project: 848km² of tenements with limited but successful exploration to date. A number of significant PGE and gold-copper exploration targets have been defined. Significant rock chip samples by Midas include 3.38g/t 2PGE from Cr rich horizon within gabbro, 16.3g/t Au and 6.65% Cu from gabbro with veining and 16.15% Cu and 566g/t Ag from a copper rich gossan (*refer to MM1 prospectus released to ASX on 3 September 2021*).

Aylmer Project: The Company has 100% of mineral claims totalling 140km² located northeast of Yellowknife, in the Northwest Territories of Canada. Initial limited exploration has resulted in the discovery of multiple pegmatites which contains abundant spodumene.

Greenbush Lithium Project: 13.1km² of mining claims located proximal to infrastructure, with little outcrop and no historic drilling. A 15m by 30m spodumene bearing pegmatite outcrop was discovered in 1955 and initial sampling by Midas has returned results up to 3.8% Li₂O from the main outcrop and surrounds (*refer ASX release dated 13 July 2023*).

Forward Looking Statements

Statements regarding Midas's plans, forecasts and projections with respect to its mineral properties and programmes are forward-looking statements. There can be no assurance that Midas's plans for development of its mineral properties will proceed. There can be no assurance that Midas's will be able to confirm the presence of Mineral Resources or Ore Reserves, that any mineralisation will prove to be economic or that a mine will be successfully developed on any of Midas's mineral properties. The performance of Midas's may be influenced by a number of factors which are outside the control of the Company, its directors, staff or contractors.

Compliance Statements

For full details of previously announced Exploration Results in this announcement, refer to the ASX announcement or release on the date referenced in the body text. The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements and that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcements.

End Notes

1. Refer to Midas' ASX Announcement dated 23 July 2025.
2. Refer to: The Otavi Mountain Land in Namibia, Melcher 2003, www.ResearchGate for Tsumeb Mine; Trigon Metals Inc. Independent Technical Report for Kombat Asis West Mine, SRK March 2024; Tschudi Copper Mine Technical Report, Weatherly International PLC, 2016 (JORC Resource of 27.5Mt at 0.87% Cu Indicated and 22.2Mt at 0.72% Inferred); B2Gold's Otjikoto Mine's recorded production 2014 to 2024 (1.79Moz) and Mineral Resources of 41Mt at 0.74g/t Au Indicated and 3.2Mt at 2.83g/t Au Inferred (total 1.26Moz) classified using the CIM Standards as at 31 December 2023; figures obtained from B2Gold's website (<https://www.b2gold.com/operations-projects/producing/otjikoto-mine-namibia/default.aspx>), accessed on 29 April 2025.
3. Refer to Midas' ASX Announcement dated 15 July 2025.

5.5	Cash and cash equivalents at end of quarter (should equal item 4.6 above)	15,286	3,970

6.	Payments to related parties of the entity and their associates	Current quarter \$A'000
6.1	Aggregate amount of payments to related parties and their associates included in item 1	184
6.2	Aggregate amount of payments to related parties and their associates included in item 2	-
<i>Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.</i>		

7.	Financing facilities <i>Note: the term "facility" includes all forms of financing arrangements available to the entity. Add notes as necessary for an understanding of the sources of finance available to the entity.</i>	Total facility amount at quarter end \$A'000	Amount drawn at quarter end \$A'000
7.1	Loan facilities	-	-
7.2	Credit standby arrangements	-	-
7.3	Other (please specify)	-	-
7.4	Total financing facilities	-	-
7.5	Unused financing facilities available at quarter end		-
7.6	Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		
	N/A		

8.	Estimated cash available for future operating activities	\$A'000
8.1	Net cash from / (used in) operating activities (item 1.9)	(526)
8.2	(Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	(738)
8.3	Total relevant outgoings (item 8.1 + item 8.2)	(1,264)
8.4	Cash and cash equivalents at quarter end (item 4.6)	15,286
8.5	Unused finance facilities available at quarter end (item 7.5)	-
8.6	Total available funding (item 8.4 + item 8.5)	15,286
8.7	Estimated quarters of funding available (item 8.6 divided by item 8.3)	12.09
	<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>	
8.8	If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1	Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
	Answer: N/A	
8.8.2	Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
	Answer: N/A	
8.8.3	Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?	
	Answer: N/A	
	<i>Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.</i>	

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date: 31 October 2025

Authorised by: The Board of Directors
(Name of body or officer authorising release – see note 4)

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
