

Panoramic Resources Limited

ABN: 47 095 792 288

Preliminary Final Report for the financial year ended 30 June 2008

This Preliminary Final Report is provided to the Australian Stock Exchange (ASX) under ASX Listing Rule 4.3A.

This Report is based on accounts which have been audited.

Current Reporting Period: Financial Year Ending 30 June 2008

Previous Reporting Period: Financial Year Ending 30 June 2007

APPENDIX 4E – PRELIMINARY FINAL REPORT

For the financial-year ended 30 June 2008

RESULTS FOR ANNOUNCEMENT TO THE MARKET

| | | A\$'000 | | 2006/07 A\$'000 | | 2007/08 A\$'000 |
|---|------|---------|------|--------------------|----|--------------------|
| Revenue (note 1) | down | 63,767 | from | 302,238 | to | 238,471 |
| Profit after tax from ordinary activities | down | 34,777 | from | 88,109 | to | 53,332 |
| Profit after tax attributable to members | down | 34,777 | from | 88,109 | to | 53,332 |

Note 1 – Revenue is after deducting ore treatment costs and concentrator/smelter payment deductions and after including losses on delivered/deferred commodity hedges of \$36,805,000 (2007: \$85,920,000).

DIVIDENDS

A final fully franked final dividend to shareholders of 5 cents per fully paid share has been declared by the Company for the financial year ended 30 June 2008. The Company has agreed that the record date for the payment of the dividend will be 10 September 2008 and that the payment date will be 19 September 2008. The total dividends payable on ordinary securities is \$9,594,000.

NET TANGIBLE ASSETS PER SHARE

| | 30 June 2007 \$ per share | 30 June 2008 \$ per share |
|-------------------------------|------------------------------|------------------------------|
| Net tangible assets per share | 0.65 | 1.21 |

COMMENTARY ON THE RESULTS FOR THE PERIOD

The major factors contributing to the above variances are as follows:

- Spot nickel prices during the 2007/08 reporting period were significantly lower than in the previous corresponding period, resulting in lower revenue per tonne of nickel sold. Downward final nickel quotational price (QP) adjustments for Lanfranchi (75%) ore deliveries made in May 2007 and June 2007, that were required to be accounted for in 2007/08, also had a negative impact.
- Higher production from the Lanfranchi Project more than offset slightly lower production at the Savannah Project, resulting in more contained nickel being produced and sold than in the previous corresponding period.
- Payable cash costs for the 2007/08 reporting period were higher than the 2006/07 reporting period, mainly due to increased labour, maintenance, steel and diesel fuel input costs. However, total mine production costs, on a C3 per pound of contained nickel produced basis, were lower on a Group basis as a result of lower concentrator/smelter deductions, and state royalty payments.

The Company did not gain or lose control over any entity during the period.

OTHER INFORMATION

Except for the matters noted above, all the disclosure requirements pursuant to ASX Listing Rule 4.3A are contained within Panoramic Resource Limited's Consolidated Financial Statements for the year ended 30 June 2008 which accompany this Preliminary Final Report.

These Consolidated Financial Statements include all the notes of the type normally included in an Annual Report. However, this report is still to be read in conjunction with any public announcements made by Panoramic Resources Limited during the reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

This financial report covers the consolidated entity consisting of Panoramic Resources Limited and its subsidiaries. The financial report is presented in Australian dollars.

Panoramic Resources Limited is a Company limited by shares, incorporated and domiciled in Australia. Its registered office is:

Panoramic Resources Limited
Level 9
553 Hay Street
Perth WA 6000

DIRECTORS' REPORT

The directors present their report on the consolidated entity consisting of Panoramic Resources Limited and the entities it controlled at the end of, or during the financial year ended 30 June 2008.

DIRECTORS

The names and details of the company's directors in office during the financial year and until the date of this report are as follows (directors were in office for the entire period unless otherwise stated):

Christopher J G de Guingand (Non-Executive Chairman)

75 years

F CPA

Appointed 8 July 2005

Christopher de Guingand has had a long and distinguished career in the mining industry, predominately in financial and marketing roles with a number of mining companies as an executive, trader, director or consultant. Chris started his career with CRA where he held senior management positions in marketing non-ferrous metals and iron ore over a 13 year period. He then joined Metals Exploration Limited as Commercial Manager in charge of financing and marketing for the Greenvale Nickel Project. In 1982 he established his own marketing and logistics consultancy, Mineral Commerce Services, which provides marketing and shipping services to a number of base metals projects in Australia and overseas.

During the past three years, Christopher de Guingand has also served as a director of the following listed companies:

- ♦ Albidon Limited (Non-Executive Director from 1 January 2004)*

**Denotes current directorship*

Peter J Harold (Managing Director)

45 years

B.AppSc(Chem), AFAICD

Appointed 16 March 2001

Peter Harold is a process engineer with over 20 years corporate experience in the minerals industry specialising in financing, marketing, business development and general corporate activities. He has extensive experience with the development and operation of both sulphide and laterite nickel projects having been responsible for metals marketing and various corporate functions relating to the Cawse nickel laterite project and the Silver Swan and Mt Keith nickel sulphide projects prior to the acquisition, development and operation of the Savannah nickel project.

During the past three years, Peter Harold has also served as a director of the following listed companies:

- ♦ Uranium Resources PLC (Non-Executive Director from 31 January 2005 to 26 October 2006)
- ♦ Alloy Resources Limited (Non-Executive Chairman from 15 September 2005)*
- ♦ Territory Uranium Company Limited (Non-Executive Chairman from 1 March 2007)*

**Denotes current directorship*

Christopher D J Langdon (Non-Executive Director)

45 years

B.Com (Econ)

Appointed 4 August 2004

Christopher Langdon has over 23 years of corporate finance and management experience and has had extensive experience in investment banking in Australia and overseas working for Wardley Australia Limited, James Capel & Co. and Samuel Montagu & Co. specialising in cross border corporate advisory. He is the Chief Executive Officer of HJ Langdon & Co., a family owned business based in Melbourne involved in the food industry.

During the past three years, Christopher Langdon also served as a director of the following listed companies:

- ♦ Fresh Foods Industries Holdings Ltd (Director from 10 November 2006)*

**Denotes current directorship*

DIRECTORS' REPORT

DIRECTORS (CONTINUED)

John Rowe (Non-Executive Director)

59 years

BSc (Hons), ARSM, MAusIMM

Appointed 5 December 2006

John Rowe is a geologist who has had extensive mining industry experience over a 36 year period. Most recently, he was General Manager, Business Development with LionOre Australia responsible for assessing new business, divesting assets and negotiating nickel ore and concentrate sales contracts. Prior to joining LionOre, Mr Rowe spent 12 years with MPI Mines Limited in various group executive roles and was involved in the evaluation, development and production of the high grade Silver Swan nickel sulphide project as well as the Stawell Gold Mine in Victoria. John started his career with Metals Exploration Limited as a mine geologist at the Nepean Nickel Mine in the early 1970s before taking on senior executive roles with Consolidated Goldfields, Agnew Mining, and North Kalgurli Mines. Following a short stint with R&I Gold Bank in their technical division, Mr Rowe set up his own geological consultancy in the early 1990s and then joined MPI Mines Limited in mid 1993. Mr Rowe is also the Principal of John Rowe and Associates which provides geological and business development advice to the mining industry.

During the past three years, John Rowe has also served as a director of the following listed companies:

- ◆ Perseverance Corporation Limited (Non-Executive Director from 19 September 2007 to 18 February 2008)
- ◆ Westonia Gold Mines Limited (Non-Executive Director from 12 October 2006 and Non-Executive Chairman from 30 January 2008)*

**Denotes current directorship*

Brian M Phillips (Non-Executive Director)

65 years

AWASM-Mining, FAusIMM, MIMMM,

Appointed 27 March 2007

Brian Phillips is a mining engineer who has had extensive mining industry experience in operational and management roles in precious and base metals over a 40 year period. Brian started his career with the Gold Fields Group in Tasmania, the United Kingdom and Western Australia. In 1981, he joined Metals Exploration Limited and for the next seven years was a director of Metals Exploration Limited, North Kalgurli Mines Limited and Gold Mines of Kalgoorlie Limited. After a period running a privately owned mining services company, Brian became a director of MPI Mines Limited in 1992 and from October 2002 was its Managing Director until the takeover of MPI by LionOre Australia in 2004. He is a former non-executive director of the Australian Gold Council and past President of the Victorian Chamber of Mines (now the Minerals Council of Australia 6 Victorian Division).

During the past three years, Brian Phillips has also served as a director of the following listed companies:

- ◆ Leviathan Resources Limited (Non-Executive Chairman from 15 November 2004 to 24 January 2007)
- ◆ Perseverance Corporation Limited (Non-Executive Vice Chairman from 24 January 2007 to 18 February 2008)
- ◆ Tawana Resources NL (Non-Executive Chairman from 4 April 2005 to 20 June 2008. Non-Executive Director from 20 June 2008)*
- ◆ Indophil Resources NL (Non-Executive Director from 1 April 2005 and Non-Executive Chairman from 21 April 2005)*

**Denotes current directorship*

COMPANY SECRETARY

Trevor R Eton

48 years

B.A (Hons)(Econ), PostGradDip (Man), AFAIM

Appointed 12 March 2003

Trevor Eton is an accountant with over 24 years experience in corporate finance within the minerals industry. Prior to joining the Company in 2003, he was Company Secretary and Group Financial Controller of MPI Mines Limited for 10 years.

During the past three years, Trevor Eton has not served as a director of any listed companies.

DIRECTORS' REPORT

DIRECTORS' MEETINGS

The number of meetings of directors (including meetings of committees of directors) held during the year and the number of meetings attended by each director are as follows:

| | Directors' Meetings | Audit | Meetings of Committees Remuneration | Environment, Safety & Risk |
|-------------------------------------|---------------------|----------|--|-------------------------------|
| Number of meetings held: | 10 | 2 | 3 | 2 |
| Number of meetings attended: | | | | |
| Christopher J G de Guingand | 10 | 2 | 3 | 2 |
| Peter J Harold | 10 | - | 3 | 2 |
| Christopher D J Langdon | 8 | 2 | 3 | 1 |
| John Rowe | 10 | 2 | 3 | 2 |
| Brian M Phillips | 10 | 1 | 3 | 2 |

COMMITTEE MEMBERSHIP

As at the date of this report, the Company has an Audit Committee, a Remuneration Committee, and an Environment, Safety and Risk Committee.

Members acting on the committees of the Board during the year were:

| Audit | Remuneration | Environment, Safety and Risk |
|-----------------------------|---------------------------------|---------------------------------|
| Christopher D J Langdon (c) | Christopher J G de Guingand (c) | Christopher J G de Guingand (c) |
| Christopher J G de Guingand | Christopher D J Langdon | Christopher D J Langdon |
| John Rowe | John Rowe | John Rowe |
| Brian M Phillips | Brian M Phillips | Brian M Phillips |
| - | Peter J Harold | Peter J Harold |

(c) Designates the chairman of the committee

DIRECTORS' INTERESTS

The relevant interest of each director in the share capital as notified by the directors to the Australian Stock Exchange in accordance with S205G(1) of the Corporations Act 2001, at the date of this report is as follows:

| Name of Director | Ordinary Direct | Shares Indirect | Performance rights over ordinary shares |
|-----------------------------|-----------------|-----------------|--|
| Christopher J G de Guingand | - | 160,366 | - |
| Peter J Harold | 1,400,000 | 2,240,785 | 1,500,000 |
| Christopher D J Langdon | 60,000 | 25,000 | - |
| John Rowe | - | 10,000 | - |
| Brian M Phillips | - | 10,000 | - |

PRINCIPAL ACTIVITIES

The principal activities of the consolidated entity during the course of the financial year consisted of exploration, evaluation, development and production of mineral deposits.

DIRECTORS' REPORT

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

Significant changes in the state of affairs of the consolidated entity during the financial period were as follows:

- ♦ In October 2007, the Lanfranchi Joint Venture (Panoramic 75%) announced the completion, on time and on budget, of the development of the high grade Winner orebody allowing for the mining of ore to commence, via the separate Winner decline access.
- ♦ Following a surface drilling programme at Lanfranchi along the northern side of the Tramways Dome in October 2007, encouraging evidence of massive sulphide mineralisation was encountered in two drill holes thereby supporting the concept of the overturned continuation of the currently mined Helmut/Deacon and Schmitz/Winner ultramafic channel structures. Further drilling during the course of the year has added to the prospect of finding a new nickel sulphide deposit on the Northern Tramways Dome.
- ♦ Separate Co-Existence Agreements were signed on 14 November 2007 by the Company and the other 40% joint venturer in the Copernicus Project, together with the East Kimberley Purnululu and Malarngowen People, the Traditional Owners residing in Warmun in relation to long term benefits that will flow to all parties as a consequence of mining on the Savannah and Copernicus mineral leases.
- ♦ In November 2007, the Company formally notified Platinum Australia Limited that it had ceased feasibility work on the Panton Sill platinum group metals (PGM) Project.
- ♦ The Copernicus Project Mining Lease M80/540 was granted on 8 January 2008.
- ♦ On 6 February 2008, 447,505 shares were issued and a \$2,241,000 payment made pursuant to the Savannah Project Co-Existence Agreement signed on 14 November 2007.
- ♦ An initial JORC compliant indicated and inferred resource on the Northern Ore Zone at the Savannah Project of 476,000 tonnes at 1.16% nickel for 5,430 tonnes contained nickel was confirmed in April 2008.
- ♦ Final approval for the development of the Copernicus Project was granted by the Western Australian Government on 19 May 2008, enabling mine site operations to commence.
- ♦ On 10 June 2008, at a general meeting the shareholders approved the change in the name of the Company from Sally Malay Mining Limited to Panoramic Resources Limited.

OPERATING AND FINANCIAL REVIEW

Operating Results for the Year

The Group's profit after tax for the financial year ending 30 June 2008 was \$53,332,000 (2007: \$88,109,000).

Financial Performance

The Group's performance during the 2008 financial year, and for the four previous financial years are set out in the table below. Apart from the 2004 financial year, which were prepared under old Australian Accounting Standards (AGAAP), the financial results shown below were prepared under International Financial Reporting Standards (IFRS).

| Year Ended 30 June | 2008 | 2007 | 2006 | 2005 | 2004 |
|--|---------|---------|---------|---------|---------|
| Net profit/(loss) after tax (\$'000) | 53,332 | 88,109 | 15,922 | 10,266 | (2,710) |
| Earnings per share (cents) | 28.4 | 47.6 | 9.6 | 6.5 | (2.2) |
| Dividends per share (cents) | 12.0 | 12.0 | - | - | - |
| Dividends pay out ratio (%) | 42.3 | 25.2 | - | - | - |
| Market capitalisation (\$'000) | 775,108 | 777,379 | 215,528 | 139,737 | 112,372 |
| Closing share price | 4.04 | 4.14 | 1.18 | 0.86 | 0.77 |
| Total shareholder returns - 1 year (%) | 75.6 | 121.6 | 23.2 | 21.5 | (7.6) |

DIVIDENDS

On 27 August 2007, the Directors declared a fully franked final dividend of 12.0 cents per share, which was paid on 15 October 2007 in relation to the year ended 30 June 2007.

On 5 February 2008, the Directors declared an interim fully franked dividend of 7.0 cents per share, which was paid on 10 March 2008.

The Directors have resolved to declare a fully franked final dividend of 5 cents per share in respect of the year ended 30 June 2008. The financial effect of this dividend has not been brought to account in the financial statements for the year ended 30 June 2008 and will be recognised in subsequent financial reports.

DIRECTORS' REPORT

REVIEW OF OPERATIONS

Near the mining town of Kambalda in Western Australia, the Company's 75% owned and operated Lanfranchi nickel mine produced 286,116 (2007: 229,614) tonnes of ore grading 2.55% (2007: 2.27%) nickel containing 7,304 (2007: 5,215) tonnes of nickel. Production from October 2007 included material from the Winner deposit. The nickel ore is sold to Nickel West under a long term Ore Tolling and Concentrate Purchase Agreement and is treated at Nickel West's Kambalda nickel concentrator located 42km north of the Lanfranchi mine.

In the East Kimberley region of Western Australia, the Company operates the Savannah (formerly known as Sally Malay) nickel, copper & cobalt project and is the 60% owner and operator of the Copernicus nickel project. This year the Savannah project produced 7,579 (2007: 8,010) tonnes of nickel in concentrate together with 4,072 (2007: 3,688) tonnes of copper and 409 (2007: 430) tonnes of cobalt. The concentrate is shipped from the port of Wyndham to the Jinchuan Group in China under a long term concentrate sales agreement. In June 2008, open pit mining operations commenced at the Copernicus Project and the mining of nickel sulphide ore is expected in September 2008 prior to the processing of ore at the Savannah process plant in October 2008 under a toll treating arrangement. The Copernicus Project is located some 23km off the Great Northern Highway, with the turnoff being situated approximately 47km south of the Savannah Project.

REVIEW OF FINANCIAL CONDITION

Capital Structure

The debt to equity ratio (borrowings on equity interest in shareholders' equity) at 30 June 2008 was 10.7% (2007: 18.1%)

Hedging Policy

The consolidated entity has a policy of limiting the exposure to nickel price risk and currency risk through hedging, namely:

- ♦ For nickel price risk of both the Savannah Project and the Company's 75% interest in the Lanfranchi Project, by hedging no more than 80% (2007 80%) of the payable nickel forecast to be produced over a rolling two year horizon through a combination of nickel forward sales contracts and nickel put and call options, with the percentage of the combined nickel forward sales contracts and written nickel call options to be no more than 40% (2007: 40%) of the payable nickel forecast to be produced over the same rolling two year horizon;
- ♦ For currency risk, sufficient hedging on a month to month basis to match the net United States dollar proceeds from nickel hedging using nickel forward sales contracts.

None of the existing nickel and United States currency forward sale contracts that have been entered into by the consolidated entity are subject to margin calls.

Using current forecast nickel production for the next two financial years, and excluding purchased nickel puts, as at 30 June 2008 the consolidated entity had sold forward 5,250 tonnes of nickel at an average weighted US\$ nickel price of US\$11.50 per pound for delivery between July 2008 and June 2010, which represents approximately 23% of forecast payable nickel production.

CORPORATE

The company is limited by shares and is domiciled and incorporated in Australia.

EMPLOYEES

At the end of the financial year, the Group had 341 full time employees (2007: 279).

EVENTS SUBSEQUENT TO BALANCE DATE

On 14 July 2008, the Company completed the purchase of Liantown Resources Limited's interest in the Cowan Nickel Project for a cash consideration of \$1,685,000. As part of the transaction, the Company agreed to subscribe for 2.75 million shares in Liantown Resources Limited at \$0.115 per share and received 1.25 million unlisted options, exercisable at \$0.225 per option, and expiring on 10 July 2010. The Cowan Nickel Project comprises Liantown Resources' interest in the Eastern Goldfields of Western Australia, including a 60% interest in the Junction South Joint Venture and the nickel rights over the Logan's Find mineral tenement.

