

## **MARCH 2020 QUARTERLY ACTIVITIES REPORT**

### **HIGHLIGHTS**

#### **EXPLORATION**

- Geophysical programs designed and ready to be implemented at both Nanutarra and Mt Hardy
- Aircore program to test extensions of known anomalism at Mt Hardy designed and planned to be undertaken in Q3
- COVID-19 restrictions delay the commencement of field work in the Northern Territory

#### **CORPORATE**

- Cash balance at the end of the Quarter of A\$1.55 million
  - Significant cost saving derived through reductions in fees to Directors and salaries to staff.
  - Strong focus on Business Development opportunities
- 

The implementation of travel bans and access restrictions in the Northern Territory due to the onset of the COVID-19 virus resulted in Todd River Resources (ASX:TRT) focussing on planning and preparation for the recommencement of field work rather than the implementation of previously flagged work programs. The Company fully intends to be active at Mt Hardy, Nanutarra and other assets during the June Quarter subject to access restrictions and contractor crew availability.

#### **EXPLORATION**

##### **Nanutarra Nickel Project (TRT option to acquire 80%)**

At the Nanutarra Nickel Project in the Ashburton region of Western Australia, plans are in place to commence a broad fixed loop EM survey over the interpreted intrusive body (figure 1). At this stage the intent is to commence the survey in mid-April pending any further travel or movement restrictions imposed by governments.

The survey will comprise a number of 400m x 400m loops at 600-800m spacing and focus on areas of the terrain that are amenable therefore being time and cost effective while also covering +80% of the prospective area.

The outcomes of the survey will determine the specifics of the drilling program that is due to be undertaken in the second half of the year following the receipt of all the necessary approvals.

