Our Vision

To become Australia and New Zealand's leading provider of traffic management and ancillary services.

AVADA Group Limited is Australia's largest listed integrated traffic management provider, with established operations throughout Queensland, New South Wales, Victoria and New Zealand servicing major public and private sector clients.

With an extensive network of more than 25 depots, 1,050 vehicles and 2,100 dedicated employees the Group is well positioned in the integrated traffic management and associated civil sectors.

A person wearing a high-visibility safety vest with reflective stripes and the words "TRAFFIC CONTROL" printed on the front. They are holding a traffic cone. The background is a blurred outdoor setting, possibly a construction or road site. The entire image is overlaid with a semi-transparent blue filter.

“AVADA’s steady growth strategy has expanded our footprint, diversified our client base and solidified our position as a leading traffic management operator.”

Dan Crowley

Managing Director and Chief Executive Officer

HIGHLIGHTS

UNDERLYING REVENUE

\$204.9m

Increase of 15.6% on FY23
(Statutory revenue \$209.5m)

STATUTORY PROFIT

\$1.46m

Loss of \$5.6m in FY23

UNDERLYING EBITDA

\$18.8m

Increase of 23.7% on FY23
(Statutory EBITDA \$14.7m)

-
- > Implementation of the national Group operating structure

 - > Strategic acquisition to further expand footprint in Australia

 - > Integration of all operations with consolidated corporate functions driving efficiencies

CHAIRMAN'S LETTER

Lance Hockridge

Dear Shareholders, I am pleased to present AVADA Group's Annual Report for the year ended 30 June 2024 (FY24).

AVADA is a maturing business which has proven itself year-on-year to be able to drive revenue and earnings growth.

The year has ended with underlying EBITDA of \$18.83m (including the acquisition of STA Traffic Management which settled 23 October 2023), which is an increase of 16.75% compared to FY23. While FY24 was down on the original guidance, it was 6.4% ahead of the revised FY24 high side guidance, issued on 20 May 2024. Statutory revenue was \$204.5m, which is an increase of 15.6% compared to FY23 (\$177.0m).

We continued our strategic acquisition of efficient and aligned traffic management companies. The acquisition of STA Traffic Management was the Group's third acquisition since listing in December 2021. It further expanded our footprint, diversified our client base and solidified our position as a leading traffic management operator.

Our focus remains on improving business processes and refining the Group's operating and cost structures. AVADA has operated independent brands which supported the operating strategy while we built our operating platform through acquisitions.

A comprehensive operational review was announced on 28 June 2024 which supported a national, single brand operating structure. This will enable us to consistently deliver industry best practice standards for client service, as well as project governance and compliance

and provide a significant advantage over competitors in a highly fragmented market. The integration of AVADA's businesses commenced in July 2024 and demonstrates our ability to adapt to improving client service delivery and operating performance. We run a leading brand, AVADA Traffic, which will increasingly be recognised by clients for its significant operational footprint, adherence to ASX standards for safety, governance and reporting and our ability to invest in workforce development and client service delivery standards. The consolidation of AVADA's individual traffic management businesses under the AVADA Traffic brand aligns with our long-term strategy.

The establishment of AVADA Traffic allows us to remain focused on building superior outcomes for our customers and owners in the core traffic control operations, whilst better enabling us to pursue value-adding adjacent business opportunities as standalone pillars which complement our core business.

We did experience industry headwinds throughout FY24, including union activity which saw disrupted operations leading to changes in service providers, delays, increased costs and challenges in maintaining project timelines. Despite this, the business performed as the year progressed and we are seeing the benefits of greater brand recognition for the Group, operating under AVADA Traffic, and being the only ASX-listed traffic management company. The market has strong growth expectations for FY25 with a substantial pipeline of recurring civil works and planned infrastructure projects.

AVADA will leverage its position as a leader in the industry to generate organic growth and continue to assess acquisition targets that complement our business and client footprints and create value for our shareholders. I want to thank Dan Crowley, the Board, the leadership team and our employees for a solid year and their ongoing commitment.

I am proud of what AVADA has achieved and excited by the road ahead.

Yours faithfully

A handwritten signature in black ink, appearing to read 'Lance Hockridge'. The signature is fluid and cursive, written over a white background.

Lance Hockridge

Chairman
AVADA Group Limited

WHAT WE DO

AVADA Group has a large and established footprint in Queensland, New South Wales, Victoria and New Zealand delivering services to major public and private sector clients. AVADA offers integrated traffic management services including planning and permits, traffic control, equipment hire, event management and incident response.

2,100
Traffic controllers

1,050
Vehicles

25
Depots

AVADA has a joint venture arrangement with Bilingarra Indigenous Services operating across Queensland, New South Wales and Victoria.

A CONSOLIDATED OPERATING STRUCTURE

An Operational Review identified a strategy benefit for consolidating the operational structure, bringing all AVADA traffic control businesses under a single brand to deliver operating efficiencies, benefits and revenue synergies with a national supplier footprint providing consistent client experiences.

PREVIOUSLY:

A20 Traffic Solutions
Linemark
TMP
Verifact Traffic
CTM
Platinum Traffic Services

D&D Traffic Management
The Traffic Marshall
Construct Traffic
STA Traffic Management
Wilsons Traffic Management

THE CHANGES WILL:

Optimise deployment of resources across the network for local projects and national clients.

Consistently deliver industry best practice and public company standards for safety, governance and reporting, across all operations.

Strengthen the Group's employee value proposition to recruit, retain and develop traffic controllers and drive client service standards.

Reduce complexity and capitalise on scale economies to drive service innovations and realise efficiencies.

MANAGING DIRECTOR AND CHIEF EXECUTIVE OFFICER'S REPORT

Dan Crowley

Dear Shareholders, FY24 has been a consolidating year for AVADA Group. As one of the leading traffic management companies in Australasia, we successfully completed another strategic acquisition, integrated our New Zealand operations and refined our operating strategy, to create a competitive national footprint. The foundations we have built set us up for a promising FY25 and beyond.

Although FY24 performance fell short of the original forecast, it exceeded the revised guidance provided in May 2024. We performed with strong and consistent work profiles and execution through all regions supported by recurring maintenance works and project pipelines.

We enhanced our presence in the Victorian market and diversified our client base with our acquisition of STA Traffic Management (STA), which was another important milestone this year. The integration of STA into the AVADA operating model has been successfully completed.

One of the key developments for the year was the completion of the Operational Review which was announced in June 2024. The review identified that rather than an operating structure of independent businesses trading under multiple brands, a new national operating structure under a single brand would better serve our future needs. This new operating structure will deliver a consistent client experience, with expected operating efficiencies and revenue synergies.

Consolidating our independent trading operations into a single operating structure will provide a significant opportunity to create a market leading platform in Australasia, with more than 2,100 traffic controllers, 1,050 vehicles, and 25 depots, all operating under a single brand, AVADA Traffic.

These changes will enable us to:

- optimise resource deployment across the network for local projects and national clients and ensure consistent client service
- consistently deliver industry best practices and public company standards for safety, governance, and reporting across our operations
- strengthen AVADA's employee value proposition to recruit, retain and develop traffic controllers while driving improved client service standards
- gain revenue synergies to capitalise on economies of scale to drive service innovations and realise efficiencies.

Since the implementation of the national structure, we have seen brand recognition grow for AVADA Traffic as clients recognise that we can support them to meet the requirement to achieve a high standard of compliance and governance on their projects. Clients are also increasingly coming to understand the scale of our operations and our ability to consistently deliver industry best practice.

CLIENTS ARE ALSO INCREASINGLY COMING TO UNDERSTAND THE SCALE OF OUR OPERATIONS AND OUR ABILITY TO CONSISTENTLY DELIVER INDUSTRY BEST PRACTICE.

LOOKING AHEAD, WHILE SHORT-TERM MARKET AND BUSINESS CHALLENGES PERSIST, WE REMAIN CONFIDENT THE UNDERLYING DRIVERS OF DEMAND WITHIN THE INDUSTRY ARE EXPECTED TO SUPPORT ONGOING EARNINGS GROWTH IN FY25.

AVADA Traffic is now supporting over 63 local councils and continues to win long-term road and infrastructure support projects such as the M7/M12 highway integration upgrade in Western Sydney and the Snowy Hydro project. We are also in active discussions with a number of clients in relation to national supplier contract arrangements.

Despite our progress, the business has faced a range of negative external factors including project cancellations, project delays and union activity in the sector. These challenges have impacted our short-term performance opportunities and reflect broader industry trends.

Looking ahead, while short-term market and business challenges persist, we remain confident the underlying drivers of demand within the industry are expected to support ongoing earnings growth in FY25. Our growth expectations for FY25 are supported by the visibility of long-term pipeline of maintenance and project works.

On behalf of the leadership group, I would like to extend my gratitude to the employees of AVADA Group. The progress we have made would not have been possible without their dedication and commitment.

I look forward to sharing our continued progress and achievements with you in the year ahead.

Daniel J Crowley

Managing Director and Chief Executive Officer
AVADA Group Limited

Traffic management is a legislative requirement and essential to all civil infrastructure projects and maintenance work schedules, resulting in consistent workflow from both new project investment and recurring maintenance requirements.

TRAFFIC MANAGEMENT PLANS AND PERMIT SERVICES

Site inspections, safety/risk audits, traffic management plans developed using industry software.

EQUIPMENT HIRE

Traffic control equipment for hire, such as trucks, motor vehicles, road cones, arrow boards, portable traffic control devices, emergency signs, variable message signs (VMS).

ONSITE TRAFFIC CONTROL

Managing road diversions/detours, road/lane/tunnel closures, pedestrian management.

INCIDENT RESPONSE

Use of specialised incident response vehicles and crews in the event of roadside hazards, accidents and emergencies.

SUSTAINABILITY

AVADA is committed to a whole-of-business sustainable and transparent decision-making framework and meeting its ESG responsibilities.

As a leader in the traffic management industry, it is our responsibility to set the example and reinforce our commitment to sustainable business practices and initiatives. The challenge is to enhance operational efficiency while focusing on minimising our environmental impact, and contributing positively to our community and stakeholders.

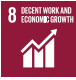

APPROACH

Under the ESG Plan 2023-24, the following key actions were delivered:

- ✓ Develop ESG framework and sustainability strategy
- ✓ Develop key ESG policies and link to strategic goals
- ✓ Identify top three material issues and opportunities to focus
- ✓ Establish and test metrics.

We have been able to further expand these deliverables and set a realistic approach to addressing sustainability challenges, fostering transparency, and building long-term resilience in a fragmented and evolving industry landscape.

The table below outlines our material issues, the Group's current status against the issue and the overarching actions we will take to meet our ESG responsibilities.

MATERIAL ISSUE	STATUS	ACTION
Greenhouse gas emissions 	<p>This remains our primary focus for reporting and measuring environmental impacts. By tracking these emissions, we gain critical insights into how our activities contribute to climate change and identify opportunities to minimise our environmental footprint.</p>	<ul style="list-style-type: none"> • Continue to measure greenhouse gas emissions from vehicles and identify ways to reduce per vehicle emissions.
Social policy and people     	<p>Our social responsibility and focus always remains centred on ensuring the safety of our employees, clients and the communities we protect through the services we provide. We do this in a number of ways including:</p> <ul style="list-style-type: none"> • promoting fair work and fair pay under Fair Work Awards or agreed EBAs • training and education for developing a skilled workforce • supporting gender diversity and creating an inclusive workplace • undertaking a second version of our Reconciliation Action Plan (RAP) • implementing our modern slavery policy • implementing strong policies addressing discrimination, sexual harassment, the right to disconnect and psycho-social safety. 	<ul style="list-style-type: none"> • Continue to promote and grow the Bilingarra Indigenous Services traffic control business • Advance AVADA's Reconciliation Action Plan • Annual review of AVADA's Modern Slavery Statement • Annual review of the ISO Management framework and safety management and reporting systems • Development of safety training and development plans for frontline employees • Development of Reward and Recognition program for employees • Ensure psycho-social policies are operating within the workplace.
Governance    	<p>We are guided by the ASX Corporate Governance framework and listing rules, ensuring that we maintain high standards of accountability and transparency. We prioritise industry best practices, driven by legal regulations and licensing bodies to ensure compliance.</p> <p>We have in place a robust risk framework and mitigation strategies to identify and manage potential risks, while our commitment to quality and efficiency is reinforced by adherence to the ISO Management framework.</p>	<ul style="list-style-type: none"> • Enhance monitoring, reporting and control systems • Upgrade of finance and payroll reporting and control systems • Review and monitor corporate and sustainability aligned policies and procedures.

FY24 DELIVERED ACTIVITIES

FY25 PLANNED ACTIVITIES

ENVIRONMENTAL

✓ We commenced measurement of our fleet's CO₂ emissions. The collection and analysis of this data provides key metrics and targets that encourage adoption of solutions to reduce our emissions.

We will continue to measure CO₂ emissions with the intent to use this data for providing reporting metrics and targets in FY26.

We will review other possible areas for collecting and measuring data to ensure we gain visibility of all relevant environmental sustainability challenges.

SOCIAL

✓ We worked closely with Bilingarra Indigenous Services to grow the company and help pursue its goal of becoming the most significant and inclusive Indigenous employer in traffic management and ancillary services.

We will continue to strengthen Bilingarra Indigenous Services, and pursue opportunities that will increase its geographical footprint.

✓ We have commenced activities from our RAP, in particular internal awareness activities.

We will develop a Modern Slavery Statement that will set out the steps we will take to deal with modern slavery risks in our supply chains and our business.

We will review and update our RAP as part of our commitment to embedding the principles and purpose of reconciliation throughout the Group.

We will implement activities across the Group as outlined in the Reconciliation Action Plan to strengthen our commitment to reconciliation and inclusion.

We will develop and implement an employee reward and recognition program to acknowledge and celebrate outstanding contributions across the team.

GOVERNANCE

✓ We identified and developed the implementation plan for a consolidated finance and payroll system across the Group.

Further implementation of key functions including finance, payroll and data analytics systems and reporting capabilities.

✓ We continued developing key metrics and achievable targets, including the governance framework for monitoring and reporting.

We will undertake an ESG training program for relevant staff to enhance their knowledge and implementation of sustainability and governance practices.

✓ Education of ESG responsibilities to each AVADA Group business.

We will ensure sustainable and transparent decision-making is driving long-term growth opportunities and responsible decision making.

✓ We completed a cyber security review and audit of the AVADA Group.

We will gain a thorough understanding of the mandatory climate-related financial disclosure requirements impacting our clients to better support their compliance and sustainability goals.

We will develop a mandatory reporting framework and controls to be implemented by FY26, ensuring compliance and transparency in our sustainability efforts.

We will achieve a full understanding of the financial impacts of ESG within the business to inform strategic decisions and drive sustainable growth.

We will introduce a new annual sustainability report that encompasses our ESG framework, providing a comprehensive overview of our progress and commitments in each area.