On 26 August, 2008, the Directors resolved to declare a fully franked final dividend of 5 cents per share in respect of the year ended 30 June 2008.

DIRECTORS' REPORT

In the interval between the end of the financial year and the date of this report, apart from the events mentioned above, there has not arisen any item, transaction or event of a material and unusual nature likely, in the opinion of the directors of the Company, to affect significantly the operations of the consolidated entity, the results of those operations, or the state of affairs of the consolidated entity, in future financial years.

LIKELY DEVELOPMENTS AND EXPECTED RESULTS

The consolidated entity will continue with the production of nickel concentrate at the Savannah Project while at the same time, continue with the mining of nickel sulphide ores from the Lanfranchi Project. In addition, the consolidated entity will continue to operate and supervise mining operations at the Copernicus Project in order to ensure that nickel sulphide ore is trucked to the Savannah process plant for toll treating in October 2008.

Work will continue on extending and adding to economic reserves of the Savannah Project and the Lanfranchi Project from known resources and identifying new resources through exploration.

Further information about likely developments in the operations of the Company and the expected results of those operations in the future financial years has not been included in this report because disclosure would be likely to result in unreasonable prejudice to the Company.

SHARE OPTIONS

At the date of this report total unissued ordinary shares of the Company under option are:

| <u>Expiry Date</u> | <u>Exercise Price (\$)</u> | <u>Number of Shares</u> |
|--------------------|----------------------------|-------------------------|
| 20 September 2008 | 0.85 | 80,000 |
| 31 December 2010 | 2.20 | 1,762,500 |

During the financial year, option holders have exercised the option to acquire 3,638,250 (2007: 5,122,000) fully paid shares in Panoramic Resources Limited at a weighted average exercise price of \$0.99 (2007: \$0.77). In addition, the Company cancelled 25,000 options at a weighted average exercise price of \$2.20, through forfeiture (2007: 130,000 options at a weighted average exercise price of \$0.80).

In the interval between the end of the financial year and the date of this report, option holders have exercised the option to acquire 15,000 fully paid shares in Panoramic Resources Limited at a weighted average exercise price of \$0.75.

INDEMNIFICATION AND INSURANCE OF DIRECTORS AND OFFICERS

The Company has agreed to indemnify the current directors and senior executives, against all liabilities to another person (other than the Company or a related body corporate) that may arise from their position as directors and officers of the Company except where the liability arises out of conduct involving a lack of good faith. The agreement stipulates that the Company will meet the full amount of any such liabilities including costs and expenses.

During or since the financial year, the Company has paid premiums of \$47,104 (2007: \$39,204) in respect of contracts insuring all the directors and officers against legal costs incurred in defending proceedings. The insurance premiums relate to:

1. Costs and expenses incurred by the relevant officers in defending legal proceedings, both civil and criminal and whatever the outcome; and
2. Other liabilities that may arise from their position, with the exception of conduct involving a wilful breach of duty or improper use of information or position to gain a personal advantage.

DIRECTORS' REPORT

REMUNERATION REPORT (AUDITED)

This remuneration report outlines the remuneration arrangements in place for the directors and executives of the Company and the Group in accordance with the Corporations Act 2001 and its Regulations. These remuneration disclosures are provided in pages 11 to 21 of the Directors' Report designated as audited. For the purposes of this report, key management personnel (KMP) of the Group are defined as those persons having authority and responsibility for planning, directing and controlling the major activities of the Company and the Group, directly or indirectly, including any director (whether executive or otherwise) of the parent company, and includes the five executives in the Parent and the Group receiving the highest remuneration.

For the purposes of this report, the term 'executive' encompasses the managing director, senior executives, operations managers and group process manager of the Parent and the Group.

Details of Key Management Personnel (including the five highest executives of the Company and the Group)

(i) Directors

| | |
|-------------------------|--------------------------|
| Christopher De Guingand | Chairman (Non-Executive) |
| Peter Harold | Managing Director |
| Christopher Langdon | Director (Non-Executive) |
| John Rowe | Director (Non-Executive) |
| Brian Phillips | Director (Non-Executive) |

(ii) Executives

| | |
|----------------------|--|
| Trevor Eton | Chief Financial Officer |
| Christopher Williams | General Manager - Operations |
| Terry Strong | Operations Manager of Savannah Project |
| Stephen Kelleher | Group Process Manager |
| Simon Jessop | Operations Manager of Lanfranchi Project |

Remuneration Philosophy

The performance of the company depends upon the quality of its directors and executives. To prosper, the Company must attract, motivate and retain highly skilled directors and executives.

To this end, the Company embodies the following principles in its remuneration framework:

- ◆ Provide competitive rewards to attract high calibre executives;
- ◆ Link executive rewards to shareholder value and company profits;
- ◆ Significant portion of executive remuneration 'at risk' dependent upon meeting pre-determined performance benchmarks; and
- ◆ Establish appropriate and demanding performance hurdles in relation to variable executive remuneration

Remuneration Committee

The Remuneration Committee of the Board of Directors of the Company is responsible for determining and reviewing compensation arrangements for the Managing Director and the executive team.

The Remuneration Committee assess the appropriateness of the nature and amount of remuneration of senior managers on a periodic basis by reference to relevant employment market conditions with the overall objective of ensuring maximum stakeholder benefit from the retention of a high quality, high performing executive team.

DIRECTORS' REPORT

REMUNERATION REPORT (AUDITED) (Continued)

Remuneration Structure

In accordance with best practice corporate governance, the structure of non-executive director and senior management remuneration is separate and distinct.

Non-Executive Director Remuneration

Fixed Remuneration

Objective

The Board seeks to set aggregate remuneration at a level which provides the Company with the ability to attract and retain directors of the highest calibre, whilst incurring a cost which is acceptable to shareholders.

Structure

The Constitution and the ASX Listing Rules specify that the aggregate remuneration of non-executive directors shall be determined from time to time by a general meeting. An amount not exceeding the amount determined is then divided between the directors as agreed.

The amount of aggregate remuneration sought to be approved by shareholders and the manner in which it is apportioned amongst directors is reviewed annually. The Board considers fees paid to non-executive directors of comparable companies when undertaking the annual review process.

Each director receives a fee for being a director of the Company. An additional fee is also paid for each Board committee on which a director sits. The payment of additional fees for serving on a committee recognises the additional time commitment required by directors who serve on one or more sub committees.

The remuneration of non-executive directors for the period ending 30 June 2008 is detailed in Table 1 on page 16 of this report. Fees for the non-executive directors are determined within an aggregate directors' fee pool limit of \$600,000, which was last approved by shareholders on 20 November 2007.

Variable Remuneration

The Company does not reward non-executive directors with variable remuneration (potential short term and long term incentives). Any shares in the Company that are held by non-executive directors at the date of this report are directly or indirectly separately purchased and held by each director and have not been issued by the Company as part of their remuneration package.

Executive Remuneration

Objective

The Company aims to reward executives with a level of mix of remuneration commensurate with their position and responsibilities within the Company so as to:

- ◆ reward executives for Company, business unit and individual performance against targets set by reference to appropriate benchmarks;
- ◆ align the interests of executives with those of shareholders;
- ◆ link reward with the strategic goals and the performance of the Company; and
- ◆ ensure total remuneration is competitive by market standards.

DIRECTORS' REPORT

REMUNERATION REPORT (AUDITED) (Continued)

Structure

In determining the level and make-up of executive remuneration, the Remuneration Committee take due consideration of the current market levels of remuneration for comparable executive roles.

It is the Remuneration Committee's policy that employment contracts are entered into with the Managing Director and other senior executives. Details of these contracts are provided on pages 14 to 15.

Remuneration consists of the following key elements:

- ◆ Fixed Remuneration (base salary, superannuation and non-monetary benefits);
- ◆ Variable Remuneration
 - Short Term Incentive (STI); and
 - Long Term Incentive (LTI).

The proportion of fixed remuneration and variable remuneration (potential short term and long term incentives) is established for each executive by the Remuneration Committee. Table 1 on page 16 details the variable component (%) of the Company's key management personnel which includes the five most highly remunerated executives.

Fixed Remuneration

Objective

The level of fixed remuneration is set so as to provide a base level of remuneration which is both appropriate to the position and is competitive in the market. Fixed remuneration is reviewed annually by the Remuneration Committee and the process consists of a review of Company wide, business unit and individual performance, relevant comparative remuneration in the market and internal and, when appropriate, external advice on policies and practices. As noted above, the Committee has access to external advice independent of management.

Structure

Executives are given the opportunity to receive their fixed (primary) remuneration in a variety of forms including cash and fringe benefits. It is intended that the manner of payment chosen will be optimal for the recipient without creating undue cost for the Company.

The fixed remuneration component of the Group's key management personnel which includes the five highly remunerated executives is detailed in Table 1 on page 17.

Variable Remuneration – Short Term Incentive (STI)

Objective

The objective of the STI program is to link the achievement of the Company's operational targets with the remuneration received by the executives charged with meeting those targets. The total potential STI available is set at a level so as to provide sufficient incentive to the executive to achieve the operational targets and such that the cost to the Company is reasonable in the circumstances.

Structure

Actual STI payments granted to each executive depends on the extent to which specific operating targets, set at the beginning of the financial year, are met. The operational targets consists of a number of Key Performance Indicators (KPIs) covering both financial and non-financial measures of performance. Typically included are measures such as contribution to net profit after tax, production and cost targets, safety performance, environmental compliance, risk management, and leadership/team contribution. These measures were chosen as they represent the key drivers for the short term success of the business and provide a framework for delivering long term value.

The Group has predetermined benchmarks that must be met in order to trigger payments under the STI scheme. On an annual basis, after consideration of performance against KPIs and profitability, an overall performance rating for the Company and each individual business unit is approved by the Remuneration Committee. The individual performance of each executive is also rated and all the ratings are taken into account when determining the amount, if any, of the short term incentive pool is allocated to each executive. This process usually occurs within three months after the reporting date.

The aggregate of annual STI payments available for executives across the Company is subject to the approval of the Remuneration Committee. STI payments are not accrued in the financial year they relate to as the aggregate amount of the annual STI payments is unable to be determined until after the reporting date. Payments are made as a cash bonus in the following period, with 60% of the annual bonus being paid in October with the remaining 40% paid in the following April.

DIRECTORS' REPORT

REMUNERATION REPORT (AUDITED) (Continued)

For the 2007 financial year, the STI annual cash bonus pool (excluding the Managing Director's retention cash bonuses) allocated to executives of \$1,041,500 was paid in the 2008 financial year. There were no forfeitures. The Remuneration Committee will consider the STI payments for the 2008 financial year between the date of this report and October 2008. The maximum annual STI cash bonus pool for the 2008 financial year is not yet determined. The minimum amount of the STI cash bonus assuming that no executives meet their respective KPIs for the 2008 financial year is nil.

In addition to the STI annual cash bonus pool, in May 2007 the Remuneration Committee approved the following STI cash payments to the Managing Director, Peter Harold:

- ♦ a \$500,000 one-off cash payment paid in July 2007 to recognise Mr Harold's contribution in the increase in shareholder value following the Company's 75% investment in the Lanfranchi Project from November 2004;
- ♦ two retention incentive cash payments of \$250,000 and \$500,000, to be paid in January 2008 and January 2009 respectively. This was, and is due to be, paid as an incentive to retain the services of Mr Harold in a highly competitive market where the skills and experience of Mr Harold are being recognised in the mining community.

Variable Remuneration – Long Term Incentive (LTI)

Objective

The objective of the LTI program is to reward and incentivise executives in a manner which aligns this element of remuneration with the creation of shareholder wealth. The Company's performance over the past four years and its impact on shareholder wealth has been summarised within the Operating and Financial review section of the Directors' Report.

Structure

LTI grants to executives are now delivered in the form of performance rights to shares issued under the company wide Panoramic Employee Share Plan (ESP) approved by the Company's shareholders on 20 November 2007. During the financial year, no LTI grants were allocated to executives apart from an LTI grant to the Managing Director, Peter Harold. LTI grants to other employees of the Company are made under the ESP where appropriate. In previous financial years, LTI grants to executives were delivered under the 2004 Sally Malay Employee Share Option Plan and a separate LTI grant was made to the Managing Director, Peter Harold, during the 2007 financial year through the shareholder approved Managing Director's Long Term Share Plan (LTSP).

Table 2 on page 18 and Table 3 on page 19, provides details of options and performance rights to shares granted, the value of options and performance rights to shares, and vesting periods under the unlisted share option LTI and unlisted performance rights to shares LTI. Details of the LTSP and ESP and the performance hurdle are provided under the terms of Peter Harold's employment contract on page 15.

No Hedging Contracts on LTI Grants

The Company does not permit executives to enter into contracts to hedge their exposure to options or performance shares granted as part of their remuneration package. This policy is strictly enforced by the Managing Director under the rules for trading in Company securities detailed in the Corporate Governance Statement on page 25.

Employment Contracts

The Non-Executive Chairman, Christopher de Guingand, commenced in his role on 8 July 2005 under the following terms:

- ♦ Christopher de Guingand may resign from his position and thus terminate his directorship on written notice.
- ♦ The Company must provide 6 months' written notice or provide payment in lieu of the notice period (\$82,500, based on the fixed component of Christopher de Guingand's remuneration) if termination is initiated by the Company, except where termination is from serious misconduct.
- ♦ The Company may terminate his directorship at any time without notice if serious misconduct has occurred. In this situation, the Non-Executive Chairman is only entitled to that portion of remuneration which is fixed, and only up to the date of termination.

All other non-executive directors conduct their duties under the following terms:

- ♦ A non-executive director may resign from his position and thus terminate this contract on written notice.
- ♦ The Company may terminate a directorship by providing 6 months' written notice or provide payment in lieu of the notice period (based on the fixed component of the non-executive director's remuneration) if termination is initiated by the Company, except where termination is from serious misconduct. The fixed components of the non-executive director's remuneration are:

DIRECTORS' REPORT

REMUNERATION REPORT (AUDITED) (Continued)

Employment Contracts (continued)

| Non-Executive Director | Termination Payment |
|-------------------------------|----------------------------|
| Christopher Langdon | \$57,500 |
| John Rowe | \$57,500 |
| Brian Philips | \$57,500 |

- ♦ The Company may terminate a directorship at any time without notice if serious misconduct has occurred. Where termination with such cause occurs the non-executive director is only entitled to that portion of remuneration which is fixed, and only up to the date of termination.

The Managing Director, Peter Harold, is employed under a four year contract that commenced on 1 January 2006. Since 1 January 2006, the terms of Peter Harold's employment have been amended from time to time following approval from the Remuneration Committee and/or the Company's shareholders. The current terms of his employment are:

- ♦ Peter Harold may resign from his position and thus terminate this contract by giving 3 months written notice. Any vested options not exercised will be forfeited 4 weeks after notice of resignation.
- ♦ If there is a change of control of the Company or the Company is taken over then Peter Harold is entitled to a redundancy of 12 months remuneration at his election (\$593,000 based on the fixed component of Peter Harold's remuneration). LTI unlisted options if applicable that have not yet vested will vest immediately. The Board of Directors will decide what percentage of LTI performance rights to shares can be converted to shares.
- ♦ The Company may make STI cash bonuses to Peter Harold, firstly, up to a maximum of 100% of his base salary measured against the achievement of agreed performance indicators, and secondly, specific STI retention bonuses. Both STI cash bonuses are approved by the Remuneration Committee from time to time;
- ♦ Under the Managing Director's Long Term Share Plan (LTSP), Peter Harold will be entitled to be issued a maximum of 1,000,000 shares in the Company at the conclusion of his four year contract (31 December 2009), dependent upon the performance of the Company relative to a group of selected peers over a three and a half year period commencing on 1 July 2006 and ending on 31 December 2009 (Performance Period). The peer group comprises those companies within the S&P / ASX 300 Metals & Mining Index. The peer group is to be ranked in terms of relative total shareholder return (TSR), which is the percentage increase in each Company's share price plus reinvested dividends over the Performance Period adjusted for bonus issues, subdivisions and consolidations of capital. Relative TSR was selected as the LTI performance hurdle as it ensures an alignment between comparative shareholder return and reward for the share rights holder. Shares under the LTSP will be allotted to Peter Harold provided that the TSR ranking, as determined by an independent external advisor on behalf of the Remuneration Committee, of the Company at the end of the Performance Period is at or above the 50th percentile of the peer group and further provided that the Company's TSR over that period exceeds a rate of 5% per annum compounded. At the 50th percentile, Peter Harold will be entitled to 50% of the LTSP shares, increasing proportionately to 100% at the 65th percentile;
- ♦ Under the Company wide Employee Share Plan (ESP), Peter Harold will be entitled to be issued a maximum of 500,000 shares in the Company on 31 December 2010, dependent upon the performance of the Company relative to a group of selected peers over a three year period commencing on 1 January 2008 and ending on 31 December 2010 (Performance Period). The peer group comprises those companies within the S&P / ASX 300 Metals & Mining Index. The peer group is to be ranked in terms of relative total shareholder return (TSR), which is the percentage increase in each Company's share price plus reinvested dividends over the Performance Period adjusted for bonus issues, subdivisions and consolidations of capital. Relative TSR was selected as the LTI performance hurdle as it ensures an alignment between comparative shareholder return and reward for the share rights holder. Shares under the ESP will be allotted to Peter Harold provided that the TSR ranking, as determined by an independent external advisor on behalf of the Remuneration Committee, of the Company at the end of the Performance Period is at or above the 50th percentile of the peer group. At the 50th percentile, Peter Harold will be entitled to 50% of the ESP shares, increasing proportionately to 100% at the 75th percentile;
- ♦ The Company may terminate this employment agreement by providing 6 months' written notice or provide payment in lieu of the combined notice and payment periods (\$296,500 based on the fixed component of Peter Harold's remuneration). On termination on notice by the Company, any LTI options if applicable that have vested, or will vest during the notice period will be able to be exercised until the expiry date. LTI options that have not yet vested will vest immediately upon notice of termination unless termination is from serious misconduct in which case the options not yet vested will be forfeited. The Board of Directors will decide what percentage of LTI performance rights to shares can be converted to shares unless termination is from serious misconduct in which case the performance rights to shares will be forfeited.

