### Cautionary Statement

This presentation has been prepared by DGR Global Limited ("DGR Global" or "The Company"). By accessing this presentation you acknowledge that you have read and understood the following statement.

#### Forward-looking Statements

This document, including but not limited to all forward looking figures, contain certain forward-looking statements with respect to the financial condition, results of operations and business of DGR Global. The words "intend", "aim", "project", "anticipate", "estimate", "plan", "believes", "expects", "may", "should", "will", "target", "set to" or similar expressions, commonly identify such forward-looking statements. Forward-looking statements involve known and unknown risks, uncertainties, assumptions and other factors set forth in this presentation. In light of the risks, uncertainties and assumptions, actual results could be materially different from projected future results expressed or implied by these forward-looking statements which speak only as to the date of this presentation. Except as required by applicable regulations or by law, DGR Global does not undertake any obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events. The Company cannot guarantee that its forward-looking statements will not differ materially from actual results. In this presentation, all figures are Australian Dollars unless stated otherwise.

#### Disclaimer

Neither this presentation, nor any part thereof, may be distributed, published or reproduced in any form, except as permitted by DGR Global. This presentation contains a number of non-IFRS financial measures. DGR Global management considers these to be key financial and / or commercial performance indicators of the business and they may not defined and/or reconciled in DGR Global's audited financial statements or Annual Report. Reference to external figures or statistics or predictions of growth, commodity demand and pricing, etc are not based on DGR Global's own opinions, estimates or forecasts, and are compiled and published without comment from, or endorsement or verification by, DGR Global. Third party information is referenced to its source. By referencing any third party information, DGR Global does not imply that it endorses, confirms or expresses a view on that information. Any such information is provided for informational purposes only and is not intended to, nor does it, constitute investment advice or any solicitation to buy, hold or sell securities or other financial instruments. No warranty or representation, either express or implied, is made by DGR Global or its affiliates, or their respective directors, officers and employees, in relation to the accuracy, completeness or achievability of the consensus figures and, to the fullest extent permitted by law, no responsibility or liability is accepted by any of those persons in respect of that information.

