

Arafura Resources Limited Share Purchase Plan

Not for release to US wire services or distribution in the United States

5 July 2021

Dear Shareholder

OFFER TO PARTICIPATE IN SHARE PURCHASE PLAN

The Directors of Arafura Resources Limited (ASX: ARU) (**Arafura** or the **Company**) are pleased to offer you the opportunity to participate in the Arafura Share Purchase Plan (**SPP**).

Under the SPP, the Company offers eligible shareholders who were registered holders of fully paid ordinary shares (**Shares**) in the Company as at 7:00pm (Sydney Time) on 23 June 2021 (**Record Date**), and whose registered address is in Australia or New Zealand, the opportunity to apply for parcels of new Shares (**New Shares**) in Arafura of up to A\$30,000 without paying brokerage or other transaction costs.

The SPP follows the announcement of Arafura's placement to local and overseas institutional and sophisticated investors to raise A\$40.0 million (before costs) (**Placement**).

The offer price for the New Shares is A\$0.12 per share, being the same issue price for the Shares the subject of the Placement. The issue price represents a 29.1% discount to the volume weighted average market price of Arafura shares calculated over the last 5 days on which sales in the Shares were recorded before the day on which the SPP was announced.

The SPP is not underwritten. Arafura is targeting to raise approximately A\$5.0 million (before costs) under the SPP and, depending on demand, may scale back applications or (to the extent permitted by the ASX Listing Rules) raise a higher amount, at its absolute discretion.

Funds raised under the SPP are intended to be used to commence Front End Engineering and Design activities at the company's Nolans Project and for general working capital purposes. If Arafura does not raise the full amount targeted under the SPP, Arafura intends to apply the gross proceeds received firstly towards meeting the costs of the SPP, and then towards the above activities to the extent possible.

The SPP is conditional on shareholders approving the issue of shares under the SPP for the purposes of ASX Listing Rule 7.1. It is proposed that this matter will be considered at a meeting of shareholders of Arafura scheduled to be held on 9 August 2021. Further details regarding the required approval are set out in Arafura's notice of general meeting dated 5 July 2021. The SPP will not proceed, and no New Shares will be issued under the SPP, unless shareholders approve the issue of New Shares under the SPP.

The SPP will open (and the SPP offer documents will be despatched to eligible shareholders) on 5 July 2021 and will remain open until 5:00pm (Sydney Time) on 23 August 2021. As soon as practicable (and in any event no later than 5 business days) after the close of the SPP, Arafura will make an ASX announcement as to the outcome of the SPP and the number of New Shares to be issued.

The offer of New Shares is made under an SPP Offer Booklet and an Application Form (both enclosed). To apply for a parcel of New Shares, please follow the instructions on pages 3 and 4 of the SPP Offer Booklet, and on the Application Form.

These documents are important and should be read thoroughly in conjunction with the publicly available information relating to Arafura. If you are unsure about whether to participate, please contact your professional adviser. If you require further information, please contact the Arafura Shareholder Information Line on (+61) 1300 859 277.

On behalf of the Board, I encourage you to consider this opportunity to increase your investment in Arafura.

Yours sincerely

Mark Southey
Chairman
Arafura Resources Limited

Key Dates*

Date (and time if relevant)	Event
7:00pm Sydney time, 23 June 2021	Record Date The date and time at which Arafura determines who is eligible to participate in the SPP.
5 July 2021	Opening Date Applications will be processed following this date.
9 August 2021	General Meeting Shareholder meeting to approve issue of New Shares under the SPP (and Tranche 2 of the Placement)
5:00pm Sydney time, 23 August 2021	Closing Date Application Forms together with payment by cheque must be received by this time and date. NOTE: BPAY® payments must be received by 5:00pm (Sydney time), 23 August 2021 (which is when the BPAY® system closes on the Closing Date).
30 August 2021	Announcement of Results
30 August 2021	Issue Date The date on which the New Shares are expected to be issued and any scale back of the New Shares is announced.
31 August 2021	Quotation Date New Shares are quoted on ASX.
31 August 2021	Trading Date The date on which the New Shares are expected to begin trading.
31 August 2021	Despatch Date Transaction confirmations / holding statements will be sent to shareholders on or around this date.

* Arafura may change any of the Key Dates at its discretion (even if the offer has opened or applications have been received).

Instructions

The SPP opens on 5 July 2021 and under the offer you may only apply for a parcel of New Shares as set out in the table below. Fractional entitlements to New Shares will be rounded up.

Application options
A\$2,500 of New Shares
A\$5,000 of New Shares
A\$10,000 of New Shares
A\$20,000 of New Shares
A\$25,000 of New Shares
A\$30,000 (maximum) of New Shares

To apply and pay for your New Shares, you have two options:

Option 1: BPAY®¹

You can make a payment by BPAY® if you have an Australian bank account enabled for this purpose. BPAY® customers must follow the instructions on page 6 and in the Application Form and must use the customer reference number shown on the Application Form which is required to identify your holding. If paying by BPAY®, you do not need to return your Application Form. See page 6 for further information.

Option 2: Application Form and cheque

You can complete the Application Form and return it to Arafura Resources Limited C/- Link Market Services Limited (**Share Registry**), GPO Box 3560, Sydney South NSW 2001 Australia together with a cheque in accordance with the instructions on the Application Form.