Directors' Report

The Directors of AVADA Group Limited ("the Company") submit herewith the financial report of the Company and its subsidiaries ("the Group") for the year ended 30 June 2024. To comply with the provisions of the *Corporations Act 2001*, the Directors' Report is as follows:

The names of the Directors of the Company who held office during or since the end of the year are:

Name	Position	Directorship period
Lance Hockridge	Chair	Appointed 25 March 2021
Ann-Maree Robertson	Non-Executive Director and Deputy Chair	Appointed 9 November 2021
Joanne Willoughby	Non-Executive Director	Appointed 9 November 2021
Daniel Crowley	Managing Director	Appointed 25 March 2021
Courtney Black	Non-Executive Director	Appointed 19 June 2023
Neil Scales OBE	Non-Executive Director	Appointed 25 July 2023

PRINCIPAL ACTIVITIES

The Group's principal activities during the year ended 30 June 2024 were the provision of integrated traffic management services with operations throughout Queensland, New South Wales, Victoria and the South Island of New Zealand, delivering services to major public and private sector clients and commercial operators.

Integrated traffic management services include the provision of traffic control, equipment hire, plans and permits, event management and incident response. Traffic management is a legislative requirement with regulations prescribing the operational requirements for work on, or adjacent to, roads. Traffic management is an essential service for civil infrastructure and maintenance works with consistent workflow provided by investment in new projects and recurring maintenance requirements. Clients include state and local governments, federally funded contractors and major contractors in the utilities, infrastructure, construction, telecommunications and other industrial sectors. The outdoor nature of these services can result in the deferral of work due to weather and planning impacts, along with other disruptions related to industrial action.

Traffic management services revenue is earned based on hourly or day rates billed for traffic controllers, vehicles and other equipment.

The Group has an established and extensive network strategically located in Queensland, New South Wales, Victoria and the South Island of New Zealand with the ability to share resources, service innovations and market sector expertise, along with enhanced efficiencies through economies of scale and procurement. During the financial year ended 30 June 2024, the Company's subsidiaries maintained independent branding, leveraging their existing client relationships and goodwill while being supported by the Company's resources and governance frameworks. The Company made a strategic announcement on 28 June 2024 reflecting a change in operational service delivery of its subsidiary companies.

DIVIDENDS

There were no dividends paid or declared in the current or previous financial year.

REVIEW OF OPERATIONS

The profit for the year for the Group after providing for income tax amounted to \$1,511,000 (2023: loss \$5,630,000).

The statutory profit includes other gains of \$4,602,000 which resulted from a decrease to the fair value of the contingent consideration financial liability upon the acquisition of subsidiary companies; write-off intangible assets of \$3,631,000 in relation to the brands recognised upon the acquisitions of subsidiary companies and a provision as a result of the change in the operational service delivery model as set out in the strategic announcement on 28 June 2024.

REVIEW OF OPERATIONS (CONT'D)

The Company completed the acquisition of the business and assets of STA Traffic Management Pty Ltd (STA Traffic) in October 2023 and integrated both STA Traffic and its New Zealand acquisition of Wilsons TM Limited (Wilsons TM) during the financial year. Both acquisitions had challenges. STA Traffic operates with a non-unionised workforce with its client-based project work influenced by union activity requiring unionised labour working on projects. Wilsons TM struggled to perform against expectations, in large part driven by the economic drivers affecting Government funding to the South Island in New Zealand. To mitigate the reduction in revenue, overhead reduction strategies were implemented.

During the financial year, business functions were expanded to increase capability and support the growth ambitions of the Group. This included the implementation of a state management support structure, along with functional support, to drive performance and accountability of the existing operations to support the future growth strategy of the Group.

The Group was also impacted by a range of negative external factors including project delays and cancellations due to unstable weather, union activity and internal resource management, and utilisation issues affecting service delivery and performance standards. In response to this, a comprehensive operational review was undertaken to build efficiency initiatives and to re-balance the revenue and operational cost base to respond to market conditions, ensuring sufficient capacity and capability to deliver on strategic growth objectives. The results of the review were announced on 28 June 2024 with the redefining of the operating strategy, structure and branding to further strengthen the competitive advantages of the Company's national scale and position. The review identified that a new operating structure under a single brand, AVADA Traffic, would deliver a more consistent client experience alongside operating efficiencies. The current operating strategy, which was based on independent businesses trading under multiple brands with centralised corporate services, was found to be the optimal structure during the IPO and initial consolidation phase, but was no longer the most efficient model to operate under on a national scale.

The integration would provide a national platform integrating traffic controllers, vehicles and depots operating under the single operating company, AVADA Traffic Pty Ltd. The brands being consolidated included

Construct Traffic, CTM, Linemark Traffic Control, A2O Traffic Solutions, Verifact Traffic, D&D Group, The Traffic Marshal, Platinum Traffic Services, Traffic Management People and STA Traffic. Integration of the operations of the Group's businesses and consolidated corporate functions will be completed by 1 October 2024.

The Group's IT strategy is well implemented, consolidating the operating systems to a single platform with improved cyber security and data analytics to provide improved information and insights to the business. These initiatives will continue into FY25 with the implementation of new payroll and financial management systems.

OUTLOOK

The Group continues to deliver industry best practice and public accountability standards for safety, governance and reporting across its operations. The governance framework provides a platform to drive performance and the evaluation of future acquisition and diversification opportunities, which provide synergies to the Group in line with its strategic priorities.

Organic growth opportunities remain the focus for the 2025 financial year, along with continued cost efficiencies and margin improvement. Significant improvement has been achieved over the past two years with further refinement expected from the restructure.

Maintenance projects and the pipeline for civil services work remains strong, given the recurring maintenance requirements of essential infrastructure and government funding of new projects. Each year infrastructure projects are either brought forward or delayed depending on Government funding and priorities. The Company, using its client relationships, is well positioned to adjust to these market conditions.

The low unemployment rate continues to present challenges to the Group (and across all operators in the traffic management and civil construction sectors). The Company is working to strengthen its employee value proposition to recruit, retain and develop traffic controllers and support its client service delivery standards.

Weather will always remain a challenge with variability across Eastern Australia and the South Island of New Zealand. Operational teams have learned to adjust to these conditions and look for opportunities which come from these challenges.

FINANCIAL POSITION AND IMPAIRMENT

The net asset position of the Group increased from \$46,458,000 as at 30 June 2023 to \$54,468,000 as at 30 June 2024.

The Group acquired the business and the assets of STA Traffic Management Pty Ltd, including property, plant and equipment of \$4,347,000, and goodwill and intangible assets of \$4,577,000. This is offset by financial liabilities related to funding the acquisition.

The carrying amount of goodwill and intangible assets with indefinite useful lives are tested annually for impairment. As part of the restructure announced on 28 June 2024, the Directors have reassessed its Cash Generating Units ("CGUs") as part of assessing impairment in accordance with AASB 136 *Impairment of Assets*. The Directors have determined it appropriate to define and test a CGU at the state level rather than at the individual business unit level. This change reduces the number of CGUs being tested from seven to four. The Directors, in reflecting on the trading performance, gross margins achieved and the strong infrastructure and maintenance pipeline, have assessed the goodwill and intangible assets to be recoverable for all four CGUs.

As part of the restructure, the Directors deemed it appropriate to write-off the carrying value of Brands, of \$3,631,000 as at 30 June 2024.

DETAILS OF ACQUISITIONS

Details of the Group's new material subsidiaries in the current period and the net assets acquired at acquisition are as follows:

Name of subsidiary	Net assets acquired/assumed (\$'000)
STA Traffic Management No.2 Pty Ltd	\$5,971

All subsidiaries are 100% owned by the Group, are incorporated and operate in Australia and New Zealand, and are involved in the provision of traffic management services as their principal activity. As detailed in note 31, the purchase price consideration included cash and contingent consideration.

CHANGES IN THE STATE OF AFFAIRS

The following significant changes in the state of affairs occurred during the financial year:

On 23 October 2023, the Company, through its subsidiary STA Traffic Management No.2 Pty Ltd, acquired the business and assets of STA Traffic Management Pty Ltd.

On 28 June 2024, the Company announced a complete restructure and strategic review of its operations. The restructure entails a shift from operating as a "House of Brands" where the Group was trading under multiple brands, to a "Branded House" where the Group operates under a single "AVADA Traffic" brand. The restructure will result in the Group's individual subsidiary brands becoming redundant and a number of operational positions becoming redundant. Consequently, the Group has recognised a write-off of \$3.631m to the value of its subsidiaries' brands and a restructuring provision of \$1.492m.

CORPORATE GOVERNANCE

The Group is committed to achieving and demonstrating effective standards of corporate governance. The Group has reviewed its corporate governance practices against the Corporate Governance Principles and Recommendations (4th edition) published by the ASX Corporate Governance Council.

A description of the Group's current corporate governance practices is set out in the Group's corporate governance charter, which can be viewed on AVADA's website at www.avadagroup.com.au/corporate-governance.

The Company's current Corporate Governance Statement released to the ASX is available on the Company's website at www.avadagroup.com.au.

INDEMNITY AND INSURANCE OF OFFICERS

In accordance with the constitution of the Company, except as may be prohibited by the *Corporations Act 2001*, every officer of the Company shall be indemnified out of the property of the Company against any liability incurred by them in their capacity as officer or agent of the Company in respect of any act or omission whatsoever and howsoever occurring or in defending any proceedings, whether civil or criminal.

During the reporting year and since the end of the reporting year, the Company has paid premiums in respect of a contract insuring Directors and officers of the Group in relation to certain liabilities. In accordance with normal commercial practices under the terms of the insurance contracts, the nature of liabilities insured against and the amounts of premiums paid are confidential.

INDEMNITY AND INSURANCE OF AUDITOR

The Company has not, during or since the end of the reporting year, indemnified or agreed to indemnify the auditor of the Company or any related entity against a liability incurred by the auditor.

During the financial year, the Company has not paid a premium in respect of a contract to insure the auditor of the Company or any related entity.

EVENTS AFTER THE REPORTING YEAR

Extension and amendment of Commonwealth Bank Facilities

The Company has received Credit Approved Terms to extend the maturity date for its Term Facility and Working Capital Loan out to 22 August 2026. Included as part of the Credit Approved Terms are amendments to the following covenant calculations:

- Net Leverage Ratio remains at $\leq 2.50x$ for the term of facility to 22 August 2026; and
- Debt Service Coverage Ratio reduces from $\geq 2.50x$ to $\geq 2.0x$ for the term of the facility to 22 August 2026.

Amendment of Kiwibank Covenants

The Company has received the following amendments to the covenant calculations:

- Waiver of financial undertakings for the period 1 July 2024 to 31 December 2024;
- Debt Service Cover Ratio to remain $\leq 1.00x$ until 30 September 2025 and thereafter increasing to $1.50x$;
- Funding cover ratio remaining at $\leq 2.50x$ from 1 January 2025; and
- Equity ratio $\leq 30\%$ (tested annually on 30 June each year).

No other matters or circumstances

The Directors of the Company are not aware of any other matter or circumstances that have arisen since the end of the financial year which significantly affected, or may significantly affect, the operations of the Group, the results of those operations or the state of affairs of the Group in future financial periods.

FUTURE DEVELOPMENTS, PROSPECTS AND BUSINESS STRATEGIES

The current areas of strategic focus continue to be on organic growth opportunities and margin improvement through improved resource utilisation and cost management.

Organisational Restructure

The organisational restructure announced on 28 June 2024, will be rolled out with implementation undertaken during the first quarter of FY25. The changes will:

- Optimise deployment of resources across the network of local projects and national clients.
- Continue to deliver industry best practice and public company standards for safety, governance and reporting across all operations.
- Strengthen the Group's employee value proposition to recruit, retain and develop traffic controllers and drive improved client service standards.
- Reduce complexity and capitalise on economies of scale to drive service innovations and realise efficiencies.

The Group will seek to grow its procurement savings with the consolidation of the trading businesses under a single brand.

Business Risks

The Board is entrusted with the identification and management of key risks associated with the business that are vital to creating and delivering long-term shareholder value. The following exposures may affect the Group's ability to achieve the above prospects:

- Contraction in market size;
- Cyclical nature of services;
- Industrial relations issues;
- Reliance upon systems and technology;
- Severe weather patterns;
- Labour shortages and dependences;
- Ability to raise capital and funds; and
- Inflationary pressures.

FUTURE DEVELOPMENTS, PROSPECTS AND BUSINESS STRATEGIES (CONT'D)

Contraction in market size — a reduction in the amount of capital investment in infrastructure and construction projects within Australia and New Zealand may impact the size of the market requiring traffic management services, which may affect the Group's revenue growth opportunities. To mitigate this risk, the Group's business development and operations teams work closely with existing and potential clients to build relationships and opportunities to tender for new works. The Group works to build a diversified client base to broaden pipeline opportunities in the projects, utilities, government and maintenance sectors.

Cyclical nature of services — traffic control is a service industry where day-to-day clients are affected by a range of factors which may reduce the requirement for resources. This impacts the Group's revenue opportunities and may lead to inefficiencies in its resource allocation which affects gross profit margins. To mitigate disruptions and timing of the services, the Group regularly communicates with its clients to understand their priorities and needs ensuring resources are available for deployment, or moved to other opportunities.

Industrial relations — industrial relations disruptions may affect the timing of clients' projects and the opportunity to tender for works. This may impact revenue growth opportunities and client relationships. The Group has several mitigation strategies to minimise the impacts. This includes working with clients to understand their project requirements, ensuring employees meet the industrial instruments pay rules and seeking non-unionised projects.

Reliance on systems and technology — a cyber event has the potential to disrupt the Group's ability to access systems and provide efficient service delivery to its customers. The Group mitigates this risk by maintaining and regularly updating its suite of information technology security measures to restrict access to the Group operating systems, including multi-factor authentication, firewalls, phishing software, offsite and cloud hosted solutions. The Group regularly provides cyber awareness training, testing and educating the workforce.

Weather — adverse weather events will affect the timing of client works, either delaying, deferring or cancelling works. The delay or cancellation of works has the potential to transfer works to other providers affecting both revenue and profitability. While works may be halted, the Group uses its relationships with clients to divert resources to other opportunities to minimise the financial impacts.

Labour shortages — traffic control is a service industry requiring qualified staff to undertake works. A tight labour market impacts the Group's ability to attract qualified traffic controllers and the ability for the Group to service its clients' needs. A lack of service to clients may lead to a loss of work and revenue impacting the profitability of the Group. The Group minimises this risk with an employee reward, recognition and retention program to recognise and reward its people. This program is used to attract and retain talent within the Group.

Ability to raise capital and funds — raising capital is important to the Group's future acquisition strategy. The inability to raise funds will slow the Group's growth opportunities. The Group works closely with its financiers, brokers and investors, providing confidence in the Group's performance capabilities and keeping all stakeholders updated on performance and future opportunities to grow.

Inflationary pressures — while the Group seeks to pass through cost increases, there are times when it is not possible to do so. Rising input costs impact the Group's profit opportunity with lower margins being achieved. To mitigate the downside, the Group negotiates annual price rise clauses in its client contracts, tied to Fair Work and CPI rate increases.

ENVIRONMENTAL ISSUES

The Board has considered the environmental impacts of the Group and determined the Group's environmental risks and regulations. The Board is not aware of any material environmental issues or regulations that affect the operations of the business.

AUDITOR'S INDEPENDENCE DECLARATION

The auditor's independence declaration is included after this report on page 33.