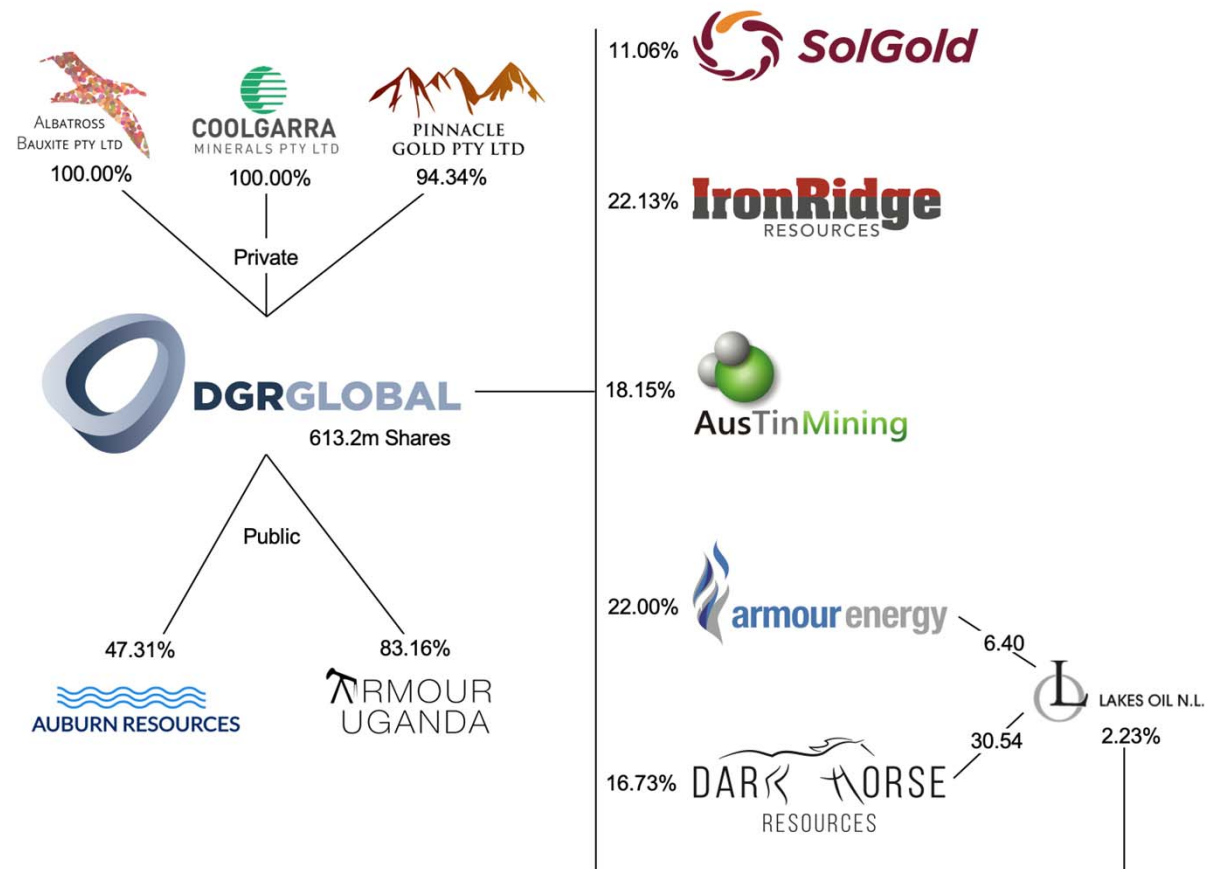

This presentation should read in conjunction with the audited financial statements of DGR Global, and where applicable, its other publicly available information such as market releases and presentations.

DGR Global is **not**  
just another resource company.

DGR Global is  
a resource company **generator**.