Cheques must be made payable to “Arafura Resources Limited” in Australian dollars and drawn on an Australian bank for the correct amount. Arafura will not accept payment by cash.

Timing

All cheques and Application Forms must be received before 5:00pm (Sydney Time) on 23 August 2021. You cannot withdraw or cancel your application or BPAY® payment once you have sent it in. BPAY® payments must be received by 5:00pm (Sydney Time) on 23 August 2021 (which is when the BPAY® system closes on the Closing Date).

Questions

If you have any questions, please contact your professional adviser or the Arafura Shareholder Information Line on (+61) 1300 859 277 (toll free within Australia), from 8.30am to 5.30pm (AEST) Monday to Friday (excluding public holidays) during the SPP offer period.

No offer outside Australia and New Zealand

This document may not be released to US wire services or distributed in the United States or any country other than Australia and New Zealand. This document does not constitute an offer to sell, or a solicitation of an offer to buy, securities in the United States or any country other than Australia and New Zealand. In particular, any securities described in this document have not been, and will not be, registered under the US Securities Act of 1933 (as amended) and may not be offered or sold in the United States except in transactions exempt from, or not subject to, registration under the US Securities Act and applicable US state securities laws.

¹ © Registered to BPAY Pty Ltd ABN 69 079 137 518.

Terms and Conditions

IMPORTANT NOTICE: The market price of Arafura shares may rise or fall from now to when the New Shares are issued to you under the SPP. Therefore, if you apply for and we allot to you New Shares under the SPP, the offer price for those New Shares may be more than, or less than, the market price of Arafura shares you could buy at that time. By completing and returning the Application Form or making a BPAY® payment, you acknowledge this risk. We encourage you to contact your professional adviser regarding whether to participate in the SPP and how much to contribute.

Offer timetable

- (a) The offer timetable is set out in the Key Dates above and is included in these Terms and Conditions.
- (b) Payment by BPAY®, Application Forms and cheques may not be processed and may not be valid if they have not been received by or on behalf of Arafura by the time and date specified for the Closing Date. You must allow adequate time for Application Forms and cheques forwarded by post to be received by the Share Registry. You should be aware that your financial institution may implement earlier cut-off times with regards to electronic payment, and you should therefore take this into consideration when making payment.
- (c) Arafura expects to send a transaction confirmation or holding statement to you on or around the Despatch Date.
- (d) Arafura expects that the New Shares will be issued under the SPP on the Issue Date and will commence trading on ASX on the Trading Date. You must confirm your holding before trading in any New Shares you believe have been issued to you under the SPP.
- (e) At any time, Arafura can change the Closing Date, the Issue Date, the Trading Date and the Despatch Date (even if the offer has opened, or BPAY® payments and Application Forms have been received) by giving a revised timetable to ASX.

Condition

The offer under the SPP is conditional upon shareholders approving the issue of shares under the SPP for the purposes of ASX Listing Rule 7.1 (**Condition**). It is proposed that this matter will be considered at a meeting of shareholders of Arafura scheduled to be held on 9 August 2021. Further details regarding the Condition and the required approval are set out

in Arafura's notice of general meeting dated 5 July 2021.

All payments received for New Shares will be held on trust and if the Condition is not satisfied, then the SPP will not proceed and any such payments will be refunded (without interest) as soon as practicable following the meeting of shareholders.

Eligible Shareholders

You are an eligible shareholder and may participate in the SPP if you were a registered holder of Arafura ordinary shares with a registered address in Australia or New Zealand as at 7:00pm (Sydney Time) on 23 June 2021 (**Record Date**) and are not in the United States nor acting for the account or benefit of a person in the United States, unless you hold Arafura shares on behalf of another person who resides outside Australia or New Zealand (in which case you will not be eligible to participate in respect of the shares of that person) (**Eligible Shareholder**).

Arafura has determined that it is not practical for holders of Arafura shares with registered addresses in other countries to participate.

- **Holders receiving more than one offer:** If you are the only registered holder of Arafura shares, but you receive more than one offer under the SPP (due to multiple registered holdings), you may only contribute a maximum of A\$30,000 in applying for New Shares.
- **Joint Holders:** If 2 or more persons are recorded in the register of members of Arafura as jointly holding Arafura shares, they are considered to be a single registered holder for the purpose of the SPP and as joint holders they are entitled to participate in the SPP in respect of that single holding only. If as joint holders you receive more than one offer under the SPP due to multiple identical holdings, you may still only contribute a maximum of A\$30,000 in applying for New Shares.