DIRECTORS' REPORT

REMUNERATION REPORT (AUDITED) (Continued)

Employment Contracts (continued)

The Chief Financial Officer and Company Secretary, Trevor Eton, is employed under an open contract and under the terms of this contract that commenced on 12 March 2003:

- ♦ Trevor Eton may resign from his position and thus terminate this contract by giving 4 weeks written notice. Any vested options not exercised will be forfeited 4 weeks after notice of resignation.
- ♦ The Company may terminate this employment agreement by providing 4 months written notice or provide payment in lieu of the notice (\$102,500 based on the fixed component of Trevor Eton's remuneration). On termination on notice by the Company, any LTI options that have vested, or will vest during the notice period will be able to be exercised until the expiry date. LTI options that have not yet vested will vest immediately upon notice of termination unless termination is from serious misconduct in which case the options not yet vested will be forfeited.
- ♦ The Company may terminate the contract at any time without notice if serious misconduct has occurred. Where termination with such cause occurs, the Chief Financial Officer is only entitled to that portion of remuneration which is fixed, and only up to the date of termination. On termination with such cause, any unvested options will immediately be forfeited. Any vested options not exercised within 4 weeks of such notice of termination will be forfeited.

The General Manager - Mining, Christopher Williams, is employed under an open contract and under the terms of this contract that commenced on 16 July 2003:

- ♦ Christopher Williams may resign from his position and thus terminate this contract by giving 4 weeks written notice. Any vested options not exercised will be forfeited 4 weeks after notice of resignation.
- ♦ The Company may terminate this employment agreement by providing 4 weeks written notice or provide payment in lieu of the notice period (\$25,625 based on the fixed component of Christopher Williams's remuneration). On termination on notice by the Company, any LTI options that have vested, or will vest during the notice period will be able to be exercised until the expiry date. LTI options that have not yet vested will vest immediately upon notice of termination unless termination is from serious misconduct in which case the options not yet vested will be forfeited.
- ♦ The Company may terminate the contract at any time without notice if serious misconduct has occurred. Where termination with such cause occurs, the General Manager Mining is only entitled to that portion of remuneration which is fixed, and only up to the date of termination. On termination with such cause, any unvested options will immediately be forfeited. Any unvested options not exercised within 4 weeks of such notice of termination will be forfeited.

All other named executives are employed under an open standard contract. These executives and the commencement date of their contracts are as follows:

| Named Executive | Date of Commencement | Position |
|------------------|----------------------|---|
| Terry Strong | 1 April 2005 | Operations Manager - Savannah Project |
| Stephen Kelleher | 5 April 2004 | Group Process Manager & Alternate Operations Manager - Savannah Project |
| Simon Jessop | 22 November 2004 | Operations Manager - Lanfranchi |

The above named executives' employment contracts are under the following terms:

- ♦ Each may resign from his position and thus terminate this contract by giving 4 weeks written notice. Any vested options not exercised will be forfeited 4 weeks after notice of resignation.
- ♦ The Company may terminate their employment agreements by providing 4 weeks written notice, with no payment in lieu of the notice period. On termination on notice by the Company, any LTI options that have vested, or will vest during the notice period will be able to be exercised until the expiry date. LTI options that have not yet vested will vest immediately upon notice of termination unless termination is from serious misconduct in which case the options not yet vested will be forfeited.
- ♦ The Company may terminate the contract at any time without notice if serious misconduct has occurred. When termination with such cause occurs, the named executive is only entitled to that portion of remuneration which is fixed, and only up to the date of termination. On termination with such cause, any unvested options will immediately be forfeited. Any vested options not exercised within 4 weeks of such notice of termination will be forfeited.

No amount was paid or payable by the recipient for those securities granted during the period.

All securities granted during the period can be exercised after the vesting date and prior to the expiry date.

DIRECTORS' REPORT

REMUNERATION REPORT (AUDITED) (Continued)

Options granted as a part of executive remuneration have been valued using a Black Scholes option pricing model, which takes account of factors including the option exercise price, the current level and volatility of the underlying share price, the risk free rate, expected dividends on the underlying share, current market price of the underlying share and the expected life of the option.

Performance rights to shares granted as a part of the Managing Director's remuneration have been valued using a Monte-Carlo simulation model, which takes account of factors including the current level and volatility of the underlying share price, the risk free rate, expected dividends on the underlying share, the current market price of the underlying share and Total Shareholder Return (TSR) hurdles that must be met before the Share Based Payment vest to the holder. This method of valuation has also been used to value performance rights to shares granted to other employees of the Company during the year under the Employee Share Plan (ESP)

There have been no options granted over unissued ordinary shares to key management personnel since 30 June 2008.

ENVIRONMENTAL REGULATION

The Group's operations are subject to significant environmental regulations under both Commonwealth and State legislation in relation to its mining and exploration activities. The Group's management monitors compliance with the relevant environmental legislation. The directors are not aware of any breaches of the legislation during the period covered by this report.

ROUNDING

The amounts contained in this report and in the financial report have been rounded to the nearest \$1,000 (where rounding is applicable) under the option available to the Company under ASIC Class Order 98/0100. The Company is an entity to which the Class Order applies.

CORPORATE GOVERNANCE

In recognising the need for the highest standards of corporate behaviour and accountability, the directors of Panoramic Resources Limited support and have adhered to the principles of corporate governance. The Company's corporate governance statement is attached to the Directors' Report and forms a part of the Directors' Report.

AUDITORS INDEPENDENCE

Section 307C of the Corporations Act 2001 requires our auditors, Ernst & Young, to provide the directors of Panoramic Resources Limited with an Independence Declaration in relation to the audit of the financial report for the year ended 30 June 2008. This Independence Declaration is attached to the Directors' Report and forms a part of the Directors' Report.

DIRECTORS' REPORT

NON-AUDIT SERVICES

The following non-audit services were provided by the entity's auditor, Ernst & Young. The directors are satisfied that the provision of non-audit services is compatible with the general standard of independence for auditors imposed by the Corporations Act. The nature and scope of each type of non-audit service provided means that auditor independence was not compromised.

Ernst & Young received or are due to receive the following amounts for the provision of non-audit services:

| | |
|----------------|----------|
| Tax Compliance | \$58,158 |
| Other | \$8,510 |

Signed in accordance with a resolution of the directors

Peter Harold

Managing Director

Perth, 28 August 2008

CORPORATE GOVERNANCE STATEMENT

The Board of Directors of Panoramic Resources Limited is responsible for the corporate governance of the Company. The Board guides and monitors the business and affairs of Panoramic Resources Limited on behalf of the shareholders by whom they are elected and to whom they are accountable. This statement outlines the main corporate governance practices in place throughout the financial year, which comply with Australian Stock Exchange (ASX) Corporate Governance Council (CGC) Principles of Good Corporate Governance and Best Practice Recommendations (the Recommendations), unless otherwise stated.

As required under ASX Listing Rule 4.10.3, the Company makes the following disclosures in relation to each of the Recommendations.

Principle 1: Lay Foundations for Management and Oversight

Role of the Board

The Board's primary role is the protection and enhancement of long-term shareholder value.

Board of Directors

To ensure the Board is well equipped to discharge its responsibilities, it has established written guidelines for the nomination and selection of directors and for the operation of the Board.

Board Processes

The Board is responsible for the overall Corporate Governance of the Company including the strategic direction, establishing goals for management and monitoring the achievement of these goals. The Board has also established a framework for the management of the Company and its controlled entities including a system of internal control, a business risk management process, the monitoring of financial performance and the establishment of appropriate ethical standards. The agenda for meetings of the Board is prepared by the Managing Director. Standard items include the project reports, financial reports, strategic matters, governance and compliance. Submissions are circulated in advance. Executives are regularly involved in Board discussions.

Principle 2: Structure the Board to Add Value

Composition of the Board

The names of the directors of the Company in office at the date of the Statement are set out in the Directors' report.

The composition of the Board is determined using the following principles:

- ♦ The Board currently comprises five directors. This number may be increased where it is required due to a commercial alliance, or felt that additional expertise is required in specific areas, or when an outstanding candidate is identified;
- ♦ The Board should comprise directors with a broad range of expertise with an emphasis on commercial, exploration, mining and project development related experience; and
- ♦ Directors appointed by the Board are subject to election by shareholders at the following annual general meeting and thereafter directors (other than the Managing Director) are subject to re-election at least every three years. The tenure of executive directors is linked to their holding of executive office.

The Board reviews its composition as required to ensure that the Board has the appropriate mix of expertise and experience. When a vacancy exists, for whatever reason, or where it is considered that the Board would benefit from the services of a new director with particular skills, candidates with the appropriate expertise and experience are considered. The full Board then appoints the most suitable candidate who must stand for election at the next general meeting of shareholders.

Independence

The composition of the Board has gradually changed to reflect the transition of the Company to a sustainable producing concern. As at the date of this report, the majority of directors, including the Chairman, are considered independent of management and directly or indirectly, individually hold less than 5% of the issued ordinary shares of the Company.

Conflict of Interest

In accordance with the Corporations Law and the Company's constitution, directors must keep the Board advised, on an ongoing basis, of any interest that could potentially conflict with those of the Company. Where the Board believes that a significant conflict exists, the director concerned does not receive the relevant board papers and is not present at the meeting whilst the item is considered.

CORPORATE GOVERNANCE STATEMENT

Director Education

The non-executive directors are given every opportunity to gain a better understanding of the business and are given access to continuing education opportunities to update and enhance their skills and knowledge. Directors visit Panoramic's mining operations at least once a year and meet with management on a regular basis.

Independent Professional Advice and Access to Company Information

Each director has the right of access to all relevant Company information and to the Company's executives and, subject to prior consultation with the Chairman, may seek independent professional advice at the Company's expense. A copy of the advice received by the director is made available to all other members of the Board.

Board Committees

To facilitate the execution of its responsibilities, the Board's Committees provide a forum for a more detailed analysis of key issues. Each Committee is entitled to the resources and information it requires to carry out its duties, including direct access to advisors and employees. Membership of the current Committees of the Panoramic Board are set out in the Directors' Report. The names and functions of each Committee is set out below:

- **Audit Committee**

The Audit Committee consists of all non-executive directors. The Audit Committee is to oversee the financial reporting process to ensure the balance, transparency and integrity of published financial information. The Audit Committee is also to review: the effectiveness of internal controls, recommendation and the appointment and assessing the performance of the external auditor; the Company's process for monitoring compliance with laws and regulations affecting financial reporting and, if applicable, its code of business conduct. The Audit Committee operates under an Audit Committee charter that is reviewed by the committee and is re-approved or changed by the full Board on a bi-annual basis.

- **Remuneration Committee**

The Remuneration Committee consists of all directors. The role of the Remuneration Committee is to review remuneration packages and policies applicable to the Managing Director, other executive directors and officers. The remuneration of executive directors is determined by reference to relevant employment market conditions and of the attainment of defined Company goals. The remuneration of senior executives is determined by the Remuneration Committee based on recommendations provided by the Managing Director. Remuneration levels are competitively set to attract the most qualified and experienced directors and senior executives. The Remuneration Committee obtains independent advice on the appropriateness of remuneration packages.

Further details of remuneration arrangements in place for the directors and executives are set out in the Directors' Report.

- **Environment, Safety and Risk**

The Environment, Safety and Risk Committee consists of all directors. The role of the Environment, Safety and Risk Committee is to oversee and monitor the effectiveness of the Group's strategies and systems to ensure that the Company complies with external and internally accepted standards for the impact of business activities on the environment, the safety and well being of employees, and on the control and management of the key risks facing the business. The Committee meets during Board visits to the mining operations whereby the members of the Committee are able to directly inter face with the senior managers responsible for environmental issues, occupational health and safety and the control and mitigation of non financial risks. The Committee also nominates a non-executive director to attend and be actively involved in the Group's safety conferences.

- **Nomination Committee**

Due to the size of the Board and the small management team, the Board has determined there is no benefit at this time of establishing a Nomination Committee.

CORPORATE GOVERNANCE STATEMENT

Principle 3: Promote Ethical and Responsible Decision Making

All directors, executives, managers and employees are expected to act with the utmost integrity and objectivity, striving at all times to enhance the performance and reputation of the Company and its controlled entities.

Trading in Company securities by directors, officers and employees

The Company has established rules for the trading in Company securities by directors, officers and employees to ensure compliance with Section 1002G of the Corporations Law (on insider trading) and Part 2D.1 of the Corporations Law (on the proper duties in relation to the use of inside information). The Managing Director has been appointed to ensure that the following rules for the trading in Company's securities are strictly adhered to by all directors, officers and employees:

- ♦ Trading in Company securities is only permitted following the notification of the intention to trade with the Managing Director;
- ♦ Trading in Company securities is prohibited at any time when in possession of unpublished information, which if generally available, might materially affect the price or value of those securities, or for a period of 2 business days following the making of a public announcement in relation to that inside information (the due notice period);
- ♦ Active trading in Company securities, which involves frequent and regular trading in those securities with a view to derive profit related income from that activity, is prohibited;
- ♦ The entering into contracts to hedge exposure to equity-based remuneration, is prohibited; and
- ♦ Only in exceptional circumstances, can approval be obtained in advance from the Managing Director, to trade outside the due notice period.

Discrimination, Harassment and Bullying Policy

The Company is committed to providing a work environment that is safe, fair and free from discrimination, harassment and bullying for all employees of the Company. All employees are encouraged to follow adopted procedures allowing concerns or instances of illegal conduct or malpractice to be raised in good faith without being subjected to victimisation, harassment or discriminatory treatment, and to have such concerns or instances properly investigated. The Policy provides a mechanism by which all employees can confidentially report improper conduct without fear of discrimination.

Culture and Values

The Company has nurtured a culture and set of values based on respect, action, performance and openness. These values are encouraged to be displayed by all employees in dealings with each other, suppliers, customers and the community.

Principle 4: Safeguard Integrity in Financial Reporting

The Managing Director and Chief Financial Officer are required to state in writing to the Audit Committee and the Board that the Company's and Group's financial reports present a true and fair view, in all material aspects, of the Company's and Group's financial condition and that operational results are in accordance with relevant accounting standards. The Audit Committee reviews all final draft external financial reports with the auditors and makes recommendations on their adequacy to the Board prior to their release to shareholders, investors and other public forums. There is regular communication between the Audit Committee, management and external auditors.

In addition, the Audit Committee reviews, assists and assesses the adequacy of the Company's internal control and financial risk management systems, and accounting and business policies.

CORPORATE GOVERNANCE STATEMENT

Principle 5: Make Timely and Balanced Disclosure

The Company is committed to providing relevant up to date information to its shareholders and the broader investment community in accordance with the continuous disclosure requirements under the ASX Listing Rules and the Corporations Law.

The Company has a Continuous Disclosure Policy that all shareholders and investors have equal access to the Company's information. All material announcements provided to the ASX are posted to the Company's website at www.panres.com.

The Company has appointed the Company Secretary to oversee the continuous disclosure practices of the Company and its controlled entities. His responsibilities include:

- ♦ Reviewing all statutory regulatory or tender reports submitted to or made by the Company and its controlled entities, and to report or recommend to the Board as appropriate;
- ♦ Ensuring compliance with continuous disclosure requirements;
- ♦ Overseeing and coordinating the disclosure of information to the ASX, analysts, brokers, shareholders, the media and public; and
- ♦ Educating directors and staff of the Company's and Group's disclosure policies and procedures and raising awareness of the principles of the underlying continuous disclosure.

Principle 6: Respect the Rights of Shareholders

The Board in adopting a Continuous Disclosure policy ensures that shareholders are provided with up to date Company information. Communication to shareholders is facilitated by the production of the annual report, quarterly reports, public announcements, and the posting of ASX releases on the Company's website immediately after their disclosure to the ASX. In addition, all shareholders are encouraged to attend the Annual General Meeting and use the opportunity to ask questions following the Managing Director's presentation. The Company makes every endeavour to respond to the most commonly asked questions. The external auditor attends the meeting and is available to answer questions in relation to the conduct of the audit.

Principle 7: Recognise and Manage Risk

The Board believes that risk management and compliance are fundamental to sound management and that oversight of such matters is an important responsibility of the Board. The Company's risk management was enhanced during the financial year with the adoption of a formal Risk Management Guideline which included the enterprise risk management framework recommended in Australian Standard for Risk Management AS4360:2004. Following the adoption of this guideline, the Company is now undertaking an annual review at the Company's mine sites and Perth office on identifying the risks faced at each location and the appropriate risk management internal controls, systems and response procedures to mitigate their impact on strategic, operational and financial performance. There are a number of risks the Company's sites are exposed to that are both common to the mining industry and unique due to location and the impact of the sites on different stakeholders.

At the same time as adopting the Panoramic Risk Management Guideline in December 2007, the Board established a new committee of the Board, the Environment, Safety and Risk Committee. As part of its brief, this Committee oversees the Company's management of financial and non-financial risks in accordance with the guideline while always taking into account the Company's legal obligations set by the Federal and State statutory law makers on, but not limited to, environment, employment and occupational health and safety.

The reporting and control mechanisms, together with the assurances of the Environment, Safety and Risk and Audit Committees, support the written certifications given by the Managing Director and the Chief Financial Officer to the Board annually that the Company's financial reports are based on a sound system of risk management and internal control.

Principle 8: Encouraging Enhanced Performance

The Company has in place a performance appraisal and remuneration system for the Managing Director and executives designed to enhance performance. Management performance is reviewed on an annual basis. The criterion for the evaluation of the Managing Director and each executive is their performance against key performance indicators. In addition, the Board monitors and evaluates the performance of the Managing Director and senior executives as appropriate.

There is no formal performance appraisal system in place for Board performance on a director by director basis. However, membership of the Audit Committee by non-executive directors is initially for a three year period, with an annual renewal cum review thereafter with performance being a criteria in order to retain office..

CORPORATE GOVERNANCE STATEMENT

Principle 9: Remunerate Fairly and Responsibly

Board Remuneration

The total annual remuneration paid to non-executive directors may not exceed the limit set by the shareholders at an annual general meeting (currently \$600,000). The remuneration of the non-executive directors is fixed rather than variable.

Executive Remuneration

The Remuneration Committee provides recommendations and direction for the Company's remuneration practices. The Committee ensures that a significant proportion of each executive's remuneration is linked to his or her performance and the Company's performance. Performance reviews are conducted regularly to determine the proportion of remuneration that will be at risk for the upcoming year. The Company's executives can participate in a performance share rights plan that is linked to the Company's performance against its peers in the resources industry.

Further details in relation to director and executive remuneration are set out in the Remuneration Report on pages 11 to 21.

Principle 10: Recognise the Legitimate Interest of Stakeholders

The Company takes its responsibility to its stakeholders very seriously. In addition to the policies and values described under Principle 3, the Company has adopted a number of policies that address the interests of all stakeholders, including a community relations policy and environmental and occupational health and safety policy, to ensure all stakeholder interests are recognised. These policies are integrated into all aspects of the Company's business activities.