### **Mt Hardy Project (TRT 100%)**

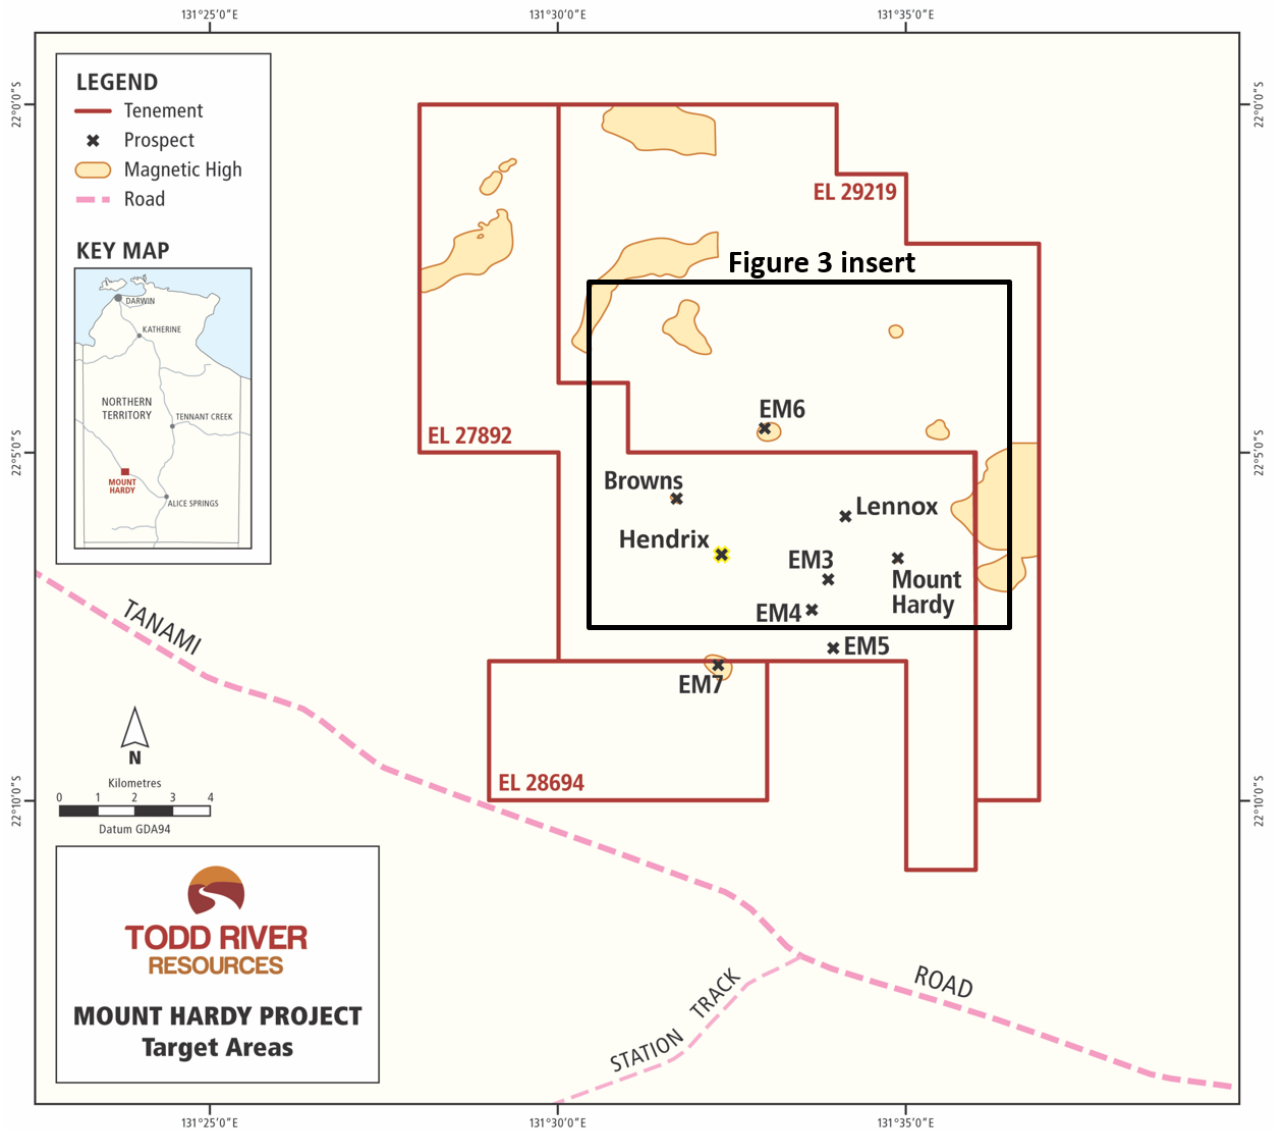

At the Company's Mt Hardy project in the Northern Territory, heavy seasonal rainfall and travel restrictions have delayed the commencement of field work. Over the next few months the Company had intended to complete a detailed magnetics survey over parts of the northern tenement where shallow cover obscures extensions of prospective outcrop. This would allow for a detailed structural interpretation and also highlight positions that may be conducive to hosting mineralisation as seen at Hendrix, Laver etc.

Subject to this, infill and extensional aircore drilling would be undertaken over prospective targets. Areas identified for detailed magnetic surveying and others already designated for aircore drilling are shown in Figures 2 and 3.

Recent travel restrictions and border closures implemented by the Federal and State governments have forced the Company to defer field based activities in the Northern Territory at this time, so this field work will recommence when access restrictions are relaxed.

### Petermann Range Project

At Petermann Range negotiations are ongoing with the Central Land Council who are representing the Traditional Owners to finalise an Exploration Agreement. The timing of the completion of this process remains largely in the hands of the Central Land Council's legal team and will be further delayed by various restrictions on entry to indigenous communities as part of the strategy for minimising the spread of the COVID-19 virus.

### CORPORATE

Todd River Resources had total cash reserves of **\$1.55 million** at Quarter-end.

As a consequence of the recent COVID-19 outbreak and temporary slow-down in the exploration sector, the Board of Directors have unanimously agreed to reduce their fees or salaries by 40% for the remainder of 2019/2020 financial year. This will be reviewed in June and a further update provided to the market when appropriate.

Total spend over the next 2 quarters will be significantly reduced due to the reduction in activities and corporate outgoings, leaving the Company well positioned to re-commence exploration at the earliest opportunity.

As per section 6.1 of the Appendix 5B, the payments to Directors of the Company for the quarter ended 31 March 2020 were for gross wages, fees and superannuation.
