Investor Day

2 June 2026

tpg  TELECOM

Welcome and Introduction

Trent Czinner

TPG Telecom acknowledges the Traditional Custodians of Country throughout Australia and the lands on which we and our communities live, work and connect.

PURPOSE DRIVES TPG TELECOM

To build meaningful relationships and support vibrant, connected communities.

TPG Telecom has a strong challenger spirit and a commitment to delivering the best services and products to our customers. We are driving competition and choice for businesses and consumers across Australia.

Speakers

Iñaki Berroeta

Chief Executive Officer & Managing Director

John Boniciolli

Group Chief Financial Officer

Giovanni Chiarelli

Group Chief Technology Officer

Trent Czinner

Group Executive Legal and External Affairs and Company Secretary

Bec Darley

Chief Marketing Officer

James Gully

Acting Group Executive Consumer Product, Marketing and Digital

Vanessa Hicks

Group Executive Customer and People Experience

Jonathan Rutherford

Group Executive Wholesale, Enterprise and Government

Agenda

9:30am – 9:35am	Welcome and introduction	Trent Czinner
9:35am – 9:50am	Spirit of a challenger	Iñaki Berroeta
Break		
10:00am – 11:00am	Go to market and customer experience	Bec Darley James Gully Vanessa Hicks Jonathan Rutherford
Break		
11:10am – 11:40am	Focus on financial performance	John Boniciolli
11:40am – 12:15pm	Networks, technology and AI	Giovanni Chiarelli
12:15pm – 12:30pm	Closing remarks	Iñaki Berroeta
12:30pm	Lunch and networking	

Spirit of a challenger

Driving performance

Spirit of a challenger

Focus of discussion

1

Our strategy framework

2

Brand and go to market

3

Spectrum and trading update

Our strategy

Purpose:

To build meaningful relationships and support vibrant, connected communities.

Ambition:

To become Australia's best telco for customers, communities, our people, and shareholders.

Run networks smarter

Leverage our network partnerships and sharing capabilities to bring value and choice to more Australians.

Invigorate brands and services

Redefine consumer brands, play mobile differently and grow business mobile.

Make it easy for customers

Make it easy for customers to join us, stay with us and get support from us by dialing up digital and simplifying our systems and processes.

Become faster, simpler, and stronger

Future proof our business by simplifying our tech landscape, maintaining competitive cost base and building next gen capability.

Embody customer first, people always

Shape a culture that inspires our people to do their best work and create experiences true to our brands, building customer trust and loyalty.

Stand together

Together we are unstoppable when we rally around customer needs

Own it

We step up for our customers and own their entire experience

Simple's better

We make things better and challenge each other to find a simpler way

Boldly go

We are human, curious and brave to change the game

Key strategic metrics

How to measure progress against our strategy and execution priorities

Objectives

Key KPIs and metrics

Shareholder outcomes

 <p>Embody customer first people always</p>	<ul style="list-style-type: none"> Elevate customer culture and employee experience Empower customer facing teams Expand customer wellbeing 	<p>Employee engagement and NPS</p>	<p>Maintain low TIO complaints and reduce further</p>	<p>Increased customer and community trust</p>

Shaping TPG Telecom

Delivering for customers and shareholders

2020: TPG and VHA merger

2020-24: post-merger transition

IT modernisation and systems uplift

5G rollout and Huawei replacement

Peak of network and systems uplift investment

2025: project delivery

Launch of regional network sharing

Sale of fibre network assets and EG&W Fixed operations

Capital management and liquidity plan

Our business today

Leaner, simpler mobile-first business

Three differentiated core brands

Capital-efficient infrastructure sharing

Investment grade financial position

Operating leverage from efficient cost base

Well positioned for continued industry evolution

Shareholder value proposition

Australian-only focus and essential nature of our services keep operating risk low

Large growth opportunity in Mobile following refreshed network and brand offering

Efficient capital structure, strong balance sheet and scalable cost position

Strong cash flow outlook following completion of recent investment cycle

Predictable returns from simplified Dividend Policy

Delivering strategic initiatives improves performance and strengthens the investment case

Shareholder value proposition

Delivering strategic initiatives to improve financial performance and strengthen our investment case