- **Custodians, trustees and nominees:** If you are a custodian, trustee or nominee within the definition of “custodian” in *ASIC Corporations (Share and Interest Purchase Plans) Instrument 2019/547 (Custodian)*, and hold Arafura shares on behalf of one or more Beneficiaries (as defined below) on whose behalf you are participating in the offer (each a **Participating Beneficiary**), or on behalf of a "downstream custodian" within the definition of *ASIC Corporations (Share and Interest Purchase Plans) Instrument 2019/547* who holds the beneficial interest in Arafura shares on behalf of a Participating Beneficiary, you may apply for up to a maximum of A\$30,000 worth of New Shares for each Participating Beneficiary, subject to providing Arafura with a Custodian Certificate in accordance with paragraph (d) of “Significance of applying for New Shares” below. A Custodian has the discretion to extend the offer to the Beneficiaries. A **Beneficiary** is a person who resides in Australia or New Zealand for whom a Custodian (being an Eligible Shareholder) held Arafura ordinary shares on the Record Date and who is not in the United States and who is not acting for the benefit of or the account of a person in the United States. If you are not a Custodian, the rules for multiple single holdings (and joint holdings) apply and you may only contribute a maximum of A\$30,000 in applying for New Shares. If you are a Custodian, trustee or nominee, you are not eligible to participate on behalf of a person who resides outside Australia and New Zealand.

Participation is optional

Participation in the SPP is entirely optional. If you are an Eligible Shareholder, you can choose whether or not to participate.

How much can you invest?

- (a) Arafura is targeting to raise approximately A\$5.0 million (before costs) under the SPP. Depending on demand, Arafura may scale back applications or (to the extent permitted by the ASX Listing Rules) raise a higher amount, at its absolute discretion.
- (b) If you are an Eligible Shareholder, you may apply to buy a parcel of New Shares by contributing a set amount of

either A\$2,500, A\$5,000, A\$10,000, A\$20,000, A\$25,000 or A\$30,000.

- (c) Your application may be subject to a scaleback and rounding. Arafura reserves absolute discretion regarding the amount raised under the SPP and exercise of its right to accept additional funds or to scaleback applications. If there is a scaleback, Arafura may in its absolute discretion determine to apply the scaleback to the extent and in the manner that it sees fit.
- (d) Unless you are applying as a Custodian, the maximum amount of A\$30,000 applies even if you receive more than one Application Form or if you hold shares in Arafura in more than one capacity (for example, if you are both a sole and joint holder of shares in Arafura - see “Eligible Shareholders” above) and irrespective of the number of Arafura shares you hold on the Record Date. We can reject any application for New Shares if we believe you have not complied with this condition.

How to apply for New Shares

If you would like to participate in the SPP, you have two options:

Option 1: BPAY®

Provided you are not a Custodian, you can make a payment by BPAY® if you have an Australian bank account enabled for this purpose. BPAY® customers must use the customer reference number shown on the Application Form which is required to identify your holding. If paying by BPAY®, you do not need to return your Application Form.

IMPORTANT NOTE: By using this BPAY® facility to apply for New Shares, you represent that the total of the application price for the following does not exceed A\$30,000 (even if you have received more than one offer under the SPP or have received offers in more than one capacity):

- (a) the New Shares the subject of this application;
- (b) any other shares applied for under this SPP, or shares or interests in the class issued under a similar arrangement in the 12 months before this application;

- (c) any other shares or interests in the class which you have instructed a Custodian to acquire on your behalf under this SPP; and
- (d) any other shares or interests in the class issued to a Custodian under an arrangement similar to this SPP in the 12 months before this application as a result of you instructing the Custodian or another Custodian, which resulted in you holding a beneficial interest in the shares or interests.

Payment by BPAY® may not be processed and may not be valid if it has not been received by Arafura by the time and date specified for the Closing Date. You should be aware that the BPAY® system closes at 5:00pm (Sydney Time) and your financial institution may implement earlier cut-off times with regards to electronic payment, and you should therefore take this into consideration when making payment.

Option 2: Application Form and cheque

You must complete an Application Form and return it with a cheque in accordance with the instructions on the Application Form.

Cheques must be payable to "Arafura Resources Limited", in Australian dollars and drawn on an Australian bank for the correct amount. Arafura will not accept payment by cash.

Application Forms and cheques may not be processed and may not be valid if they have not been received by or on behalf of Arafura by the time and date specified for the Closing Date. You must allow adequate time for Application Forms and cheques forwarded by post to be received by the Share Registry.

Arafura's discretion regarding applications

Arafura may accept or reject applications for New Shares under the SPP, including if:

- (a) an Application Form is incorrectly completed, incomplete or otherwise determined by Arafura to be invalid;
- (b) you are a Custodian, and we are not satisfied with your certification for any reason;
- (c) a cheque is dishonoured or has not been completed correctly;

- (d) the correct amount corresponding to your application is not provided with the Application Form or BPAY® payment;
- (e) a BPAY® payment is not received or is incomplete or invalid;
- (f) unless you are applying as a Custodian, an applicant appears to be contributing more than A\$30,000 under the SPP;
- (g) an application is received after the time and date specified as the Closing Date. Arafura has a discretion whether or not to accept late BPAY® payments, Application Forms and cheques; or
- (h) Arafura believes you are not an Eligible Shareholder,

and Arafura must reject applications if required to do so under *ASIC Corporations (Share and Interest Purchase Plans) Instrument 2019/547*.

Arafura reserves the right to return your cheque or refund your BPAY® payment and not allot you any New Shares.

Offer price

The New Shares under the SPP will be issued at A\$0.12 per share, which represents a 29.1% discount to the volume weighted average market price of Arafura shares calculated over the last 5 days on which sales in the Shares were recorded before the day on which the SPP was announced.

The number of New Shares issued to an applicant will be determined by dividing the value of the New Shares applied for by the issue price. If this calculation produces a fractional number, the number of New Shares will be rounded up to the nearest whole share.

