5.6 Additional information

The Company expects to have negative operating cash flows in the near to medium term as is customary for resource exploration entities. Alto continues to assess fundraising alternatives and is in advanced discussions with several parties in relation to raising capital to continue funding exploration activities. The Board believes that Alto has the ability to successfully raise additional capital, based on its previous ability to raise funds when required and based on feedback from the parties it is in discussions with.

Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
2. If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: Exploration for and Evaluation of Mineral Resources and AASB 107: Statement of Cash Flows apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
