
ALTO BOARD CHANGES

The Board of Directors of Alto Metals Limited (ASX: AME) (“Alto”, “the Company”) wish to advise that it has accepted the resignation of Alto’s Chairman, Mr Terry Streeter. Mr Streeter has resigned from the Board effective immediately, to pursue his other business interests.

Mr Terry Wheeler, who joined the Alto Board in December 2016, and is Alto’s largest shareholder, has been elected as acting Chairman of the Company. Mr Wheeler said: “the Alto Board would like to thank Terry for his service to Alto, and we wish Terry all the very best with his current and future business endeavours.”

The Alto board now consists of Mr Wheeler, Dr Wang and Mr Ryan.

The Board has re-affirmed that it is committed to Alto’s goal of discovery and development of one or more major gold deposits in the Sandstone Region of WA, and is looking forward to a “ramping up” of exploration activity and drilling in 2019, following the past two years of compilation, target identification and target testing.

On behalf of the Board:

Dermot Ryan
Executive Director