Applications may be scaled back

- (a) Arafura may, in its absolute discretion, issue to you less than the number of New Shares you have applied for depending on demand (**Scaleback**). If there is a Scaleback, Arafura may in its absolute discretion determine to apply the Scaleback to the extent and in the manner that it sees fit, including by taking into account a number of factors (but without limiting Arafura's absolute discretion) that include the size of your shareholding as at the Record Date and

total applications received from Eligible Shareholders.

- (b) If there is a Scaleback you may not receive all the New Shares for which you have applied. Each applicant will be treated equally and scaled back on a pro rata basis. If a Scaleback produces a fractional number when applied to your parcel, the number of New Shares you will be issued will be rounded down.
- (c) Arafura will refund to you by direct credit deposit to your nominated bank account (where you have given your nomination to the Share Registry) or by cheque, the difference between your application money and the total offer price for the New Shares issued to you.

No other participation costs

No brokerage, commission or other participation costs are payable by you to acquire New Shares under the SPP.

No interest

No interest will be paid on any application money returned to you.

You cannot transfer your rights under this SPP

Your rights under this offer are personal to you and non-renounceable. This means you cannot transfer your right to purchase New Shares under this SPP to anyone else.

Equal ranking

New Shares issued under the SPP will, at the time of issue, rank equally with existing fully paid ordinary shares in Arafura quoted on ASX, with the same voting rights, dividend rights and other entitlements.

Significance of applying for New Shares

If you apply to participate in the SPP:

- (a) you agree that once you have sent in your application or made your BPAY® payment, you cannot withdraw or cancel your application and your application is unconditional;
- (b) you confirm that you are an Eligible Shareholder and that you are lawfully permitted to accept the offer under the

SPP and participate in the SPP in accordance with these Terms and Conditions and any applicable laws;

- (c) you certify that, even if you have received more than one offer under the SPP or received offers in more than one capacity, the total of the application price for the following does not exceed A\$30,000:

- the New Shares the subject of this application;
- any other shares applied for under this SPP, or shares or interests in the class issued under a similar arrangement in the 12 months before this application;
- any other shares or interests in the class which you have instructed a Custodian to acquire on your behalf under this SPP; and
- any other shares or interests in the class issued to a Custodian under an arrangement similar to this SPP in the 12 months before this application as a result of you instructing the Custodian or another Custodian, which resulted in you holding a beneficial interest in the shares or interests;

- (d) if you are a Custodian and are applying for New Shares with a total application price exceeding A\$30,000, you may only do so subject to you providing a notice in writing to Arafura certifying the matters required by *ASIC Corporations (Share and Interest Purchase Plans) Instrument 2019/547* at section 8(3) (**Custodian Certificate**). Custodians should request a pro forma Custodian Certificate when making an application on behalf of Participating Beneficiaries. To request a Custodian Certificate or if you would like further information on how to apply, you should contact the Arafura Shareholder Information Line;

- (e) you agree to these Terms and Conditions and you agree not to do anything which would be contrary to the spirit, intention or purpose of the SPP;

- (f) you agree to be bound by the Constitution of Arafura;
- (g) you authorise Arafura (and its officers or agents) to correct any error or omission in your Application Form and to complete the Application Form by inserting missing details if Arafura elects to do so;
- (h) you agree that Arafura may determine that your Application Form is valid and in accordance with these Terms and Conditions, even if it is incomplete, contains errors or is otherwise defective;
- (i) you agree that your application is only effective when received by, or on behalf of, Arafura and not when posted;
- (j) you accept the risk associated with any refund that may be sent to you by direct credit to your account as nominated to the Share Registry or cheque to your address shown on Arafura's register;
- (k) you agree that you are responsible for any dishonour fees or other costs which Arafura may incur if your cheque for payment is dishonoured;
- (l) you agree that Arafura and the Share Registry have not provided you with investment or financial product advice, and that they have no obligation to provide advice to you about your decision to apply for and be issued New Shares;
- (m) you agree that Arafura is not liable for any exercise of its discretions referred to in these Terms and Conditions; and
- (n) you are not in the United States and are not acting for the benefit of or the account of a person in the United States.

Notice to shareholders in New Zealand

The New Shares are not being offered or sold to the public within New Zealand other than to existing shareholders of Arafura with registered addresses in New Zealand to whom the offer of New Shares is being made in reliance on the *Financial Markets Conduct (Incidental Offers) Exemption Notice 2016* (New Zealand).

This document has not been registered, filed with or approved by any New Zealand regulatory authority under the *Financial Markets Conduct Act 2013* (New Zealand). This document is not a product disclosure statement under New Zealand law and is not required to, and may not, contain all the information that a product disclosure statement under New Zealand law is required to contain.