Directors' Report

INFORMATION ON DIRECTORS AND COMPANY SECRETARY

The following persons were Directors of AVADA Group Limited during the whole of the financial year and up to the date of this report, unless otherwise stated:

Lance Hockridge	
Title	Chairman, Non-Executive Director
Experience and expertise	Lance Hockridge is a globally experienced manufacturing, logistics and transportation executive with a focus on leading the safety, operational and financial transformation of businesses. Lance has over 20 years of experience leading ASX-listed companies.
Other current listed Directorships	Director of Kelsian Group Limited (ASX: KLS)
Former listed Directorships (last 3 years)	None
Academic and professional qualifications	Member of the Australian Institute of Company Directors Fellow of the Institute of Managers and Leaders Australia and New Zealand Chartered Fellow of the Chartered Institute of Logistics and Transport
Interests in shares	8,204,180
Interests in options	Nil

Ann-Maree Robertson	
Title	Deputy Chairman, Independent Non-Executive Director

Joanne Willoughby	15	15	6	6	5	5
Daniel Crowley	15	15	6	6	5	5
Courtney Black	15	15	6	6	5	5
Neil Scales OBE	14	13	5	4	5	5

PROCEEDINGS ON BEHALF OF THE COMPANY

No person has applied to the Court under section 237 of the *Corporations Act 2001* for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party, for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

NON-AUDIT SERVICES

Details of amounts paid or payable to the auditor for non-audit services provided during the year by the auditor are outlined in note 37 to the financial statements.

The Directors are satisfied that the provision of non-audit services during the year by the auditor (or by another person or firm on the auditor's behalf), is compatible with the general standard of independence for auditors imposed by the Corporations Act.

The Directors are of the opinion that the services as disclosed in note 37 to the financial statements, do not compromise the external auditor's independence, based on advice received from the Audit Committee for the following reasons:

- All non-audit services have been reviewed and approved to ensure that they do not impact the integrity and objectivity of the auditor; and
- None of the services undermine the general principles relating to auditor independence as set out in APES 110 *Code of Ethics for Professional Accountants* issued by the Accounting Professional & Ethical Standards Board, including reviewing or auditing the auditor's own work, acting in a management or decision-making capacity for the Company, acting as advocate for the company or jointly sharing economic risks and rewards.

OFFICERS OF THE COMPANY WHO ARE FORMER PARTNERS OF BDO AUDIT PTY LTD

There are no officers of the Company who are former partners of BDO Audit Pty Ltd.

COMPANY'S EARNINGS AND CONSEQUENCES OF THE COMPANY'S PERFORMANCE ON SHAREHOLDER WEALTH

No final or interim fully franked or unfranked dividend was declared or paid during the year ended 30 June 2024.

There was no return of capital by the Company to its shareholders during the year ended 30 June 2024.

ROUNDING OFF AMOUNTS

The Company is a company of the kind referred to in *ASIC Corporations (Rounding in Financials/Directors Reports) Instrument 2016/191*, dated 24 March 2016, and in accordance with that Corporations Instrument, amounts in this Directors' report (excluding the Remuneration report) and financial statements are rounded off to the nearest thousand dollars, unless otherwise indicated.

SHARES UNDER OPTION

No share options have been issued during the year ended 30 June 2024 and up to the date of this report.

SHARES ISSUED ON THE EXERCISE OF OPTIONS

No shares issued on the exercise of options have been issued during the year ended 30 June 2024 and up to the date of this report.

Remuneration Report (Audited)

1. Executives and Non-Executive Directors Covered by this Report
2. Remuneration Policy
3. Executive Remuneration — Performance, Outcomes and Disclosures
4. Other Disclosures and Shareholdings

1. Executives and Non-Executive Directors Covered by this Report

The remuneration of Key Management Personnel for the Group is disclosed in this report.

Key Management Personnel of the Group are those persons having authority and responsibility for planning, directing and controlling the Group's major activities, whether directly or indirectly. The Board has determined that the Key Management Personnel for the financial years ended 30 June 2024 and 30 June 2023 are the individuals whose details are set out below and are covered by this report.

Name	Position	Term as Key Management Personnel
Non-Executive Directors		
Lance Hockridge	Chairman and Non-Executive Director	From 25 March 2021
Ann-Maree Robertson	Independent Non-Executive Director	From 9 November 2021
Joanne Willoughby	Independent Non-Executive Director	From 9 November 2021
Courtney Black	Independent Non-Executive Director	From 19 June 2023
Neil Scales OBE	Independent Non-Executive Director	From 25 July 2023
Executive Directors		
Daniel Crowley	Managing Director and Chief Executive Officer	From 25 March 2021
Other executive officers		
Paul Fitton	Chief Financial Officer and Company Secretary	From 1 June 2021 Company Secretary from 9 November 2021 and resigned 20 May 2024
Rhonda McSweeny	Chief Operating Officer	From 2 May 2023 and resigned 21 February 2024
Michael Wilkes	Company Secretary and acting Chief Financial Officer	From 20 May 2024

The named persons held their current position for the whole of the financial year and since the end of the financial year, unless otherwise stated.

2. Remuneration Policy

The Group is committed to paying employees a fair salary, rewarding consistent high performance, and acknowledging the achievements of teams and individuals. To achieve this, a remuneration committee has been formed with the objective to develop a remuneration policy that offers compensation and benefits that reflect competitive market rates of pay, which assist with the attraction and retention of critical skills and motivate individuals to excel. This will in turn achieve the objective of aligning the interests of management with the interests of shareholders.

For the financial year ended 30 June 2024, the remuneration framework consisted of fixed pay arrangements and discretionary incentives.

The Group implemented a short-term incentive plan ("STI") effective 1 July 2022. The STI plan is reviewed annually and defines the Group's success, identifies the circumstances considered to represent success and rewards individual and team contributions to the achievement of that success. There were two conditions set for the 2024 financial year. This included a range of Gross Profit Margin % improvement of up to 15% and a range of EBITDA growth between 6% and 13%. In line with the STI Plan Rules, the 2024 financial year results were tested against the plan's performance gates, with a portion of the STI program eligible for payment with Gross Profit Margin % improvement between the minimum and maximum thresholds of 3.7%.

NON-EXECUTIVE DIRECTORS' REMUNERATION

The Board determines the total amount paid to each Director as remuneration for their services. Under the ASX Listing Rules, the total amount paid to Non-Executive Directors must not exceed the amount fixed in a general meeting of the Company. All Directors' fees include superannuation at the statutory rate. Non-Executive Directors may be paid extra remuneration, as determined by the Board, for performing services which are outside the scope of the ordinary duties of a Director of the Company. There are no retirement or other termination benefits for Directors other than benefits associated with the statutory superannuation contributions.

The following table describes the adopted framework for Non-Executive Director Remuneration for the financial year ended 30 June 2024.

Fee type	2024 \$	2023 \$
Chair of Board	125,400	120,000
Non-Executive Director	52,250	50,000
Committee Chair	10,450	10,000

The remuneration of Non-Executive Directors does not, and must not, include a commission or a percentage of profits or operating revenue.

Our Board takes a proactive approach to decision making in the evaluation of Executive Remuneration outcomes. Our remuneration and governance frameworks enable our Board to assess the achievement of strategic objectives and balance the interests of the business, employees and shareholders.

BOARD

Our Board has overall responsibility for Executive Remuneration, including the assessment of performance and remuneration for the Chief Executive Officer and Managing Director. Ensuring there is a transparent connection between pay and performance is the key objective of the Board in rewarding outcomes for our leaders.

The Board is committed to providing competitive rewards that attract and retain talent and compensate Executive Leaders commensurate with the progress and growth of the Company.

SENIOR EXECUTIVE LEADER REMUNERATION

Our goal has been to provide a remuneration framework that attracts, retains and motivates a high quality and experienced leadership team with the necessary capabilities and attributes to lead our people in achieving our long and short-term objectives and create value for our shareholders.

REMUNERATION CONSULTANT

During the current financial year, the People, Nomination & Remuneration Committee (PNRC) has engaged Vincents Workforce Advisory (Vincents) to provide independent and specialist expertise to review and progress AVADA's Remuneration Strategy. In advising the Group, Vincents undertook an extensive analysis of aligned roles in comparable listed organisations, evaluating fixed and total target remuneration. Vincent's findings indicate the remuneration for the Chief Executive Officer and Managing Director, Chief Financial Officer and Company Secretary, along with the Executive Leadership Team, were at the low end of the benchmarked positions.

Vincents are an independent third-party remuneration consultant, engaged by the PNRC to provide independent recommendations to the Board. The Board was satisfied that the remuneration recommendations made were free from undue influence from Key Management Personnel to whom the recommendations related, including both the Chief Executive Officer and Managing Director, and Chief Financial Officer and Company Secretary. Vincents confirmed to the Board that it received no undue influence placed upon it. The Board was satisfied with this.

2. Remuneration Policy (cont'd)

Vincents recommended an increase to the fixed remuneration for Chief Executive Officer and Managing Director, and Chief Financial Officer and Company Secretary for 18.5% and 21%, respectively. The Board considered the recommendations and the proposed amounts in context of other similar-sized entities and endorsed the recommendation, effective in two tranches, with the first from 1 July 2024 and the second 1 January 2025.

In addition to the fixed remuneration increase, Vincents reviewed the existing Short-Term Incentive (STI) program and furnished the Board with some amended changes to the current STI Program. The STI Program is for eligible executives and senior managers within the Group. The Board endorsed this recommendation effective from 1 July 2024.

The Company incurred an expense of \$73,598 which was payable to Vincents in respect to the remuneration consulting services and Board Review including analysis, research, design and advice for the recommended Remuneration Policy. The amount has been fully paid.

3. Executive Remuneration — Performance, Outcomes and Disclosures

EXECUTIVE DIRECTORS AND OTHER EXECUTIVE OFFICERS

Executive Directors and other executive officers will receive an annual fixed remuneration inclusive of superannuation. They may be eligible to participate in any short-term or long-term incentive plans that are introduced by the Company. They may terminate their employment contract by giving the required notice in writing to the Company. The Company may at any time and for any reason terminate their employment by giving the required notice in writing. In the event of the termination of employment, they will be entitled to payment of remuneration up until the end of the required notice period or by making a payment in lieu of notice. In the event of serious, wilful, or persistent misconduct or other specific circumstances warranting summary dismissal, the Company may terminate their employment contract immediately by notice in writing and without payment in lieu of notice.

REMUNERATION OF EXECUTIVE DIRECTORS AND OTHER EXECUTIVE OFFICERS

INDEPENDENT AUDITOR'S REPORT

To the members of Avada Group Limited

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Avada Group Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2024, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial report, including material accounting policy information, the consolidated entity disclosure statement and the directors' declaration.

In our opinion the accompanying financial report of the Group, is in accordance with the Corporations Act 2001, including:

- (i) Giving a true and fair view of the Group's financial position as at 30 June 2024 and of its financial performance for the year ended on that date; and
- (ii) Complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the Financial Report* section of our report. We are independent of the Group in accordance with the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's *APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the Corporations Act 2001, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material uncertainty related to going concern

We draw attention to Note 1 in the financial report which describes the events and/or conditions which give rise to the existence of a material uncertainty that may cast significant doubt about the group's ability to continue as a going concern and therefore the group may be unable to realise its assets and discharge its liabilities in the normal course of business. Our opinion is not modified in respect of this matter.

BDO Audit Pty Ltd ABN 33 134 022 870 is a member of a national association of independent entities which are all members of BDO Australia Ltd ABN 77 050 110 275, an Australian company limited by guarantee. Liability limited by a scheme approved under Professional Standards Legislation.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the *Material uncertainty related to going concern* section, we have determined the matters described below to be the key audit matters to be communicated in our report.

Impairment of goodwill and other intangible assets

Key audit matter	How the matter was addressed in our audit
<p>Refer to Note 20 - Goodwill Refer to Note 21 - Other Intangible Assets</p> <p>The carrying amount of goodwill and the intangible assets is supported by value-in-use calculations prepared by management which are based on budgeted future cash flows, key estimates and significant judgements such as the annual growth rates, discount rate and terminal value growth rate.</p> <p>This is a key area of audit focus as the value of the intangible assets is material and the evaluation of the recoverable amount of these assets requires significant judgement in determining the key estimates supporting the expected future cash flows of the CGUs and the utilisation of the relevant assets.</p>	<p>Our procedures included, amongst others:</p> <ul style="list-style-type: none"> • Understanding and evaluating the design and implementation of management's processes and controls; • Assessing management's determination of the Group's Cash Generating Units ("CGU's") to which intangible assets are allocated based on our understanding of the nature of the Group's business and the identifiable groups of cash generating assets; • Comparing the cash flow forecasts used in the value-in-use calculations to Board approved budgets for the 2025 financial year and the Group's historic actual performance; • Assessing the significant judgements and key estimates used for the impairment assessment, in particular, the annual growth rates, discount rate and terminal value growth rate; • Assessing the allocation of assets and liabilities, including corporate assets and allocation of corporate overheads to CGUs to ensure it is appropriate; • Performing sensitivity analysis by varying significant judgements and key estimates, including the annual growth rates, discount rate and terminal value growth rate, for the CGUs to which goodwill and indefinite useful life intangible assets relate; • In conjunction with our internal specialists, assessed the discount rates against comparable market information for reasonableness; and • Assessing the adequacy of the Group's disclosures in respect of impairment testing of goodwill and indefinite useful life intangible assets.

Independent Auditor's Report

Acquisition of STA Traffic Management Pty Ltd

Key audit matter	How the matter was addressed in our audit
<p>Refer to Note 31 - Acquisition of subsidiaries</p> <p>During the year the Group acquired 100% of the business assets and operations of STA Traffic Management Pty Ltd. This was considered a significant acquisition for the Group.</p> <p>Accounting for this transaction is a complex and judgemental exercise, requiring management to determine the fair value of acquired assets liabilities and consideration paid.</p> <p>It is due to the size of the acquisition and the estimation process involved in accounting for it that this is a key area of audit focus.</p>	<p>Our procedures included amongst others:</p> <ul style="list-style-type: none">• Obtaining an understanding of the relevant controls associated with identifying and accounting for the business combination;• Reading the sale and purchase agreement to understand key terms and conditions;• Recalculating the purchase consideration, including the estimate of contingent consideration;• Assessing the fair value of intangible assets acquired and liabilities assumed;• Evaluating the assumptions and methodology used by management in determining the fair values of intangible assets acquired; and• Assessing the adequacy of the Group's disclosures in respect of business acquisitions.

Other information

The directors are responsible for the other information. The other information comprises the information contained in the Directors' Report for the year ended 30 June 2024, but does not include the financial report and our auditor's report thereon, which we obtained prior to the date of this auditor's report, and the Annual Report, which is expected to be made available to us after that date.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

BDO Audit Pty Ltd ABN 33 134 022 870 is a member of a national association of independent entities which are all members of BDO Australia Ltd ABN 77 050 110 275, an Australian company limited by guarantee. BDO Audit Pty Ltd and BDO Australia Ltd are members of BDO International Ltd, a UK company limited by guarantee, and form part of the international BDO network of independent member firms. Liability limited by a scheme approved under Professional Standards Legislation.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to the directors and will request that it is corrected. If it is not corrected, we will seek to have the matter appropriately brought to the attention of users for whom our report is prepared.