	FY25 ¹	FY26 context	Medium-term direction (FY27–29)
Mobile Service Revenue growth	+4.2%	Continued growth despite slowing consumer spending and lower migration	ARPU and total subscriber growth offsetting mix shift to Digital-First subscription brands and flattish Home Broadband profile
EBITDA margin	33.6%	Improvement expected in line with guidance	EBITDA growth to exceed Service Revenue growth, driven by delivery of \$100m opex savings (before impact of inflation) by FY29
Opex/Service Revenue	24.4%	Opex cost control offsetting heightened inflation	Continued reduction driven by delivery of opex savings
Capex/Service Revenue	18.4%	Capex reduction in line with guidance	Improving further as Service Revenue grows and as capex has passed peak of recent investment cycle
Operating Free Cash Flow	\$1,137m	Strong organic growth; non-recurrence of FY25 benefit from handset receivables back book	Improved operating performance and lower capex
ROIC	5.42%	Operating performance driving improved returns	To grow and maintain above weighted average cost of capital in the medium-term
Underlying basic EPS	3.7¢		Improving with operating performance and lower borrowing costs
Dividends per share	18.0¢	Intention to increase over time in line with sustainable growth in profit and cash flow	

¹ All figures Pro Forma; capex is additions basis; opex and EBITDA exclude Material One-Offs; EBITDA margin excludes MOCN costs in FY25; OFCF includes benefit of handset receivables initiation in FY25. Refer to Glossary slides [81](#) and [82](#) for definitions of key terms.

Key 1H26 trading metrics

Continued focus on ARPU combined with strong subscriber growth in Digital First brands driving greater Mobile momentum

Mobile subscribers

Strong subscriber growth in Digital First and MVNO
Postpaid anticipated to outperform the market
Prepaid expected to decline following 1H26 plan refreshes

1H26 forecast:
Total c. 70-80k
Postpaid: c. flat
Digital First: up c.50k
Traditional Prepaid: down c.35k
MVNO: up c.60k
Data SIMs: c. flat

Mobile ARPU

YTD ARPU growth across all Mobile offerings, reflecting plan refreshes in 2H25 and back-book plan refreshes announced in Q1
Growth in EGW impacting Postpaid ARPU mix

1H26 forecast:
Postpaid: up c. 0-1% vs. PCP
Digital Brands: up c. 1-2% vs. PCP
Traditional Prepaid: up c. 3-4% vs. PCP

Home Broadband subscribers

Fixed Wireless returned to growth in Q2
Competitive dynamics remain challenging in NBN

1H26 forecast:
Total down c. 45k
NBN: down c. 45k
Fixed Wireless: c. flat

Home Broadband AMPU

Strengthening Fixed Wireless AMPU remains a priority to improve overall Gross Margin

1H26 forecast:
NBN: c. flat vs PCP
Fixed Wireless: up c. 0-1% vs PCP

FY26 guidance unchanged

All guidance is subject to no material change in operating conditions

	FY25 OUTCOME (PRO FORMA)	FY26 GUIDANCE	DRIVERS
EBITDA (excluding material one-offs)	\$1,637m	\$1,665m to \$1,735m	<p>EBITDA growth driven by strong performance and continued growth in the Mobile business, while continued cost discipline will limit operating cost growth below inflation</p> <p>Consistent with historic trends, EBITDA delivery is anticipated to be weighted to a stronger second-half performance</p> <p>Excludes any material one-off impacts arising from events such as transactions, redundancy, restructuring, mergers and acquisitions, disposals, impairments and any other items as determined by the Board and management</p>
Capex (additions basis)	\$771m	Approximately \$750m	<p>Excludes spectrum</p>

Refer to Glossary slides [81](#) and [82](#) for definitions of key terms.

Spectrum licence renewal prices onerous on Mobile industry

ACMA restrains both competition and investment and creates upward mobile pricing pressure

c. \$2.1bn total cost to TPG Telecom over five years from 2028 to 2032, with biggest impact in 2028

Lump-sum payment two months prior to each licence renewal

TPG Telecom has funding optionality from strong operating cash flow and borrowings headroom

Renewal profile

2028	850 & 1800MHz	c. \$840m
2029	700MHz	c. \$570m
2030	3.4GHz	c. \$315m
2032	2GHz	c. \$380m

Our business is well placed to meet evolving customer needs

Value, simplicity and digital-first preference are reshaping demand and behaviour

TPG is focused on being the telco customers want

THE CUSTOMER

Evolving customer mindset

More cautious and value-focused amid ongoing pressure on cost of living

Preference for simplicity, flexibility and interaction on their own terms

Data consumption continuing to grow strongly in "always connected" culture

OUR RESPONSE

Direction of TPG Telecom

Strong differentiated offerings across premium Postpaid and value channels

Digital-first, subscription-based channels offer great value at lower cost to serve

Strongest ever network delivering reliable, essential connectivity

Go-to-market position refined and evolved

Three core brands meeting customers needs

Premium Challenger to the Status Quo

Premium brand for business and consumers

Full-service value proposition and experience

Nationwide retail footprint

Digital Disruptor Delivering a Fair Go

Digital-first Mobile and Home Broadband for Consumers

Great value and low-touch experiences

Efficient, fully digital journeys

Digital Differentiator Doing Good

Digital-only mobile brand for consumers

Unlimited mobile plans

Radical simplicity in end-to-end experience

Human connection fuels Customer Experience strategy in a digital world

The landscape has been fundamentally changed

Rising regulation, low industry trust and affordability pressures are redefining customer experience