No US offer

If you apply to participate in the SPP or instruct a custodian to do so on your behalf, you acknowledge and agree that:

- (a) the New Shares have not, and will not be, registered under the US Securities Act, or the securities laws of any state or other jurisdiction in the United States, except in accordance with an available exemption from, or in a transaction not subject to, the registration requirements of the US Securities Act and any other applicable securities laws;
- (b) you acknowledge that the New Shares may only be offered and sold outside the United States in "offshore transactions" (as defined and in reliance on Regulation S under the US Securities Act);
- (c) you are not in the United States and are not acting on behalf of or for the account of a person in the United States;
- (d) you must not send copies of these Terms and Conditions or any other material relating to the SPP to any person in the United States or elsewhere outside Australia and New Zealand;
- (e) you acknowledge and agree that if in the future you decide to sell or otherwise transfer the New Shares, you will only do so in standard brokered transactions on the ASX, where neither you nor any person acting on your behalf knows, or has reason to know, that the sale has been pre-arranged with, or the purchaser is, a person in the United States;
- (f) you must not submit an Application Form or make payment by BPAY® for any person resident outside Australia or New Zealand;

- (g) if you are acting as a trustee, nominee or Custodian, each beneficial holder on whose behalf you are participating is resident in Australia or New Zealand; and
- (h) if you do not comply with these restrictions, it may result in violations of applicable securities laws.

Withdrawal, waiver, suspension and termination

Arafura reserves the right to withdraw the offer at any time up to the Issue Date.

Arafura reserves the right at any time to:

- (a) waive compliance with any provision of these Terms and Conditions;
- (b) amend or vary these Terms and Conditions; and
- (c) suspend or terminate the SPP.

Any amendment, variation, suspension or termination is binding on all Eligible Shareholders even if Arafura does not notify you of the event.

Settling disputes

Arafura may settle, in any manner it sees fit, any difficulties, anomalies or disputes which may arise in connection with the operation of the SPP whether generally or in relation to any participant or any application for New Shares. Arafura's decision is conclusive and binding on all participants and other persons to whom the determination relates. These rights may be exercised by Arafura's Board or any delegate of the Board.

Governing Law

These Terms and Conditions are governed by the laws in force in Western Australia. By accepting this offer, you submit to the non-exclusive jurisdiction of the courts in Western Australia.

Not underwritten

The SPP is not underwritten.

Interpretation

The term "these Terms and Conditions" includes terms and conditions in the Application

Form, Instructions and Key Dates. The Application Form forms part of this offer document.

Risk factors

You should be aware that being issued New Shares involves various risks. This section discusses some of the key risks associated with an investment in New Shares. A number of risks and uncertainties, which are both specific to and of a more general nature, may adversely affect the operating and financial performance or position of ARU, which in turn may affect the value of New Shares and the value of an investment in ARU.

The risks and uncertainties described below are not an exhaustive list of the risks facing ARU or associated with an investment in ARU. Additional risks and uncertainties may also become important factors that adversely affect ARU's operating and financial performance or position.

This document is not financial product advice and has been prepared without taking into account your investment objectives or personal circumstances. Before investing in New Shares, you should consider whether an investment in New Shares is suitable for you. Potential investors should consider publicly available information on ARU (such as that available on the websites of ARU and ASX), carefully consider their personal circumstances and consult their stockbroker, solicitor, accountant or other professional adviser before making an investment decision.

Company specific risks

Access to financial markets and project debt financing

The Nolans Project is a large and complex project. Total capital expenditure is estimated at more than A\$1 billion and the Company's market capitalisation has recently fluctuated between approximately A\$180 - A\$260 million. The business of the Company (and its subsidiaries) (**Group**) relies on access to debt and equity funding.

As rare earths (including NdPr) are not traded on any commodity exchange, traditional debt market sources may not be available as visible market metrics are not available which may make it difficult for financiers to assess and understand market risk. In particular, the Group understands that traditional debt market

sources are not always available to finance rare earths projects, and therefore the Group is seeking to fund a significant portion of the Nolans Project's capital expenditure through Export Credit Agencies. There can be no assurance that sufficient debt, equity or other forms of funding will be available to the Group (over any timeframe) on favourable terms or at all.

Failure to obtain additional funding may cause the Group to postpone any development plans, forfeit rights to some or all of its projects or reduce its operating structures, including staff and overhead levels, which may delay or suspend the Group's business strategy and could have a material adverse effect on the Group's activities or require the Group to sell down an interest in its projects or assets. Any additional equity financing may dilute existing shareholdings.

Exploration, production and project development

The future profitability of the Group, and the value of the New Shares are directly related to the results of exploration, development and production activities as well as costs and prices. Exploration, project development and production involves significant risk.

Exploration is a speculative endeavour with an associated risk of discovery of finding NdPr and other products in commercial quantities and risks associated with development of a project. No assurances can be given that funds spent on exploration and development (including front-end engineering and design work) will result in discoveries or projects that will be commercially viable. During each stage of a project's development (including during front-end engineering and design) there is a risk that capital expenditure estimates may increase.

Development and production of NdPr projects may be exposed to low side reserve outcomes, cost overruns, production decrease or stoppage, which may be the result of commissioning, facility shutdowns, mechanical or technical failure, scheduling disruptions, technical risks and other unforeseen events. Outside of China there have not been many rare earth processing plants constructed and commissioned and, as a result, there may be increased execution risk for the Nolans Project. A significant poor development outcome or failure to maintain production could result in the Group lowering reserve and production forecasts, loss of revenue, increased working

capital requirements, and additional operating costs to restore production.