The negotiation and signing of separate Co-Existence Agreements in November 2007 with the traditional owners of the Warmun and Turkey Creek indigenous Community in the East Kimberley is an example of how the Company is ensuring that our business is conducted having regard to the local communities and to the environment in the areas in which we operate.

The Company has produced a Sustainability Report and this report is included in the full 2008 Annual Report to be distributed to shareholders. This report encompasses the Company's approach to the interests of stakeholders in a more formal context.

In accordance with a resolution of the directors of Panoramic Resources Limited (the Company), I state that:

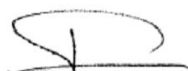

1. In the opinion of the directors:

- (a) the financial report and the additional disclosures included in the directors report designated as audited of the Company and of the consolidated entity are in accordance with the Corporations Act 2001, including:
 - (i) giving a true and fair view of the Company's and consolidated entity's financial position as at 30 June 2008 and of their performance for the year ended on that date; and
 - (ii) complying with Accounting Standards and Corporations Regulations 2001; and
- (b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

2. This declaration has been made after receiving the declarations required to be made to the directors in accordance with Sections 295A of the Corporations Act 2001 for the financial period ending 30 June 2008.

3. In the opinion of the directors, as at the date of this declaration, there are reasonable grounds to believe that the members of the Closed Group identified in note 34 will be able to meet any obligations or liabilities to which they are or may become subject, by virtue of the Deed of Cross Guarantee.

On behalf of the Board

Peter Harold
Managing Director

Perth, 28 August 2008

Auditor's Independence Declaration to the Directors of Panoramic Resources Limited

In relation to our audit of the financial report of Panoramic Resources Limited for the financial year ended 30 June 2008, to the best of my knowledge and belief, there have been no contraventions of the auditor independence requirements of the Corporations Act 2001 or any applicable code of professional conduct.

To the members of Panoramic Resources Limited

Report on the Financial Report

We have audited the accompanying financial report of Panoramic Resources Limited, which comprises the balance sheet as at 30 June 2008, and the income statement, statement of changes in equity and cash flow statement for the year ended on that date, a summary of significant accounting policies, other explanatory notes and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the year's end or from time to time during the financial year.

Directors' Responsibility for the Financial Report

The directors of the company are responsible for the preparation and fair presentation of the financial report in accordance with the Australian Accounting Standards (including the Australian Accounting Interpretations) and the Corporations Act 2001. This responsibility includes establishing and maintaining internal controls relevant to the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances. In Note 1(b), the directors also state that the financial report, comprising the financial statements and notes, complies with International Financial Reporting Standards as issued by the International Accounting Standards Board.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, we consider internal controls relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit we have met the independence requirements of the Corporations Act 2001. We have given to the directors of the company a written Auditor's Independence Declaration, a copy of which is included in the directors' report. In addition to our audit of the financial report, we were engaged to undertake the services disclosed in the notes to the financial statements. The provision of these services has not impaired our independence.

Auditor's Opinion

In our opinion:

1. the financial report of Panoramic Resources Limited is in accordance with the Corporations Act 2001, including:
 - (i) giving a true and fair view of the financial position of Panoramic Resources Limited and the consolidated entity at 30 June 2008 and of their performance for the year ended on that date; and
 - (ii) complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the Corporations Regulations 2001.
2. the financial report also complies with International Financial Reporting Standards as issued by the International Accounting Standards Board.

Report on the Remuneration Report

We have audited the Remuneration Report included in pages 11 to 21 of the directors' report for the year ended 30 June 2008. The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Auditor's Opinion

In our opinion the Remuneration Report of Panoramic Resources Limited for the year ended 30 June 2008, complies with section 300A of the Corporations Act 2001.

1 Summary of significant accounting policies

The financial report of Panoramic Resources Limited (formerly Sally Malay Mining Limited) (the Company) for the year ended 30 June 2008 was authorised for issue in accordance with a resolution of the directors on 28 August 2008.

Panoramic Resources Limited (formerly Sally Malay Mining Limited) (the parent) is a company limited by shares incorporated in Australia whose shares are publicly traded on the Australian Stock Exchange.

The principal activities of the consolidated entity during the course of the financial year consisted of exploration, evaluation, development, and production of mineral deposits.

(a) Basis of preparation

The financial report is a general purpose financial report, which has been prepared in accordance with the requirements of the Corporations Act 2001 and Australian Accounting Standards. The financial report has also been prepared on a historical cost basis, except for derivative financial instruments, trade receivables and available for sale investments, which have been measured at fair value.

(b) New accounting standards and interpretations

The financial report complies with Australian Accounting Standards, which include Australian equivalents to International Financial Reporting Standards (AIFRS). Compliance with AIFRS ensures that the financial report, comprising the financial statements and notes thereto, complies with International Reporting Standards (IFRS).

Australian Accounting Standards that have recently been issued or amended and are not yet effective have not been adopted for the annual reporting period ending 30 June 2008:

(i) AASB Int. 4 (Revised) *Determining whether an Arrangement contains a Lease*

The revised Interpretation specifically scopes out arrangements that fall within the scope of AASB Interpretation 12. This is applicable to annual reporting periods beginning on or after 1 January 2008. The Group does not enter into service concession agreements or public-private-partnerships (PPP), as such the amendments are not expected to have any impact on the Group's financial report.

(ii) AASB 8 and AASB 2007-3 *Operating Segments and consequential amendments to other Australian Accounting Standards*

This is a new standard replacing AASB 114 Segment Reporting, which adopts a management reporting approach to segment reporting. This is applicable to annual reporting periods beginning on or after 1 January 2009. AASB 8 is a disclosure standard so will have no direct impact on the amounts included in the Group's financial statements. It may have an impact on the Group's segment disclosures.

(iii) AASB 123 (Revised) and AASB 2007-6 *Borrowing Costs and consequential amendments to other Australian Accounting Standards*

The amendments to AASB 123 require that all borrowing costs associated with qualifying asset be capitalised. This is applicable to annual reporting periods beginning on or after 1 January 2009. The Group has no borrowing costs associated with qualifying assets and as such the amendments are not expected to have any impact on the Group's financial report.

(iv) AASB 101 (Revised) and AASB 2007-8 *Presentation of Financial Statements and consequential amendments to other Australian Accounting Standards*

This standard introduces a statement of comprehensive income. Other revisions include impacts on the presentation of items in the statement of changes in equity, new presentation requirements for restatements or reclassifications of items in the financial statements, changes in the presentation requirements for dividends and changes to the titles of the financial statements. This is applicable to annual reporting periods beginning on or after 1 January 2009. These amendments are only expected to affect the presentation of the Group's financial report and will not have a direct impact on the measurement and recognition of amounts disclosed in the financial report. The Group has not determined at this stage whether to present a single statement of comprehensive income or two separate statements.

(v) AASB 2008-1 *Amendments to Australian Accounting Standard - Share-based Payments: Vesting Conditions and Cancellations*

The amendments clarify the definition of 'vesting conditions', introducing the term 'non-vesting conditions' for conditions other than vesting conditions as specifically defined and prescribe the accounting treatment of an award that is effectively cancelled because a non-vesting condition is not satisfied. This is applicable to annual reporting periods beginning on or after 1 January 2009. The Group has share-based payment arrangements that maybe affected by these amendments. However, the Group has not yet determined the extent of the impact, if any.

1 Summary of significant accounting policies (continued)

(vi) AASB 3 (Revised) *Business Combinations*

The revised standard introduces a number of significant changes to the accounting for business combinations. The changes apply prospectively. This is applicable to annual reporting periods beginning on or after 1 July 2009. The Group has not yet assessed the impact, including which accounting policy to adopt should the Group enter into some business combinations during the next financial year.

(vii) AASB 127 (Revised) *Consolidated and Separet Financial Statements*

Under the revised standard, a change in ownership interest of a subsidiary (that does not result in loss of control) will be accounted for as an equity transaction. This is applicable to annual reporting periods beginning on or after 1 July 2009. If the Group changes its ownership interest in existng subsidiaries in the future, the change will be accounted for as an equity transaction. This will have no impact on goodwill, nor will itgive rise to a gain or loss in the Group's income statement.

(viii) AASB 2008-3 *Amendments to Australian Accounting Standards arising from AASB 3 and AASb 127*

Amending standard issued as a consequence of revisions to AASB 3 and AASB 127. This is applicable to annual reporting periods beginning on or after 1 July 2009. Refer to AASB 3 (Revised) and AASB 127 (Revised) above for explanation on how this impacts the Group's financial report.

(ix) Amendments to International Financial Reporting Standards *Cost of an Investment in a Subsidiary, Jointly Controlled Entity or Associate*

The main amendments of relevance to Australian entities are those made to IAS 27 deleting the 'cost method' and requiring all dividends from a subsidiary, jointly controlled entity or associate to be recognised in profit and loss in an entity's separate financial statements (i.e., parent company accounts). The distinction between pre- and post-acquisition profits no longer required. However, the payment of such dividends requires the entity to consider whether there is an indicator of impairment.

AASB 127 has also been amended to effectively allow the cost of an investment in a sibsiary, in limited reorganisations, to be based on the previous carrying amout of the subsidiary (that is, share of equity) rather than its fair value.

This is applicable to annual reporting periods beginning on or after 1 January 2009. Recognising all dividends received from subsidiaries, jointly controlled entities and associates as income will likely give rise to greater income being recognised by the parent entity after adoption of these amendments. In addition, if the Group enters into any group reorganisation establishing new parent entities, an assessment will need to be made to determine if the reorganisation meets the conditions imposed to be effectively accounted for on a 'carry-over basis' rather than at fair value.

(x) Amendments to International Financial Reporting *Improvements to IFRSs*

This improvement project is an annual project that provides a mechanism for making non-urgent, but necessary, amendments to IFRSs. The IASB has separated the amendments into two parts: Part 1 deals with changes the IASB identified resulting in accounting changes; Part II deals with either terminology or editorial amendments that IASB believes will have minimal impact. This is applicable to annual reporting periods beginning on or after 1 January 2009 except for amendments to IFRS 5, which are effective from 1 July 2009. The Group has not yet determined the extent of the impact of the amendments, if any.

(c) Basis of consolidation

The consolidated financial statements comprise of the financial statements of Panoramic Resources Limited and all entities that Panoramic Resources Limited controlled from time to time during the year and at the reporting date.

Information from the financial statements of subsidiaries is included from the date that the parent company obtains control until such time as control ceases. Where there is a loss of control of a subsidiary, the consolidated financial statements include the results for the part of the reporting period during which the parent company has control. Subsidiary acquisitions are accounted for using the purchase method of accounting.

The financial statements of the subsidiaries are prepared for the same reporting period as the parent company, using consistent accounting policies.

Adjustments are made to bring into line any dissimilar accounting policies that may exist.

All inter-company balances and transactions, including unrealised profits arising from intra-group transactions, have been eliminated in full. Unrealised losses are eliminated unless costs cannot be recovered.

1 Summary of significant accounting policies (continued)

(d) Significant accounting judgements, estimates and assumptions

In the process of applying the Group's accounting policies, management has made the following judgements, and estimations which have the most significant effect on the amounts recognised in the financial statements

Determination of mineral resources and ore reserves

The Group estimates its mineral resources and ore reserves in accordance with the Australian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves 2004 (the 'JORC code') as a minimum standard. The information on mineral resources and ore reserves were prepared by or under the supervision of Competent Persons as defined in the JORC code. The amounts presented are based on the mineral resources and ore reserves determined under the JORC code.

There are numerous uncertainties inherent in estimating mineral resources and ore reserves and assumptions that are valid at the time of estimation may change significantly when new information becomes available. Significant judgement is required in assessing the available reserves. Factors that must be considered in determining reserves and resources are the company's history of converting resources to reserves and the relevant time frame, market and future developments.

Changes in the forecast prices of commodities, exchange rates, production costs or recovery rates may change the economic status of reserves and may, ultimately, result in the reserves being restated. Such changes in reserves could impact on depreciation and amortisation rates, asset carrying values and provisions for decommissioning and restoration.

Impairment of capitalised exploration and evaluation expenditure

The Group assesses impairment of all assets at each reporting date by evaluating conditions specific to the Group and to the particular asset that may lead to impairment. If an impairment trigger exists, the recoverable amount of the asset is determined. The future recoverability of capitalised exploration and evaluation expenditure is dependent on a number of factors, including whether the Group decided to exploit the related lease itself or, if not, whether it successfully recovers the related exploration and evaluation asset through sale.

Factors which could impact the future recoverability include the level of proved and probable reserves and mineral resources, future technological changes which could impact the cost of mining, future legal changes (including changes to environmental restoration obligations) and changes to commodity prices.

To the extent that capitalised exploration and evaluation is determined not to be recoverable in the future, this will reduce profits and net assets in the period in which this determination is made.

In addition, exploration and evaluation expenditure is capitalised if activities in the area of interest have not yet reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves. To the extent that it is determined in the future that this capitalised expenditure should be written off, this will reduce profits and net assets in the period in which this determination is made.

Impairment of capitalised mine development expenditure

The Group assesses impairment of all assets at each reporting date by evaluating conditions specific to the Group and to the particular asset that may lead to impairment. If an impairment trigger exists, the recoverable amount of the asset is determined. The future recoverability of capitalised mine development expenditure is dependent on a number of factors, including the level of proved, probable and inferred mineral resources, future technological changes which could impact the cost of mining, future legal changes (including changes to environmental restoration obligations) and changes to commodity prices.

To the extent that capitalised mine development expenditure is determined not to be recoverable in the future, this will reduce profits and net assets in the period in which this determination is made.

Impairment of property, plant and equipment

The Group assesses impairment of all assets at each reporting date by evaluating conditions specific to the Group and to the particular asset that may lead to impairment. If an impairment trigger exists, the recoverable amount of the asset is determined. Where a review for impairment is conducted, the recoverable amount is assessed by reference to the higher of 'value in use' (being the net present value of expected future cash flows of the relevant cash generating unit) and 'fair value less costs to sell'.

In determining value in use, future cash flows are based on:

1 Summary of significant accounting policies (continued)

- Estimates of the quantities of ore reserves and mineral resources for which there is a high degree of confidence of economic extraction;
- Future production levels;
- Future commodity prices; and
- Future cash costs of production and capital expenditure.

Variations to the expected future cash flows, and the timing thereof, could result in significant changes to any impairment losses recognised, if any, which could in turn impact future financial results.

Provisions for decommissioning and restoration costs

Decommissioning and restoration costs are a normal consequence of mining, and the majority of this expenditure is incurred at the end of a mine's life. In determining an appropriate level of provision consideration is given to the expected future costs to be incurred, the timing of these expected future costs (largely dependent on the life of the mine), and the estimated future level of inflation.

The ultimate cost of decommissioning and restoration is uncertain and costs can vary in response to many factors including changes to the relevant legal requirements, the emergence of new restoration techniques, discount rates or experience at other mine sites. The expected timing of expenditure can also change, for example in response to changes in reserves or to production rates.

Changes to any of the estimates could result in significant changes to the level of provisioning required, which would in turn impact future financial results.

Recoverability of potential deferred income tax assets

The Group recognises deferred income tax assets in respect of tax losses to the extent that it is probable that the future utilisation of these losses is considered probable. Assessing the future utilisation of these losses requires the Group to make significant estimates related to expectations of future taxable income. Estimates of future taxable income are based on forecast cash flows from operations and the application of existing tax laws. To the extent that future cash flows and taxable income differ significantly from estimates, this could result in significant changes to the deferred income tax assets recognised, which would in turn impact future financial results.

Share-based payment transactions

The Group measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by a Black Scholes model and a Binomial model, using the assumptions detailed in note 39.

(e) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised:

(i) Sale of concentrates/ore

A sale is recorded when control of the concentrates/ore has passed to the buyer.

(ii) Interest income

Revenue is recognised as interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

(iii) Dividends

Dividends are recognised as revenue when the right to receive payment is established.

(f) Borrowing costs

Borrowing costs include interest, amortisation of discounts or premiums relating to borrowings, amortisation of ancillary costs incurred in connection with arrangement of borrowings, finance charges in respect of finance leases and foreign exchange differences net of the effect of hedges of borrowings.

1 Summary of significant accounting policies (continued)

Borrowing costs are expensed as incurred unless they relate to qualifying assets. Qualifying assets are assets that take more than twelve months to get ready for their intended use or sale. In these circumstances, borrowing costs are capitalised to the costs of the assets. Where funds are borrowed specifically for the acquisition, construction or production of a qualifying asset, the amount of borrowing costs capitalised is those incurred in relation to that borrowing, net of any interest earned on those borrowings. Where funds are borrowed generally, borrowing costs are capitalised using a weighted average capitalisation rate to the extent that they relate to the qualifying asset.

Exploration and evaluation expenditure carried forward relating to areas of interest which have not reached a stage permitting reliable assessment of economic benefits are not qualifying assets.

(g) Leases

Finance leases, which transfer to the Group substantially all the risks and benefits incidental to ownership of the leased item, are capitalised at the inception of the lease at the fair value of the leased property or, if lower, at the present value of the minimum lease payments.

Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly against income.

Capitalised leased assets are depreciated over the shorter of the estimated useful life of the asset or the lease term.

Leases where the lessor retains substantially all the risks and benefits of ownership of the asset are classified as operating leases. Initial direct costs incurred in negotiating an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as the lease income.

Operating lease payments are recognised as an expense in the income statement on a straight-line basis over the lease term.

(h) Cash and cash equivalents

Cash on hand and in banks and short-term deposits are stated at nominal value.

For the purposes of the Cash Flow Statement, cash includes cash on hand and in banks and short term deposits with an original maturity of three months or less, net of outstanding bank overdrafts.

(i) Trade receivables

(i) Nickel concentrate

Mining revenue from nickel concentrate sales exported from the Savannah Nickel Project is recognised at its provisional price on the day the product has been shipped from port. 100% of the provisional value is payable in approximately 7 working days from issue of a provisional invoice. Increments and decrements in both final measured contained nickel in nickel concentrate delivered to the customer and the determination of the final nickel price, being the spot monthly average nickel price of the month the product has been shipped from port, are brought to account upon presentation of the final invoice.

(ii) Nickel ore

Mining revenue from Lanfranchi nickel ore delivered to the Kambalda concentrator is recognised at its provisional price net of the amount goods and services tax (GST) payable to the taxation authority. 70% of the provisional invoice is payable one month after issue. Revenue is recognised based on estimated fair value of the consideration received and the embedded derivative is included within trade receivable. At each reporting date, provisional priced nickel is marked to market based on forward selling price for the quotational period stipulated in the contract until the quotational period expires and change in fair value is recognised as revenue.

(iii) Other receivables

Receivables from related parties are recognised and carried at the nominal amount due. Interest is taken up as income on an accrual basis.

(j) Inventories

(i) Raw materials and stores, work in progress and finished goods

Inventories are valued at the lower of cost and net realisable value.