Customer needs are changing

Customers expect simpler journeys, safer outcomes and support that meets their needs in moments of vulnerability, including choice of channel

Regulation is increasing

Stronger standards, scam protections and resilience expectations are raising accountability across operators

Operating model shifting

Digital, retail, and contact centres need to work as one experience with less repeat contact and faster resolution

Creating Customer Value

Turning customer experience into a lever for revenue growth

Strategic Focus:

Turning customer promises into business outcomes

1

Foundations for Trust

Drive customer loyalty through onshore capability and presence for moments that matter

2

Differentiated Brand Experiences

Enable brand growth, bringing each brand promise to life through distinct, customer led experiences

3

CX Journey Redesign

Reduce cost to serve through AI, simplicity, first contact resolution and digital self service adoption

4

CX as a Strategic Differentiator

Create competitive advantage by embedding customer first culture to deliver superior customer outcomes

Experience to Earnings:

Linking CX to revenue growth

Customer quote:

“

Rather than simply selling products, she took the time to carefully explain every option and helped us choose the most suitable and cost-effective plans with complete honesty and transparency.

Because of the confidence and trust Alex gave us, I transferred all of our services from Optus to Vodafone - including myself, my husband, my children, my parents, our business accounts, and our home services.

That decision was entirely because of her outstanding service and professionalism...”

★★★★★

Customer First, Tech Enabled, Human Led

Customer Wellbeing

Protecting customers to reduce risk, building trust and advocacy to drive long-term value

Responsible Selling

Domestic, Family and Sexual Violence

First Nations Customer Support

Payment Assistance

Accessibility

Customer Wellbeing Specialists

Introduced industry-first Customer Wellbeing Specialists in selected Vodafone stores and onshore contact centre with plans to scale across all Vodafone branded stores and onshore operations.

Three transformation engines

Retail, Contact Centre and Technology create a simpler, more trusted and scalable operating model

Retail

Changing role of stores to support digital-first channel strategy

Key moves:

- Store footprint optimisation
- Use retail experience to drive digital adoption
- Frontline productivity uplift

Contact Centres

Evolution of model amid reduced volume and increase in customer self-service

Key moves:

- Targeted onshore support for premium, complex and vulnerable customer needs
- Reduced offshore dependency
- Agentic AI for simpler queries
- AI-enabled proactive customer support

Technology and AI

From automation and bots to AI-enabled CX journey transformation

Key moves:

- Re-designed customer journeys for AI-enabled resolution
- Predictive issue remediation and proactive service
- Agentic commerce, supporting customers using AI to shop on their behalf
- Real-time AI support for frontline