In some instances, a loss of production may incur significant capital expenditure, which could require the Group to seek additional funding. The Group may fail to meet product quality requirements and material specifications required by buyers.

Volatility of the price of rare earth elements

As noted above, NdPr and other rare earth products are not exchange traded commodities. The Group will require contracts for sale of these mineral commodities. There is no guarantee the Group will secure contracts on terms favourable to the Group.

NdPr and other rare earth product prices will depend on available markets at acceptable prices and distribution and other costs. Pricing of NdPr can also be impacted by government intervention in NdPr markets, such as through direct or indirect support of producers and exporters of NdPr, stockpiling of NdPr, and trade policies, barriers and sanctions. Historically (and at present), the supply of NdPr has been dominated by producers in the People's Republic of China. Policy changes, actions or events that affect that supply may have a significant effect on NdPr prices.

Any substantial variation in the price of NdPr and other rare earth products or an increase in the distribution costs could have a material impact on the Group.

Metallurgy and Hydrometallurgy

Testwork is used to develop the metallurgical and hydrometallurgical processes required to convert ore into final products. Scale up, technology and materials handling risks remain as the Group moves from development, to construction, commissioning and production. Product recoveries are dependent upon the metallurgical and hydrometallurgical processes, and by its nature contains elements of significant risk such as:

- developing and identifying metallurgical and hydrometallurgical processes through testwork to produce a saleable product;
- developing an economic process route to produce a saleable product; and

- changes in mineralogy in the ore deposit result in inconsistent product recovery, adversely affecting the economic viability of the project.

Front-end engineering & design

Given the Nolans Project proposes to develop a complex hydrometallurgical processing plant to produce NdPr oxide, Arafura is planning to commence FEED activities which are designed to fully understand the engineering for the project, including the tendering for key equipment, and support tendering of the construction contracts. There is a risk that the capital expenditure for the Nolans Project increases above the capital requirements detailed in Arafura's ASX Announcement "Nolans Project Update" dated 11 May 2021 as a result of the FEED and tendering activities or that problems are identified in relation to the current flow sheet which could result in delays in finalizing FEED. There is also a risk of a cost overrun in the FEED budget which may increase if the labour contract market tightens in Western Australia and globally for metallurgical and chemicals engineers.

Communicable disease outbreaks

The outbreak of communicable diseases around the world (such as the novel coronavirus COVID-19) may lead to interruptions in operations, exploration, development and production activities, inability to source supplies or consumables and higher volatility in the global capital markets and price of rare earth elements or demand for the Group's product, which may materially and adversely affect the Group's business, financial condition and results of operations.

In addition, such outbreaks may result in restrictions on travel and public transport and prolonged closures of facilities or other workplaces which may have a material adverse effect on the Group and the global economy more generally. Any material change in the Group's operating conditions, the financial markets or the economy as a result of these events or developments may materially and adversely affect the Group's business, financial condition and results of operations.

Operating risks

Industry operating risks include, but are not limited to, fire, explosions, environmental hazards, technical failures, unusual or unexpected geological conditions, adverse

weather conditions and other accidents. The occurrence of any of these risks could result in substantial losses to the Group due to injury or loss of life, damage to or destruction of property, natural resources, or equipment; pollution or other environmental damage; clean-up responsibilities; regulatory investigation and penalties; or suspension of operations. Damages occurring to third parties as a result of such risks may give rise to claims against the Group.

The occurrence of any of these circumstances could result in the Group not realising its operational or development plans or in such plans costing more than expected or taking longer to realise than expected. Any of these outcomes could have an adverse effect on the Group's financial and operational performance.

Reliance on key personnel and advisors

The ability of the Group to achieve its objectives depends on the engagement of key employees, directors and external contractors that provide management and technical expertise.

If the Group cannot secure technical expertise (for example to carry out development activities) or if the services of the present management or technical team cease to be available to the Group, this may affect the Group's ability to achieve its objectives either fully or within the timeframes and the budget that it has forecast. Additionally, industrial disruptions, work stoppages and accidents in the course of operations may adversely affect the Group's performance.

Reliance on third party infrastructure

The Group will rely on third party transportation infrastructure in order to deliver its production to the market and incoming reagents and supplies to the Nolans project site. Any delay or failure to access or properly maintain operating infrastructure or shared facilities may have a material adverse effect on the Group.

Reserves and resource estimates

Mineral reserve and resource estimates are expressions of judgement based on knowledge, experience and industry practice. Estimates which were valid when originally calculated may alter or become uncertain when new information becomes available on the tenements through additional tests over the life of a project. This applies equally to the Group's production targets in relation to the project and

any forecast financial information derived from a production target.

In addition, reserve and contingent resource estimates (and production targets and forecast financial information derived from a production target) are necessarily imprecise and depend to some extent on interpretations, which may prove inaccurate. The actual reserves or contingent resources may differ from those estimated which may result in the Group altering its plans which could have either a positive or negative effect on its operations.

Changes in reserve or resource estimates could also impact the Group's ability to maintain its borrowing capacity with lenders.

Native title

Both the Native Title Act (Cth) and the Northern Territory Native Title Legislation and Aboriginal land rights and Aboriginal heritage legislation might affect the Group's ability to gain access to prospective exploration areas or obtain Mineral Leases.

