NATIVE TITLE MINING AGREEMENT NEGOTIATIONS PROGRESS AT MANNA

Established multi-asset West Australian lithium company Global Lithium Resources Limited (**ASX: GL1**, “**Global Lithium**” or “the **Company**”) is pleased to announce that negotiations are continuing with Kakarra Part B Native Title claim group for a Native Title Mining Agreement for its **100%-owned Manna Lithium Project**, 100km east of Kalgoorlie in Western Australia.

As part of ongoing discussions, Global Lithium recently met with Kakarra Part B, the Native Title claim group for the land underlying the Manna Lithium Project, in Kalgoorlie-Boulder to sign and execute the ‘Working Together Protocol’ document.

Global Lithium is developing a mutually beneficial long-term relationship with Kakarra Part B in relation to the Manna Lithium Project, through open and transparent terms of engagement provided in the ‘Working Together Protocol’. The Protocol sets out key principles for Global Lithium and Kakarra during negotiations.

Global Lithium and Kakarra Part B have agreed to:

- Cooperate and work together in good faith to negotiate the terms of the Manna Lithium Project in consideration of the rights and interests of the Kakarra Part B Native Title Claim Group.
- Reach agreement on developing a Cultural Heritage Management Plan, which will ensure that Aboriginal Cultural Heritage is appropriately managed throughout the life of the Manna Lithium Project.

The two parties endeavour to agree to the terms of the Native Title Mining Agreement, which we anticipate executing by 31 December 2023.

Global Lithium Managing Director, Ron Mitchell commented,

“The growing relationship between Global Lithium and Kakarra Part B is very pleasing for the Company. We are delighted with how negotiations towards the Native Title Mining Agreement are progressing. Under the recently executed Working Together Protocol, Global Lithium is committed to developing a fair, reasonable and mutually beneficial Agreement in partnership with Kakarra Part B. The Company looks forward to strengthening this long-term partnership with the Kakarra people, as Traditional Owners of the land on which we work, through ongoing exploration, development and operation of the Manna Lithium Project.”

The relationship between Global Lithium and Kakarra has developed significantly in 2023, with the Company reaching several milestones at the Manna Lithium Project.

In June, Global Lithium executed a Land Access Agreement for Exploration and Prospecting¹ with Kakarra Part B. The Land Access Agreement set the framework for Global Lithium to conduct Aboriginal heritage surveys to support ongoing exploration and pre-development work (in accordance with existing Exploration Licences) at the Manna Lithium Project.

In April 2023, Global Lithium submitted the Mining Lease application (MLA 28/414) to the Department of Mines, Industry Regulation and Safety (DMIRS) for the Manna Lithium Project². Conclusion of the Native Title Mining Agreement and grant of the Mining Lease are two of the critical agreements required to allow Global Lithium to conduct mining activities within the Kakarra Part B Native Title Claim Area.

¹ ASX Announcement: Land Access Agreement Signed for Manna Lithium Project, 16 June 2023

² ASX Announcement: Mining Lease Application Lodged for Manna Lithium Project, 26 April 2023

Approved by the board of Global Lithium Resources Limited.