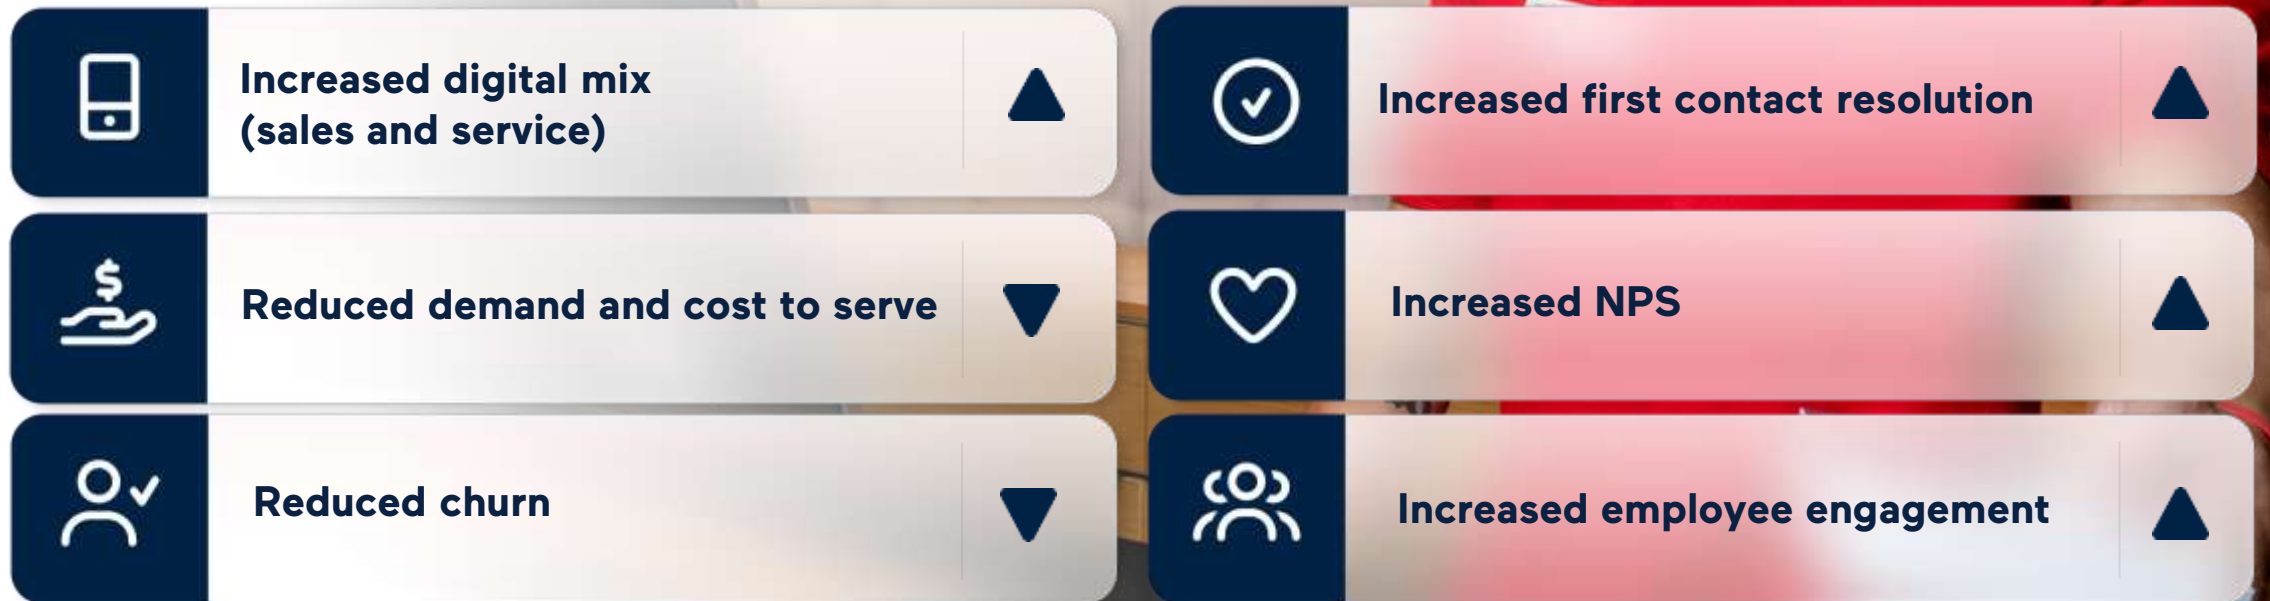

1 Foundations for Trust

2 Differentiated Brand Experiences

3 CX Journey Redesign

4 CX as a Strategic Differentiator

Focus on financial performance

Continually improving
returns

John Boniciolli

tpg TELECOM

Focus on financial performance

Focus of discussion

1

Shareholder value drivers

2

Capex and D&A profile

3

Funding and leverage

Disciplined execution delivering shareholder value

Operating leverage and cost discipline convert revenue growth into accelerated profit growth

1 Mobile Service Revenue growth

Growth driven by balance of Mobile ARPU and market share

2 Gross Margin growth > Service Revenue growth (YoY percentage growth)

On-net mobile economics leveraging non-volumetric shared infrastructure costs

3 EBITDA growth > Gross Margin growth (YoY percentage growth)

\$100m real opex savings (before impact of inflation) by FY29

4 NPAT growth > EBITDA growth (YoY percentage growth)

Declining depreciation and amortisation expense and structurally lower borrowings

Disciplined execution delivers shareholder value

Expected cash-flow and return outcomes reflect structural capital efficiencies

Free cash flow growing

- **Improved operating performance** driving OFCF growth
- **Capex reducing following peak investment:** \$650m (FY27), \$550-650m (FY28-29)
- **Lower borrowing costs** due to structurally lower bank borrowings
- **No spectrum payments** until FY28

ROIC growing

- **Grow and maintain** above WACC in the medium-term
- **Profit growth and capital discipline** driving increased returns
- **Enduring benefit from handset receivables** financing program from FY26

Dividends growing over time

- **Intention to increase over time** in line with sustainable growth in profit and cash flow
- **Franking anticipated to be maintained** in short term (30%) and grow over time

Margin accretive mix shift in Mobile Service Revenue

Margin improvement from ARPU growth across all brands, combined with subscriber growth in Digital First brands

Mobile ARPU growth, together with subscriber growth in Digital First brands, expected to drive growth in Mobile Service Revenue...

Mobile revenue growth from a combination of:

- Increased market share across brands and geographies
- Continued focus on appropriately pricing each product

Subscriber growth unlocks greater value from non-volumetric contracts to expand Gross Margin...

