

**ASX RELEASE:** 31 January 2025

## **QUARTERLY ACTIVITIES REPORT – 31 DECEMBER 2024**

## **HIGHLIGHTS**

Extensive auger drilling program over E77/2584 has uncovered multiple anomalies for gold and lithium with assays up to 374.5ppb Au.

Gold trend consistent with magnetic anomalies on greenstone belt along strike of Boodarding Prospect.

Broad lithium anomaly +50ppm over greenstone terrane proximal to granites.

**XTC Lithium Limited (ASX: XTC) (XTC**, or the **Company**) quarterly activities report for the quarter ended 31 December 2024.

#### WESTERN AUSTRALIA – SOUTHERN CROSS GOLD PROJECT

The Company announced results from a recent auger drilling program completed across E77/2584 in its Southern Cross tenement package. (ASX: XTC 20 December 2024)

A total of 501 drill holes were sampled across the central portion of the tenement targeting gold along trend from the Boodarding gold prospect.

The geochemical auger drilling program delineated multiple gold trends south of Marvel Loch, 7km west of the Yilgarn Star gold mine, targeting the Archean Southern Cross Greenstone Belt north of the Parker Dome. The greenstones wrap around the top of the parker dome causing an east-west strike with numerous magnetic anomalies revealed in public data. The sampling program tested approximately 3.4km of strike on a 100x100m grid and revealed gold anomalies up to 374.5ppb Au. The highly anomalous zone in the central part of the sample grid has 9 contiguous samples over 100ppb Au, in a broader halo of +50ppb Au samples. Additionally, in the south-west of the sample grid +100ppb Au samples appear to extend further to the west beyond the survey extent. Magnetic anomalies from public geophysical data reveal a complex zone of faulting and splay features in the greenstones which may provide avenues for vein and shear hosted gold mineralisation common in the area. A review of the

31 January 2025

lithium in assay results showed a broad anomalous zone of +50ppb Li in the mid-southwest of the sample grid and warrants follow-up work.

A 4WD mounted auger was utilised to take samples from approximately 1m-1.5m depth to reduce the risk of sampling transported material or ground disturbed by prospecting activity. Auger contractors Gyro Australia logged details for each sample including colour, HCl reaction and depth. A single sample was collected for each drill hole and samples were analysed via the UltraFines method at Labwest. The CSIRO developed method essentially analyses the fine clay fraction of the sample which is most likely to represent weathered portions of in-situ material, as opposed to transported. The method has proven successful in detecting low level anomalies and provides a full multi-element suite for pathfinder element assessment. XTC will continue to investigate the anomalies further with additional desktop interpretation and planning an infill program around anomalous results to refine targets for depth testing.

#### SOUTH AMERICA – CARACHI PAMPA LITHIUM BRINE PROJECT (CARACHI PROJECT)

Management continues with discussions with third parties familiar with Argentine operating conditions to support the Company's operations at the Carachi Pampa Lithium Brine Project.

31 January 2025

#### **CORPORATE**

#### **Suspension from Trading**

The Company is continuing to work towards reinstatement to trading as soon as practicable.

#### **ASX Additional Information**

- 1. ASX Listing Rule 5.3.1: Full details of exploration activity during the quarter are set out in this report.
- 2. ASX Listing Rule 5.3.2: There was no substantive mining production and development activities during the guarter.
- 3. ASX Listing Rule 5.3.5: There were no payments to related parties of the Company and their associates during the quarter.

#### **Competent Persons Statement**

The Exploration Results reported in this announcement are based on, and fairly represent, information and supporting documentation prepared by Mr Brodie Box, MAIG. Mr Box is a geologist and has adequate professional experience with the exploration and geology of Western Australia to qualify as a Competent Person as defined in the 2012 Edition of the Joint Ore Reserves Committee (JORC) Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr. Box consents to the form and context in which the Exploration Results are presented in this announcement.

This announcement has been approved for release by the Board.

31 January 2025

#### Carachi Lithium Project - Catamarca, Argentina

The Carachi Lithium Project is located in Catamarca Province, Argentina (the "Project") which is inside the world-renowned Lithium triangle in South America that covers areas of Argentina, Chile and Bolivia. The Project, which comprises 21,900 hectares, is situated 40 kilometres south of the town of Antofagasta de la Sierra, Catamarca, at approximately 3,000 metres elevation. This region of Argentina includes the Hombre Muerto Salar where a US\$840 million lithium mine is under development by the Korean multinational corporation POSCO. Livent Corporation has been producing lithium in the southwest part of Hombre Muerto for over 25 years, whilst Allkem Resources has a large development stage lithium Project in the south part of the Hombre Muerto salar. At the district level, the Carachi Project is adjacent to Lake Resources' Kachi lithium project that is well-advanced in its development stage.

#### Southern Cross Gold Project

The Southern Cross Project is located 380km east of Perth, southeast of Southern Cross in the Yilgarn Goldfield.

The project comprises 16 Prospecting Licences and 7 Exploration Licences with a combined area of 197 km<sup>2</sup>, over mostly contiguous tenements covering over 40km of strike of the Southern Cross Greenstone Belt, which has historically produced around 15Moz gold, predominantly from the Marvel Loch and Southern Cross centres, both of which are in operation to varying extents.

The project area is serviced by sealed roads, grid power, scheme water, rail and town amenities. Minjar operates the Marvel Loch plant nearby and Ramelius Resources operates the Edna May facility some 60 kilometres to the west.

6.2	Aggregate amount of payments to related parties and their associates included in item 2	-
	if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include lation for, such payments.	e a description of, and an

7.	Financing facilities  Note: the term "facility' includes all forms of financing arrangements available to the entity.  Add notes as necessary for an understanding of the sources of finance available to the entity.	Total facility amount at quarter end \$A'000	Amount drawn at quarter end \$A'000	
7.1	Loan facilities	3,000	1,345	
7.2	Credit standby arrangements	-	-	
7.3	Other (please specify)	-	-	
7.4	Total financing facilities	3,000	1,345	
7.5	Unused financing facilities available at quarter end 1,655		1,655	
7.6	Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.			
	John Featherby, no maturity, interest rate 5% p.a., unsecured.			

8.	Estimated cash available for future operating activities	\$A'000
8.1	Net cash from / (used in) operating activities (item 1.9)	(297)
8.2	(Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	(83)
8.3	Total relevant outgoings (item 8.1 + item 8.2)	(380)
8.4	Cash and cash equivalents at quarter end (item 4.6)	63
8.5	Unused finance facilities available at quarter end (item 7.5)	1,655
8.6	Total available funding (item 8.4 + item 8.5)	1,718
8.7	Estimated quarters of funding available (item 8.6 divided by item 8.3)	4.52

Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.

8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:

8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: N/A

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: N/A

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: N/A

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.

#### Compliance statement

04/04/0005

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date:	31/01/2025
	BY THE BOARD
Authorised by:	
(Name of body or	r officer authorising release – see note 4)

#### Notes

- 1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
- If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: Exploration for and Evaluation of Mineral Resources and AASB 107: Statement of Cash Flows apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
- 3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
- 4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
- 5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