Other matter

The financial report of Avada Group Limited, for the year ended 30 June 2023 was audited by another auditor who expressed an unmodified opinion on that report on 30 August 2023.

Responsibilities of the directors for the Financial Report

The directors of the Company are responsible for the preparation of:

- a) the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and
- b) the consolidated entity disclosure statement that is true and correct in accordance with the Corporations Act 2001, and

for such internal control as the directors determine is necessary to enable the preparation of:

- i) the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and
- ii) the consolidated entity disclosure statement that is true and correct and is free of misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website (<http://www.auasb.gov.au/Home.aspx>) at:

https://www.auasb.gov.au/admin/file/content102/c3/ar1_2020.pdf

This description forms part of our auditor's report.

Liability limited by a scheme approved under Professional Standards Legislation.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 13 to 21 of the directors' report for the year ended 30 June 2024.

In our opinion, the Remuneration Report of Avada Group Limited, for the year ended 30 June 2024, complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Directors' Declaration

In the opinion of the Directors of AVADA Group Limited:

- (a) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable;
- (b) the attached financial statements are in compliance with International Financial Reporting Standards, as stated in note 1 to the financial statements;
- (c) the attached financial statements and notes thereto are in accordance with the *Corporations Act 2001*, including compliance with accounting standards and giving a true and fair view of the financial position and performance of the Group;
- (d) the Directors have been given the declarations required by s.295A of the *Corporations Act 2001*; and
- (e) in the Directors' opinion, the attached consolidated entity disclosure statement is true and correct.

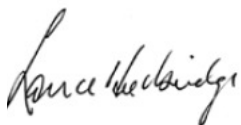

This declaration has been made after receiving the declarations required to be made to the Directors in accordance with Section 295A of the *Corporations Act 2001* for the financial year ended 30 June 2024.

At the date of this declaration, the Company is within the class of companies affected by *ASIC Corporations (Wholly owned Companies) Instrument 2016/785*. The nature of the deed of cross guarantee is such that each company which is party to the deed guarantees to each creditor payment in full of any debts in accordance with the deed of cross guarantee.

In the Directors' opinion, there are reasonable grounds to believe that the Company and the Companies to which *ASIC Corporations (Wholly owned Companies) Instrument 2016/785* applies, as detailed in note 40 to the financial statements will, as a group, be able to meet any liabilities to which they are, or may become, subject because of the deed of cross guarantee.

Signed in accordance with a resolution of Directors made pursuant to s.295(5) of the *Corporations Act 2001*.

On behalf of the Directors

Lance Hockridge
Chairman

Brisbane, 3 September 2024

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

1. General information

AVADA Group Limited (“the Company”) is a company domiciled in Australia. It was incorporated on 25 March 2021 and undertook an initial public offering and was listed on the Australian Securities Exchange on 17 December 2021.

The consolidated financial statements of the Company for the year ended 30 June 2024 comprise the Company and its subsidiaries (together referred to as “the Group”).

(A) STATEMENT OF COMPLIANCE

These consolidated financial statements are general purpose financial statements which have been prepared in accordance with the *Corporations Act 2001*, Accounting Standards and other authoritative pronouncements issued by the Australian Accounting Standards Board (AASB) and comply with other requirements of the law.

The financial statements comprise the consolidated financial statements of the Group. For the purposes of preparing the consolidated financial statements, the Company is a for-profit entity.

Compliance with Australian Accounting Standards ensures that the financial statements and notes of the Group comply with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB). Consequently, this financial report has been prepared in accordance with and complies with IFRS as issued by the IASB.

(B) PRESENTATION CURRENCY AND ROUNDING

These financial statements are presented in Australian Dollars (\$) which is the Company’s functional currency.

The Company is a company of the kind referred to in *ASIC Corporations (Rounding in Financial/Directors Reports) Instrument 2016/191*, and in accordance with that Corporations Instrument amounts in the financial report are rounded off to the nearest thousand dollars, unless otherwise indicated.

(C) GOING CONCERN

For the year ended 30 June 2024, the Group incurred a profit after income tax of \$1.5m (2023: -\$5.6m) and a net cash inflow from operating activities of \$6.7m (2023: \$5.0m). At 30 June 2024, the Group had net current assets of \$10m (2023: \$6.7m).

The profit for the year includes a gain on the reduction of the contingent consideration of \$4.6m in respect of the acquisition of Wilson’s TM, due to EBITDA targets not being met during the period.

The Group had negative net cash out flows for the year (\$2.2m), noting that \$13.7m was paid from investing activities. This included the contingent consideration payment in respect of the acquisition of Verifact Traffic of \$3.0m, capital investments of \$3.7m along with \$7.6m for the acquisition of STA Traffic and a further \$2.8m for its working capital requirements. The Group also completed a capital raise, netting \$6.7m.

As at 30 June, the Group has \$8.5m of Cash and Cash equivalents, and total bank loans of \$30.6m. These bank loans are subject to various banking covenants, as disclosed in note 25.

As at 30 June the covenants for the CBA and Kiwibank were compliant. During the year amendments were obtained to banking agreements. Kiwibank’s Debt Service Cover Ratio will reduce from 1.5x to nil for the period 1 July 2024 to 31 December 2024, then will increase to 1.0x until 30th September 2025 and 1.5x thereafter. CBA Net Leverage Ratio remains at $\leq 2.50x$ for the term of facility to August 2026 and the Debt Service Coverage Ratio reduces from $\geq 2.5x$ to $\geq 2.0x$ for the term of the facility to August 2026.

The ability of the Group to continue as a going concern is principally dependent upon meeting banking covenants throughout the upcoming period, which is related to the Group’s ability to:

- meet its internal cash flow forecasts, in particular the Group’s revenue growth targets;
- reduce operating costs through efficiencies as planned as part of the strategic direction of the Group;
- reduce its level of capital expenditure;
- renegotiate banking terms and covenants if required; and
- raise sufficient capital if required.

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

1. General information (cont'd)

(C) GOING CONCERN (CONT'D)

These conditions may give rise to material uncertainty, which may cast significant doubt over the Group's ability to continue as a going concern.

The Directors believe that the going concern basis of preparation is appropriate due to the following reasons:

- subsequent to 30 June 2024, the Group obtained an offer of amended terms on the CBA banking facility, including amendments to banking covenants as outlined in note 31 and an extension to the facility from 25 August 2025 to 25 August 2026;
- subsequent to 30 June 2024, further amendments were obtained to the Kiwibank facility to waive covenants until 31 December 2024, with testing of those covenants to occur on 31 March 2025;
- proven ability of the Group to historically manage its cost structures and profit margins;
- the Group's ability to manage its capital expenditure program;
- the Group's proven ability to raise funds via share capital placements; and
- the Group has prepared a cash flow forecast based on reasonable assumptions that the directors believe are achievable.

Although it is not certain that these plans and measures will be successful, management has determined that the actions that it has taken are sufficient to mitigate the uncertainty and has therefore prepared the financial reporting on a going concern basis.

Should the Group be unable to continue as a going concern, it may be required to realise its assets and extinguish its liabilities other than in the ordinary course of business, and at amounts that differ from those stated in the financial report. This financial report does not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts or classification of liabilities and appropriate disclosures that may be necessary should the Group be unable to continue as a going concern.

(D) BASIS OF PREPARATION

The consolidated financial statements have been prepared under the historical cost convention, except for, where applicable, the revaluation of financial assets and liabilities at fair value through profit or loss. Cost is generally based on the fair value of the consideration given in exchange for goods and services.

2. Summary of material accounting policies

The principal accounting policies adopted in the preparation of these consolidated financial statements are set out below. The Group's accounting policies are consistent with Australian Accounting Standards and with International Financial Reporting Standards.

(A) BASIS OF CONSOLIDATION

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries) up to 30 June 2024. Control is achieved when the Company:

- has the power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, the results of subsidiaries acquired or disposed of during the year are included in profit or loss from the date the Company gains control until the date when the Company ceases to control the subsidiary.

All intragroup assets and liabilities, equity, income, expenses, and cash flows relating to transactions between the members of the Group are eliminated on consolidation.

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

2. Summary of material accounting policies (cont'd)

(B) BUSINESS COMBINATIONS

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interest issued by the Group in exchange for control of the acquiree. Acquisition-related costs are recognised in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired, and the liabilities assumed are recognised at their fair value at the acquisition date, except that:

- deferred tax assets or liabilities and assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with AASB 112 *Income Taxes* ("AASB 112") and AASB 119 *Employee Benefits* ("AASB 119") respectively; and
- liabilities or equity instruments related to share-based payment arrangements of the acquiree or share-based payment arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with AASB 2 *Share-based Payments* ("AASB 2") at the acquisition date (see below).

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after reassessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

When the consideration transferred by the Group in a business combination includes a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value and included as part of the consideration transferred in a business combination. Changes in fair value of the contingent consideration that qualify

as measurement period adjustments are adjusted retrospectively, with corresponding adjustments against goodwill.

Measurement period adjustments are adjustments that arise from additional information obtained during the 'measurement period' (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

The subsequent accounting for changes in the fair value of the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates, and its subsequent settlement is accounted for within equity. Other contingent consideration is remeasured to fair value at subsequent reporting dates with changes in fair value recognised in profit or loss.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period (see above), or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed as of the acquisition date that, if known, would have affected the amounts recognised as of that date.

(C) INTANGIBLE ASSETS ACQUIRED IN A BUSINESS COMBINATION

Intangible assets acquired in a business combination and recognised separately from goodwill are recognised initially at their fair value at the acquisition date (which is regarded as their cost).

Subsequent to initial recognition, intangible assets acquired in a business combination are reported at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives which are disclosed in note 21. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

2. Summary of material accounting policies (cont'd)

(C) INTANGIBLE ASSETS ACQUIRED IN A BUSINESS COMBINATION (CONT'D)

Derecognition of intangible assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

(D) GOODWILL

Goodwill is initially recognised and measured as set out above.

Goodwill is not amortised but is reviewed for impairment at least annually. For the purpose of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or groups of cash-generating units) expected to benefit from the synergies of the combination. Cash-generating units to which goodwill has been allocated are tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than the carrying amount of the unit, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit. An impairment loss recognised for goodwill is not reversed in a subsequent period.

Goodwill and brands are tested annually for impairment, based on estimates made by Directors. The recoverable amount of goodwill and the intangible assets is based on the Value-in-use ("VIU") for the cash-generating units that they have been allocated to. VIU is assessed by the Directors through a discounted cash flow analysis which includes significant estimates and assumptions including growth rates, margins, and discount rates based on the current cost of capital. The above figures therefore reflect the estimate of the recoverable amounts post any impairment recognised during the year. Further information on the impairment testing and the impairment recognised in respect of goodwill and intangible assets can be found in notes 20 and 21.

On disposal of a cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

(E) REVENUE RECOGNITION

The Group recognises revenue from the following major sources.

Traffic management services

Traffic management services, principally the provision of labour, vehicle hire and equipment hire, which are recognised based on the period (typically hours) of service provided and contractually agreed periodic rates. Revenue is recognised on completion of the service with customer payment term generally 30 days from end of month or per contract terms.

Plans and permits

Plans and permits revenues are recognised based on the contractually agreed rate per plan.

(F) FINANCIAL INSTRUMENTS

Recognition, measurement and derecognition

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the financial instrument.

Financial assets and financial liabilities are initially measured at fair value, except for trade receivables which are initially measured at the transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

2. Summary of material accounting policies (cont'd)

(F) FINANCIAL INSTRUMENTS (CONT'D)

Classification of financial assets

Debt instruments that meet the following conditions are measured subsequently at amortised cost:

- (a) the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- (b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Amortised cost and effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period.

For financial assets other than purchased or originated credit-impaired financial assets (i.e. assets that are credit impaired on initial recognition), the effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts and excluding expected credit losses), through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition.

The amortised cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance.

The gross carrying amount of a financial asset is the amortised cost of a financial asset before adjusting for any loss allowance.

Interest income is recognised using the effective interest method for debt instruments measured subsequently at amortised cost. For financial assets other than purchased or originated credit-impaired financial assets, interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets

that have subsequently become credit-impaired (see below). For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset. If, in subsequent reporting periods, the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset.

Impairment of financial assets

The Group recognises a loss allowance for expected credit losses ("ECL") on trade receivables. The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Group makes use of a simplified approach in accounting for trade and other receivables and records the loss allowance at the amount equal to the ECL. In using this practical expedient, the Group uses its historical experience, external indicators, and forward-looking information to calculate the expected credit losses.

The ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

2. Summary of material accounting policies (cont'd)

(F) FINANCIAL INSTRUMENTS (CONT'D)

Financial liabilities and equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Financial liabilities

All financial liabilities are measured subsequently at amortised cost using the effective interest method or at fair value through profit or loss ("FVTPL").

A financial liability is classified as held for trading if either:

- It has been acquired principally for the purpose of repurchasing it in the near term;
- On initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; and
- It is a derivative, except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument.

A financial liability other than a financial liability held for trading or contingent consideration of an acquirer in a business combination may be designated as at FVTPL upon initial recognition if either:

- Such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise.
- The financial liability forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Group's documented risk management or investment strategy, and information about the grouping is provided internally on that basis.
- It forms part of a contract containing one or more embedded derivatives, and IFRS 9 permits the entire combined contract to be designated as at FVTPL.

Financial liabilities at FVTPL are measured at fair value, with any gains or losses arising on changes in fair value recognised in profit or loss to the extent that they are not part of a designated hedging relationship.

However, for financial liabilities that are designated as at FVTPL, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is recognised in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss. The remaining amount of change in the fair value of liability is recognised in profit or loss. Changes in fair value attributable to a financial liability's credit risk, which are recognised in other comprehensive income are not subsequently reclassified to profit or loss; instead, they are transferred to retained earnings upon derecognition of the financial liability.

Financial liabilities measured subsequently at amortised cost

Financial liabilities that are not (i) contingent consideration of an acquirer in a business combination, (ii) held-for-trading, or (iii) designated as at FVTPL, are measured subsequently at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled, or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

2. Summary of material accounting policies (cont'd)

(G) TAXATION

The income tax expense represents the sum of the tax currently payable and deferred tax.

Tax consolidation

The Company and its Australian subsidiaries are considered as one Tax Consolidated Group. Consequently, all members of the Tax Consolidated Group will be taxed as a single entity and the consolidated financial statements have been prepared on the basis that this has occurred. The head entity within the Tax Consolidated Group will be AVADA Group Limited.

The Group's New Zealand subsidiaries are excluded from the Tax Consolidated Group and treated as individual tax entity under New Zealand tax jurisdiction.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in profit or loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

A provision is recognised for those matters for which the tax determination is uncertain, but it is considered probable that there will be a future outflow of funds to a tax authority. The provisions are measured at the best estimate of the amount expected to become payable. The assessment is based on the judgement of tax professionals within the Company supported by previous experience in respect of such activities and in certain cases based on specialist independent tax advice.

Deferred tax

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the liability method. Deferred tax liabilities are generally recognised for all taxable

temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised.

Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, a deferred tax liability is not recognised if the temporary difference arises from the initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and associates, and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

2. Summary of material accounting policies (cont'd)

(G) TAXATION (CONT'D)

Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income, or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

(H) PROPERTY, PLANT AND EQUIPMENT

Plant, machinery, fixtures and fittings are stated at cost less accumulated depreciation and accumulated impairment loss.

Depreciation is recognised so as to write off the cost of assets less their residual values over their useful lives, using the straight-line method, on the following bases:

Class of Property, plant and equipment	Method	Useful life
Traffic control equipment	Straight line	3 – 7 years
Motor vehicles	Straight line	8 – 10 years
Office equipment	Straight line	2 – 10 years
Leasehold improvements	Straight line	1 – 15 years

The estimated useful lives, residual values and depreciation methods are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. The gain or loss arising on the disposal or retirement of an asset is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

(I) IMPAIRMENT OF PROPERTY, PLANT AND EQUIPMENT AND INTANGIBLE ASSETS EXCLUDING GOODWILL

At each reporting date, the Group reviews the carrying amounts of its property, plant and equipment and intangible assets to determine whether there is

any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated to determine the extent of the impairment loss (if any). Where the asset does not generate cash flows that are independent from other assets, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset, for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease and to the extent that the impairment loss is greater than the related revaluation surplus, the excess impairment loss is recognised in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss to the extent that it eliminates the impairment loss which has been recognised for the asset in prior years.

When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with an indefinite useful life are tested for impairment at least annually and whenever there is an indication at the end of a reporting period that the asset may be impaired.

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

2. Summary of material accounting policies (cont'd)

(J) LEASES

The Group assesses whether a contract is or contains a lease, at inception of the contract. The Group recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets (such as tablets and personal computers, small items of office furniture and telephones). For these leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Group uses its incremental borrowing rate.

The incremental borrowing rate depends on the term, currency and start date of the lease and is determined based on a series of inputs including: the risk-free rate based on government bond rates; a country-specific risk adjustment; a credit risk adjustment based on bond yields; and an entity-specific adjustment when the risk profile of the entity that enters into the lease is different to that of the Group and the lease does not benefit from a guarantee from the Group.

Lease payments included in the measurement of the lease liability comprise:

- Fixed lease payments (including in-substance fixed payments), less any lease incentives receivable;
- Variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- The amount expected to be payable by the lessee under residual value guarantees;
- The exercise price of purchase options, if the lessee is reasonably certain to exercise the options; and
- Payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

The lease liability is presented as a separate line in the consolidated statement of financial position.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

The Group remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever:

- The lease term has changed or there is a significant event or change in circumstances resulting in a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.
- The lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using an unchanged discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used).
- A lease contract is modified, and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement day, less any lease incentives received and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Whenever the Group incurs an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognised and measured under AASB 137 *Provisions, Contingent Liabilities and Contingent Assets* ("AASB 137"). To the extent that the costs relate to a right-of use asset, the costs are included in the related right-of-use asset, unless those costs are incurred to produce inventories.

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

2. Summary of material accounting policies (cont'd)

(J) LEASES (CONT'D)

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the right-of-use asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Group expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The right-of-use assets are presented as a separate line in the consolidated statement of financial position.

The Group applies AASB 136 *Impairment of Assets* ("AASB 136") to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as described in the 'Property, Plant and Equipment' policy.

Variable rents that do not depend on an index or rate are not included in the measurement the lease liability and the right-of-use asset. The related payments are recognised as an expense in the period in which the event or condition that triggers those payments occurs and are included in the line "Other expenses" in profit or loss.

(K) BORROWINGS

Loans and borrowings are initially recognised at the fair value of the consideration received, net of transaction costs. They are subsequently measured at amortised cost using the effective interest method.

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

(L) EMPLOYEE BENEFITS

Short-term employee benefits

Provision is made for the Group's obligations for short-term employee benefits. Short term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salary and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Group's obligations for short-term benefits such as wages, salaries and sick leave are recognised as part of current trade and other payables in the statement of financial position. The Group's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

The Group recognises a provision when a bonus is payable in accordance with the employee's contract of employment or approved by the Board as part of a short-term incentive arrangement in the period of service and the amount can be reliably measured.

Other long-term employee benefits

Provision is made for employees' long service leave and annual leave entitlements not expected to be settled wholly within 12 months after the end of the annual reporting period in which the employees render the related service. Other long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Group's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Group does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

2. Summary of material accounting policies (cont'd)

(M) PROVISIONS

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, for which it is probable that the Group will be required to settle that obligation and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received, and the amount of the receivable can be measured reliably.

(N) EARNINGS PER SHARE

Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to the owners of AVADA Group Limited, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares during the financial year, adjusted for bonus elements in ordinary shares issued during the financial year.

Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

(O) GOODS AND SERVICES TAX (GST)

Revenue, expenses and assets are recognised net of the amounts of goods and services tax (GST), except:

- Where the amount of GST incurred is not recoverable from the taxation authority, it is recognised as part of the cost of acquisition of an asset or as part of an item of expense; or
- For receivables and payables which are recognised inclusive of GST.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables.

Cash flows are included in the cash flow statement on a gross basis. The GST component of cash flows arising from investing and financing activities which is recoverable from, or payable to, the taxation authority is classified within operating cash flows.

(P) FOREIGN CURRENCIES

In preparing the financial statements of the Group, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing on the dates of the transactions. At each reporting date, monetary assets and liabilities that are denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences are recognised in profit or loss in the period in which they arise except for:

- Exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings.
- Exchange differences on transactions entered into to hedge certain foreign currency risks (see below under financial instruments/hedge accounting).

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

2. Summary of material accounting policies (cont'd)

(P) FOREIGN CURRENCIES (CONT'D)

- Exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur in the foreseeable future (therefore forming part of the net investment in the foreign operation), which are recognised initially in other comprehensive income and reclassified from equity to profit or loss on disposal or partial disposal of the net investment.

For the purpose of presenting consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated at exchange rates prevailing on the reporting date. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case the exchange rates at the date of transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in a foreign exchange translation reserve (attributed to non-controlling interests as appropriate).

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate. Exchange differences arising are recognised in other comprehensive income.

3. Adoption of new and revised Australian Accounting Standards

(A) NEW AND AMENDED ACCOUNTING STANDARDS THAT ARE EFFECTIVE FOR THE CURRENT YEAR

The Group has adopted all new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (the AASB) that are relevant to their operations and effective for the current year.

The Directors of the Company do not anticipate that the amendments will have a material impact on the Group.

(B) NEW AND AMENDED ACCOUNTING STANDARDS AND INTERPRETATIONS ON ISSUE THAT ARE NOT YET EFFECTIVE

At the date of authorisation of the consolidated financial statements, the Group has not applied the following new and revised Australian Accounting Standards, Interpretations and amendments that have been issued but are not yet effective:

Standard/ amendment	Effective for annual reporting periods beginning on or after	Nature of the change and expected impact
AASB 2014-10 Amendments to Australian Accounting Standards — Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	1 January 2025	Limits the recognition of gain or loss arising from the loss of control of a subsidiary that does not contain a business in a transaction with an associate or joint venture to the extent of the unrelated investors' interest in that associate or joint venture. Similar limitations apply to remeasurements of retained interests in former subsidiaries. These amendments may impact the Group's consolidated financial statements in future periods should such transactions arise.
IFRS 18 Presentation and Disclosure in Financial Statements	1 January 2027	This Standard will not change the recognition and measurement of items in the financial statements, but will affect presentation and disclosure in the financial statements, including introducing new categories and subtotals in the statement of profit or loss, requiring the disclosure of management — defined performance measures, and changing the grouping of information in the financial statements.

The Directors of the Company do not anticipate that the amendments will have a material impact on the Group but may change the disclosure of accounting policies included in the financial statements.

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

4. Critical accounting judgements and key sources of estimation uncertainty

In applying the Group's accounting policies, which are described in note 2, the Directors are required to make judgements (other than those involving estimations) that have a significant impact on the amounts recognised and to make estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

CRITICAL JUDGEMENTS IN APPLYING THE GROUP'S ACCOUNTING POLICIES

The following are the critical judgements that the Directors have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements.

(A) IMPAIRMENT TESTING OF GOODWILL AND OTHER INTANGIBLES

Goodwill and intangible assets with indefinite lives are tested annually for impairment based on assumptions and judgements made by the Group's Directors. The only intangible assets with an indefinite life recognised by the Group are Brands which was fully impaired for the 2024 financial year due to the restructuring of the Group. The useful life of the customer contracts is recognised at acquisition and are amortised with its useful life of between 4 to 10 years.

The recoverable amount of goodwill and customer contracts are determined based on the Value-in-use ("VIU") calculated for the respective CGUs that they have been allocated to. VIU is determined by the Directors through a discounted cash flow analysis which includes significant assumptions and judgements to be made on forecast growth rates, gross margins, and the post-tax discount rate, based on the current cost of capital.

Additionally, the Directors are also required to perform impairment testing on non-current assets with finite useful lives when impairment indicators have been identified.

A judgement has also been made in identifying the smallest level of assets that generate independent cash flows at the operating level. As part of the restructure announced on 28 June 2024, the Directors have assessed a CGU used in impairment testing as a state/segment as this has been determined to be the lowest level at which goodwill is internally monitored. This represents a departure from the prior year with the impact of this departure on impairment testing outcomes detailed in note 20.

(B) ACCOUNTING FOR THE ACQUISITION OF BUSINESSES

During the current financial year, the Group completed the acquisition of:

- STA Traffic Management Pty Ltd — 23 October 2023

The Directors have determined that the below significant judgements and assumptions have made in accounting for these acquisitions.

Purchase price considerations

In relation to the acquisition of STA Traffic Management Pty Ltd, the Group engaged independent third party experts to measure the fair value of the contingent consideration based on the information and forecasts available at the acquisition date in accordance with the terms of the Business Sale Agreement dated 22 August 2023. Based on this assessment, fair value of \$715,002 was attributed to the contingent consideration in the purchase price consideration. In addition, fair value of \$723,151 was attributed to the second contingent consideration in the purchase price consideration.

The purchase price considerations are detailed in note 31.

Measurement of the assets acquired and liabilities assumed

STA Traffic Management Pty Ltd was accounted for as an individual acquisition with the assets and liabilities of the acquired entities included in the consolidated financial statements at their fair value at acquisition date.

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

4. Critical accounting judgements and key sources of estimation uncertainty (cont'd)

(B) ACCOUNTING FOR THE ACQUISITION OF BUSINESSES (CONT'D)

The Directors contracted independent valuers to appraise the fair value of motor vehicles acquired. This independent valuation resulted in a fair value of \$4,032,000 for motor vehicles being reflected in the net assets acquired per note 31. The valuation methodology required judgement, including the number of vehicles physically inspected and key assumptions, such as, the working condition of the vehicles, odometer readings and other inputs.

The Directors engaged an independent expert to assist with identifying and valuing the intangible assets associated with the acquisition of STA Traffic Management Pty Ltd. Intangible assets of \$2,440,000 were identified, including Customer Lists and Brands. Valuing such intangible assets is complex and requires the Directors to exercise significant judgement in determining the expected attrition rate of the acquired customer base, the royalty rate for the Brands, the discount rate, the terminal growth rate, and the projected cash flow.

For all other assets acquired and liabilities assumed, either the book value of these assets and liabilities has been determined as the fair values at acquisition date or acquisition adjustments have been made, but in those instances, no significant accounting judgements have been applied.

In determining the contingent consideration payable for the STA Traffic Management Pty Ltd acquisition, significant accounting judgements have been considered. Estimated EBITDA values using historical data have been used with estimated probabilities of achieving these EBITDA targets and discounting applied to come up with an estimate of the net present value of the contingent consideration payable. Refer to note 31 for details.

(C) CALCULATION OF LOSS ALLOWANCES

When measuring ECL the Group uses reasonable and supportable forward-looking information, which is based on assumptions for the future movement of different economic drivers and how these drivers will affect each other.

AVADA Group provision for doubtful debt is the estimate of the loss arising on recovery from trade debtors. It is based on the difference between the contractual cash flows due and those that the AVADA Group would expect to receive, taking into account cash flows from collateral and integral credit enhancements. Probability of default constitutes a key input in measuring ECL. Probability of default is an estimate of the likelihood of default over a given time horizon, the calculation of which includes historical data, assumptions and expectations of future conditions.

(D) RESTRUCTURING PROVISION

On the 28 June 2024, the Company announced a complete restructure and strategic review of its operations, moving from a House of Brands to a Branded House Strategy operating as AVADA Traffic. As a part of this restructure, a restructuring provision of \$1,491,735 has been recognised in the financial statement based on an estimate of expected costs after seeking quotes and estimates from suppliers and consultants, including stamp duty costs for the execution of the restructure plan.

5. Operating segments

IDENTIFICATION OF REPORTABLE OPERATING SEGMENTS

The Group is organised into four operating segments, based on the internal reports that are reviewed and used by the Chief Executive Officer (who is identified as the Chief Operating Decision Maker ("CODM")) in assessing performance and in determining the allocation of resources. There is no aggregation of operating segments.

The Group's reportable segments under AASB 8 *Operating Segments* ("AASB 8") are as follows:

Queensland Traffic Management	contains entities which operate in the Queensland geography
New South Wales Traffic Management	contains entities which operate in the New South Wales geography
Victoria Traffic Management	contains entities which operate in the Victoria geography
New Zealand Traffic Management	contains entities which operate in the New Zealand geography

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

5. Operating segments (cont'd)

IDENTIFICATION OF REPORTABLE OPERATING SEGMENTS (CONT'D)

The Group offers integrated traffic management services including planning and permits, traffic control, equipment hire, event management and incident response. The Group's client portfolio includes government clients at state and local council levels, federally funded contractors and major contractors in the utilities, infrastructure, construction and other industrial sectors.

The following is an analysis of the Group's revenue and results by reportable operating segment for the full year ended 30 June 2024:

	Year ended 30/06/2024					Total \$'000
	QLD Traffic Management \$'000	NSW Traffic Management \$'000	VIC Traffic Management \$'000	NZ Traffic Management \$'000	Unallocated \$'000	
Revenue						
Sales to external customers	104,195	45,505	42,548	12,289	–	204,537

Wages and Salaries	(73,902)	(35,588)	(19,447)	(1,229)	(3,312)	(133,478)
Direct equipment hire and consumables	(11,767)	(6,090)	(2,330)	(305)	–	(20,492)
Administration and other expenses	(3,366)	(1,381)	(1,076)	(1,136)	(6,131)	(13,090)
Impairment of intangible assets	–	(3,194)	–	–	–	(3,194)
EBITDA	11,230	2,080	3,649	(481)	(9,435)	7,043
Depreciation and amortisation expense	(5,403)	(3,339)	(1,343)	(173)	(97)	(10,355)
EBIT	5,827	(1,259)	2,306	(654)	(9,532)	(3,312)
Finance costs	(310)	(106)	(39)	(66)	(2,092)	(2,613)
Profit/(loss) before income tax	5,517	(1,365)	2,267	(720)	(11,624)	(5,925)
Income tax (expense)/ benefit	(1,824)	300	(730)	(60)	2,609	295
Profit/(loss) after tax for the year	3,693	(1,065)	1,537	(780)	(9,015)	(5,630)

The revenue reported above represents revenue generated from external customers. The Group does not have any customers which provide more than 10% of its external revenue. Each segment is not reliant on any of the Group's major customers. The accounting policies of the reportable segments are the same as the Group's accounting policies.