1 Summary of significant accounting policies (continued)

Costs incurred in bringing inventory to its present location and condition are accounted for as follows:

- ore stocks – cost of direct mining and a proportion of site overheads; and
- concentrates and work in progress – cost of direct mining, processing, transport and labour and a proportion of site overheads.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

(ii) Spares for production

Inventories of consumable supplies and spare parts expected to be used in production are valued at weighted average cost. Obsolete or damaged inventories of such items are valued at net realisable value.

(k) Derivative financial instruments and hedging

The Group uses derivatives such as United States dollar nickel and copper forward sales contracts, United States dollar nickel options, United States denominated currency options and United States denominated forward currency sales contracts to manage its risks associated with foreign currencies and commodity prices fluctuations. These derivative financial instruments are stated at fair value.

Derivatives are not held for speculative purposes.

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently remeasured to their fair value at each reporting date. The resulting gain or loss is recognised in profit or loss immediately unless the derivative is designated and effective as a cash flow hedging instrument, in which event, the timing of the recognition in profit or loss depends on the nature of the hedge relationship.

A hedge of the foreign currency risk and commodity price risk of a firm commitment is accounted for as a cash flow hedge.

At the inception of a hedge relationship, the Group formally designates and documents the hedge relationship to which the Group wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes identification of the hedging instrument, the hedged item or transaction, the nature of the risk being hedged and how the entity will assess the hedging instrument's effectiveness in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in the fair value or cash flows and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

The hedges that meet the strict criteria for hedge accounting are accounted for as follows:

(i) Cash flow hedges

Cash flow hedges are hedges of the Group's exposure to variability in cash flows that is attributable to a particular risk associated with a highly probable forecast transaction and that could affect profit and loss. The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges are deferred in equity. The gain or loss relating to the ineffective portion is recognised immediately in the income statement.

Amounts deferred in equity are recycled in the income statement in the periods when the hedged item is recognised in the income statement.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. At that time, any cumulative gain or loss deferred in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in the income statement. When a forecast transaction is no longer expected to occur, the cumulative gain or loss that was deferred in equity is recognised immediately in the income statement.

The Group tests each of the designated cash flow hedges for effectiveness at the inception of the hedge and then at each reporting date both prospectively and retrospectively using the dollar offset method. This is done by comparing the changes in the present value of the cash flow arising from hedged forecast sale at the forward rate, compared to changes in the fair value of the forward contract. Measurement of the cash flow changes is based on the respective forward curve over the hedge horizon for the US Dollar Nickel concentrate transacted on the London Metals Exchange.

At each balance sheet date, the Group measures ineffectiveness using ratio offset method. For foreign currency cash flow hedges if the risk is over-hedged, the ineffective portion is taken immediately to their income/expense in the income statement.

1 Summary of significant accounting policies (continued)

(ii) Derivatives that do not qualify for hedge accounting

Certain derivative instruments do not qualify for hedge accounting. Changes in the fair value of any derivative instruments that do not qualify for hedge accounting are recognised immediately in the income statement.

(l) Foreign currency translation

Both the functional and presentation currency of Panoramic Resources Limited and its Australian subsidiaries is Australian dollars (A\$).

Transactions in foreign currencies are initially recorded in the functional currency at the exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the balance sheet date.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate as at the date of the initial transaction.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

(m) Interest in jointly controlled assets

Interests in unincorporated joint venture assets are recognised by including in the respective classifications, the share of the individual assets employed and share of liabilities and expenses incurred from the date joint control commences to the date joint control ceases.

(n) Investments

(i) Investments in controlled entities

Investments in controlled entities are carried at the lower of cost and recoverable amount.

(ii) Available-for-sale financial assets

After initial recognition available-for sale investments are measured at fair value with gains or losses being recognised as a separate component of equity until the investment is derecognised or until the investment is determined to be impaired, at which time the cumulative gain or loss previously reported in equity is recognised in profit or loss.

The fair value of investments that are actively traded in organised financial markets is determined by reference to quoted market bid prices at the close of business on the balance sheet date.

Investments which are not classified as held for trading or held to maturity are treated as available for sale financial assets.

(o) Income tax

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the balance sheet date.

Deferred income tax is provided on all temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial purposes.

Deferred income tax liabilities are recognised for all taxable temporary differences:

- except where the deferred income tax liability arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, except where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred income tax assets are recognised for all deductible temporary differences, carry-forward of unused tax assets and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry-forward of unused tax assets and unused tax losses can be utilised:

1 Summary of significant accounting policies (continued)

- except where the deferred income tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred income tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Unrecognised deferred tax assets and liabilities are reassessed as each balance sheet date and reduced to the extent that it is no longer probable that future taxable profit will allow the deferred tax asset to be utilised.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

Income taxes relating to items recognised directly in equity are recognised in equity and not in profit or loss.

Deferred tax assets and deferred tax liabilities are offset only if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and liabilities relate to the same taxable entity and the same taxation authority.

Tax consolidation legislation

Panoramic Resources Limited (formerly Sally Malay Mining Limited) and its wholly-owned Australian controlled entities have implemented the tax consolidation legislation.

The head entity, Panoramic Resources Limited (formerly Sally Malay Mining Limited), and the controlled entities in the tax consolidated group account for their own current and deferred tax amounts. These tax amounts are measured as if each entity in the tax consolidated group continues to be a stand alone taxpayer in its own right.

In addition to its own current and deferred tax amounts, Panoramic Resources Limited (formerly Sally Malay Mining Limited) also recognises the current tax liabilities (or assets) and the deferred tax assets arising from unused tax losses and unused tax credits assumed from controlled entities in the tax consolidated group.

Assets or liabilities arising under tax funding agreements with the tax consolidated entities are recognised as amounts receivable from or payable to other entities in the Group. Details about the tax funding agreement are disclosed in note 7.

Any difference between the amounts assumed and amounts receivable or payable under the tax funding agreement are recognised as a contribution to (or distribution from) wholly-owned tax consolidated entities.

(p) Other taxes

Revenue, expenses and assets are recognised net of the amount of GST except:

- where the GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

Cash flows are included in the Cash Flow Statement on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority, are classified as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

1 Summary of significant accounting policies (continued)

(q) Property, plant and equipment

Items of plant and equipment are stated at cost less accumulated depreciation and any impairment in value. The cost of plant and equipment constructed for and by the consolidated entity, where applicable, includes the cost of materials and direct labour. The proportion of overheads and other incidental costs directly attributable to its construction are also capitalised to the cost of plant and equipment.

Costs incurred on plant and equipment subsequent to initial acquisition are capitalised when it is probable that future economic benefits, in excess of the originally assessed performance of the asset will flow to the consolidated entity in future years. Where these costs represent separate components of a complex asset, they are accounted for as separate assets and are separately depreciated over their useful lives. Costs incurred on plant and equipment that do not meet the criteria for capitalisation are expensed as incurred.

Depreciation and amortisation

Depreciation and amortisation is calculated on a straight line basis over the estimated useful lives of the assets. The estimated useful lives used for each class of asset are as follows:

| | |
|---|--|
| Office equipment | 3-4 years |
| Office furniture and fittings | 5 years |
| Plant and equipment under hire purchase | over the lease term |
| Plant and equipment under finance lease | over the lease term |
| Process plant and buildings | lesser of life of mine and life of asset |

Impairment

The carrying values of plant and equipment are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable.

For an asset that does not generate largely dependent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

If any such indication exists and where the carrying values exceed the estimated recoverable amount, the assets or cash-generating units are written down to their recoverable amount.

The recoverable amount of plant and equipment is the greater of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

Derecognition and disposal

An item of property, plant and equipment is derecognised upon disposal or when no further future economic benefits are expected from its use or disposal.

Any gain or loss arising on derecognition of the asset (calculated as the difference between net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the year the asset is derecognised.

(r) Exploration, evaluation, development, mine properties and rehabilitation expenditure

(i) Exploration and evaluation expenditure

Expenditure on exploration and evaluation is accounted for in accordance with the 'area of interest' method.

Exploration and evaluation expenditure is capitalised provided the rights to tenure of the area of interest is current and the exploration and evaluation activities are expected to be recouped through successful development and exploitation of the area or, alternatively, by its sale.

Exploration and evaluation in the area of interest that have not at the reporting date reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves, and active and significant operations in, or relating to, the area of interest are expensed as incurred.

When the technical feasibility and commercial viability of extracting a mineral resource have been demonstrated then any capitalised exploration and evaluation expenditure is reclassified as capitalised mine development. Prior to reclassification, capitalised exploration and evaluation is assessed for impairment.

Impairment

1 Summary of significant accounting policies (continued)

The carrying value of capitalised exploration expenditure is assessed for impairment at the cash generating unit level whenever facts and circumstances suggest that the carrying amount of the asset may exceed its recoverable amount.

The recoverable amount of capitalised exploration and evaluation expenditure is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

For an asset that does not generate largely independent cash inflows, recoverable amount is determined for the cash-generating unit in which the asset belongs, unless the asset's value in use can be estimated to be close to its fair value.

An impairment exists when the carrying amount of an asset or cash-generating unit exceeds its estimated recoverable amount. The asset or cash-generating unit is then written down to its recoverable amount. Any impairment losses are recognised in the income statement.

(ii) Mine development expenditure

Mine development expenditure represents the costs incurred in preparing mines for production, and includes stripping and waste removal costs incurred before production commences. These costs are capitalised to the extent they are expected to be recouped through successful exploitation of the related mining leases. Once production commences, these costs are amortised using the units of production method based on the estimated economically recoverable reserves to which they relate or are written off if the mine property is abandoned.

Impairment

The carrying value of capitalised mine development is assessed for impairment whenever facts and circumstances suggest that the carrying amount of the asset may exceed its recoverable amount.

The recoverable amount of capitalised mine development expenditure is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

For an asset that does not generate largely independent cash inflows, recoverable amount is determined for the cash generating unit in which the asset belongs, unless the asset's value in use can be estimated to be close to its fair value.

An impairment exists when the carrying amount of an asset or cash generating unit exceeds its estimated recoverable amount. The asset or cash generating unit is then written down to its recoverable amount. Any impairment losses are recognised in the income statement.

(iii) Mine properties

Mine properties expenditure represents the cost incurred in the acquisition of a mining lease, and represents the excess of the cost of acquisition over the fair value of the net identifiable assets of the acquired mining lease at the date of acquisition. These costs are capitalised to the extent they are expected to be recouped through successful exploitation of the related mining leases. Once production commences, these costs are amortised using the units of production method based on the estimated economically recoverable reserves to which they relate or are written off if the mine property is abandoned.

Impairment

The carrying value of capitalised mine properties is assessed for impairment whenever facts and circumstances suggest that the carrying amount of the asset may exceed its recoverable amount.

The recoverable amount of capitalised mine properties expenditure is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

For an asset that does not generate largely independent cash inflows, recoverable amount is determined for the cash generating unit in which the asset belongs, unless the asset's value in use can be estimated to be close to its fair value.

An impairment exists when the carrying amount of an asset or cash generating unit exceeds its estimated recoverable amount. The asset or cash generating unit is then written down to its recoverable amount. Any impairment losses are recognised in the income statement.

(iii) Provisions for decommissioning and rehabilitation

1 Summary of significant accounting policies (continued)

The Group is required to decommission and rehabilitate mines and processing sites at the end of their producing lives to a condition acceptable to the relevant authorities.

The expected cost of any approved decommissioning or rehabilitation program, discounted to its net present value, is provided in the period in which obligation arise. The cost is capitalised when it gives rise to future benefits, whether the rehabilitation activity is expected to occur over the life of the operation or at the time of closure. Over the time, the liability is increased for the change in net present value based on a risk adjusted pre-tax discount rate appropriate to the risk inherent in the liability. The unwinding of the discount is included in financing cost. Expected decommissioning and rehabilitation costs are based on the discounted value of the estimated future cost of detailed plans prepared for each site. Where there is a change in the expected decommissioning and restoration costs, the value of the provision and any related asset are adjusted and the effect is recognised in the Income Statement on a prospective basis over the remaining life of the operation.

(s) Impairment of assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of its fair value less costs to sell and its value in use and determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets and the asset's value in use cannot be estimated to be close to its fair value. In such cases the asset is tested for impairment as part of the cash-generating unit to which it belongs. When the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset or cash-generating unit is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses relating to continuing operations are recognised on those expense categories consistent with the function of the impaired asset unless the asset is carried at revalued amount (in which case the impairment loss is treated as a revaluation decrease).

An assessment is also made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would be determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in profit and loss unless the asset is carried at revalued amount, in which case the reversal is treated as a revaluation increase. After such a reversal the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

(t) Trade and other payables

Trade payables and other payables are carried at amortised costs and represent liabilities for goods and services provided to the Group prior to the end of the financial year that are unpaid and arise when the Group becomes obliged to make future payments in respect of the purchase of these goods and services.

(u) Interest-bearing loans and borrowings

All loans and borrowings are initially recognised at cost, being the fair value of the consideration received net of issue costs associated with the borrowing.

After the initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Amortised cost is calculated by taking into account any issue costs, and any discount or premium on settlement.

Gains and losses are recognised in the income statement when the liabilities are derecognised and as well as through the amortisation process.

1 Summary of significant accounting policies (continued)

(v) Provisions

Provisions are recognised when the economic entity has a present obligation (legal or constructive) to make a future sacrifice of economic benefits to other entities as a result of past transactions or other past events, it is probable that a future sacrifice of economic benefits will be required and a reliable estimate can be made of the amount of the obligation.

When the Group expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the income statement net of any reimbursement.

The effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

Where discounting is used, the increase in the provision due to the passage of time is recognised as a borrowing cost.

(w) Employee benefits

(i) *Wages and salaries, annual leave and sick leave*

Liabilities for wages and salaries, including non-monetary benefits, annual leave and accumulating sick leave expected to be settled within 12 months of the reporting date are recognised in other payables in respect of employees' services up to the reporting date. They are measured at the amounts expected to be paid when the liabilities are settled. Liabilities for non-accumulating sick leave are recognised when the leave is taken and are measured at the rates paid or payable.

(ii) *Long service leave*

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures, and periods of service. Expected future payments are discounted using market yields at the reporting date of national government bonds with terms of maturity and currencies that match, as closely as possible, the estimated future cash outflows.

(iii) *Share-based payments* *Equity settled transactions*

The Group provides benefits to employees (including directors) of the Group in the form of share-based payment transactions, whereby employees render services in exchange for rights over shares ('equity-settled transactions').

The cost of these equity-settled transactions with employees is measured by reference to the fair value at the date at which they are granted. The fair value is determined using the Black Scholes model.

In valuing equity-settled transactions, no account is taken of any performance conditions, other than conditions linked to the price of shares of Panoramic Resources Limited if applicable.

The cost of equity-settled transactions is recognised, together with the corresponding increase in reserve, over the period in which the performance conditions are fulfilled, ending on the date on which the relevant employees become fully entitled to the award ('vesting date').

The cumulative expense recognised for equity-settled transactions at each reporting date until vesting date reflects (i) the extent to which the vesting period has expired and (ii) the number of awards that, in the opinion of the directors of the Group, will ultimately vest. This opinion is formed based on the best available information at balance date. No adjustment is made for the likelihood of market performance conditions being met as the effect of these conditions is included in the determination of fair value at grant date. The income statement charge or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period. There is a corresponding entry to equity.

No expense is recognised for awards that do not ultimately vest, except for awards where vesting is conditional upon a market condition.

If the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payment arrangement, or is otherwise beneficial to the employee, as measured at the date of modification.

1 Summary of significant accounting policies (continued)

If an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. However, if a new award is substituted for the cancelled award and designated as a replacement award on the date that it is granted, the cancelled and new award are treated as if they were a modification of the original award, as described in the previous paragraph.

The dilutive effect, if any, of outstanding options is reflected as additional share dilution in the computation of earnings per share.

(x) Contributed equity

Ordinary share capital is recognised at fair value of the consideration received by the company. Any transaction costs arising as a result of ordinary shares issued at balance date are recognised in equity as a reduction of the share proceeds received.

(y) Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the financial year but not distributed at balance date.

(z) Earnings per share

Basic earnings per share is calculated as net profit attributable to members of the parent, adjusted to exclude any costs of servicing equity (other than dividends) and preference share dividends, divided by the weighted average number of ordinary shares, adjusted for any bonus element.

Diluted earnings per share is calculated as net profit attributable to members of the parent, adjusted for:

- costs of servicing equity (other than dividends) and preference share dividends;
- other non-discretionary changes in revenues or expenses during the period that would result from the dilution of potential ordinary shares;
- divided by the weighted average number of ordinary shares and dilutive potential ordinary shares, adjusted for any bonus element.

2 Financial risk management

The Group's principal financial instruments comprise receivables, payables, finance leases, hire purchase contracts, cash and derivatives.

The Group manages its exposure to key financial risks, including interest rate and currency risk in accordance with the Group's financial risk management policy. The objective of the policy is to support the delivery of the Group's financial targets whilst protecting future financial security.

To manage exposure to commodity prices and exchange rates the Group uses derivative instruments, principally forward sales contracts and put and call options. The purpose is to manage the commodity price and currency rate risks arising from the Group's operations. These derivatives provide economic hedges and qualify for hedge accounting and are based on limits set by the board. The main risks arising from the Groups financial instruments are foreign currency risk, interest rate risk, commodity price risk, credit risk and liquidity risk. The Group uses different methods to measure and manage different types of risks to which it is exposed. These include monitoring levels of exposure to commodity prices, interest rate and foreign exchange risk and assessments of market forecasts for commodity prices and foreign exchange. Ageing analyses and monitoring of specific credit allowances are undertaken to manage credit risk. Liquidity risk is monitored through the development of future rolling cash flow forecasts.

The Board reviews and agrees policies for managing each of these risks as summarised below.

Primary responsibility for the identification and control of financial risks rests with the Audit Committee under the authority of the Board. The Board reviews and agrees policies for managing each of the risks identified below, including the setting of limits for hedging cover of commodity prices, foreign currency and interest rate risk, credit allowances and future cash flow forecast projections.

(a) Foreign exchange risk

The Group has transactional currency exposures. Such exposure arises from sales or purchases in a currency other than the entity's functional currency. Approximately 100% of the Group's sales are denominated in United States Dollars, whilst most of the costs are denominated in Australian Dollars. The Group's functional currency is Australian Dollars.

The Group's profit and loss and balance sheet can be affected significantly by movements in the US\$/A\$ exchange rates. The Group seeks to mitigate the effect of its net foreign currency exposure by using derivative instruments, principally forward foreign currency contracts and put and call options.

It is the Group's policy to enter into derivative instruments to hedge foreign currency exposure once the likelihood of such exposure is highly probable and to negotiate the terms of the hedge derivatives to exactly match the terms of the hedged item to maximise hedge effectiveness. The Group will follow its current policy of matching and hedging up to 80% of sales revenues in US\$.