## DGR's PORTFOLIO

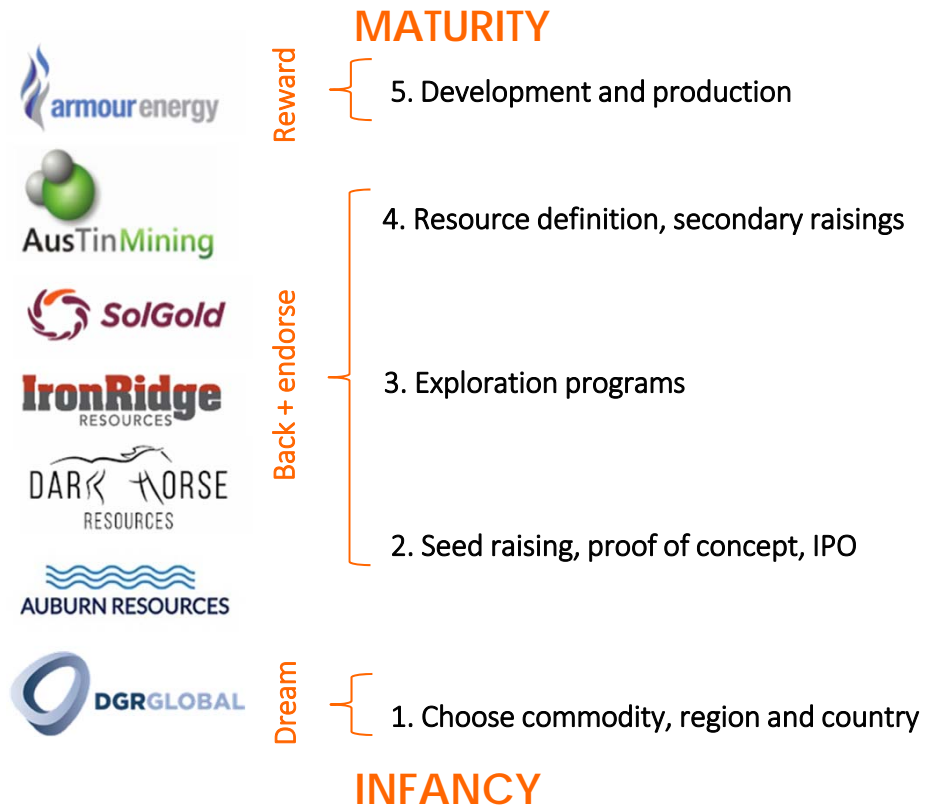

DGR's VALUE EXCEEDS PRICING

## DGR Global Offers One Entry Point for Exposure to...

1. A diverse range of commodities.
2. A diverse range of operational jurisdictions.
3. Multiple financial markets and international exchanges.
4. **Traditional resources** (gold, copper, gas) and **technology-driven resources** (lithium, cobalt, tin).
5. Long-term growth underpinned by forecast commodity demands.
6. Underlying projects ranging from infancy to maturity.
7. Ongoing project and resource company generation.
8. Market and financial due diligence of project selection and advancement.
9. Track record (Nick Mather has had 9 companies taken-over and counting.....).
10. Co-investment with Tribeca Investment Partners.

## A CONTINUAL PIPELINE FROM IDEAS TO CASH

## Commodity Diversity

**Copper**  
SolGold, Auburn

**Lithium**  
Dark Horse,  
IronRidge, Aus Tin

**Oil**  
Armour, DGR (Uganda)

**Cobalt**  
Aus Tin, Auburn,  
Coolgarra (DGR)

**Zinc**  
Auburn, Ripple  
(Armour)

**Bauxite**  
IronRidge,  
Albatross  
(DGR)

**Gas**  
Armour  
(Lakes)

**Gold**  
SolGold, IronRidge & Dark  
Horse, Auburn,  
Coolgarra, Pinnacle (DGR)

**Iron Ore**  
IronRidge

**Tin**  
Aus Tin

**Nickel**  
Auburn, Aus Tin,  
Coolgarra (DGR)

**Molybdenum**  
Auburn

## DGR's PORTFOLIO

## GROWTH, URBANISATION & ELECTRIFICATION DRIVES DEMAND FOR RESOURCES

- By 2030 the world's population will be 8.6 billion, and by 2050 it will be 9.8 billion.
- Life expectancy continues to increase, and populations are ageing.
- Population is driving urbanisation and demand growth.
- Infrastructure requirements for urbanisation continue to underpin the growth in demand for traditional resources (such as copper, gas, iron ore, bauxite, etc) and continuing technological innovations are creating demand for other resources such as lithium, cobalt, tin, etc.
- Global energy demand will continue to underpin demand for oil and gas and battery metals, notwithstanding the emergence and growth of renewables.

## Global Trends to 2050

- **United Nations** – World population estimated to be 9.8 billion.
- **United Nations** – Double the number of people aged 60+ years.
- **United Nations** – Increasing life expectancies, particularly in emerging economies.
- **PWC** – 6 of the 7 largest economies are expected to be emerging countries.
- **PWC** – 32 economies will account for 85% of global GDP.
- **Common Themes:**
  - Infrastructure
  - Building / housing construction
  - Growth sustainability
  - Increased living standards
  - Healthcare
  - Energy
  - Electrification
  - Ageing population

## Macro Level Issues to 2050

- **United Nations** – India more populous than China by 2022.
- **BHP** – Mass market EV's to gain traction in the second half of the 2020's.
- **United Nations** – World Population 8.6 Billion estimated by 2030.
- **PWC** – By 2040 the E7 economies may be double the size of the G7 economies.
- **BP** – By 2040 over 2.5 Billion people will be lifted from low incomes.
- **BP** – In the lead-up to 2040 renewables & gas are the growth energy sources.
- **The Economist** – Continued growth of Asian economy towards 50% of the World economy by 2050.

## Micro Level Issues to 2050

- Every person currently consumes 16kgs of extracted resources **every day**.
- In the Western World, this number is 57kgs per person!
- Every day items: Phone (42 minerals), TV (35 minerals), Computer (30 minerals).
- Currently, a newborn infant will require in their lifetime:
  - 360kgs of Lead
  - 14,800 kgs of Iron
  - 340 kgs of Zinc
  - 560,000 kgs of Industrials
  - 680 kgs of Copper
  - ??? kgs Technology Minerals
- These numbers are increasing!