Cost of telco services stable:

- Non-volumetric contracts deliver long-term operating leverage as customer volumes grow
- NBN costs linked to subscriber numbers, and passed to customers

Increased digital mix lowers cost to acquire and serve customers, delivering further margin expansion

Operating cost control:

- TPG Telecom committed to delivering \$100m of operating cost efficiency (before impact of inflation) by FY29
- Savings delivered to compress impact of heightened inflationary pressure (FY26 inflation assumed to be c. 4.0%)

Capex and D&A reducing following peak investment cycle

Benefits both cash flow and P&L

Capex reducing to \$550-650m from FY27

Medium-term capex driven by completion of 5G upgrades and IT modernisation with continuing technology spend including lifecycle management, resilience and security of assets

6G upgrades not expected to start before 2030

Increasing digital mix expected to drive lower capitalised commissions from customer sales (currently c. \$100m)

Group capex (net additions basis)

Capex and D&A reducing following peak investment cycle

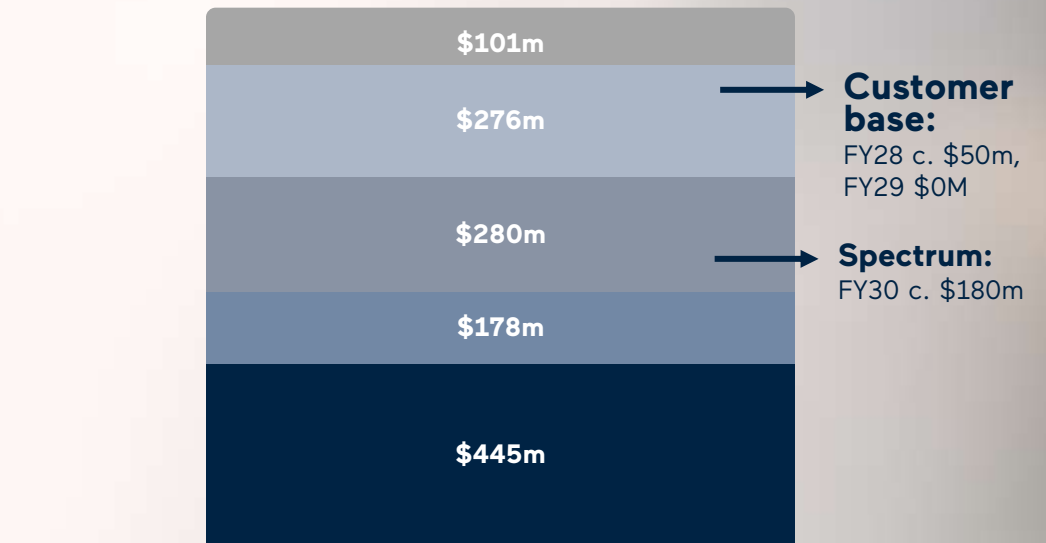

Benefits both cash flow and P&L

Anticipating more than \$200m of D&A reduction from FY30

Reducing D&A charges reflect:

- Capex peaked FY23 - lower net additions to PP&E from FY24
- Customer base assets recorded at merger fully amortised by mid-2028
- Lower spectrum amortisation expense over medium to long term

D&A to decline post 2027

FY25 Pro Forma

Amortisation:

