Key Appointments to Support Advancement of U.S. Critical Minerals Strategy

Highlights

- Appointment of highly experienced geoscientist David Groombridge as Exploration Manager – USA, bringing more than 20 years’ technical leadership across ASX-listed resource companies and direct experience in tungsten and polymetallic systems.
- Engagement of SRK Consulting to provide independent Competent Person services in accordance with the JORC Code (2012 Edition).
- Appointments position AT4 to execute its U.S.-based antimony and tungsten hub-and-spoke strategy, directly aligned with U.S. Government priorities for domestic critical minerals supply chain security.

American Tungsten & Antimony Ltd (ASX: AT4) (“AT4” or “the Company”) is pleased to announce several key appointments to support the advancement of its U.S.-based critical minerals portfolio. These appointments strengthen the Company’s technical leadership, corporate governance and compliance capability as it progresses exploration and development activities across its antimony and tungsten projects in Utah and Nevada, USA.

Appointment of Exploration Manager – USA

AT4 is pleased to appoint **David Groombridge** as **Exploration Manager – USA**.

Mr Groombridge is an experienced geoscientist with more than 20 years’ experience in mineral exploration, resource development and project evaluation. He has held senior technical roles within ASX-listed resource companies and has demonstrated experience in leading exploration programs and advancing projects through drilling and resource definition.

His previous roles include Exploration Manager at Medallion Metals (ASX: MM8); Chief Executive Officer of Riedel Resources (ASX: RIE) and Senior Geologist at Silver Lake Resources (now a subsidiary of Red 5 Limited).

Mr Groombridge also has experience working across **tungsten and polymetallic systems**, including the evaluation of structurally controlled and intrusion-related mineralisation styles, which are directly relevant to AT4’s tungsten portfolio in Utah and Nevada. His background in targeting and advancing mineralised systems through geochemistry, mapping and drilling will support the systematic development of the Company’s tungsten projects.

In his role with AT4, Mr Groombridge will be responsible for planning and executing exploration programs across the Company’s U.S. portfolio, including the Antimony Canyon Project in Utah and its tungsten projects in Utah and Nevada.

Appointment of Competent Person

AT4 has engaged **SRK Consulting (Australasia) Pty Ltd (SRK)** to provide independent Competent Person services in accordance with the JORC Code (2012 Edition) and the ASX Listing Rules. Under the engagement, Mr Cael Gniel (BSc Hons, MAIG, RPGeo), Senior Consultant, will act as Competent Person in the first instance, with Mr Danny Kentwell (MSc, FAusIMM, MIAMG), Principal Consultant, providing peer review and back-up Competent Person responsibility. Both Mr Gniel and Mr Kentwell are Competent Persons as defined under

the JORC Code (2012 Edition) and have sufficient experience relevant to the styles of mineralisation and types of deposits under consideration to qualify as Competent Persons.

SRK is an independent international consultancy formed in 1974 and employing approximately 1,800 staff across more than 40 offices in 20 countries. SRK is owned by its staff and does not hold equity in any project, ensuring its consultants can provide conflict-free and objective technical advice. In Australia, SRK employs over 130 people across offices in Perth, Brisbane, Melbourne, Sydney and Newcastle.

SRK's engagement will support the Company as it reports exploration results from its U.S. and Australian projects, ensuring all technical disclosures are prepared in accordance with the JORC Code (2012 Edition) and Chapter 5 of the ASX Listing Rules.

AT4 Managing Director Andre Booyzen said: *"These appointments strengthen our technical and corporate capability as we advance our U.S. critical minerals portfolio."*

David brings strong exploration leadership and experience across both antimony and tungsten systems, which will be important as we progress exploration and drilling across our portfolio.

In particular, his experience in targeting and advancing mineralised systems will support the systematic development of our tungsten assets as part of our broader U.S. supply chain strategy.

The engagement of SRK Consulting, ensures the Company is well positioned to deliver fully JORC-compliant technical reporting as we progress our U.S. portfolio."

Next Steps

Following these appointments, the Company's near-term activities will include:

- Advancement of exploration programs across U.S. projects, including drilling at Antimony Canyon, Tennessee Mountain and Fraction Lode
- Continued development of the Company's **antimony and tungsten hub-and-spoke strategy**, including advancement of its U.S.-based processing and refining pathway
- Target generation and prioritisation across the Company's tungsten portfolio, including Nightingale, Sage Hen and Dutch Mountain
- Strengthening of the Company's U.S. operational and corporate capability

About American Tungsten & Antimony Ltd

American Tungsten & Antimony Ltd (ASX: AT4) is an ASX-listed critical minerals company focused on the exploration and development of antimony and tungsten projects in the United States. The Company's portfolio includes the flagship Antimony Canyon Project in Utah, together with a portfolio of tungsten projects across Utah and Nevada including Tennessee Mountain, Fraction Lode, Nightingale, Sage Hen and Dutch Mountain. AT4 is pursuing a U.S.-based hub-and-spoke processing and refining strategy aligned with U.S. Government priorities for the security of domestic critical minerals supply chains.

Forward-Looking Statements

This announcement contains forward-looking statements concerning the Company's plans, objectives, exploration programs, resource definition timelines and corporate strategy. Forward-looking statements can generally be identified by the use of words such as "may", "will", "expect", "intend", "plan", "estimate", "anticipate", "believe", "target" and similar expressions. These statements are based on current expectations and assumptions and are subject to known and unknown risks, uncertainties and other factors, many of which are beyond the Company's control, that may cause actual results to differ materially from those expressed or implied. The Company does not undertake to update any forward-looking statement, except as required by applicable law or the ASX Listing Rules.