## Everything Points to Energy

**World energy consumption**  
quadrillion Btu

**World energy consumption**  
quadrillion Btu

**World energy consumption by fuel**  
quadrillion Btu

## Everything Points to Energy

### Energy Generation Fuels

### Energy Transmission

### Energy Storage & Technologies

## Energy Generation Fuels

- Listed on ASX (**AJQ**).
- Kincora Project and all infrastructure acquired in 2015 and production re-started in late 2017.
- Currently selling all gas, LPG, Oil and Condensates produced.
- Kincora Project includes over 2,000km<sup>2</sup> of exploration acreage, with significant upside.
- Northern Australian projects include over 133,000km<sup>2</sup> exploration acreage and established resources.
- Exposure (17%) to Armour Uganda's Oil Project.
- Forecasts for gas as an energy source remain strong through to 2040.

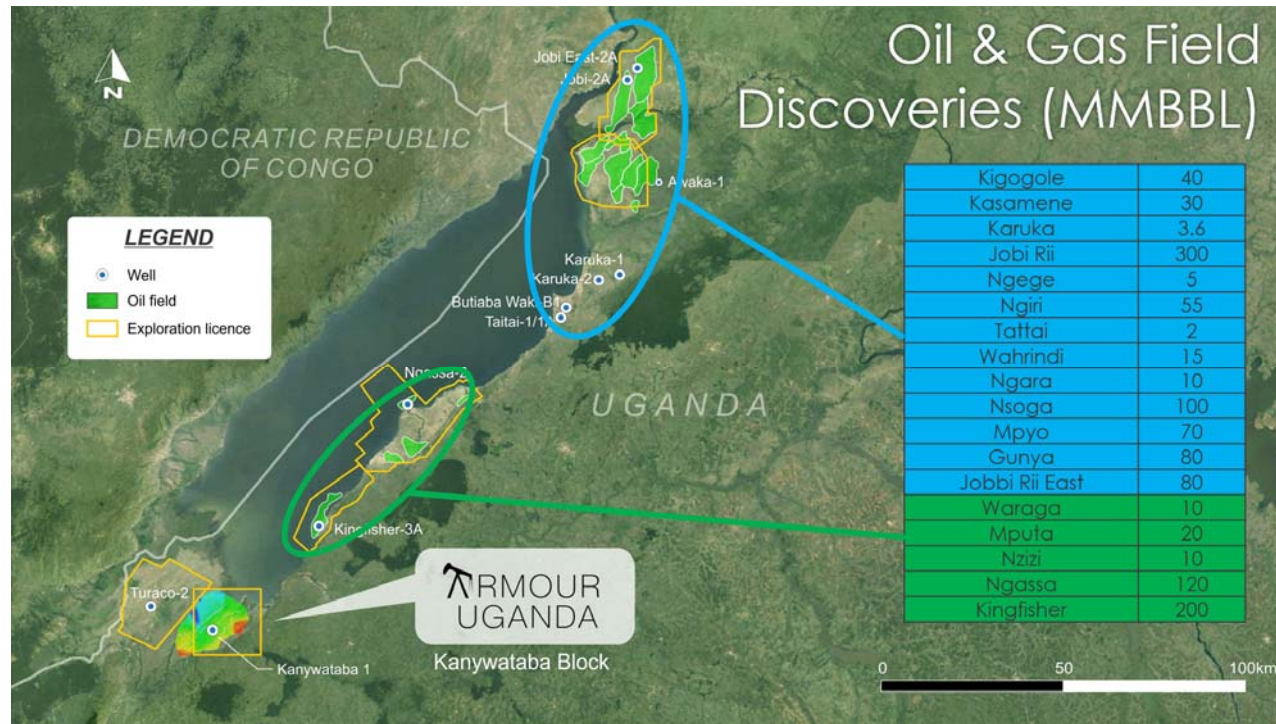

## Energy Generation Fuels

- Unlisted company.
- World Bank describes Uganda as the “latest hotspot” for oil exploration and production.
- No restrictions on foreign ownership.
- Oil majors Tullow, CNOOC, and Total currently in residence.
- Oil pipeline in construction from Uganda to the coast of Tanzania.
- USD4 Billion Oil Refinery to be constructed in Uganda.
- Work program underway.