- Customer base
- Computer software and contract costs
- Spectrum licences

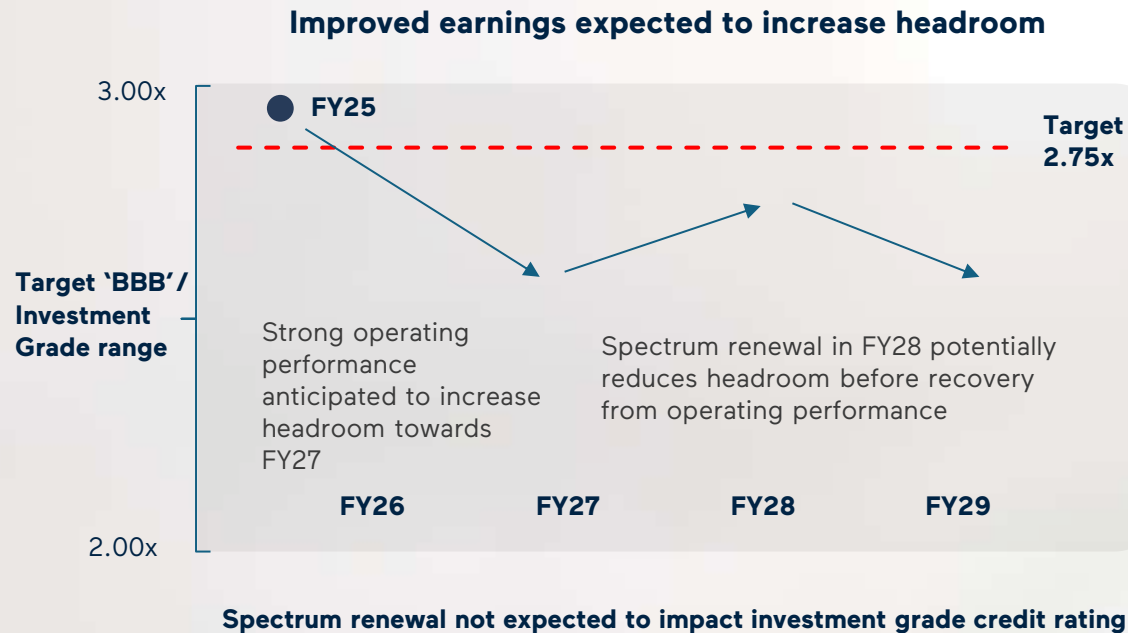

Depreciation:

- Right of Use Assets
- Property, Plant & Equipment

Borrowing costs and leverage de-risked

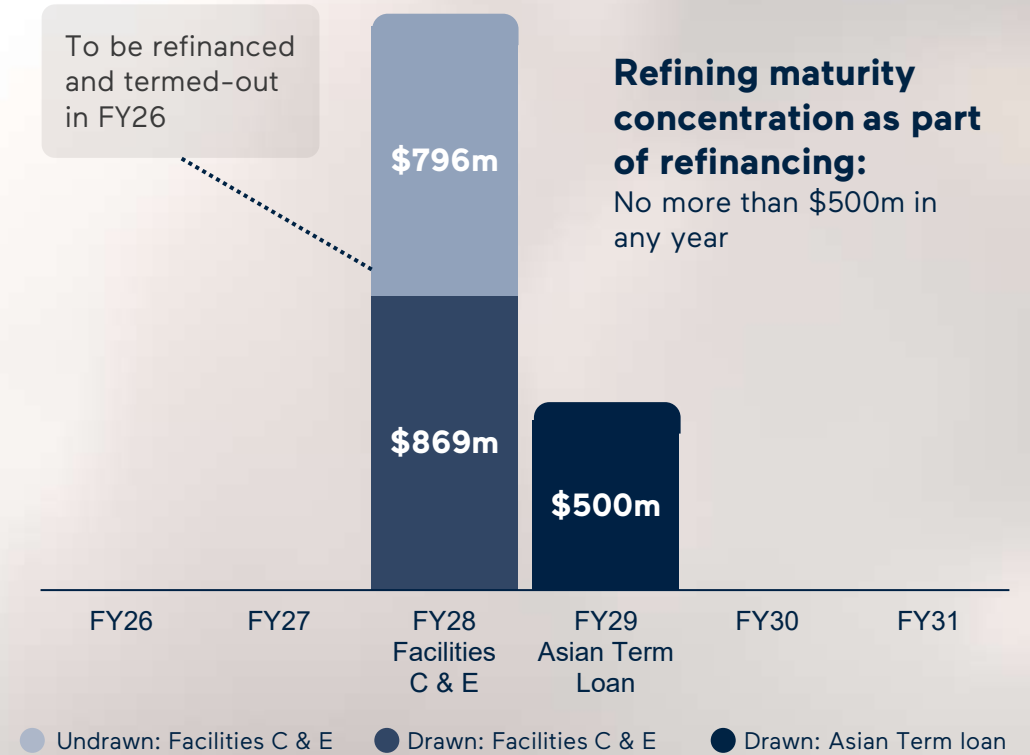

Balance sheet capacity to maintain investment grade position while funding upcoming spectrum renewals

Maintaining S&P – Investment Grade / BBB

● Indicative S&P Adjusted EBITDA:Debt ratio

Debt maturity profile

Strong outlook for growth in cash flow

Increased cash earnings and reducing capex increasing sustainability of future cash flows for investors

Sustainable increase in operational earnings from:

- Revenue growth – increasing Mobile ARPU and market share
- Operating leverage – restraining cost growth below rate of revenue growth
- Lower borrowing costs – structurally lower bank borrowings

Capex reducing to \$550m - \$650m

TPG Telecom has **funding optionality from strong operating cash flow and borrowings headroom** to fund spectrum payments re-commencing in FY28

Free Cash Flow to Equity (\$m)

Simplified policy to deliver growing dividends

Cash generation more than adequate to fund consistent and sustainable growth

TPG'S SIMPLIFIED DIVIDEND POLICY:

Intention to increase dividends over time in line with sustainable growth in profit and cash flow