Information about the Group's and the parent entity's foreign exchange contracts is provided in note 11.

At 30 June 2008, the Group had the following exposure to US\$ foreign currency that is not designated in cash flow hedges.

| | 30 June 2008 | 30 June 2007 |
|---------------------|-----------------|-----------------|
| | USD \$'000 | USD \$'000 |
| Consolidated | | |
| Cash at bank | 24,071 | 25,402 |
| Trade receivables | (592) | 5,982 |
| Net exposure | <u>23,479</u> | <u>31,384</u> |

2 Financial risk management (continued)

The carrying amounts of the parent entity's financial assets and liabilities are denominated in Australian dollars except as set out below:

The following sensitivity is based on the foreign currency risk exposures in existence at the balance sheet date. The 5% sensitivity is based on reasonably possible changes, over a financial year, using an observed range of actual historical rates, for the Australian dollar to the US dollar, for the preceding 5 years.

At 30 June 2008, had the Australian Dollar moved, as illustrated in the table below, with all other variables held constant, post tax profit and equity would have been affected as follows:

| Consolidated Index | Impact on post-tax profit | | Impact on equity | |
|-----------------------|---------------------------|----------------|------------------|----------------|
| | 2008 \$'000 | 2007 \$'000 | 2008 \$'000 | 2007 \$'000 |
| AUD/USD +5% | 821 | 1,217 | 2,636 | 1,512 |
| AUD/USD -5% | (917) | (1,199) | (2,523) | (851) |

The movements in profit are reduced in 2008 mainly due to less US Dollars being held in Trade Debtors at balance sheet date. Management believes the balance sheet date risk exposures are representative of the risk exposure inherent in the financial instruments.

(b) Interest rate risk

The Group has put in place a Cash Management Policy to ensure that up to 120 days (2007: 90 days) excess cash holdings are invested with a range of institutions that have sufficient financial strength to ensure the security of the investments. The Group policy is to reduce and manage cash flow interest rate risk by ensuring a timely reduction in debt obligations through scheduled debt repayments and non-scheduled debt repayments when excess cash is available.

| | 30 June 2008 | | 30 June 2007 | |
|--|---|-------------------|---|-------------------|
| | Weighted average interest rate % | Balance \$'000 | Weighted average interest rate % | Balance \$'000 |
| Consolidated | | | | |
| Cash at bank and in hand | 5.7 % | 30,494 | 5.4 % | 46,423 |
| Deposits at call | 7.8 % | 80,434 | 6.4 % | 73,164 |
| Net exposure to cash flow interest rate risk | | <u>110,928</u> | | <u>119,587</u> |

2 Financial risk management (continued)

The following sensitivity is based on the interest rate risk exposures in existence at the balance sheet date. The sensitivity used is +/- 50 basis points which is based on reasonably, possible changes, over a financial year, using the observed range of actual historical Australian short term deposit rate movements over the last 3 years.

| 2008 | Carrying amount \$'000 | Interest rate risk | | | |
|---------------------------|---------------------------|--------------------|------------------|------------------|------------------|
| | | -0.5% | | +0.5% | |
| | | Profit \$'000 | Equity \$'000 | Profit \$'000 | Equity \$'000 |
| Consolidated | | | | | |
| Cash and cash equivalents | 609 | (39) | - | 39 | - |
| Parent | | | | | |
| Cash and cash equivalents | 388 | (25) | - | 25 | - |
| 2007 | Carrying amount \$'000 | Interest rate risk | | | |
| | | -0.5% | | +0.5% | |
| | | Profit \$'000 | Equity \$'000 | Profit \$'000 | Equity \$'000 |
| Consolidated | | | | | |
| Cash and cash equivalents | 315 | (27) | - | 27 | - |
| Parent | | | | | |
| Cash and cash equivalents | 197 | (16) | - | 16 | - |

(c) Commodity price risk

The Groups exposure to nickel prices is very high as approximately 80-85% of total revenue comes from the sale of nickel. Nickel is sold on the basis of nickel prices quoted on the London Metal Exchange (LME).

The Groups profit and loss account and balance sheet can be affected significantly by movements in nickel prices on the LME. The Group seeks to mitigate the effect of its nickel prices exposure by using derivative instruments, principally forward sales contracts and put and call options.

To manage nickel price risk the Group deals in nickel forward sales contracts and put and call option contracts for the purposes of hedging against movement in nickel prices. The limits of hedging are set by the Board.

It is the Group's policy to enter into derivative instruments to hedge nickel price exposure once the likelihood of such exposure is highly probable and to negotiate the terms of the hedge derivatives to exactly match the terms of the hedged item to maximise hedge effectiveness. For nickel price risk of both the Savannah Project and the Company's 75% interest in the Lanfranchi Project, the Group's policy is to hedge no more than 80% (2007 80%) of the payable nickel forecast to be produced over a rolling two year horizon through a combination of nickel forward sales contracts and nickel put and call options, with the percentage of the combined nickel forward sales contracts and written nickel call options to be no more than 40% (of the 80% above) (2007: 40%) of the payable nickel forecast to be produced over the same rolling two year horizon.

The Group also has nickel price hedge contracts designated as cash flow hedges that are subject to fair value movements through equity as nickel prices move.

Information about the Group's and parent entity's nickel price hedge contracts is provided in note 11.

2 Financial risk management (continued)

The following table summarises the sensitivity of the Group's financial assets and financial liabilities to commodity price risk. The +/- 10% sensitivity is based on reasonably possible changes, over a financial year, using the observed range of actual historical prices for the preceding 5 year period.

| Consolidated | Carrying amount \$'000 | Price risk | | | |
|---------------------------------------|---------------------------|------------------|------------------|------------------|------------------|
| | | -10% | | +10% | |
| | | Profit \$'000 | Equity \$'000 | Profit \$'000 | Equity \$'000 |
| 2008 | | | | | |
| Financial assets (liabilities) | | | | | |
| Accounts receivable | 10,028 | (1,295) | - | 3,652 | - |
| Derivatives - cash flow hedges | 41,296 | 205 | (9,085) | (347) | 9,085 |
| Total increase (decrease) | | (1,090) | (9,085) | 3,305 | 9,085 |
| 2007 | | | | | |
| Financial assets (liabilities) | | | | | |
| Derivatives - cash flow hedges | (66,094) | (1,304) | (13,256) | 513 | 13,980 |
| Accounts receivable | 12,629 | 582 | - | 4,394 | - |
| Total increase (decrease) | | (722) | (13,256) | 4,907 | 13,980 |

(d) Credit risk

Credit risk arises from the financial assets of the Group, which comprise cash and cash equivalents, trade and other receivables and derivative instruments.

The Group's maximum exposures to credit risk at reporting date in relation to each class of recognised financial assets, other than derivatives, is the carrying amount of these assets as indicated in the balance sheet.

In relation to derivative financial instruments, credit risk arises from the potential failure of counterparties to meet their obligations under the contract or arrangement. The Group's maximum credit risk exposure in relation to these is the total mark to market gain, should the counterparties not honour their obligations.

The Group does not hold any credit derivatives to offset its credit exposure. The Group trades only with recognised, creditworthy third parties, and as such collateral is not requested nor is it the Group's policy to securitise its trade and other receivables.

The Group's sales are to two major customers and believes that given these companies standing and credit worthiness credit risk is almost negligible.

In addition, receivable balances are monitored on an ongoing basis with the result that the Group's exposure to bad debts is not significant. There are no significant concentrations of credit risk, other than the two major customers, within the Group and financial instruments are spread amongst a number of financial institutions to minimise the risk of default of counterparties.

2 Financial risk management (continued)

(e) Equity price risk

The Group and the parent entity are exposed to equity securities price risk. This arises from investments held by the Group and classified on the balance sheet. as available-for-sale.

The Group has one investment which is in shares and unlisted options held in a Joint Venture partner which is listed on the ASX. The board has not reacted to short term price fluctuations as it has a long term view on the investment. The investment represents less than 1% (2007: 1%) of total assets and is yet to generate any revenue.

The following sensitivity is based on the equity price risk exposures in existence at the balance sheet date. The sensitivity used is +/- 30% which is based on reasonably, possible changes, over as financial year, based on the share price fluctuations of the last 12 months.

| | -30% | | +30% | |
|---|---|----------------|------------------------------------|----------------|
| | Impact on post-tax profit 2008 \$'000 | 2007 \$'000 | Impact on equity 2008 \$'000 | 2007 \$'000 |
| Consolidated and Parent | | | | |
| Available-for-sale financial investment | 472 | (522) | 620 | (650) |

(f) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding when necessary and the ability to close-out market positions.

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of bank loans(when required), finance leases and committed available credit lines.

The Group monitors on a regular basis rolling forecasts of liquidity on the basis of expected cash flow.

The Group has put in place a Group Cash Management Policy to ensure that up to 120 days (2007: 90 days) excess cash holdings are invested with a range of institutions that have sufficient financial strength to ensure the security of the investment. This policy is reviewed and approved by the Board on an annual basis. When bank loans are used the Group's policy is to reduce and manage cash flow interest rate risk by ensuring a timely reduction in debt obligations through scheduled debt repayments and non scheduled debt repayments when excess cash is available.

Financing arrangements

At reporting date, there are hedging facilities and a performance bond facility available. The performance bond facility is \$4 million with a drawdown amount at reporting date of \$3.86 million (2007: \$3.7 million) and \$0.14 million (2007: \$0.3 million) available to be used.

| | Consolidated | | Parent entity | |
|---|----------------|----------------|----------------|----------------|
| | 2008 \$'000 | 2007 \$'000 | 2008 \$'000 | 2007 \$'000 |
| Floating rate | | | | |
| Undrawn balance - Expiring beyond one year (performance bond) | 140 | 300 | - | - |
| | 140 | 300 | - | - |

Maturities of financial liabilities

The tables below analyse the Group's and the parent entity's financial liabilities, net and gross settled derivative financial instruments into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

| Income tax expense | <u>18,060</u> | <u>36,474</u> | <u>(1,516)</u> | <u>(2,019)</u> |

(c) Amounts recognised directly in equity

| | | | | |
|--|-----------------|---------------|--------------|--------------|
| Relating to financial instruments | (11,824) | 24,408 | - | 19 |
| Relating to equity securities available for sale | (244) | (574) | (244) | (574) |
| | <u>(12,068)</u> | <u>23,834</u> | <u>(244)</u> | <u>(555)</u> |

(d) Tax consolidation legislation

The Company and its wholly-owned subsidiaries have formed a tax-consolidated group with effect from 1 July 2003 and are therefore taxed as a single entity from that date. The head entity within the tax-consolidated group is Panoramic Resources Limited.

Current tax expense/income, deferred tax liabilities and deferred tax assets arising from temporary differences of the members of the tax-consolidated group are recognised in the separate financial statements of the members of the tax-consolidated group using the 'stand alone taxpayer' approach by reference to the carrying amounts of assets and liabilities in the separate financial statements of each entity and the tax values applying under tax consolidation.

Any current tax liabilities (or assets) and deferred tax assets arising from unused tax losses of the subsidiaries is assumed by the head entity in the tax-consolidated group and are recognised as amounts payable/(receivable) to/ (from) other entities in the tax-consolidated group in conjunction with any tax-funding arrangement amounts (refer below).

The Company recognises deferred tax assets arising from unused tax losses of the tax-consolidated group to the extent that it is probable that future taxable profits of the tax-consolidated group will be available against which the asset can be utilised.

Any subsequent period adjustments to deferred tax assets arising from unused tax losses as a result of revised assessments of the probability of recoverability is recognised by the head entity only.

7 Income tax expense (continued)

Nature of tax funding and tax sharing arrangements

The head entity, in conjunction with other members of the tax-consolidated group, has entered into a tax funding arrangement from 1 July 2005 which sets out the funding obligations of members of the tax-consolidated group in respect of tax amounts. The tax funding arrangements require payments to/from the head entity equal to the current tax liability (asset) assumed by the head entity and any tax-loss deferred tax asset assumed by the head entity, resulting in the head entity recognising an inter-entity receivable (payable) equal in amount to the tax liability (asset) assumed. The inter-entity receivable (payable) are at call.

Contributions to fund the current tax liabilities are payable as per the tax funding arrangement and reflect the timing of the head entity's obligation to make payments for tax liabilities to the relevant tax authorities.

There is no tax sharing arrangement in place as at balance date.

8 Current assets - Cash and cash equivalents

| | Consolidated | | Parent | |
|--------------------------|----------------|----------------|---------------|---------------|
| | 2008 | 2007 | 2008 | 2007 |
| | \$'000 | \$'000 | \$'000 | \$'000 |
| Cash at bank and in hand | 30,493 | 46,423 | 5,771 | 14,436 |
| Deposits at call | <u>80,434</u> | <u>73,164</u> | <u>49,652</u> | <u>57,978</u> |
| | <u>110,927</u> | <u>119,587</u> | <u>55,423</u> | <u>72,414</u> |

(a) Reconciliation to cash at the end of the year

The above figures are reconciled to cash at the end of the financial year as shown in the statement of cash flows as follows:

| | Consolidated | | Parent | |
|--------------------------------------|----------------|----------------|---------------|---------------|
| | 2008 | 2007 | 2008 | 2007 |
| | \$'000 | \$'000 | \$'000 | \$'000 |
| Balances as above | <u>110,927</u> | <u>119,587</u> | <u>55,423</u> | <u>72,414</u> |
| Balances per statement of cash flows | <u>110,927</u> | <u>119,587</u> | <u>55,423</u> | <u>72,414</u> |

(b) Cash at bank and on hand

Cash at bank earns interest at floating rates based on daily bank deposit rates. The weighted average interest rate achieved for the year was 5.7% (2007: 5.4%).

(c) Deposits at call

Short-term deposits are made for varying periods of between 30 and 90 days, depending on the immediate cash requirements of the Group, and earn interest at the respective short-term deposit rates. The weighted average interest rate achieved for the year was 7.8% (2007: 6.4%).

(d) Fair value

The carrying amount for cash and cash equivalents equals the fair value.

9 Current assets - Trade and other receivables

| | Consolidated | | Parent | |
|--------------------------|---------------|---------------|-----------|---------------|
| | 2008 | 2007 | 2008 | 2007 |
| | \$'000 | \$'000 | \$'000 | \$'000 |
| Trade receivables | 10,028 | 12,629 | - | 17 |
| Other receivables | 5,159 | 1,899 | 76 | 67 |
| Related party receivable | - | - | - | 12,500 |
| Prepayments | 1,994 | 587 | 6 | 56 |
| | <u>17,181</u> | <u>15,115</u> | <u>82</u> | <u>12,640</u> |

(a) Trade receivables

Trade receivables are non-interest bearing and are generally on 30-90 day terms. An allowance for doubtful debts is made when there is objective evidence that a trade receivable is impaired. A breach of contractual terms would be considered objective evidence. The amount of the allowance/impairment loss is the difference between the carrying amount of the trade receivables and the estimated future cash flows expected to be received from the relevant debtors.

Trade receivables are adjusted upwards or downwards depending on movements in spot commodity prices from the date a provisional invoice is prepared until the presentation of a final invoice to the customer, known as the quotational period (QP).

The amount of derivative embedded within provisionally priced sales at 30 June 2008 was \$2.277 million (2007: (\$0.282) million) and the amount of fair value changes recognised in the income statement for 2008 was (\$2.559) million (2007: \$1.545 million).

All receivables are current.

(b) Other receivables

These amounts relate to receivables for goods and services tax, diesel fuel rebates and sundry items. Interest may be charged at commercial rates where the terms of repayments exceed six months. Collateral is not normally obtained.

(c) Related party receivable

For terms and conditions relating to related party receivables refer to note 32.

(d) Foreign exchange and interest rate risk

The balance of trade receivables is exposed to movements in United States currency exchange rates and spot commodity prices.

All trade receivables are non interest bearing in 2007 and 2008.

Information on foreign exchange and interest rate risk is provided in note 2.

(e) Fair value and credit risk

Due to the short-term nature of these receivables, their carrying value is assumed to approximate their fair value.

Information on credit risk is provided in note 2.

10 Current assets - Inventories

| | Consolidated | | Parent | |
|-----------------------------|---------------|--------------|----------|----------|
| | 2008 | 2007 | 2008 | 2007 |

11 Derivative financial instruments (continued)

(a) Instruments used by the Group

The Group is party to derivative financial instruments in the normal course of business in order to hedge exposure to fluctuations in commodity prices and foreign exchange in accordance with the Group's financial risk management policies (refer to note 2).

The group uses a number of methodologies to determine the fair value of derivatives. These techniques include comparing contracted rates to market rates with the same length of maturity to determine the value of forward contracts and use of option pricing models to value put options. The principal inputs to valuation techniques are listed below:

- Commodity prices
- Interest rates
- Foreign currency exchange rates
- Price volatilities
- Discount rates

Commodity prices, interest rates and foreign exchange rates are determined by reference to published/ observable prices.

(i) Commodity hedges - cash flow hedges

In order to protect against price movements, the Group has entered into nickel forward contracts, put options and zero cost option collars.

The Group has entered into contracts for nickel forward and put options at the reporting date designated as hedges of anticipated future receipts from sales to occur over the next two years that will be denominated in United States currency.

These hedges qualify for hedge accounting in accordance with AASB 139 Financial Instruments as the future sales are highly probable and have been specifically designated.

| Consolidated | Tonnes Hedged 30 June 2008 | Average USD Price 30 June 2008 \$ | Tonnes Hedged 30 June 2007 | Average USD Price 30 June 2007 \$ |
|---------------------------------|---|--|---|--|
| Nickel Sell Call Options | | | | |
| Not later than one year | - | - | 544 | 37,920.22 |
| Nickel Buy Put Options | | | | |
| Not later than one year | 600 | 25,000.00 | 1,650 | 25,000.00 |
| Nickel Fixed Forward | | | | |
| Not later than one year | 2,850 | 24,135.53 | 2,400 | 16,553.77 |
| Later than one year | 2,400 | 26,779.50 | 2,200 | 23,399.77 |

11 Derivative financial instruments (continued)

(ii) Foreign exchange contracts - cash flow hedges

In order to protect against rate movements, the Group has entered into foreign exchange forward exchange contracts and put options.

The Group has entered into foreign exchange contracts for forwards and put options at the reporting date designated as hedges of anticipated future receipts from sales to occur over the next two years that will be denominated in United States currency.

