Manna Lithium Project - Native Title Mining Agreement signed with Kakarra Part B Native Title Group

Global Lithium Resources Limited (**ASX: GL1**, “**Global Lithium**” or “the **Company**”), is pleased to announce the successful negotiation and execution of a Native Title Mining Agreement between wholly owned subsidiary GLR Australia Pty Ltd and the Kakarra Part B Native Title Group for GL1’s flagship Manna Lithium Project.

The execution of the Native Title Mining Agreement is a significant milestone for Global Lithium and the Kakarra Part B Native Title Group. It will facilitate the development and ongoing operation of the Manna Lithium Project and will deliver benefits to the Kakarra Part B Native Title Group.

With the Native Title Mining Agreement now in place, GL1 can accelerate the Manna Project’s other priorities with confidence, including work streams and approvals relevant to the optimisation of the Definitive Feasibility Study, and the Mining Lease application over Manna – all on track for milestone completion prior the end of this calendar year.

GL1 Managing Director Dr Dianmin Chen (front left) and Kakarra Traditional Owner Dennis Forrest sign the Native Title Mining Agreement, witnessed by Kakarra Traditional Owner (back left) Elaine Bourne, GL1 Community Relations Manager Nicole Stein and Kakarra Traditional Owner Ethel Rundle.

GL1 Managing Director Dr Dianmin Chen presenting Kakarra Traditional Owner Dennis Forrest with spodumene core from Manna Lithium Project, commemorating the signing of the Native Title Mining Agreement.

During the signing ceremony, GL1 Managing Director Dr Dianmin Chen, on behalf of the Company’s Board, expressed his sincere thanks to the Kakarra Part B Native Title Group leaders and negotiation team who have productively engaged with the GL1, particularly since Global Lithium’s Board renewal.

Dr Chen also noted his gratitude for the conduct of the legal and commercial teams from both parties for their efficient and dedicative work during the negotiations.

“Successfully negotiating a Native Title Mining Agreement that ensures the Kakarra Part B Native Title Holders will benefit from the future development of the Manna Lithium Project, alongside the Company’s shareholders, was a priority for me and my team when taking on the role of Managing Director in February 2025,” Dr Chen said.

Speaking on behalf of the Kakarra Part B Native Title Group, Mr Dennis Forrest said he was pleased to welcome Dr Chen and his team on to our country to celebrate this important milestone in a respectful manner with Traditional Owners and Native Title holders.

“We believe this Native Title Mining Agreement over the Manna Project has the potential to provide lasting benefits to our community, and we look forward to seeing a lithium mine get built there in the near future,” Mr Dennis Forrest said.

The Manna Lithium Project remains the third largest lithium resource in the prolific Eastern Goldfields region, containing a Mineral Resource of 51.6Mt at 1.0% Li₂O¹.