Segment profit represents the profit earned by each segment without allocation of central administration costs including Directors' salaries, finance income, non-operating gains and losses in respect of financial instruments and finance costs. This is the measure reported to the Group's CODM for the purpose of resource allocation and assessment of segment performance.

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

5. Operating segments (cont'd)

IDENTIFICATION OF REPORTABLE OPERATING SEGMENTS (CONT'D)

The following is an analysis of the Group's assets and liabilities by reportable operating segment:

	Year ended 30/06/2024					
	QLD Traffic Management \$'000	NSW Traffic Management \$'000	VIC Traffic Management \$'000	NZ Traffic Management \$'000	Unallocated \$'000	Total \$'000
Current assets	15,676	9,905	10,726	1,907	1,902	40,116
Non-current asset	39,748	10,083	26,129	14,220	1,170	91,350
Total assets	55,424	19,988	36,855	16,127	3,072	131,466
Current liabilities	14,953	5,571	5,504	3,605	457	30,090
Non-current liabilities	5,722	1,409	1,377	7,236	31,164	46,908
Total liabilities	20,675	6,980	6,881	10,841	31,621	76,998
Net assets/(liabilities)	34,749	13,008	29,974	5,286	(28,549)	54,468

	Year ended 30/06/2023					
	QLD Traffic Management \$'000	NSW Traffic Management \$'000	VIC Traffic Management \$'000	NZ Traffic Management \$'000	Unallocated \$'000	Total \$'000
Current assets	14,128	7,689	6,686	2,161	8,156	38,820
Non-current asset	43,550	12,015	19,553	15,861	393	91,372
Total assets	57,678	19,704	26,239	18,022	8,549	130,192
Current liabilities	10,083	5,584	2,392	7,196	6,849	32,104
Non-current liabilities	7,488	1,603	4,363	11,605	26,571	51,630
Total liabilities	17,571	7,187	6,755	18,801	33,420	83,734
Net assets/(liabilities)	40,107	12,517	19,484	(779)	(24,871)	46,458

For the purposes of monitoring segment performance and allocating resources between segments, the Group's Chief Executive Officer monitors the tangible, intangible and financial assets attributable to each segment. All assets are allocated to reportable segments, other than financial assets (except for trade and other receivables) and tax assets. Goodwill has been allocated to reportable segments as described in note 20. Assets used jointly by reportable segments are allocated on the basis of the revenues earned by individual reportable segments.

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

6. Revenue

The Group derives its revenue from contracts with customers for the transfer of goods and services over time and at a point in time in the following geographies and customer types. The disclosure of revenue by geography is consistent with the revenue information that is disclosed for each reportable segment under AASB 8 Operating Segments ("AASB 8"). Refer note 5.

DISAGGREGATION OF REVENUE

	Year ended 30/06/2024 \$'000	Year ended 30/06/2023 \$'000
External revenue by location and customer type		
Queensland		
Government (incl. councils)	62,965	60,468
Non-Government	41,230	39,603
	104,195	100,071
New South Wales

Basic earnings per share (cents)	2	(8)
Diluted earnings per share (cents)	2	(8)

14. Cash and cash equivalents

	Year ended 30/06/2024 \$'000	Year ended 30/06/2023 \$'000
Cash at bank	8,500	10,834
	8,500	10,834

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

15. Trade and other receivables

	Year ended 30/06/2024 \$'000	Year ended 30/06/2023 \$'000
Trade receivables	29,590	26,132
Accrued income	971	512
Other receivables	43	78
Less: expected credit loss	(106)	(8)
	30,498	26,714

The average credit period on provision of services is 45 to 50 days. No interest is charged on outstanding trade receivables.

The Group always measures the loss allowance for trade receivables at an amount equal to lifetime expected credit losses. The expected credit losses on trade receivables are estimated using a provision matrix by reference to past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for factors that are specific to the debtors, general economic conditions of the industry in which the debtors operate and an assessment of both the current as well as the forecast direction of conditions at the reporting date.

The Group writes off a trade receivable when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the debtor has been placed in liquidation or has entered into bankruptcy proceedings. None of the trade receivables that have been written off are subject to enforcement activities. The following table details the risk profile of trade receivables based on the Group's provision matrix. As the Group's historical credit loss experience does not show significantly different loss patterns for different customer segments, the provision for loss allowance based on past due status is not further distinguished between the Group's different customer segments.

ALLOWANCE FOR EXPECTED CREDIT LOSSES

The Group has recognised a loss of \$98,000 in relation to expected credit losses for the full year ended 30 June 2024. The aging of trade receivables and allowance for expected credit losses provided for above are as follows:

Year ended 30 June 2024	Expected credit rate loss	Carrying amount \$'000	Allowance for expected credit loss \$'000
Current	0%	23,756	–
30+ days overdue	0%	3,678	–
60+ days overdue	0%	697	–
90+ days overdue	0.4%	1,459	106
Total trade receivables		29,590	106

Year ended 30 June 2023	Expected credit rate loss	Carrying amount \$'000	Allowance for expected credit loss \$'000
Current	0.1%	18,800	–
30+ days overdue	0.3%	6,179	–
60+ days overdue	3.8%	758	–
90+ days overdue	2.9%	395	8
Total trade receivables		26,132	8

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

16. Current tax assets and liabilities

	Year ended 30/06/2024 \$'000	Year ended 30/06/2023 \$'000
Current		
Current tax assets	–	377
Current tax liabilities	1,002	(72)
	1,002	305

Current tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

Current tax assets and liabilities have not been offset as they relate to different taxation authorities.

17. Other assets

	Year ended 30/06/2024 \$'000	Year ended 30/06/2023 \$'000

ASSETS PLEDGED AS SECURITY

During the year, the Group drew down an additional \$1.2m from asset finance facilities (2023: \$10.9m) to fund motor vehicles and plant and equipment. The amounts drawn down from these facilities are secured against specific assets.

The Group is not allowed to pledge these assets as security for other borrowings or sell them to another entity.

The CBA holds a general security over the assets of the Australian Group against the borrowing facilities provided.

Kiwibank holds a general security over the assets of AVADA New Zealand Limited against the borrowing facilities provided.

Refer to note 25 for details of facilities.

19. Right-of-use assets (cont'd)

The Group leases several assets including buildings and motor vehicles. The average lease term is 4 years. The Group's obligations are secured by the lessors' title to the leased assets for such leases.

The maturity analysis of lease liabilities is presented in note 24.

AMOUNTS RECOGNISED IN PROFIT OR LOSS

	Year ended 30/06/2024 \$'000	Year ended 30/06/2023 \$'000
Depreciation expense on right-of-use asset	1,509	1,259
Interest expense on lease liabilities	249	205

Total cash outflow for leases amount to \$1,359,000 (2023: \$1.4m).

20. Goodwill

		Year ended 30/06/2024 \$'000	Year ended 30/06/2023 \$'000
Movement — Goodwill			
Balance at beginning of year		36,533	23,824

Exchange differences		(26)	(121)
Impairment of goodwill	9	—	(961)
Balance at end of the year		38,643	36,533

IMPAIRMENT OF ASSETS

Goodwill allocated to the Group's CGUs is tested annually for impairment, or more frequently if events or changes in circumstances indicate that it may be impaired.

For the purposes of impairment testing, goodwill is allocated to each of the Group's CGUs. In the previous reporting period, CGUs were identified as the individual operating entities which were acquired by the Group during the IPO and subsequently, as these operated as independent business units and represented the lowest level at which goodwill was internally monitored. In the current financial year, the Group conducted an operational review which resulted in the Group operating under a new national operating structure under a single brand. This operational change, effective from 28 June 2024, constitutes a reorganisation of the Group's reporting structure which has changed the composition of cash-generating units to which goodwill has been allocated. Consequently, the Group has reallocated goodwill to a state level which now represents the lowest level at which goodwill is now monitored for internal management purposes.

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

20. Goodwill (cont'd)

ALLOCATION OF GOODWILL

Below we have presented the allocation of goodwill to the identified individual operating entities prior to the reorganisation and reallocation.

	Year ended 30/06/2024 \$'000	Year ended 30/06/2023 \$'000
Verifact Traffic Control (VTC)	13,861	13,861
Arid to Oasis Traffic Solutions (A2O)	5,570	5,570
D&D Traffic Management (D&D)	3,432	3,432
STA Traffic Management (STA)	2,136	–
Construct Traffic (CT)	7,283	7,283
Wilsons TM	6,361	6,387
	38,643	36,533

The table below represents how Goodwill has been reallocated to the new CGUs:

Operating Entity	Queensland \$'000	New South Wales \$'000	Victoria \$'000	New Zealand \$'000
Verifact Traffic Control (VTC)	13,861	–	–	–
Arid to Oasis Traffic Solutions (A2O)	5,570	–	–	–
D&D Traffic Management (D&D)	–	3,432	–	–
Construct Traffic (CT)	–	–	7,283	–
STA Traffic Management (STA)	–	–	2,136	–
Wilsons TM	–	–	–	6,361
Total allocated to State	19,431	3,432	9,419	6,361

	Year ended 30/06/2024 \$'000
Queensland	19,431
New South Wales	3,432
Victoria	9,419
New Zealand	6,361
	38,643

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

20. Goodwill (cont'd)

The recoverable amount of a CGU to which goodwill is allocated is determined based on the greater of its value-in-use ("VIU") and its fair value less costs of disposal ("FVLCD").

The VIU assessment is conducted using a discounted cash flow ("DCF") methodology requiring the Directors to estimate the future cash flows expected to arise from the CGUs and then applying a post-tax discount rate to calculate the present value.

FVLCD is determined as being the amount obtainable from the sale of a CGU in an arm's length transaction between knowledgeable and willing parties at the balance date. If relevant, this fair value assessment, less costs of disposal, is conducted by the Directors based on their extensive knowledge of the traffic management services industry, including the current market conditions prevailing in the industry.

During the year ended 30 June 2024, all of the Group's CGUs were tested for impairment in accordance with AASB 136 *Impairment of Assets*.

The DCF models adopted by the Directors utilise cash flow forecasts derived from the FY25 budgets approved by the Board, with a 3.6% and 4% growth rate applied to Australia and New Zealand CGUs respectively from years two to five. A growth rate of 2.5% is applied from the terminal period, which does not exceed the long-term average growth rate for the industry and generally accepted future consumer price index ("CPI") rate. The forecasts give consideration to available sources of information to the Group (both internal and external).

KEY ASSUMPTIONS USED FOR VIU CALCULATIONS

Key assumptions are those to which the recoverable amount of the CGU is most sensitive. The Directors have determined that the key assumptions used in the DCF models and VIU calculations are the post-tax discount rate, the projected revenue growth rates and forecast gross margins.

A post-tax discount rate of 13% (2023: 11.6%) was applied to the cash flows for its Australian based entities and a post-tax discount rate of 12.8% was applied to the cash flow for its New Zealand based entities CGUs, incorporating the impact of AASB 16 *Leases* on the Group's cost of debt. Management engaged a third-party specialist to provide the post-tax discount rate utilised in the DCF VIU models.

The projected revenue growth rates have been based on consideration of historical performance and the expected future operating conditions in both road and bridge infrastructure works and maintenance of roads, rail, bridge and utilities infrastructure.

The forecast gross margins are based on a combination of historical averages, current and anticipated economic considerations, business and market opportunities.

Revenue growth for year 1 has been determined based on inflation growth, and the known approved rate increases with customers. The revenue growth rates assumed in year 1 for each CGU in calculating the recoverable amount is presented below.

	QLD	NSW	VIC	NZ
Revenue Growth Yr 1	4.68%	10.03%	18.43% ¹	5.1%

1 STA Traffic Management No.2 Pty Ltd was only operational for 9 months in the 2024 financial year resulting in a relatively larger year 1 growth rate.

As disclosed above, gross margin has been identified as a key assumption, but is not disclosed as management considers it to be commercially sensitive.

IMPAIRMENT TESTING OUTCOMES

For the QLD, NSW, VIC and NZ CGUs, the impairment testing determined that the recoverable amount exceeded the carrying value for the CGU. Therefore, the impairment test did not result in any impairment charge being recognised on its goodwill and non-current assets.

Management recognises that a change in one or a combination of the key assumptions applied to the post-tax discount rate, revenue growth rates or growth margin could result in impairment. Management's assessment has identified that the CGUs most sensitive to impairment due to a reasonable possible change in these key assumptions are VIC and NZ CGUs. The sensitivity analysis for these CGUs is presented below.

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

20. Goodwill

SENSITIVITY ANALYSIS

Any variation in the key assumptions used to determine the recoverable amount would result in a change to the estimated recoverable amount. If variations in assumptions had a negative impact on recoverable amount it could indicate a requirement for some impairment of goodwill and non-current assets. If variations in assumptions had a positive impact on recoverable amount it could indicate a requirement for a reversal of previously impaired non-current assets, with the exception of goodwill.

Estimated reasonable possible changes in the key assumptions would have the following approximate impact on impairment for the Group CGUs at 30 June 2024.

	Reasonable possible change	QLD \$'000	NSW \$'000	VIC \$'000	NZ \$'000
Change in post-tax discount rate¹	increased by 5.0%	nil	nil	2,148	1,921
Change in revenue growth rate Y1¹	decreased by 5.0%	nil	nil	nil	nil
Change in revenue growth rate Y2-Y5¹	decreased by 5.0%	nil	nil	774	704
Change in gross profit margin %¹	decreased by 5.0%	10,860	1,697	7,311	1,050

1 Percentage change presented above represents the absolute change in the assumption value.

Whilst the above outlines management's best estimates of key assumptions and reasonably possible changes in key value drivers, changes in the level of business activity and severe weather events may also materially impact the determination of the recoverable amount. Should the regulatory macroeconomic factors that are specific to the Australian and New Zealand domestic market change, this could impact the level of activity in the market, as well as competition, and thereby affect the Group's revenue and cost initiatives. Additionally, given the outdoor nature of the Group's operations, any significant weather event would also impact the Group's revenue and forecasted cash flows. If conditions change unfavourably, changes in recoverable amount estimates may arise.

Each of the assumptions above assumes that the specific assumption moves in isolation, whilst all other assumptions are held constant. In reality, a change in one of the aforementioned assumptions may accompany a change in another assumption. Action is usually taken to respond to adverse changes in economic assumptions that may mitigate the impact of such a change.

