About Comet Ridge

Comet Ridge Limited (ASX: COI) is a publicly listed Australian energy company focused on the development of natural gas resources for the strained east coast Australian market. The company has tenement interests and a suite of prospective projects in Queensland and holds one block in NSW with Santos, just north of the main Narrabri project. Our flagship Mahalo Gas Hub project consists of low cost, sales spec natural gas blocks, close to Gladstone, containing very low CO₂ Gas Reserves. Our exploration assets include a large position in the Galilee Basin and offer further upside amid increasing domestic and international demand for natural gas as a source for cleaner energy and as a key manufacturing feedstock that makes thousands of products, used daily.

Comet Ridge plans to transition its Mahalo Gas Hub assets into meaningful gas supply into the east coast gas market. The initial development of the Mahalo JV Gas Project and the Mahalo North block can be further supplemented by sequential development of gas resources from Comet Ridge's other 100% held permits, Mahalo East, Mahalo Far East and Mahalo Far East Extension.