## Energy Generation Fuels

### Highly Prospective

- Rift Basin
- Multi-stacked play

### Current Program

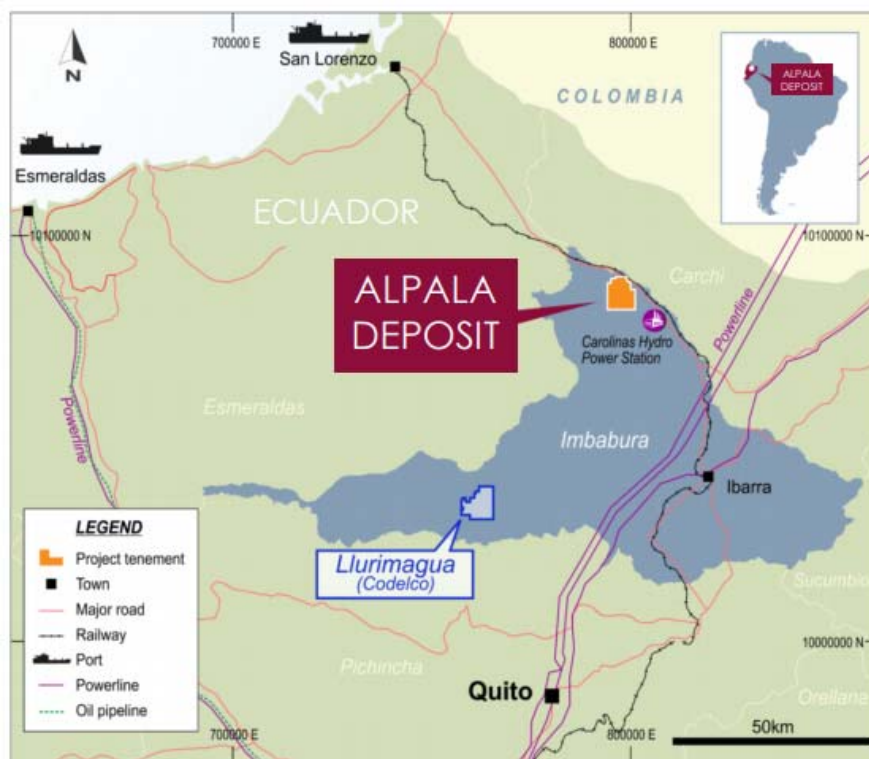

- Surface sampling
- Seismic survey
- Data processing
- Basin study

### Next Steps

- Capital raisings and stock market listing
- 2020 – first well to be drilled

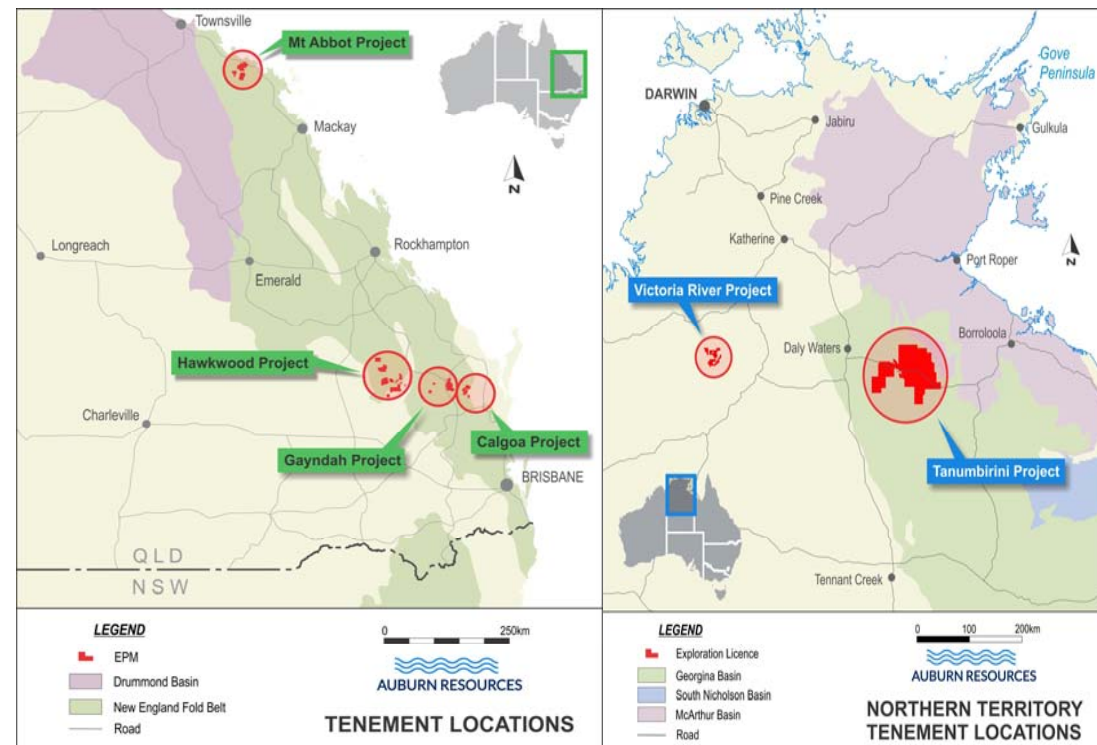

## Energy Transmission

- Listed on LSE and TSX (**SOLG** on both).
- Flagship Cascabel copper-gold porphyry project in Northern Ecuador.
- Preliminary Economic Assessment released, and PFS now underway with delivery expected by the end of 2019.
- Largest explorer and concession holder in Ecuador, with 72 additional tenements featuring (to date) 12 priority targets awaiting initial drilling.
- Newcrest, BHP, and DGR Global are major shareholders in SolGold.
- Cascabel Project well located to enjoy significant infrastructure advantages.

## Energy Transmission

- Unlisted public company.
- Auburn Resources is focused on the discovery and development of **copper, gold, nickel, cobalt**, silver, lead and zinc deposits in Eastern Queensland and the Northern Territory.
- The company holds a portfolio of 4 very prospective exploration project areas with huge upside potential in Queensland and the Northern Territory.
- Aiming for ASX listing in 2019.

Within the DGR stable, we have the Top 6 covered...

## Metals most impacted by new technology

Source: Rio Tinto 2017

## Energy Storage & Emerging Technologies

- Listed on LSE:AIM (IRR).
- African-focused explorer with lithium and gold projects across Ghana, Ivory Coast and Chad.
- Major shareholders are DGR Global, Assore Limited and Sumitomo Corporation.