Modelling incorporating the assumptions identified in the key assumptions table provides that the recoverable amount exceeds the carrying amount (headroom) as outlined below. The recoverable amount of the CGUs would equal its carrying amount if the key assumptions were to change as follows:

30 June 2024	QLD	NSW	VIC	NZ
Headroom (\$'000)	28,640	16,905	11,076	4,036
Increase in discount rate ²	7.33%	13.25%	3.89%	2.90%
Decrease in revenue growth rate Y1 ²	19.60%	22.68%	15.86%	12.90%
Decrease in revenue growth rate Y2-Y5 ²	6.00%	7.39%	4.65%	4.2%
Decrease in gross profit margin % ²	3.63%	4.54%	3.01%	3.95%

2 Percentage change presented above represents the absolute change in the assumption value.

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

ALLOCATION OF BRANDS

Brands are allocated to the CGUs as per below:

	Year ended 30/06/2024 \$'000	Year ended 30/06/2023 \$'000
Queensland	–	1,080
New South Wales	–	443
Victoria	–	1,220
New Zealand	–	438
	– ¹	3,181

1 On 28 June 2024, the Company announced a restructure and strategic review of its operations, moving from a “House of Brands” to a “Branded House Strategy” operating as AVADA Traffic. This restructure will result in the simplification of the operating structure with a number of operational positions becoming redundant as part of the transition along with the trading brands of each existing business. In recognition of this, the value of Brands have been written off as at 30 June 2024 and reflected in the reported financial results.

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

21. Other intangible assets (cont'd)

MOVEMENTS IN CARRYING AMOUNTS

Year ended 30/06/2024	Note	Customer lists \$'000	Brands \$'000	Total \$'000
At 1 July 2023		23,471	3,181	26,652
Additions from acquisition of subsidiary	31	1,992	448	2,440
Exchange differences		(17)	2	(15)
Amortisation for the year		(3,869)	–	(3,869)
Write-off for the year	9	–	(3,631)	(3,631)

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority. The Group intends to settle its current tax assets and liabilities on a net basis.

Included in the net deferred tax liability total is \$937,615 relating to the Group's New Zealand operations, which cannot be offset against deferred tax assets and liabilities of the Group's Australian operations.

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

23. Trade and other payables

	Year ended 30/06/2024 \$'000	Year ended 30/06/2023 \$'000
Trade payables	3,937	4,069
Accrued expenses	4,402	4,021
GST payable	3,354	3,737
Employee related payables	5,323	4,401
Other payables	777	2,075
	17,793	18,303

Trade payables and accruals principally comprise amounts outstanding for trade purchases and ongoing costs. The typical credit period taken for trade purchases is between 7 – 30 days. For most suppliers no interest is charged on the trade payables. The Group has financial risk management policies in place to ensure that all payables are paid within the pre-agreed credit terms.

24. Lease liabilities

MATURITY ANALYSIS

Total borrowings	41,438	41,851

DESCRIPTION OF THE BANKING FACILITIES

The Group has its banking facilities with CBA in Australia and Kiwibank in New Zealand. These facilities include the provision of term facilities, asset finance facilities, and a working capital facility. The Group's financing arrangements in place as at 30 June 2024 are set out below.

Year ended 30 June 2024

Facility	Currency	Facility Limit \$'000	Drawn Amount Current \$'000	Drawn Amount Non-current \$'000	Maturity date
Commonwealth Bank of Australia					
Term Facility ²	AUD	9,500	–	9,500	25 August 2025
Working Capital Loan ²	AUD	17,500	–	17,500	25 August 2025
Asset Finance Facility ³	AUD	5,000	1,107	3,916	Variable ⁴
Asset Finance Facility ³	AUD	3,257	961	2,296	23 August 2027
Overdraft Facility ³	AUD	2,500	–	–	
Bank Guarantees ³	AUD	546	–	546	Variable ⁵
Corporate Credit Cards ³	AUD	250	67	–	
Kiwibank (New Zealand)					
Term Facility ⁶	NZD	4,000	746	2,527	5 May 2028
Asset Finance Facility ⁶	NZD	3,400	521	2,270	5 May 2028
Overdraft Facility ⁶	NZD	1,000	–	–	5 May 2028
Corporate Credit Cards ⁶	NZD	50	25	–	5 May 2028

2 The term facility and working capital loan have a three-year term. The Group has received Credit Approved Terms to extend the maturity date to 22 August 2026.

3 The undrawn portion of the facility is annually reviewed and renewed in July each year. The Group has received Credit Approved Terms to extend the maturity date to 22 August 2026.

4 The drawn amount is comprised of asset financing arrangements with maturity dates to 27 June 2029.

5 The drawn amount is comprised of bank guarantee arrangements with maturity dates to 1 May 2033. No liability was recognised by the parent entity or the Group in relation to these guarantees.

6 The undrawn portion of the facility is available until the loan maturity date.

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

25. Borrowings (cont'd)

Year ended 30 June 2023

2 The term facility and working capital loan have a three-year term.

3 The undrawn portion of the facility is annually reviewed and renewed in July each year.

4 The drawn amount is comprised of asset financing arrangements with maturity dates to 28 April 2028.

5 The drawn amount is comprised of bank guarantee arrangements with maturity dates to 1 May 2033. No liability was recognised by the parent entity or the Group in relation to these guarantees.

6 The undrawn portion of the facility is available until the loan maturity date.

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

25. Borrowings (cont'd)

The key terms of the banking facilities are:

Commonwealth Bank of Australia

- The term facility can be used for financing acquisitions and earn-out payments. Interest is payable monthly with principal payable at maturity. Interest is charged at 1.60% above the base rate (referencing 90-day BBSY rate). The facility has an establishment fee of 0.75% of the facility limit and a line fee of 1.6%. Security is provided in the form of a first ranking general security interest from each obligor in respect of each of their present and after acquired property.
- The asset finance facility can be used to fund motor vehicle acquisitions or leases. Interest and principal is payable on a per contract basis. Additionally, the facilities have an establishment fee of 0.75% of the facility limit, payable at financial close. The terms relating to the undrawn portion of the facilities are reviewed annually. Security is provided over each asset acquired under the facility.
- The overdraft facility can be used to fund working capital. Interest is charged quarterly at the Lender's Overdraft Index Rate minus a margin of 3.68%. The facility has an establishment fee of 0.75% of the facility limit, payable at financial close and a line fee of 0.75%. The term is reviewed annually. Security is provided in the form of a first ranking general security interest from each obligor in respect of each of their present and after acquired property.
- The working capital loan facility can be used to fund working capital and for funding the acquisition of any other Permitted Acquisition as agreed by the Lender from time to time. The facility has a line fee of 1.4% and interest is charged monthly. Drawdown and repayment is subject to monthly assessment of Total Eligible Receivables as defined in the facility agreement. The term is renewable every 3 years.

Bank covenants

The Group was compliant with its loan covenants at 30 June 2024.

Loan covenants are assessed on a rolling 12-month basis every six months and are:

- Net leverage ratio — no more than 2.5 times; and
- Debt service cover ratio — more than 2.5 times.

Kiwibank (New Zealand)

- The term facility can be used for financing of acquisitions and earn-out payments. Principal and interest is payable monthly. Interest is charged at 1.10% below the Lender's base rate. The facility has an establishment fee of NZ\$0.05m. Security is provided in the form of a first ranking general security interest from each obligor in respect of each of their present and after acquired property.
- The overdraft facility can be used to fund working capital. Interest is charged monthly at the Lender's Overdraft Base Rate minus a margin of 1.50%. The facility has a shared establishment fee with the term facility and a line fee of 0.1% per month on the overdraft facility amount. Security is provided in the form of a first ranking general security interest from each obligor in respect of each of their present and after acquired property.
- The asset finance facilities can be used to fund motor vehicle acquisitions or leases. Principal and interest is payable monthly at the floating interest rate which is 9% at 30 June 2024. Security is provided over each asset acquired under the facility.

Bank covenants

The Group passed the covenants requirements for Kiwibank as at 30 June 2024. The following criteria were used in assessing the covenants requirements:

The loan covenants are assessed quarterly on a rolling 12-month basis and at 30 June 2024 are:

- Funding cost cover ratio — not less than 2.5 times;
- Debt service cover ratio — 1.0 times; and
- Equity ratio — not less than 30% (tested annually on the 30th June 2024).

27. Other financial liabilities

	Year ended 30/06/2024 \$'000	Year ended 30/06/2023 \$'000
Current		
Fixed retention — Wilsons TM	1,178	1,073
Contingent consideration — Wilsons TM	–	2,146
Contingent consideration — Wilsons TM	–	742
Contingent consideration — Verifact Traffic Control	–	3,007
Contingent consideration — STA Traffic Management	551	–
	1,729	6,968
Non-Current		
Contingent consideration — Wilsons TM	143	2,044
	143	2,044
Total other financial liabilities	1,872	9,012

WILSONS TM

Retention and contingent consideration were payable on the acquisition of Wilsons TM. A portion of retention represents a deferred payment consideration with no attached conditions. Another portion of retention is contingent as described below. At acquisition, both retention and contingent consideration have been discounted using a post-tax IRR of 17.5%, which was determined to be Wilsons TM's weighted average cost of capital (WACC).

Under the retention arrangement, a fixed amount of NZD \$1,372,150 with a net present value of AUD \$1,177,776 at 30 June 2024 was payable shortly after 12 months from the acquisition completion date.

Under the contingent consideration arrangement, an amount of NZD \$216,058 with a net present value of AUD \$143,217 at 30 June 2024 has been estimated to be payable 13 months from year end. The contingent consideration payable has been determined by using a predetermined earn-out multiple that has been applied to the surplus of a predetermined EBITDA threshold, with a probability factor applied. The contingent consideration applies to year 1 and year 2. Year 1 has now passed and the contingent consideration thresholds were not met.

A gain of \$4,648,763 has been recognised in the current financial year as a result of a reduction in the estimated consideration payable.

At each reporting date the estimated consideration is revalued to reflect its fair value.

STA TRAFFIC MANAGEMENT

Contingent consideration is payable on the acquisition of STA Traffic Management Pty Ltd. At acquisition, contingent consideration has been discounted using a post-tax IRR of 16.5%, which was determined to be STA Traffic Management Pty Ltd's weighted average cost of capital (WACC).

Under the first contingent arrangement, consideration may be payable after 12 months of trading. The value of payable is determined by using a predetermined earn-out multiple that is applied to the surplus of a predetermined EBITDA threshold to a maximum amount of \$884,000.

Under the second contingent consideration arrangement, consideration may be payable after 12 months of trading if a second higher predetermined EBITDA threshold is met. The value of contingent consideration payable is determined using a predetermined Earn-Out multiple that is applied to the surplus of this second higher predetermined EBITDA. There is no cap in respect of the second contingent consideration.

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

27. Other financial liabilities (cont'd)

At the acquisition date, probabilities of achieving EBITDA targets were applied to both contingent considerations. Estimated earn-out payables of \$354,000 and \$262,000 with probability weighted net present values of \$289,000 and \$215,000 were derived for the first and second arrangements as depicted in note 31.

At 30 June 2024, revised probabilities of achieving EBITDA targets were applied to both contingent considerations. Estimated earn-out payables of \$530,000 and \$96,000 with probability weighted net present values of \$468,000 and \$83,000 were derived for the first and second arrangements respectively.

A loss of \$47,225 has been recognised in the financial statements resulting from an increase in the fair value of consideration payable.

At each reporting date, the estimated consideration will be revalued to reflect its fair value.

28. Issues of equity securities

Year ended 30/06/2024	No. of shares	\$'000
Ordinary shares		
Balance at beginning of the year	73,268,358	51,160
Shares issues	11,666,667	7,000
Transaction costs arising on share issues	–	(445)
	84,935,025	57,715

Year ended 30/06/2023	No. of shares	\$'000
Ordinary shares		
Balance at beginning of the period	73,268,358	51,160
	73,268,358	51,160

TERMS AND CONDITIONS OF CONTRIBUTED EQUITY

Ordinary shares

Ordinary shares have the right to receive dividends as declared and, in the event of winding up the Company, to participate in the proceeds from the sale of surplus assets in proportion to the number of shares held.

Each Shareholder present has one vote and on a poll, one vote for each fully paid share held and for each partly paid Share, a fraction of a vote equivalent to the proportion to which the share has been paid up. Voting may be in person or by proxy, attorney, or representative.

Year ended 30/06/2024	Share based payments reserve \$'000	Acquisition reserve \$'000	Foreign Currency Translation Reserve \$'000
At 1 July 2023	3,700	10,175	3
Exchange differences on translation of foreign operations	–	–	(54)
At 30 June 2024	3,700	10,175	(51)

Year ended 30/06/2023	Share based payments reserve \$'000	Acquisition reserve \$'000	Foreign Currency Translation Reserve \$'000
At 1 July 2022	3,700	10,175	–
Exchange differences on translation of foreign operations	–	–	3
At 30 June 2023	3,700	10,175	3

DETAILS OF RESERVES

Share-based payment reserve

The share-based payment reserve arose as a result of shares issued to Directors, managers and advisors for their services in the IPO listing in lieu of cash payment. A portion of these shares remain in escrow as at 30 June 2024.

As the given value of the services could not be reliably measured, the fair value of the equity issued at valuation date, was used to value the share-based payment after applying management's assessment of the probability of the outcome of the IPO.

Acquisition reserve

The acquisition reserve arose as a result of the acquisition of subsidiaries during the prior period and comprises the difference between the consideration the vendors paid for 563 shares (prior to the share split) in the Company prior to IPO and the fair value of the shares at the date of listing of the Company.

Foreign currency translation reserve

Exchange differences arising on translation of the foreign controlled entity are recognised in other comprehensive income and accumulated in foreign currency translation reserve within equity. The cumulative amount is reclassified to profit or loss when the net investment is disposed of.

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

30. Dividends

DETAILS OF DIVIDENDS

No final or interim fully franked or unfranked dividend was paid during the year ended 30 June 2024 (2023: NIL).

PROPOSED DIVIDENDS

There are no dividends proposed to be paid as at the date of this report.

FRANKING CREDITS

The franking account balance available to the shareholders of the Company at year-end is \$8,720,348 (2023 \$8,407,791).

31. Acquisition of subsidiaries

DETAILS OF ACQUISITIONS

During the year, the Company was a party to a business combination:

Pursuant to an agreement signed by the Company on 23 October 2023, the Company agreed to acquire the business and assets of STA Traffic Management Pty Ltd effective 23 October 2023 by way of a cash payment. The agreement also contained an “earn-out” component based on trading performance for the 12-months post completion of the acquisition subject to certain performance hurdles being met.

CONSIDERATION TRANSFERRED

	STA Traffic Management Pty Ltd \$'000
Cash consideration	7,603
First contingent consideration ¹	289
Second contingent consideration ¹	215
Total consideration transferred	8,107

1 Refer Note 27 for details of contingent consideration.

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

31. Acquisition of subsidiaries (cont'd)

ASSETS ACQUIRED AND LIABILITIES ASSUMED AT THE DATE OF ACQUISITION

The amounts recognised in respect of the identifiable assets acquired and liabilities assumed at the date of acquisition are as follows:

Assets	Note	Year ended 30/06/2024 \$'000
Current assets		
Cash and cash equivalents		–
Total current assets		–
Non-current assets		
Property, plant and equipment	18	4,347
Other intangible assets	21	2,440
Total non-current assets		6,787
Total assets		6,787
Current liabilities		
Trade and other payables		–
Provisions	26	71
Total current liabilities		71
Non-current liabilities		
Provisions	26	49
Deferred tax liabilities		696
Total non-current liabilities		745
Total liabilities		816
Net assets		5,971

The initial accounting for the acquisition has been provisionally determined at the end of the year. At the date of completion of the year-end financial report, the necessary market valuations and related tax calculations along with the determination of the consideration paid and the fair value of the identifiable assets acquired and liabilities assumed has been formalised. The Company has performed a final assessment to finalise the necessary market valuations and other calculations along with the fair value of the plant and equipment, associated deferred tax liabilities, as well as intangible assets and goodwill.