These hedges qualify for hedge accounting in accordance with AASB 139 Financial Instruments as the future sales are highly probable and have been specifically designated.

| Consolidated | USD Hedged 30 June 2008 \$'000 | Average Rate 30 June 2008 \$ | USD Hedged 30 June 2007 \$'000 | Average Rate 30 June 2007 \$ |
|---------------------------------------|--------------------------------------|------------------------------------|--------------------------------------|------------------------------------|
| Foreign Exchange Puts | | | | |
| Not later than one year | 141,000 | 0.90 | - | - |
| Fixed Forward Foreign Exchange | | | | |
| Not later than one year | 51,480 | 0.76 | 42,294 | 0.74 |
| Later than one year | - | - | 56,644 | 0.76 |

12 Non-current assets - Receivables

| | Consolidated | | Parent | |
|--------------------------------------|----------------|----------------|----------------|----------------|
| | 2008 \$'000 | 2007 \$'000 | 2008 \$'000 | 2007 \$'000 |
| Net related party receivables | | | | |
| Loans to related parties | - | - | 69,218 | 70,340 |
| Net other receivables | | | | |
| Other receivables | 565 | - | - | - |
| | <u>565</u> | <u>-</u> | <u>69,218</u> | <u>70,340</u> |

Further information relating to loans to related parties is set out in note 32.

(a) Interest rate risk

All trade receivables are non interest bearing in 2007 and 2008.

13 Non-current assets - Available-for-sale financial assets

| | Consolidated | | Parent | |
|--|--------------|--------------|--------------|--------------|
| | 2008 | 2007 | 2008 | 2007 |
| | \$'000 | \$'000 | \$'000 | \$'000 |
| At beginning of year | 2,414 | 449 | 2,414 | 449 |
| Revaluation surplus/(deficit) transfer to equity | (672) | 1,965 | (672) | 1,965 |
| At end of year | <u>1,742</u> | <u>2,414</u> | <u>1,742</u> | <u>2,414</u> |

| | Consolidated | | Parent | |
|-----------------------|--------------|--------------|--------------|--------------|
| | 2008 | 2007 | 2008 | 2007 |
| | \$'000 | \$'000 | \$'000 | \$'000 |
| Securities - listed | 1,313 | 1,613 | 1,313 | 1,613 |
| Securities - unlisted | <u>430</u> | <u>801</u> | <u>430</u> | <u>801</u> |
| | <u>1,743</u> | <u>2,414</u> | <u>1,743</u> | <u>2,414</u> |

Available-for-sale investments consist of investments in ordinary shares, and therefore have no fixed maturity date or coupon rate.

The fair value of the unlisted available-for-sale investments has been estimated using valuation techniques based on assumptions that are not supported by observable market prices or rates. Management believes the estimated fair values resulting from the valuation techniques and recorded in the balance sheet are reasonable and the most appropriate at the balance sheet date.

14 Non-current assets - Property, plant and equipment

(a) Non-current assets pledged as security

Refer to note 22 for information on non-current assets pledged as security by the parent entity and its controlled entities.

15 Non-current assets - Exploration and evaluation, development expenditure and mine properties

(a) Exploration and evaluation

| | Consolidated | | Parent | |
|----------------------------------|----------------|----------------|----------------|----------------|
| | 2008 \$'000 | 2007 \$'000 | 2008 \$'000 | 2007 \$'000 |
| Total exploration and evaluation | <u>13,068</u> | <u>6,927</u> | <u>-</u> | <u>-</u> |

The ultimate recoupment of costs carried forward for exploration and evaluation phases is dependent on the successful development and commercial exploitation or the sale of the respective mining areas.

Exploration and evaluation - reconciliation

Reconciliations of the carrying amounts of exploration and evaluation phase at the beginning and the end of the current and previous financial year are set out below:

| Consolidated | Exploration \$'000 | Total \$'000 |
|--------------------------------------|-----------------------|-----------------|
| Year ended 30 June 2007 | | |
| Carrying amount at start of year | 1,472 | 1,472 |
| Expenditure incurred during the year | 5,676 | 5,676 |
| Expenditure written off | (221) | (221) |
| Carrying amount at end of year | <u>6,927</u> | <u>6,927</u> |
| Year ended 30 June 2008 | | |
| Carrying amount at start of year | 6,927 | 6,927 |
| Expenditure incurred during the year | 6,141 | 6,141 |
| Carrying amount at end of year | <u>13,068</u> | <u>13,068</u> |

15 Non-current assets - Exploration and evaluation, development expenditure and mine properties (continued)

(b) Mine development expenditure

| | Consolidated | | Parent | |
|---|-----------------|-----------------|----------------|----------------|
| | 2008 \$'000 | 2007 \$'000 | 2008 \$'000 | 2007 \$'000 |
| Cost | | | | |
| Opening balance | 119,479 | 98,031 | - | - |
| Expenditure incurred | 33,447 | 20,127 | - | - |
| Transfer from construction in progress | - | 1,255 | - | - |
| Increase in rehabilitation cost capitalised | 449 | 66 | - | - |

| (Charged)/credited to equity | <u>(23,834)</u> | <u>(736)</u> | <u>574</u> | <u>(764)</u> |
| Closing balance at 30 June | <u>3,339</u> | <u>22,264</u> | <u>177</u> | <u>(406)</u> |

17 Non-current assets - Other non-current assets

| | Consolidated | | Parent | |
|-------------------|--------------|----------|----------|----------|
| | 2008 | 2007 | 2008 | 2007 |
| | \$'000 | \$'000 | \$'000 | \$'000 |
| Cash backed bonds | <u>262</u> | <u>-</u> | <u>-</u> | <u>-</u> |

18 Current liabilities - Trade and other payables

| | Consolidated | | Parent | |
|------------------------------|---------------|---------------|------------|------------|
| | 2008 | 2007 | 2008 | 2007 |
| | \$'000 | \$'000 | \$'000 | \$'000 |
| Trade payables | 13,538 | 8,819 | 508 | 273 |
| Accrued expenses | 15,026 | 21,028 | 248 | 245 |
| Deferred acquisition payment | - | 1,027 | - | - |
| Liability for annual leave | <u>2,766</u> | <u>1,809</u> | <u>215</u> | <u>205</u> |
| | <u>31,330</u> | <u>32,683</u> | <u>971</u> | <u>723</u> |

Trade payables are non-interest bearing and are normally settled on 30 day terms.

Due to the short term nature of these payables, their carrying value is assumed to approximate their fair value.

19 Current liabilities - Borrowings

| | Consolidated | | Parent | |
|----------------------------------|--------------|--------------|----------|----------|
| | 2008 | 2007 | 2008 | 2007 |

| Total secured current borrowings | <u>6,403</u> | <u>5,896</u> | <u>-</u> | <u>-</u> |

(a) Risk exposures

Details of the Group's exposure to risks arising from current and non current borrowings are set out in note 22.

(b) Fair value disclosures

Details of the fair value of borrowings for the Group are set out in note 22.

(c) Security

Details of the Group's security relating to current borrowings are set out in note 22.

20 Current liabilities - Provisions

| | Consolidated | | Parent | |
|------------------|--------------|--------|--------|--------|
| | 2008 | 2007 | 2008 | 2007 |
| | \$'000 | \$'000 | \$'000 | \$'000 |
| Other provisions | - | 4,573 | - | - |

(a) Kimberley Land Council payment

Provision is made for the estimated compensation payment to the Kimberley Land Council in relation to the approval of the Copernicus project.

(b) Movements in provisions

| | Compensation payment \$'000 | Total \$'000 |
|------------------------------------|-----------------------------------|-----------------|
| Consolidated - 2008 | | |
| Current | | |
| Carrying amount at start of year | 4,573 | 4,573 |
| Amounts incurred and charged | (4,573) | (4,573) |
| Carrying amount at end of year | - | - |
| Consolidated - 2007 | | |
| Carrying amount at start of year | - | - |
| Amounts provided during the period | 4,573 | 4,573 |
| Carrying amount at end of year | 4,573 | 4,573 |

21 Current liabilities - Current tax liabilities

| | Consolidated | | Parent | |
|------------|--------------|--------|--------|--------|
| | 2008 | 2007 | 2008 | 2007 |
| | \$'000 | \$'000 | \$'000 | \$'000 |
| Income tax | 26,094 | 24,437 | 26,094 | 24,437 |

22 Non-current liabilities - Borrowings

| | Consolidated | | Parent | |
|-----------------------------|--------------|--------|--------|--------|
| | 2008 | 2007 | 2008 | 2007 |
| | \$'000 | \$'000 | \$'000 | \$'000 |
| Secured | | | | |
| Lease liabilities (note 31) | 1,993 | 7,201 | - | - |

(a) Assets pledged as security

Included in the balances of plant and equipment are assets over which the first mortgages have been granted as security over hedging and performance bonds facilities. The terms of the first mortgages preclude the assets being sold or being used as security for further mortgages without the permission of the first mortgage holder. The mortgage also requires plant and equipment that form part of the security to be fully insured at all times. Assets under lease and hire purchase are pledged as security for the associated lease liabilities.

The carrying amounts of assets pledged as security for current and non-current borrowings are:

22 Non-current liabilities - Borrowings (continued)

| | Notes | Consolidated | | Parent | |
|---|-------|----------------|----------------|----------------|----------------|
| | | 2008 \$'000 | 2007 \$'000 | 2008 \$'000 | 2007 \$'000 |
| Plant and equipment | 14 | 45,289 | 27,381 | 862 | 921 |
| Plant and equipment under hire purchase and finance lease | | 15,164 | 13,543 | - | - |
| Capital works in progress | | 1,614 | 8,328 | - | - |
| | | <u>62,067</u> | <u>49,252</u> | <u>862</u> | <u>921</u> |

(b) Other loans

Finance leases

Finance leases have a lease term of 4 years with the option to purchase the asset at the completion of the lease term for the asset's residual value. The average discount rate implicit in the lease liability is 7.7% (2007: 7.6%). Secured finance lease liabilities are secured by a charge over the leased asset.

Hire Purchase Contracts

Hire purchases have an average term of 4.5 years. The average discount rate implicit in the hire purchase liability is 7.7% (2007: 7.7%). Secured hire purchase liabilities are secured by charge over the leased asset.

Financing facilities available

At reporting date, there are hedging facilities and a performance bond facility available. The performance bond facility is \$4 million with a drawdown amount at reporting date of \$3.86 million (2007: \$3.7 million) and \$0.14 million (2007: \$0.3 million) available to be used.

(c) Interest rate risk exposures

The following table sets out the Group's exposure to interest rate risk, including the contractual repricing dates and the effective weighted average interest rate by maturity periods.

Exposures arise predominantly from liabilities bearing variable interest rates as the Group intends to hold fixed rate liabilities to maturity.

| 2008 | Floating interest rate \$'000 | Fixed interest rate | | | | | Total \$'000 |
|---|----------------------------------|--------------------------|-----------------------------|-----------------------------|-----------------------------|--------------------------------|-----------------|
| | | 1 year or less \$'000 | Over 1 to 2 years \$'000 | Over 2 to 3 years \$'000 | Over 3 to 4 years \$'000 | Non-interest bearing \$'000 | |
| Lease liabilities (notes 19, 22 and 31) | - | 5,188 | 1,950 | 43 | - | - | 7,181 |
| Trade and other payables (note 18) | - | - | - | - | - | 31,330 | 31,330 |
| | - | <u>5,188</u> | <u>1,950</u> | <u>43</u> | - | <u>31,330</u> | <u>38,511</u> |
| Weighted average interest rate | - % | 7.7 % | 7.9 % | 8.4 % | - % | - % | |

22 Non-current liabilities - Borrowings (continued)

| 2007 | Fixed interest rate | | | | | | Total \$'000 |
|--|--|-----------------------------|--------------------------------|--------------------------------|--------------------------------|---------------------------------------|-----------------|
| | Floating interest rate \$'000 | 1 year or less \$'000 | Over 1 to 2 years \$'000 | Over 2 to 3 years \$'000 | Over 3 to 4 years \$'000 | Non- interest bearing \$'000 | |
| Trade and other payables (note 18) | - | - | - | - | - | 32,683 | 32,683 |
| Lease liabilities (notes 19, 22 and 31) | - | 5,896 | 5,207 | 1,951 | 43 | - | 13,097 |
| Derivative financial instruments (note 11) | - | - | - | - | - | 80,258 | 80,258 |
| | <u>-</u> | <u>5,896</u> | <u>5,207</u> | <u>1,951</u> | <u>43</u> | <u>112,941</u> | <u>126,038</u> |
| Weighted average interest rate | - % | 7.7 % | 7.7 % | 7.8 % | 8.4 % | - % | |

(d) Fair value

The carrying amounts and fair values of borrowings at balance date are:

| | 2008 | | 2007 | |
|---|------------------------------|----------------------|------------------------------|----------------------|
| | Carrying amount \$'000 | Fair value \$'000 | Carrying amount \$'000 | Fair value \$'000 |
| On-balance sheet | | | | |
| <i>Non-traded financial liabilities</i> | | | | |
| Other loans | 1,215 | 1,215 | - | - |
| Lease liabilities | <u>7,181</u> | <u>7,181</u> | <u>13,097</u> | <u>13,097</u> |
| | <u>8,396</u> | <u>8,396</u> | <u>13,097</u> | <u>13,097</u> |

(i) On-balance sheet

The fair value of borrowings is based upon market prices where a market exists or by discounting the expected future cash flows by the current interest rates for liabilities with similar risk profiles.

The interest rates implicit in the agreements approximate the current interest rates, as such the carrying value is assumed to approximate their fair value.

23 Non-current liabilities - Deferred tax liabilities

| | Consolidated | | Parent | |

| Closing balance at 30 June | <u>29,798</u> | <u>17,931</u> | <u>553</u> | <u>111</u> |

24 Non-current liabilities - Provisions

| | Consolidated | | Parent | |
|--|--------------|--------------|------------|------------|
| | 2008 | 2007 | 2008 | 2007 |
| | \$'000 | \$'000 | \$'000 | \$'000 |
| Employee benefits - long service leave | 1,160 | 565 | 216 | 144 |
| Rehabilitation | 6,969 | 6,225 | - | - |
| | <u>8,129</u> | <u>6,790</u> | <u>216</u> | <u>144</u> |

A provision for rehabilitation is recognised in relation to the mining activities for costs such as reclamation, waste site closure, plant closure and other costs associated with the rehabilitation of a mining site. Estimates of the rehabilitation are based on the anticipated technology and legal requirements and future costs, which have been discounted to their present value. In determining the restoration provision, the entity has assumed no significant changes will occur in the relevant Federal and State legislations in relation to rehabilitation of such mines in the future.

| | Employee benefits - long service leave \$'000 | Rehabilitation \$'000 | Total \$'000 |
|--|--|--------------------------|-----------------|
| Consolidated - 2008 | | | |
| Carrying amount at start of year | 565 | 6,225 | 6,790 |

| 30 June 2008 | Balance at end of year | <u>1,857,500</u> | |

25 Contributed equity (continued)

(d) Ordinary shares

Ordinary shares have the right to receive dividends as declared and, in the event of winding up the Company, to participate in the proceeds from the sale of all surplus assets in proportion to the number of and amounts paid up on shares held.

Ordinary shares entitle their holder to one vote, either in person or by proxy, at a meeting of the Company.

(e) Capital management

When managing capital, management's objective is to ensure the entity continues as a going concern as well as to maintain optimal returns to shareholders and benefits for other stakeholders. Management also aims to maintain a capital structure that ensures the lowest cost of capital available to the entity.

Management are constantly adjusting the capital structure to take advantage of favourable costs of capital or high returns on assets. As the market is constantly changing, management may change the amount of dividends to be paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

During 2008, the Group paid dividends of \$36.074 million (2007: nil). The Group's target dividend payments each financial year is to payout between 40-50% of net profits.

Management has no current plans to issue further shares on the market.

Management monitor capital through the gearing ratio (total borrowings / contributed equity). The debt to equity ratio (borrowings on equity interest in shareholders' equity) at 30 June 2008 was 10.7% (2007: 18.1%).

The Group has put in place a Group Cash Management Policy to ensure that up to 120 days (2007: 90 days) excess cash holdings are invested with a range of institutions that have sufficient financial strength to ensure the security of the investment. (Refer to note 2 Financial risk management)

The Group is not subject to any externally imposed capital requirements.

26 Reserves and retained profits

| | Consolidated | | Parent | |
|---|---------------|-----------------|--------------|--------------|
| | 2008 | 2007 | 2008 | 2007 |

(b) Retained profits

Movements in retained earnings (accumulated losses) were as follows:

| | Consolidated | | Parent | |
|--|----------------|----------------|---------------|---------------|
| | 2008 | 2007 | 2008 | 2007 |
| | \$'000 | \$'000 | \$'000 | \$'000 |
| Opening retained earnings (accumulated losses) | 101,999 | 13,890 | 53,991 | (9,421) |
| Profit (loss) for the year | 53,332 | 88,109 | (5,267) | 63,412 |
| Dividends | (36,074) | - | (36,074) | - |
| Balance 30 June | <u>119,257</u> | <u>101,999</u> | <u>12,650</u> | <u>53,991</u> |

27 Dividends

| | Parent | |
|---|----------------|----------------|
| | 2008 \$'000 | 2007 \$'000 |
| (a) Ordinary shares | | |
| Final dividend for the year ended 30 June 2007 of 12 cents per fully paid share paid on 15 October 2007 | | |
| Fully franked based on tax paid @ 30% - 12 cents per share | <u>22,729</u> | <u>-</u> |
| | 22,729 | - |
| Interim dividend for the year ended 30 June 2008 of 7 cents per fully paid share paid 10 March 2008 | | |
| Fully franked based on tax paid @ 30% - 7 cents per share | <u>13,345</u> | <u>-</u> |
| | 13,345 | - |
| Total dividends provided for or paid | <u>36,074</u> | <u>-</u> |

| | Parent | |
|--|----------------|----------------|
| | 2008 \$'000 | 2007 \$'000 |
| (b) Dividends not recognised at year end | | |
| In addition to the above dividends, since year end the directors have recommended the payment of a final dividend of 5 cents per fully paid ordinary share, (2007 - 12 cents) fully franked based on tax paid at 30%. The aggregate amount of the proposed dividend expected to be paid out of retained profits at 30 June 2008, but not recognised as a liability at year end, is | <u>9,593</u> | <u>22,729</u> |

(c) Franked dividends

The franked portions of the final dividends recommended after 30 June 2008 will be franked out of existing franking credits.

| | Consolidated | | Parent | |
|--|----------------|----------------|----------------|----------------|
| | 2008 \$'000 | 2007 \$'000 | 2008 \$'000 | 2007 \$'000 |
| The amount of franking credits available for the subsequent financial year are: | | | | |
| Franking account balance as at the end of the financial year at 30% (2007 - 30%) | 6,161 | - | 6,161 | - |
| Franking credits that will arise from payment of income tax payable as at end of the financial year | 26,094 | 24,437 | 26,094 | 24,437 |
| The amount of franking credits available for future reporting periods: | | | | |
| Impact on franking account of dividends proposed or declared before the financial report was authorised for issue but not recognised as distribution to equity holders during the period | <u>(4,111)</u> | <u>(9,741)</u> | <u>(4,111)</u> | <u>(9,741)</u> |
| | <u>28,144</u> | <u>14,696</u> | <u>28,144</u> | <u>14,696</u> |

The tax rate at which paid dividends have been franked is 30% (2007: 30%)

27 Dividends (continued)

Dividends proposed will be franked at the rate of 30%. (2007: 30%)

28 Key management personnel disclosures

(a) Directors

The following persons were directors of Panoramic Resources Limited during the financial year:

(i) *Chairman - non-executive*

C J G de Guingand

(ii) *Executive directors*

P J Harold, Managing Director

(iii) *Non-executive directors*

C D J Langdon

J Rowe

B M Phillips

(b) Other key management personnel

The following persons also had authority and responsibility for planning, directing and controlling the activities of the Group, directly or indirectly, during the financial year:

| | | |
|--------------|-----------------------------------|---------------------------------|
| T R Eton | Chief Financial Officer | Panoramic Resources Limited |
| C J Williams | General Manager Operations | Panoramic Resources Limited |
| T J Strong | Operations Manager | Kimberley Nickel Mines Pty Ltd |
| S G Kelleher | Group Process Manager & Alternate | Kimberley Nickel Mines Pty Ltd |
| | Operations Manager | |
| SA Jessop | Operations Manager | Lanfranchi Nickel Mines Pty Ltd |

(c) Key management personnel compensation

| | Consolidated | | Parent | |
|------------------------------|--------------|--------------|--------------|--------------|
| | 2008 | 2007 | 2008 | 2007 |
| | \$ | \$ | \$ | \$ |

| Later than one year but not later than five years | <u>-</u> | <u>-</u> | <u>26</u> | <u>24</u> |
| Minimum lease payments | <u>26</u> | <u>26</u> | <u>37</u> | <u>35</u> |
| Less future finance charges | <u>-</u> | <u>-</u> | <u>(2)</u> | <u>-</u> |
| Recognised as a liability | <u>26</u> | <u>26</u> | <u>35</u> | <u>35</u> |

31 Commitments (continued)

The weighted average interest rate impact in the leases for the Group is 7.7% (2007: 7.7%).

