QUARTERLY ACTIVITIES UPDATE AND APPENDIX 4C

Period Ending 30 June 2024

Orbital Corporation Ltd ('Orbital UAV', 'the Company') presents its quarterly activities report for the period ended 30 June 2024.

PRODUCTION AND SHIPPING

Orbital UAV entered a period of pre-production activities during the final quarter of FY24, specifically in support of the Textron Systems' Aerosonde[®] HQ and DSO National Laboratory's Veloce 60 UAV systems. Low-rate initial orders have been received for both programs with initial sub-assembly build processes commencing in FY24. It is expected that final build processes and the first shipment of both customer engines will occur in the first quarter of FY25. The initial orders are multi-year build programs which extend beyond FY25. Completion of the small batch order for a Southeast Asian client, originally planned for FY24 is now scheduled for the first quarter of FY25.

ENGINEERING PROGRAMS

In conjunction with the transition of new engines lines into production and shipment, Orbital UAV is finalising the system integration validation works. These programs have progressed well and have tracked closely against revenue forecasts for the year.

In addition to the client delivery programs, Orbital UAV is also undertaking further Research and Development programs to achieve larger payload delivery and enhanced power to weight specifications to address unmet market demands. As announced on 24 June 2024, the Company received its first order from existing customer DSO National Laboratories for a

larger engine type that is currently in its final phase of design. The expected delivery date for first prototype engines is scheduled for early 2025.

OTHER INCOMES & DEBT

The fourth quarter of FY24 saw significant other income events realised with \$1.8m in R&D Incentives received in May and then \$1.0m in WA Government Loan grant conversions in June. The current balance of the WA Government Loan is now \$2.4m, having successfully achieved repayment milestones of over \$6.5m in the last two financial years. Orbital UAV has confirmed \$1.6m in additional milestone achievements to carry forward into FY25, meaning a high level of confidence for full repayment by December 2024.