As announced on 26 June 2020, a member of the Group has entered into an agreement (the 'Nolans Project Native Title Agreement') with the Nolans Project's native title holders and the Central Land Council under which the native title holders provide their consent to the grant of the primary mineral lease, ancillary mineral leases and related access authorities for the Nolans Project. On 22 July 2020, the Company announced that the mineral leases for the Nolans Project had been granted by the Northern Territory government and on 9 February 2021 the Company announced that the mineral leases for areas supporting the Nolans Project (which will host the Nolans borefield) had been granted by the Northern Territory Government. The Group will need to comply with the Nolans Project Native Title Agreement to avoid any potentially adverse consequences.

The Group may from time to time, need to negotiate with native title claimants for access rights to certain tenements. There may be significant delays and costs associated with these negotiations and to reach agreement acceptable to all relevant parties. At this stage, it is not possible to quantify the impact that these developments may have on the operations of the Group.

Environmental

The Group's exploration, development and production activities are subject to legislation regarding environmental matters.

The legal framework governing this area is complex and constantly developing. There is a risk that the environmental regulations may become more onerous, making the Group's operations more expensive or cause delays. The Group may become subject to liability for pollution or other hazards against which it has not insured or cannot insure, including those in respect of past activities for which it was not responsible.

The Group's operations are subject to the Northern Territory and Commonwealth laws and regulations regarding environment including hazards and discharge of hazardous waste and materials. The mining and processing of Normally Occurring Radioactive Materials (NORM) and the disposal of radioactive waste is subject to additional laws and regulations regarding environmental matters. The cost of compliance with these laws and regulations may impact the cost of exploration, development, construction, operation of the production facilities and mine closure costs.

Title

Securing and maintaining tenure over mining tenements is critical to the future development of the Group's projects. All mining tenements which the Group may acquire either by application, sale and purchase or farm-in are regulated by the applicable state or territory mining legislation.

There is no guarantee that applications will be granted as applied for (although the Group has no reason to believe that tenements will not be granted in due course). Various conditions may also be imposed as a condition of grant. In addition the relevant minister may need to consent to any transfer of a tenement to the Group.

Renewal of titles is made by way of application to the relevant department. There is no guarantee that a renewal will be automatically granted other than in accordance with the applicable state or territory mining legislation. In addition, the relevant department may impose conditions on any renewal, including relinquishment of ground.

In 2017 the Northern Territory Government (NTG) introduced a "Shared Land Use" policy which encourages consultation between the holder of a mineral title and a pastoral lessee. NTG approval of substantial disturbance activity by the mineral title holder requires evidence of a land access agreement between an explorer and pastoral lessee. Where such an agreement cannot be reached the matter can be referred to the NTG's Land Access Assessment Panel (LAAP). In the event of a positive determination from the LAAP the mineral title holder may undertake the substantial disturbance activities in accordance with the Mine Management Plan authorised by the Department of Primary Industries and Resources. There is the potential for the land access requirements to cause delays to the Group's planned development activities.

Legislative changes, government policy and approvals

Changes in government, monetary policies, taxation and other laws in Australia or internationally may impact the Group's operations and the value of the New Shares. The Group requires government regulatory approvals for its operations.

The impact of actions, including delays and inactions, by state, territory and federal governments may affect the Group's activities including such matters as access to lands and infrastructure, compliance with environmental regulations, production and exploration activities. This may from time to time affect timing and scope of work to be undertaken. No guarantee can be given that all necessary permits, authorisations, agreements or licences will be provided to the Group by government bodies, or if they are, that they will be renewed.

The Group has received environmental approval from the Australian Government and the Northern Territory Environment Protection Authority has recommended the project for approval for the development at Nolans in the Northern Territory but there is no guarantee that the Group will be in a position to comply with all conditions that are imposed under these approvals.

Occupational health and safety

Exploration and production activities may expose the Group's staff and contractors to potentially dangerous working environments. Occupational health and safety legislation and regulations differ in each jurisdiction. If any of the Group's employees or contractors suffers

injury or death, compensation payments or fines may be payable and such circumstances could result in the loss of a licence or permit required to carry on the business. Such an incident may also have an adverse effect on the Group's business (including financial position) and reputation.

Third party risk

The Group will rely significantly on strategic relationships with other entities and also on a good relationship with regulatory and government departments and other interest holders. The Group will also rely on third parties to provide essential contracting services. There can be no assurance that its existing relationships will continue to be maintained or that new ones will be successfully formed. The Group could be adversely affected by changes to such relationships or difficulties in forming new ones.

Competition

The Group will compete with other companies, including major mining companies in Australia and internationally. Some of these companies will have greater financial and other resources than the Group and, as a result, may be in a better position to compete for future business opportunities. There can be no assurance that the Group can compete effectively with these companies.

Insurance

Insurance of all risks associated with mineral exploration and production is not always available and, where available, the cost can be high. The Group maintains insurance within a coverage range that it considers to be consistent with industry practice and appropriate for its needs. The occurrence of an event that is uninsurable, not covered, or only partially covered by insurance could have a material adverse effect on the Group's business and financial position.