Franking expected to grow over time as profitability increases

ROIC expected to exceed WACC over time

Accelerating returns driven by operating earnings growth and compounding benefit of capital efficiency

Return on Invested Capital (Pro Forma)

Improved earnings and capital efficiency driving improvement, closing gap to industry WACC (7-8%) in the near term and growing above thereafter

Drivers of accelerating performance:

- Strong operating leverage benefit in EBIT of revenue, Gross Margin growth and opex efficiency
- Full-year capital efficiency benefit of off-balance-sheet handset receivables financing from FY26
- Benefit to invested capital of lower net additions compounding over time as capex reduces

Key drivers improving shareholder returns

1
Growing Mobile
Service Revenue

2
Operating leverage
in earnings and free
cash flow

3
Growing and
maintaining ROIC
above WACC

4
Growing dividends
over time in line
with simplified
policy

NETWORK
SHARING

LEOSat and UOMO

An opportunity to extend network reach and resilience to the entire country

Strategic impetus:

close geographical coverage gap to reduce churn and increase market share in a more efficient way

Four components to deliver a reliable service:

satellite technology, earth stations, spectrum, handsets

Not a replacement for terrestrial network:

given lack of indoor coverage and throughput limitation, especially in metro areas

UOMO (Universal Outdoor Mobile Obligation):

Australia is the first country to propose regulation
Legislation still to be finalised

Future direction – advanced use cases

Enabling customers in their AI-adoption journey

Network Slicing

- Product differentiation
- Cloud gaming
- Advanced FWA
- Public safety
- Vertical industries

Network APIs

- Identity & authentication
- Fraud prevention
- Location & context-aware services
- Quality on demand

Mobile IoT

- Smart metering
- Smart city sensing
- Environment & infra monitoring
- Smart building
- Precision farming

Machine Type Communications

- Industrial automation
- Autonomous systems
- Smart grid monitoring
- Healthcare support
- Transportation safety

AI-Enabling Services

- Connectivity for AI adoption
- Future wearables & immersive reality
- Network as a sensor

Disclaimers

The information in this presentation and any oral presentation accompanying it about TPG Telecom and its activities is current as at 2 June 2026 and is in summary form and is not necessarily complete. It should be read together with TPG Telecom's Appendix 4E and 2025 Annual Report and other announcements lodged with the Australian Securities Exchange.

Future performance and forward-looking statements

Forward-looking statements, opinions and estimates provided in this Presentation are based on assumptions and contingencies which are subject to change without notice, as are statements about market and industry trends, which are based on interpretations of current market conditions. Forward-looking statements including projections, guidance on future earnings and estimates are provided as a general guide only and should not be relied upon as an indication or guarantee of future performance.

An investment in TPG Telecom shares is subject to investment and other known and unknown risks, some of which are beyond the control of the group, including possible delays in repayment and loss of income and principal invested. TPG Telecom does not guarantee any particular rate of return or the performance of the group nor does it guarantee the repayment of capital from TPG Telecom or any particular tax treatment.

No representation or warranty, express or implied, is made as to the fairness, accuracy, completeness or correctness of the information, opinions and conclusions contained in this Presentation. To the maximum extent permitted by law, none of TPG Telecom, its directors, employees or agents, nor any other person accepts any liability, including, without limitation, any liability arising out of fault or negligence, for any loss arising from the use of the information contained in this Presentation. In particular, no representation or warranty, express or implied is given as to the accuracy, completeness or correctness, likelihood of achievement or reasonableness of any forecasts, prospects or returns contained in this Presentation nor is any obligation assumed to update such information. Such forecasts, prospects or returns are based on assumptions (including those set out in this presentation) and by their nature subject to significant uncertainties and contingencies.

Factors that may affect forward-looking statements include legal and regulatory changes or actions; technological changes; changes in customer expectations and sentiment, economic and geopolitical factors including global market conditions, demand and availability of highly skilled people; and risks, including physical, technology and environmental risks.

Past performance

Past performance information given in this Presentation is given for illustrative purposes only and should not be relied upon as (and is not) an indication of future performance.

Not financial product advice

This Presentation is for information purposes only and is not financial product or investment advice or a recommendation to acquire TPG Telecom shares and has been prepared without taking into account the objectives, financial situation or needs of any individuals. Before making any investment decision, investors should consider the appropriateness of the information having regard to their own objectives, financial situation and needs and seek legal and taxation advice appropriate to their jurisdiction. TPG Telecom is not licensed to provide financial product advice in respect of TPG Telecom shares. Cooling off rights do not apply to the acquisition of TPG Telecom shares.

Not an offer

This Presentation is not, and should not be considered, an offer or an invitation to acquire TPG Telecom shares or any other financial products.