- Fast-tracking resource drilling at the company's Ghana lithium project.
- Maiden hard rock lithium resource expected H2, 2019.
- Well located in Ghana with easy access to great infrastructure.

**IronRidge**  
RESOURCES

DGR OFFERS EXPOSURE TO ENERGY

## Energy Storage & Emerging Technologies

Multiple high voltage power lines adjacent to site

Sealed bitumen road within 1km of deposit and 100km from port

New 800m Dry Bulk jetty with 16m draft under construction

**IronRidge**  
RESOURCES

## Energy Storage & Emerging Technologies

- Listed on ASX (DHR).
- Argentinean-focused explorer with lithium and gold projects.
- Lithium projects both hard rock (San Luis) and salar / brine (San Jorge).
- Extensive coverage of the highly prospective **San Francisco Salar** in a well-regarded and established lithium brine neighbourhood.
- Deal finalisation and initial exploration expected H2, 2019.
- Holds approx 31% of ASX-listed Lakes Oil (LKO).

## Energy Storage & Emerging Technologies

- Listed on ASX (ANW).
- Tin mining operations in NSW and Tasmania.
- Taronga (NSW) is the 5<sup>th</sup> largest underdeveloped tin deposit in the world, with exploration upside within project footprint.
- Taronga Stage 1 due to kick-off with site preparation, etc this month.
- Exploration upside remains around Mt Cobalt in Queensland for **cobalt** and **nickel**, both benefactors - in addition to tin - of the predicted emergence of battery storage and electric vehicles.

\*Based on wide assumptions on market share and adoption of technologies still in R&D

**Potential\* tin use in car batteries**
