**About Genmin**

**Genmin Limited (ASX: GEN)** is an ASX-listed emerging African iron ore producer with a pipeline of projects in the Republic of Gabon, west Central Africa. The Company has a 100% interest in three projects comprising six granted exploration licences and one granted exploitation licence.

Genmin’s flagship Baniaka, and nearby Bakoumba iron ore projects are in south-east Gabon and provide an emerging iron ore hub near the Haut-Ogooué provincial capital city of Franceville. The hub is favourably situated adjacent to existing and operating bulk commodity transport and renewable energy infrastructure, to which Baniaka has secured long term access for commercial operations. The Company has an extensive footprint and controls all acreage prospective for iron ore that hosts 121km of interpreted iron mineralised strike, with only 16% of the mineralisation tested with diamond drilling.

Genmin has additional exploration tenure prospective for iron ore, gold and base metals at its Bitam iron ore project in the north-west of Gabon within the Woleu-Ntem province, near the provincial capital of Oyem.
