ASX: DVP

ASX Announcement
20 November 2026

Correction to 2026 AGM Chair Address

Develop Global (ASX: DVP) advises that there was a factual error in the Chair's address to the Company's 2026 AGM (see ASX release dated 19 November 2026).

The address stated that "Develop's Woodlawn copper-zinc project in NSW is still in the ramp-up phase and will achieve steady-state production in Q1, 2027". This reference was inadvertently adopted from an outdated document and should be disregarded.

In fact, Woodlawn reached steady-state production in the March quarter of 2026 and has continued to operate at or above this rate since then (see ASX release dated 9 April 2026).

This announcement is authorised for release by Bill Beament, Managing Director.