International Financial Reporting Standards (IFRS)

This presentation includes certain non-IFRS financial measures. These non-IFRS financial measures are used by management to assess the performance of TPG's business and make decisions on allocation of resources. Further information regarding the non-IFRS financial measures and other key terms used in this presentation are included in the glossary on slides [81](#) and [82](#). Non-IFRS measures have not been subject to audit or review.

Glossary

TERM	DEFINITION
1H	Six months ended/ending 30 June of the relevant financial year.
2H	Six months ended/ending 31 December of the relevant financial year.
ACMA	Australian Communications and Media Authority.
AMPU	Average Margin per User. Not adjusted for inclusion of commercial agreements with Vocus as these are not allocated to the product level for the reported periods.
ARPU	Average revenue per user. Total ARPU includes data SIMs and excludes MVNOs. Postpaid ARPU excludes data SIMs. Prepaid ARPU includes Prepaid data SIMs and MVNOs.
APIs	Application Programming Interfaces.
Capex	Capital expenditure.
Capex (additions basis)	Capex (additions basis) means total additions to property, plant and equipment (ex asset SWAP accounting related additions) and intangibles (ex spectrum) per the financial statements.
Capex (cash basis)	Capex (cash basis, ex spectrum) means additions basis capex adjusted for movements in capex creditors in the period.
CX	Customer Experience.
EBITDA	Earnings Before Interest Tax Depreciation and Amortisation.
EBITDA guidance basis	EBITDA guidance basis is subject to no material change in operating conditions and excludes any impact of material one-offs such as transaction costs, restructuring, mergers and acquisitions, disposals, impairments, and such other items as determined by the Board and management.
eJV	eJV is a joint venture between TPG Telecom and Optus for the sharing of passive mobile network tower and rooftop assets.
EPS	Earnings per share is statutory NPAT adjusted by adding back customer base amortisation and material one-offs (subject to the discretion of the Board), divided by weighted number of shares on issue.
FWA	Fixed Wireless Access.
FY	Financial year ended/ending 31 December of the relevant financial year.
Gross Margin	Earnings after cost of telecommunication services before operating expenses.
Group	The Company and entities controlled by the Company (its subsidiaries).
Guidance basis	Guidance is subject to no material change in operating conditions and excludes any material one-off impact arising from events such as transactions, redundancy restructuring, mergers and acquisitions, disposals, impairments and any other items as determined by the Board and management. FY25 Guidance basis includes impact of Pro Forma adjustments.

TERM	DEFINITION
Material one-offs	Impacts arising from events such as transactions, redundancy, restructuring, mergers and acquisitions, disposals, impairments and any other items as determined by the Board and management. Exclude such impacts arising from the Vocus Transaction, which are already excluded through discontinued operations.
Mobile Service Revenue	Includes Mobile Postpaid, Mobile Prepaid and Wholesale products. Wholesale products are MVNO and Push Text services reported within Other Service Revenue.
MOCN	Multi-operator core network sharing arrangement.
MVNO	Mobile virtual network operator.
NPAT	Net Profit After Tax is the total revenue minus all expenses and tax.
NPATA	Net Profit After Tax, adjusted to exclude the tax-effected impact of customer base amortisation and other material one-offs determined by the Board and management.
Underlying NPATA	Calculated as NPATA, adjusted to add back impairments and material one-offs.
NOPAT	Net operating profit after tax but before finance expense.
OFCF	Operating Free Cash Flow, calculated as cash flows from operating activities less capital expenditure (excluding spectrum payments), lease payments and cash tax; continuing operations only.
Opex	Operating expense.
PCP	Prior corresponding period.
PPE	Property, plant and equipment.
Pro Forma	Pro Forma: continuing operations results adjusted as if new commercial arrangements arising from the Vocus Transaction (TAWFA and Vision WBA) had been in place for the entire period.
Return on Invested Capital (ROIC)	NOPAT adjusted to remove customer base amortisation expense and material one-offs (subject to discretion of the Board), divided by average invested capital excluding goodwill, brand and customer base intangibles.
RoU	Right of use.
Service Margin	Service Revenue and Other income less Cost of provision of telco services.
Service Revenue	Excludes revenue from handsets, accessories and other hardware products. For Mobile, includes data SIMs. For Fixed Broadband, includes voice products.
SIO	Services in Operation (excludes Mobile Broadband).
Spectrum	Radio frequency spectrum is where radio waves are transmitted and received.
TAWFA	Transmission and Wholesale Fibre Access Agreement between TPG and Vocus.
Total Shareholder Return	Share price appreciation, dividends and other capital returns, assuming all dividends and capital returns are reinvested in TPG Telecom shares.
Vision WBA	Vision Wholesale Business Agreement.
WACC	Weighted Average Cost of Capital.
