### 2. Review of Operations (continued)

#### Corporate continued

##### CEO Appointment

On 22 February 2023, the Company announced the appointment of David Groombridge as CEO to advance the Kingman Gold Project in Arizona.

Mr Groombridge is an experienced Geoscientist who brings a strong background in gold dominant poly-metallic mineral deposits.

He is a Masters-qualified Geologist with extensive technical and management experience both within Australia and internationally.

Mr Groombridge was previously Exploration Manager with Medallion Metals Limited (ASX: MM8) where he was integral in advancing its 1.6Moz Au Eq. Ravensthorpe Gold Project through Mineral Resource upgrades in parallel with a Feasibility Study and project permitting.

#### Exploration

##### Kingman Gold Project

Riedel continued its exploration activity on its Kingman Project, where it can earn up to an 80% interest, located in the north-west of Arizona.

In late 2022, Riedel completed a 23-hole (4,190m) diamond drilling program, again focussing on the Tintic target with an additional diamond drill hole at the Jim's prospect, located approximately 1km to the south-east of Tintic. The drilling followed-up on previous drilling which had confirmed shallow and high-grade gold and silver mineralisation. The program also indicated that the high-grade Tintic zone and the Jim's prospect area are linked geologically, creating a target area of 2km long and with potential to extend this zone along strike and laterally.

Assay results from the diamond drill program were very encouraging and included:

- 5.5m @ 12.4g/t Au, 105g/t Ag and 3.9% Pb from 16.8m including 1m @ 47.9g/t Au, 266g/t Ag and 10.5% Pb from 17.1m in hole 2022-KNG-017C

- 1.0m @ 14.3g/t Au, 222g/t Ag and 14.6% Pb from 18.8m including 0.6m @ 23.7g/t Au, 298g/t Ag and 23% Pb from 18.8m in hole 2022-KNG-017B

The gold and silver mineralisation at Tintic appears to be contained within shallow flat dipping veins which comprise of varying amounts of quartz, clay and sulphide mineralisation. An example of the flay lying nature of the high grade gold mineralisation can be noted in Figure 1.

Figure 1 - Tintic Cross Section

Riedel is seeking to continue work on the Kingman Project on a number of fronts during 2023, as it looks to advance toward a development decision as soon possible.

## **DIRECTORS' REPORT**

### **Marymia Gold Copper Project**

Joint venture manager Norwest Minerals Limited (84.3%) advised that a geochemical review of the Marymia database continued during the period, seeking to generate additional targets for precious and base metal drill testing and assess the REE and lithium potential of the project area.

An air-core drill program designed to test two gold anomalies on tenement E52/2394-I and four gold and base metal targets on E52/2395 is scheduled to commence in 2023. Heritage study work is complete.

### **2. Post Balance Date Events**

On 25 January 2023, the Company paid IAM Mining the final USD400,000 vendor payment on behalf of Flagstaff Minerals (USA) pursuant to the Flagstaff Option Agreement in order for Flagstaff Minerals (USA) Inc to maintain its right to acquire 100% of the Kingman Option Claims. This amount will be recognised as part of the eligible exploration under the Earn-In Agreement with Flagstaff Minerals Limited.

## Condensed Notes to the Consolidated Financial Statements For the Half-Year Ended 31 December 2022

### 1. Basis of preparation of half-year report

This general purpose interim financial report for the half-year reporting period ended 31 December 2022 has been prepared in accordance with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*. Compliance with Australian Accounting Standards ensures compliance with International Financial Reporting Standards IAS 34: Interim Financial Reporting.

This interim financial report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2022 and any public announcements made by Riedel Resources Limited during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period.

The interim report has been prepared on a historical cost basis, modified where applicable by the measurement of fair value of selected financial assets and financial liabilities. The Company is domiciled in Australia and all amounts are presented in Australian dollars, unless otherwise noted.

The same accounting policies and methods of computation have been followed in this interim financial report as were applied in the most recent annual financial statements, other than as disclosed below.

#### Going Concern

The consolidated financial statements have been prepared on a going concern basis of accounting which assumes that the Group will be able to meet its commitments, realise its assets, discharge its liabilities in the ordinary course of business and meet exploration budgets. In arriving at this position, the Directors recognise the Group is dependent on various funding alternatives to meet these commitments which may include share placements and suitable project funding arrangements including earn-ins, joint ventures or project divestment.

The loss for the half year ended 31 December 2022 was \$360,193 with \$1,473,147 of cash and cash equivalents and net assets of \$6,626,890 as at 31 December 2022.

The Group has prepared a 12-month cashflow that demonstrates a positive cash position.

The Directors believe that at the date of signing the financial statements there are reasonable grounds to believe that having regard to matters set out above, the Directors are confident that Group will be able to raise additional capital if required to meet its obligations as and when they fall due.

The consolidated financial statements do not include any adjustments relating to recoverability or classification of recorded asset amounts or to the amounts and classification of liabilities that may be necessary should the Group not be able to continue as a going concern.

#### New and revised accounting standards and interpretations adopted by the Group

The Group has considered the implications of new and amended Accounting Standards but determined their application to the financial statements is either not relevant or not material.

### 2. Segment information

Operating segments are presented using the “management approach”, where the information presented is on the same basis as the internal reports provided to the directors. The directors are responsible for the allocation of resources to operating segments and assessing their performance.

Operating segments are identified by Management based on the mineral resource and exploration activities in Australia, United States and Spain. Discrete financial information about each project is reported to the chief operating decision maker on a regular basis.

**Directors' Declaration  
For the Half-Year Ended 31 December 2022**

In the directors' opinion:

- (a) the consolidated financial statements and notes set out on pages 8 to 20 are in accordance with the *Corporations Act 2001*, including:
  - (i) complying with Accounting Standard AASB 134 *Interim Financial Reporting*, the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
  - (ii) giving a true and fair view of the consolidated entity's financial position as at 31 December 2022 and of its performance for the half-year ended on that date.
- (b) there are reasonable grounds to believe that Riedel Resources Limited will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the directors.

**INDEPENDENT AUDITOR'S REVIEW REPORT  
TO THE MEMBERS OF  
RIEDEL RESOURCES LIMITED**

**Report on the Half-Year Financial Report**

**Conclusion**

We have reviewed the half-year financial report of Riedel Resources Limited (the "Company") and its controlled entities (the "Group"), which comprises the consolidated statement of financial position as at 31 December 2022, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, condensed notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of Riedel Resources Limited does not comply with the *Corporations Act 2001* including:

- (a) giving a true and fair view of Riedel Resources Limited's financial position as at 31 December 2022 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

**Basis for Conclusion**

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* has been given to the directors of the Company on 15 March 2023.

**Material Uncertainty in Relation to Going Concern**

As referred to in Note 1 of the consolidated financial statements, the consolidated financial statements have been prepared on a going concern basis.

During the half-year ended 31 December 2022, the Group incurred loss after income tax of \$360,193 and has cash outflow from operations of \$337,490. As at 31 December 2022, the Group has cash and cash equivalents of \$1,473,147.

The ability of the Group to continue as a going concern and meet its planned commitments is dependent upon the Group being successful in raising funds through the issuance of capital. If the Group is unable to obtain sufficient funding for its ongoing operating and capital requirements, the Group may not be able to meet its liabilities as and when they fall due, and the realisable value of the Group's current and non-current assets may be significantly less than book values.

Our opinion is not modified in respect of this matter.

***Responsibility of the Directors for the Financial Report***

The directors of Riedel Resources Limited are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

***Auditor's Responsibility for the Review of the Financial Report***

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Company's financial position as at 31 December 2022 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