Shareholder approval risk

Tranche 2 of the Placement requires shareholder approval. There is a risk that the Company's shareholders do not approve Tranche 2 of the Placement which would result in the Company not raising a significant portion of the proceeds under the Placement. This would mean the Group would need to seek alternative sources of finance prior to commencing its front-end engineering and

design work, which could have an adverse effect on the Group and the Company's share price. Also, certain transaction costs in relation to the Placement (including in respect of Tranche 2), such as legal and advisory fees, will still be payable by the Company.

Climate change risk

Climate change is a risk the Group has considered, particularly related to its operations in the mining industry. The climate change risks particularly attributable to the Group include:

- the emergence of new or expanded regulations associated with the transitioning to a lower-carbon economy and market changes related to climate change mitigation. The Group may be impacted by changes to local or international compliance regulations related to climate change mitigation efforts, or by specific taxation or penalties for carbon emissions or environmental damage. These examples sit amongst an array of possible restraints on industry that may further impact the Group and its profitability. While the Group will endeavour to manage these risks and limit any consequential impacts, there can be no guarantee that the Group will not be impacted by these occurrences; and
- climate change may cause certain physical and environmental risks that cannot be predicted by the Group, including events such as increased severity of weather patterns and incidence of extreme weather events and longer-term physical risks such as shifting climate patterns.

All these risks associated with climate change may significantly change the industry in which the Group operates.

Force majeure

The Group's projects now or in the future may be adversely affected by risks outside the control of the Group, including fires, labour unrest, civil disorder, war, subversive activities or sabotage, floods, pandemics, explosions or other catastrophes, epidemics or quarantine restrictions.

Financial risks

The Group's activities expose it to a variety of financial risks, including:

- *Market risk:* The risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices interest rate risk, price risk, credit risk and liquidity risk (maintaining sufficient cash and the availability of funding through an adequate amount of committed credit facilities). The Group's future activities will be subject to volatility and fluctuations in those particular areas.
- *Foreign exchange/currency risk:* The Group operates internationally and is exposed to foreign exchange risk arising from currency exposures with respect to changes in foreign exchange rates. The Group's future commercial transactions include product sales, capital expenditure, purchase of foreign sources inputs and debt facilities. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the entity's functional currency.
- *Interest rate and credit risk:* This relates to the risk that interest rates applicable to the Group may fluctuate and have an impact on the value of the Group's assets and liabilities.
- *Liquidity risk:* This relates to the ability of the Group to maintain sufficient cash and the availability of funding through an adequate amount of committed credit facilities to support the Group's operations.

General risks

Potential for dilution

A shareholder's percentage holding in the Company will be diluted by not participating in the Placement (which will include all retail shareholders and those institutional shareholders who do not participate in the Placement). Depending on their level of participation, some shareholders may also be diluted by the SPP.

It is not possible to predict what the value of the Company or its shares will be following the completion of the equity raising and the Directors do not make any representation as to such matters.

The historical trading price of the shares on ASX prior to this equity raising is not a reliable

indicator as to the potential trading price of shares after completion of the equity raising.

General market and share price

There are general risks associated with investments in equity capital such as the New Shares. The trading price of the New Shares may fluctuate with movements in equity capital markets in Australia and internationally.

Generally applicable factors which may affect the market price of shares include:

- general movements in Australian and international stock markets;
- investor sentiment;
- Australian and international economic conditions and outlook;
- commodity prices;
- changes in interest rates and the rate of inflation;
- changes in government legislation and policies, including taxation laws and foreign investment legislation;
- announcement of new technologies; and
- geo-political instability, including international hostilities and acts of terrorism.

Further, the effect of these conditions on the Group's ability to obtain new debt financing, and the terms on which any such financing can be obtained, is uncertain. If these conditions result in the Group being unable to obtain new debt financing, or to do so on reasonable terms, this may have an adverse impact on its financial position, financial performance and/or share price. The Group's operational and financial performance and the position of the Company's share price may be adversely affected by a worsening of international economic and market conditions and related factors. It is also possible that new risks might emerge as a result of global markets experiencing extreme stress, or existing risks may manifest themselves in ways that are not currently foreseeable.

Dividends

Any future determination as to the payment of dividends by the Company will be at the discretion of the Directors and will depend on

the financial condition of the Company, future capital requirements and general business and other factors considered relevant by the Directors. No assurance in relation to the payment of dividends or franking credits attaching to dividends can be given by the Company.

Taxation

The disposal of New Shares will have tax consequences, which will differ depending on the individual financial affairs of each investor. All investors are urged to obtain independent financial advice about the consequences of disposing of New Shares from a taxation viewpoint and generally. To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability and responsibility with respect to the taxation consequences of acquiring or disposing of New Shares under this equity raising.

Data and information technology

The Group's computer systems are subject to the risks of unauthorised access, computer hackers, computer viruses, malicious code, organised cyber-attacks and other security problems and system disruptions, including possible unauthorised access to proprietary or classified information. Any of these events could damage the Group's reputation and have a material adverse effect on its business, reputation, results of operations and financial condition. There is also a risk that the Group's systems for capturing data and intellectual property for project development are ultimately not effective.

Speculative investment

The above list of risk factors ought not to be taken as an exhaustive list of the risks faced by the Group or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Group and the value of the New Shares offered under the equity raising. An investment in the Company is speculative and investors should consult their professional adviser before applying for or disposing of New Shares.