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

31. Acquisition of subsidiaries (cont'd)

	Total \$'000
Goodwill arising on acquisition	
Purchase price consideration	8,107
Less: Total of identifiable net assets acquired	(5,971)
Goodwill arising on acquisition	2,136

The Goodwill is attributable to workforce, business processes and know-how and synergies on combination of the Group. These assets could not be separately recognised from goodwill because they are not capable of being separated from the Group and sold, transferred, licensed, rented, or exchanged, either individually or together with any related contracts. Customer lists and brand names which are separately identifiable are accounted for as intangible assets.

NET CASH OUTFLOW ARISING ON ACQUISITION

	Total \$'000
Cash consideration	7,603
	7,603

IMPACT OF THE ACQUISITIONS ON THE RESULTS OF THE GROUP

Included in the profit before tax for year-ended 30 June 2024 is \$521,618 attributable to STA Traffic Management Pty Ltd. Revenue for the year-ended 30 June 2024 includes \$15,261,649 in respect of STA Traffic Management Pty Ltd.

Had the acquisition of STA Traffic Management Pty Ltd been effected at 1 July 2023, the revenue of the Group for the 12 months ended 30 June 2024 would have been \$20,067,000 and the profit before tax for the year would have been \$555,000. The directors of the Group consider these 'pro-forma' numbers to represent an approximate measure of the performance of the combined Group on a yearly basis and to provide a reference point for comparison in future year-ended.

Notes to the Consolidated Financial Statements

32. Notes to the cash flow statement (cont'd)

CHANGES IN LIABILITIES ARISING FROM FINANCING ACTIVITIES

The table below details changes in the Group's liabilities arising from financing activities, including both cash and non-cash changes. Liabilities arising from financing activities are those for which cash flows were, or future cash flows will be, classified in the Group's consolidated cash flow statement as cash flows from financing activities.

	Non-cash changes					30 June 2024 \$'000
	1 July 2023 \$'000	Financing & Investing cash flows ¹ \$'000	Acquisition of subsidiaries \$'000	New lease commitments \$'000	Remeasurements \$'000	
Bank loan	29,871	774	–	–	(42)	30,603
Chattel mortgage	11,980	(1,106)	–	–	(39)	10,835
Lease liabilities	4,810	(1,360)	–	2,957	(14)	6,393
Contingent consideration ²	9,012	(3,006)	1,438	–	(5,459)	1,985
Total liabilities from financing activities	55,673	(4,698)	1,438	2,957	(5,554)	49,816

	Non-cash changes					30 June 2023 \$'000
	1 July 2022 \$'000	Financing & Investing cash flows ¹ \$'000	Acquisition of subsidiaries \$'000	New lease commitments \$'000	Remeasurements \$'000	
Related entity loans acquired on acquisition	1,250	(1,250)	–	–	–	–
Bank loan	5,000	24,871	–	–	(42)	29,871
Chattel mortgage	2,538	(1,106)	–	–	(39)	11,980
Lease liabilities	4,232	(1,162)	1,616	1,578	(1,454)	4,810
Contingent consideration ²	1,210	–	5,953	–	1,849	9,012
Total liabilities from financing activities	14,230	31,901	1,438	2,957	(5,554)	55,673

1 Cash flows from bank loans, loans from related parties and other borrowings make up the net amount of proceeds from borrowings and repayments of borrowings in the cash flow statement and repayment for contingent consideration.

2 Refer to note 27 for further details.

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

33. Key management personnel

	Year ended 30/06/2024 \$'000	Year ended 30/06/2023 \$'000
Short-term employee benefits	1,332,927	1,119,148
Post-employment benefits	120,600	93,848
Long-term benefits	1,034	37,455
Termination Pay	257,992	–
	1,712,553	1,250,451

The term 'key management personnel' (KMP) refers to those persons having authority and responsibility for planning, directing and controlling the activities of the Group, directly or indirectly, including any Director (whether executive or otherwise) of the Group.

Short-term employee benefits

These amounts include salaries, fees, cash bonuses and fringe benefits paid to KMP including executive and non-executive Directors.

Post-employment benefits

These amounts include the cost of superannuation contributions made during the year.

Long-term benefits

These amounts represent long service leave and long-term annual leave benefits accruing during the year.

BONUSES AND SHARE-BASED PAYMENTS GRANTED AS COMPENSATION FOR THE CURRENT FINANCIAL YEAR

The STI Program was tested at the end of the financial year ended 30 June 2024, with a portion eligible for payment. This amount is \$66,219 (2023: nil).

Share-based payments

No shares were issued to employees or Directors during the current year.

As disclosed in the remuneration report, a portion of shares issued in financial year ended 30 June 2022 to directors as share-based payments which are subject to escrow have been extended until 4 September 2024. No vesting conditions are attached to the shares.

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

34. Fair value of financial instruments

This note provides information about how the Group determines fair values of various financial assets and financial liabilities.

FAIR VALUE OF THE GROUP'S FINANCIAL ASSETS AND FINANCIAL LIABILITIES THAT ARE MEASURED AT FAIR VALUE ON A RECURRING BASIS

Some of the Group's financial assets and financial liabilities are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these financial assets and financial liabilities are determined (in particular, the valuation technique(s) and inputs used).

Financial liabilities	Fair value as at 30/06/2024	Fair value hierarchy	Valuation technique(s) and key input(s)	Significant unobservable inputs	Relationship of unobservable inputs to fair value
Contingent consideration — STA Traffic Management	Liabilities (FVTPL) — \$468	Level 3	Present Value of expected future cash outflow	Forecast EBITDA	Liability capped at \$884,000. An increase in the forecast profits used in isolation would result no movement in the fair value of the liability.
Contingent consideration — STA Traffic Management	Liabilities (FVTPL) — \$83	Level 3	Present Value of expected future cash outflow	Forecast EBITDA	An increase in the forecast profits used in isolation would result in an increase in the fair value of the liability. (see (i) below).
Contingent consideration — Wilsons TM	Liabilities (FVTPL) — \$143	Level 3	Present Value of expected future cash outflow	Forecast EBITDA	Liability capped at \$3.8m. An increase in the forecast profits used in isolation would result in an increase in the fair value of the liability. (see (ii) below.)

- (i) A 5% increase/decrease in the forecast EBITDA while holding all other variables constant would increase/decrease the carrying amount of the contingent consideration by \$43,000.
- (ii) A 5% increase/decrease in the forecast EBITDA while holding all other variables constant would increase/decrease the carrying amount of the contingent consideration by \$40,000.

The Directors consider that the carrying amounts of all financial assets and financial liabilities recognised in the consolidated financial statements approximate their fair values.

MOVEMENT IN FAIR VALUE OF FINANCIAL INSTRUMENTS

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

35. Financial risk management

The Group's activities expose it to market risk (including interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management strategy seeks to minimise any adverse effects from the unpredictability of financial markets on the Group's financial performance.

The Board of Directors is responsible for setting the objectives and underlying principles of financial risk management for the Group. The Audit and Risk Management Committee ("ARMC") then establishes the detailed policies such as authority levels, oversight responsibilities, risk identification and measurement, exposure limits and hedging strategies, in accordance with the objectives and underlying principles approved by the Board of Directors. Financial risk management is carried out by the finance function in accordance with the policies set by the ARMC.

INTEREST RATE RISK

The Group's main exposure to interest rate risk is long-term borrowings. Interest rate risk is the risk that the fair value or future cash flows of a financial asset or financial liability will change as a result of changes in market interest rates. The Group is exposed to interest rate risk through its Banking Facilities, which include floating rate facilities. The Group is exposed to interest rate risk because entities in the Group borrow funds at both fixed and floating interest rates.

Interest rate risk management

The risk is managed by the Group by maintaining an appropriate mix between fixed and floating rate borrowings.

The Group's exposures to interest rates on financial assets and financial liabilities are detailed in the liquidity risk management section of this note. The Group is exposed to BBSY in respect of interest rate benchmarks for borrowings. The Group does not currently have any hedging activities or interest rate swaps implemented.

Interest rate sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to interest rates for both derivatives and non-derivative instruments at the reporting date. For floating rate liabilities, the analysis is prepared assuming the amount of liability outstanding at the reporting date was outstanding for the whole year. A one per cent increase or decrease is used when reporting interest rate risk internally to key management personnel and represents the Director's assessment of the reasonably possible change in interest rates.

If interest rates had been five per cent higher and all other variables were held constant, the Group's profit for the full year ended 30 June 2024 would decrease by \$1,576,413. This is mainly attributable to the Group's exposure to interest rates on its variable rate borrowings.

LIQUIDITY RISK

Liquidity risk is the risk that the Group will not have sufficient funds to meet its financial commitments as and when they fall due.

Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the Board of Directors, which has established an appropriate liquidity risk management framework for management of the Group's short, medium and long-term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities. Details of additional undrawn facilities that the Group has at its disposal to further reduce liquidity risk are set out below.

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

35. Financial risk management (cont'd)

CREDIT RISK

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group is exposed to counterparty credit risk arising from its operating activities, primarily from trade receivables.

Credit risk management

Exposure to credit risk relating to financial assets arises from the potential non-performance by counterparties of contract obligations that could lead to a financial loss to the Group. Credit risk is managed through the maintenance of procedures such as the utilisation of systems for the approval, granting and renewal of credit limits, regular monitoring of exposures against such limits and monitoring of the financial stability of significant customers and counterparties; ensuring to the extent possible that customers and counterparties to transactions are of sound credit worthiness. Such monitoring is used in assessing receivables for impairment.

Where the Group is unable to ascertain a satisfactory credit risk profile in relation to a customer or counterparty, these customers may be required to pay upfront, or the risk may be further managed through obtaining security by way of personal or commercial guarantees over assets of sufficient value which can be claimed against in the event of any default.

The maximum exposure to credit risk at the end of the reporting period is equivalent to the carrying amount of trade receivables and cash and cash equivalents. The Group does not consider there to be any significant concentration of credit risk with any single or group of customers.

36. Related party balances or transactions

The Company's main related parties are as follows:

Entities exercising control over the Group

The ultimate parent entity that exercises control over the Group is AVADA Group Limited, which is incorporated in Australia.

Key management personnel

Any persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any Director (whether executive or otherwise) of that entity, are considered Key Management Personnel. For details of disclosures relating to Key Management Personnel, refer to note 33.

Other related parties

Other related parties include entities controlled by the ultimate parent entity and entities over which Key Management Personnel have joint control.

Joint venture accounted for under the equity method

The Group has a 49% interest in Bilingarra Indigenous Services Pty Ltd. The interest in the joint venture is accounted for under the equity method of accounting. Refer to note 17 for details of the joint venture.

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

36. Related party balances or transactions (cont'd)

TRADING TRANSACTIONS

Balances and transactions between the Company and its subsidiaries, which are related parties, have been eliminated on consolidation and are not disclosed in this note.

Transactions between related parties are on normal commercial terms and conditions no more favourable than those available to other parties unless otherwise stated.

During the year, Group entities entered into the following transactions with related parties who are not members of the Group:

Year ended 30/06/2024

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

38. Parent entity information

The financial information for the parent entity, AVADA Group Limited, has been prepared on the same basis as the consolidated financial statements except as disclosed below.

Investments in subsidiaries

Investments in subsidiaries entities are accounted for at cost.

Tax consolidation

The Company and its Australian subsidiaries have formed a Tax Consolidated Group. Consequently, all members of the Tax Consolidated Group will be taxed as a single entity and the consolidated financial statements have been prepared on the basis that this has occurred.

The head entity within the Tax Consolidated Group is AVADA Group Limited.

Amounts payable or receivable under the tax-funding arrangement between the Company and the entities in the Tax Consolidated Group will be determined using a separate taxpayer within the Group's approach to determine the tax contribution amounts payable or receivable by each member of the Tax Consolidated Group. This approach results in the tax effect of transactions being recognised in the legal entity where that transaction occurred but does not tax effect transactions that have no tax consequences to the Group. The same basis will be used for tax allocation within the Tax Consolidated Group.

DEED OF CROSS GUARANTEE

On 16 June 2023 AVADA Group Limited and Verifact Traffic Pty Ltd became parties to a deed of cross guarantee under which each company guarantees the debts of the others. By entering into the deed, Verifact Traffic Pty Ltd has been relieved from the requirement to prepare a financial report and Directors' report under ASIC Corporations (Wholly-owned Companies) Instrument 2016/785.

The companies above represent a 'closed group' for the purposes of the instrument, and as there are no other parties to the deed of cross guarantee that are controlled by AVADA Group Limited, they also represent the 'extended closed group'.

Set out below is a consolidated statement of profit or loss and other comprehensive income of the closed group consisting of AVADA Group Limited and Verifact Traffic Pty Ltd.

	Year ended 30/06/2024 \$'000	Year ended 30/06/2023 \$'000

Notes to the Consolidated Financial Statements

FOR THE FULL YEAR ENDED 30 JUNE 2024

40. Events occurring after the reporting date

Extension of Commonwealth Bank of Australia Facilities

The Company has received Credit Approved Terms to extend the maturity date for its Term Facility and Working Capital Loan out to 22 August 2026. Included as part of the Credit Approved Terms are amendments to the following covenant calculations:

- Net Leverage Ratio remains at $\leq 2.50x$ for the term of facility to 22 August 2026; and
- Debt Service Coverage Ratio reduces from ≥ 2.50 to $\geq 2.0x$ for the term of the facility to 22 August 2026.

Amendment of Kiwibank Covenants

The Company has received the following amendments to the covenant calculations:

- Waiver of financial undertakings for the period 1 July 2024 to 31 December 2024; and
- Debt Service Cover Ratio to remain not less than 1.0 times until 30 September 2025 and thereafter increasing to 1.5 times; and
- Funding cover ratio remaining at not less than 2.5 times from 1 January 2025; and
- Equity ratio not less than 30% (tested annually on 30th June each year).

NO OTHER MATTERS OR CIRCUMSTANCES

The Directors of the Company are not aware of any other matter or circumstances that have arisen since the end of the financial period which significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial periods.

BASIS OF PREPARATION

This Consolidated Entity Disclosure Statement (CEDS) has been prepared in accordance with the *Corporations Act 2001*. It includes certain information for each entity that was part of the consolidated entity at the end of the financial year.

DETERMINATION OF TAX RESIDENCY

Section 295 (3A) of the *Corporations Act 2001* defines tax residency as having the meaning in the *Income Tax Assessment Act 1997*. The determination of tax residency involves judgment as there are currently several different interpretations that could be adopted, and which could give rise to a different conclusion on residency.

In determining tax residency, the consolidated entity has applied the following interpretations:

AUSTRALIAN TAX RESIDENCY

The consolidated entity has applied current legislation and judicial precedent, including having regard to the Tax Commissioner's public guidance in Tax Ruling TR 2018/5.

NEW ZEALAND TAX RESIDENCY

The consolidated entity has applied New Zealand tax residency rules which state that a company which is incorporated under the New Zealand *Companies Act 1993* is resident in New Zealand.