(b) Operating lease commitments as lessee

(i) Power Supply

The diesel powered power station at the Savannah Nickel project was purpose built by an outside party to supply electricity under a commercial Power Generation & Distribution Agreement, dated 13 April 2004. The arrangement to supply electricity has been determined as an operating lease in accordance with AASB 17 "Leases".

Future minimum rentals payable under this operating lease are unable to be determined as electricity supply payments to the outside party are variable.

(ii) Corporate office

The Group has a commercial lease on its corporate office premises. This is a non-cancellable lease expiring on 1 December 2013.

Future minimum rentals payable under non-cancellable operating leases at 30 June 2008 are as follows:

| | Consolidated | | Parent | |
|---|--------------|--------------|--------------|--------------|
| | 2008 | 2007 | 2008 | 2007 |
| | \$'000 | \$'000 | \$'000 | \$'000 |
| Within one year | 278 | 291 | 278 | 291 |
| Later than one year and not later than five years | 1,038 | 1,163 | 1,038 | 1,163 |
| Later than five years | - | 436 | - | 436 |
| | <u>1,316</u> | <u>1,890</u> | <u>1,316</u> | <u>1,890</u> |

32 Related party transactions

(a) Subsidiaries

Interests in subsidiaries are set out in note 33.

(b) Transactions with related parties

The following transactions occurred with related parties:

| | Consolidated | | Parent | |
|-------------------------|--------------|------|--------|--------|
| | 2008 | 2007 | 2008 | 2007 |
| | \$ | \$ | \$ | \$ |
| <i>Dividend revenue</i> | | | | |
| Subsidiaries | - | - | - | 68,000 |

During the year the Parent charged the subsidiaries \$1.105 million (2007: \$2.136 million) in relation to technical commercial services charges incurred on their behalf.

Mr C De Guingand (Non-Executive Chairman) is a Director of Mineral Commerce Services Pty Ltd which, during the year was paid \$129K (2007: \$129K) for shipping brokerage services provided to the Group.

Mr J Rowe is Director of John Rowe Consulting Pty Ltd which during the year was paid \$68K (2007: \$66K) for geological consulting services.

32 Related party transactions (continued)

(c) Loans to/from related parties

| | Consolidated | | Parent | |
|---|--------------|--------|--------|--------|
| | 2008 | 2007 | 2008 | 2007 |
| | \$'000 | \$'000 | \$'000 | \$'000 |
| <i>Current loans to / (from) subsidiaries</i> | | | | |

| SMY Copernicus Pty Ltd | - | - | 5,764 | - |
| End of year | - | - | 69,218 | 70,340 |

Terms and conditions of transactions with related parties

Current outstanding balances at year end are unsecured, interest free and repayable within 90 days.

Non current outstanding balances at year end are unsecured, interest free and repayable on demand. The Directors of the Company do not envisage that any demand for repayment will be made in the near future.

33 Subsidiaries

The consolidated financial statements include the financial statements of Panoramic Resources Limited and the subsidiaries listed in the following table.

| Name of entity | Country of incorporation | Class of shares | Equity holding | |
|---|--------------------------|-----------------|----------------|-----------|
| | | | 2008 % | 2007 % |
| Cherish Metals Pty Ltd | Australia | Ordinary | 100 | 100 |
| Kimberley Nickel Mines Pty Ltd | Australia | Ordinary | 100 | 100 |
| Pindan Exploration Company Pty Ltd (formerly Sally Malay Exploration Pty Ltd) | Australia | Ordinary | 100 | 100 |
| SMY Copernicus Pty Ltd | Australia | Ordinary | 100 | - |

Cherish Metals Pty Ltd is the holder of 75 shares in Lanfranchi Nickel Mines Pty Ltd (LNM) at a cost of \$0.10 per share. LNM is incorporated in Australia and acts as the Manager of the unincorporated Lanfranchi Joint Venture between Cherish Metals Pty Ltd (75%) and Donegal Lanfranchi Pty Ltd (25%).

SMY Copernicus Pty Ltd is the holder of 60 shares in Copernicus Nickel Mines Pty Ltd (CNM) at a cost of \$0.10 per share. CNM is incorporated in Australia and acts as the Manager of the unincorporated Copernicus Joint Venture between SMY Copernicus Pty Ltd (60%) and Thundelarra Exploration Ltd (40%).

34 Deed of cross guarantee

Pursuant to Class Order 98/1418, relief has been granted to Kimberley Nickel Mines Pty Ltd from the Corporations Act 2001 requirements for preparation, audit and lodgement of its financial report.

34 Deed of cross guarantee (continued)

As a condition of the Class Order, Panoramic Resources Limited and Kimberley Nickel Mines Pty Ltd (the "Closed Group"), entered into a Deed of Cross Guarantee on 29 June 2005. The effect of the deed is that Panoramic Resources Limited has guaranteed to pay any deficiency in the event of winding up of its controlled entity or if it does not meet its obligation under the terms of overdrafts, loans, leases or other liabilities subject to the guarantee. The controlled entity has also given a similar guarantee in the event that Panoramic Resources Limited is wound up or if it does not meet its obligation under the terms of overdrafts, loans, leases or other liabilities subject to the guarantee.

The consolidated income statement and balance sheet of the entities that are members of the "Closed Group" are as follows:

| | 2008 \$'000 | 2007 \$'000 |
|--|-----------------------|----------------------|
| Consolidated income statement | | |
| Profit from continuing operations before income tax | 39,971 | 107,025 |

| Non-current liabilities | <u>2,106</u> | - |
| Total liabilities | <u>3,005</u> | - |
| Net assets | <u>(13)</u> | - |

36 Events occurring after the balance sheet date

On 14 July 2008, the Company completed the purchase of Liontown Resources Limited's interest in the Cowan Nickel Project for a cash consideration of \$1.685 million. As part of the transaction, the Company agreed to subscribe for 2.75 million shares in Liontown Resources Limited at \$0.115 per share and received 1.25 million unlisted options, exercisable at \$0.225 per option, and expiring on 10 July 2010. The Cowan Nickel Project comprises Liontown Resource's interest in the Eastern Goldfields of Western Australia, including a 60% interest in the Junction South Joint Venture and the nickel rights over the Logan's Find mineral tenement.

On 26 August, 2008, the Directors resolved to declare a fully franked final dividend of 5 cents per share in respect of the year ended 30 June 2008.

In the interval between the end of the financial year and the date of this report, apart from the events mentioned above, there has not arisen any item, transaction or event of a material and unusual nature likely, in the opinion of the directors of the Company, to affect significantly the operations of the consolidated entity, the results of those operations, or the state of affairs of the consolidated entity, in future financial years. □□

| Profit attributable to the ordinary equity holders of the company used in calculating basic earnings per share | <u>53,332</u> | <u>88,109</u> |
| <i>Diluted earnings per share</i> | | |
| Profit from continuing operations | 53,332 | 88,109 |
| Profit attributable to the ordinary equity holders of the company used in calculating diluted earnings per share | <u>53,332</u> | <u>88,109</u> |

(d) Weighted average number of shares used as the denominator

| | Consolidated 2008 Number | 2007 Number |
|---|--------------------------------|--------------------|
| <i>Weighted average number of ordinary shares for basic earnings per share</i> | 187,593,111 | 185,128,955 |
| Effect of dilution: | | |
| Share options | <u>7,469,710</u> | <u>7,735,834</u> |
| <i>Weighted average number of ordinary shares and potential ordinary shares used as the denominator in calculating diluted earnings per share</i> | <u>195,062,821</u> | <u>192,864,789</u> |

Since balance date the following share and option movements have occurred.

Movement in ordinary shares on issue

- 15,000 shares were issued from the exercising of unlisted options

Movement in share options issued over ordinary shares

- 15,000 \$0.75 unlisted options were exercised

40 Share-based payments

(a) Employee Option Plan

An employee share option plan was established on 24 August 2004 where the Company, at the discretion of management, granted options over the ordinary shares of Panoramic Resources Limited to certain full time employees of the consolidated entity. The options were issued for nil consideration and do not provide dividend or voting rights until exercised. The options were issued for a term of 4 years and are exercisable over various future dates as detailed below. The options cannot be transferred without director approval and are not quoted on the ASX. Employees are able to apply for 30 day financing terms at market interest rates in order to exercise options that have vested. Options vest when the employee completes service with the Company after the vesting date. Each issued option when exercised will convert to one ordinary share.

Set out below are the summaries of options granted under the plan:

| Grant Date | Vesting date | Expiry date | Exercise price | Balance at start of the year Number | Granted during the year Number | Exercised during the year Number | Expired during the year Number | Forfeited during the year Number | Balance at end of the year Number | Vested and exercisable at end of the year Number |
|---------------------------------------|--------------|-------------|----------------|-------------------------------------|--------------------------------|----------------------------------|--------------------------------|----------------------------------|-----------------------------------|--|

Fair value options granted

| Grant Date | Vested date | Fair Value/option \$ | Options | Fair Value \$ |
|-------------|-------------|-------------------------|-----------|------------------|
| 24 Aug 2004 | 31 Dec 2004 | 0.31 | 100,000 | 31,000 |
| 24 Aug 2004 | 31 Dec 2005 | 0.31 | 100,000 | 31,000 |
| 2 Dec 2004 | 20 Sep 2006 | 0.46 | 55,000 | 25,300 |
| 28 Jan 2005 | 20 Sep 2005 | 0.40 | 28,750 | 11,457 |
| 28 Jan 2005 | 20 Sep 2006 | 0.40 | 21,250 | 8,468 |
| 16 Jun 2005 | 20 Sep 2005 | 0.34 | 15,000 | 5,100 |
| 8 May 2006 | 20 Sep 2006 | 0.72 | 162,500 | 117,130 |
| 8 May 2006 | 20 Sep 2007 | 0.72 | 162,500 | 117,130 |
| 12 Jul 2006 | 20 Sep 2006 | 0.66 | 206,625 | 135,897 |
| 12 Jul 2006 | 20 Sep 2007 | 0.66 | 206,625 | 135,897 |
| 22 Jan 2007 | 30 Nov 2007 | 1.17 | 1,112,500 | 1,296,953 |
| 22 Jan 2007 | 30 Nov 2008 | 1.17 | 1,112,500 | 1,296,953 |

The fair value of each option is estimated on the date of grant using a Black-Scholes option-pricing model with the following assumptions used for grants made on the following dates:

| | Dividend yield % | Expected Volatility % | Historical Volatility % | Risk free rate % | Expected life yrs |
|------------|------------------------|-----------------------------|-------------------------------|------------------------|----------------------|
| 24/08/2004 | 0.00 | 46 | 46 | 5.59 | 3.45 |
| 2/12/2004 | 0.00 | 46 | 46 | 5.25 | 2.76 |
| 28/01/2005 | 0.00 | 46 | 46 | 5.40 | 3.08 |
| 16/06/2005 | 0.00 | 46 | 46 | 5.28 | 3.26 |
| 8/05/2006 | 0.00 | 49 | 49 | 5.70 | 2.37 |
| 12/07/2006 | 0.00 | 42 | 42 | 5.88 | 2.19 |
| 22/01/2007 | 0.00 | 47 | 47 | 6.55 | 3.86 |

The expected price volatility is based on the historic volatility (based on the remaining life of the options), adjusted for any expected changes to future volatility due to publicly available information.

40 Share-based payments (continued)

(b) Performance Shares

Managing Director's Long Term Share Plan (LTSP)

Under the Managing Director's Long Term Share Plan (LTSP), Peter Harold will be entitled to be issued a maximum of 1,000,000 shares in the Company for no consideration at the conclusion of his four year contract (31 December 2009), dependent upon the performance of the Company relative to a group of selected peers over a three and a half year period commencing on 1 July 2006 and ending on 31 December 2009 (Performance Period). The peer group comprises those companies within the S&P / ASX 300 Metals & Mining Index. The peer group is to be ranked in terms of relative total shareholder return (TSR), which is the percentage increase in each Company's share price plus reinvested dividends over the Performance Period adjusted for bonus issues, subdivisions and consolidations of capital. Relative TSR was selected as the LTI performance hurdle as it ensures an alignment between comparative shareholder return and reward for the share rights holder. Shares under the LTSP will be allotted to Peter Harold provided that the TSR ranking, as determined by an independent external advisor on behalf of the Remuneration Committee, of the Company at the end of the Performance Period is at or above the 50th percentile of the peer group and further provided that the Company's TSR over that period exceeds a rate of 5% per annum compounded. At the 50th percentile, Peter Harold will be entitled to 50% of the LTSP shares, increasing proportionately to 100% at the 65th percentile.

The performance shares granted under the plan are as follow:

- 1,000,000 performance shares were granted on 30/11/2006
- Vesting date 31/12/2009
- Expiry date 30/11/2011

Employee Share Plan (ESP)

An employee share plan was established during the year where the Company, at the discretion of management, full time employees will be entitled to performance rights to shares in the Company for no consideration, dependent upon the performance of the Company relative to a group of peers over a three year period commencing 1 January 2008 and ending on 31 December 2010 (Performance Period). The peer group comprises those companies within the S&P / ASX 300 Metals & Mining Index. The peer group is ranked in terms of total shareholder return (TSR), which is the percentage increase in each Company's share price plus reinvested dividends over the Performance Period adjusted for bonus issues, subdivisions and consolidations of capital. Shares will be allotted to employees provided that the TSR ranking of the Company at the end of the Performance Period is at or above 50th percentile of the peer group. At the 50th percentile, employees will be entitled to 50% of the ESP shares, increasing proportionately to 100% at the 75th percentile.

The performance shares granted under the plan are as follow:

- 1,484,800 performance shares were granted on 01/01/2008
- Vesting date 31/12/2010
- Expiry date 31/12/2013
- Forfeited shares during the year 63,000
- Remaining shares on issue at balance date 1,421,800

Fair value of Performance Shares

The fair value of each performance share is estimated on the grant date utilising the assumptions underlying the Black-Scholes methodology to produce a Monte-Carlo simulation model which allows for the incorporation of the Total Shareholder Return (TSR) hurdles that must be met before the Share Based Payment vest in the holder.

The following assumptions were used for grants made and the resulting fair values per performance share for those on issue at 30 June 2008 are:

40 Share-based payments (continued)

| | Employee Share Plan (ESP) | Managing Director's Long Term Share Plan (LTSP) |
|-------------------------------------|---------------------------------|---|
| Shares issued under the plan | 1,484,800 | 1,000,000 |
| Grant date | 01/01/2008 | 30/11/2006 |
| Vesting date | 31/12/2010 | 31/12/2009 |
| Share price at grant date | \$5.35 | \$2.00 |
| Risk free rate | 6.59% | 5.80% |
| Dividend yield | 3.50% | 0.00% |
| Volatility | 56% | 47% |
| Fair value with performance hurdles | \$3.57 | \$1.65 |

The dividend yield reflects the assumption that the current dividend payout will continue with no anticipated increases. The expected volatility reflects the assumption that the historical volatility is indicative of future trends, which may also not be the actual outcome.

(c) Expenses arising from share-based payment transactions

The cost of equity-settled transactions is recognised, together with the corresponding increase in reserve, over the period in which performance conditions are fulfilled, ending on the date on which the relevant employees become fully entitled to the option ('vesting date').

The cumulative expense recognised for equity-settled transactions at each reporting date until vesting date reflects:

- (i) the extent to which the vesting period has expired and
- (ii) the number of options that, in opinion of the directors of the consolidated entity, will ultimately vest. This opinion is formed based on the best available information at balance date. No adjustment is made for the likelihood of market performance conditions being met as the effect of these conditions is included in the determination of fair value at grant date.

No expense is recognised for options that do not ultimately vest, except for options where vesting is conditional upon a market condition.

The dilutive effect, if any, of outstanding options is reflected as additional share dilution in the computation of earnings per share.

Total expenses arising from share-based payment transactions recognised during the period as part of employee benefit expense were as follows:

| | Consolidated | | Parent | |
|---|--------------|--------------|--------------|--------------|
| | 2008 | 2007 | 2008 | 2007 |
| | \$'000 | \$'000 | \$'000 | \$'000 |
| Options issued under employee option plan [include \$1,008k (2007: \$312k) of performance shares] | <u>2,838</u> | <u>1,426</u> | <u>1,799</u> | <u>1,426</u> |

In pursuant to the terms of the Co-Existence Agreement, a number of 447,505 fully paid ordinary shares were issued at no consideration on the 6th of February 2008. The market value of these shares at grant date amounted to \$2,332K. This amount was capitalised and recognised in the balance sheet as at reporting date.
