Altair Minerals Limited CEO, Faheem Ahmed, commented:

“We are pleased to welcome a globally recognised mining investor onto the Altair register. Rarely does an exploration company attract leading institutional investors of this calibre so early on its journey.

This Placement is a testament to the prospectivity of the Greater Oko Project and the unparalleled opportunity that this Project presents. We are excited to have an irreplicable foothold and landmark consolidated position across the last untapped Birimian-like greenstone belt which sits in a politically stable and pro-mining jurisdiction.

We have accelerated the Project over the last few months and with this investor-led placement, expect to move at greater scale and speed towards a major ~15,000m drill program.

Altair would like to thank all current and new shareholders for their continued support, and we look forward to commencing the Company’s maiden drill programme at the Greater Oko Project”
