INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Horizon Gold Limited

Report on the Interim Financial Report

Conclusion

We have reviewed the accompanying interim financial report of Horizon Gold Limited ("the Group") which comprises the condensed consolidated statement of financial position as at 31 December 2021, the condensed consolidated statement of comprehensive income, the condensed consolidated statement of changes in equity and the condensed consolidated statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration, for the consolidated entity comprising the company and the entities it controlled at the half-year end or from time to time during the half-year.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the interim financial report of Horizon Gold Limited does not comply with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the Group's financial position as at 31 December 2021 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's responsibilities for the review of the financial report* section of our report. We are independent of the company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Material uncertainty related to going concern

We draw attention to Note 1(d) in the financial report, which indicates that a material uncertainty exists that may cast significant doubt on the entity's ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

Responsibility of the directors for the financial report

The directors of Horizon Gold Limited are responsible for the preparation of the interim financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the interim financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibility for the review of the financial report

Our responsibility is to express a conclusion on the interim financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the interim financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the consolidated entity's financial position as at 31 December 2021 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a interim financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.

The above consolidated statement of cash flows should be read in conjunction with the accompanying notes.

1 Basis of Preparation of interim financial report

The interim financial report of Horizon Gold Limited (the Company) for the period ended 31 December 2021 was authorised for issue in accordance with a resolution of the Directors on 9 March 2022.

Horizon Gold Limited is a for-profit company limited by shares incorporated and domiciled in Australia whose shares are publicly traded on the Australian Securities Exchange.

The interim financial report does not include all notes of the type normally included within the annual financial report and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the consolidated entity as the annual financial report.

The interim financial report should be read in conjunction with the annual financial report of Horizon Gold Limited as at 30 June 2021.

It is also recommended that the interim financial report be considered together with any public announcements made by Horizon Gold Limited and its controlled entity during the period ended 31 December 2021 in accordance with the continuous disclosure obligations arising under ASX listing rules.

(a) Basis of preparation of interim financial report

The interim financial report is a condensed general purpose financial report, which has been prepared in accordance with the requirements of the Corporations Act 2001 and AASB 134 *Interim Financial Reporting*. The interim financial report has been prepared on a historical cost basis. For the purpose of preparing the interim financial report, the half-year has been treated as a discrete reporting period.

The financial report is presented in Australian dollars and all values are rounded to the nearest thousand dollars (\$'000) unless otherwise stated, under the option available to the Company under Australian Securities and Investment Commission ("ASIC") (Rounding in Financial/Directors' Report) Instrument 2016/191. The Company is an entity to which the instrument applies.

(b) Changes in accounting policies and disclosures

The accounting policies adopted in the preparation of the interim financial report are consistent with those adopted and disclosed in the Group's annual financial report for the year ended 30 June 2021, except for the adoption of new standards and interpretations as of 1 July 2021.

The adoption of any new and revised standards and interpretation effective 1 July 2021 has not resulted in any changes to Group's accounting policies and has no material effect on the amounts reported to the current or prior period.

(c) New or amended Accounting Standards and Interpretations adopted

The Group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

(d) Going concern basis

The Group incurred a net loss for the period ended 31 December 2021 of \$819,000 (2020: \$339,000) and a net cash outflow from operating activities of \$443,000 (2020: \$873,000). As at 31 December 2021, the Group had cash and cash equivalents of \$91,000 (30 June 2021: \$1,273,000).

Based on the Group's cashflow forecast, the Group will require additional funding in the next 12 months to enable the Group to continue its normal business activities and to ensure the realisation of assets and

extinguishment of liabilities as and when they fall due, including progression of its exploration and project development activities and meeting its annual tenement expenditure commitment.

The directors are satisfied that at the date of signing of the financial report, there are reasonable grounds to believe that the Group will be able to raise additional funding and obtain support from the Company's major shareholder to continue to meet its debts as and when they fall due and it is appropriate for the financial statements to be prepared on a going concern basis. The directors also note they have loan receivable at call of \$1,142,000 to assist in cash flow management (see Note 5 Other Assets for details).

Should the Group not achieve the funding outcomes set out above, there is significant uncertainty as to whether the Group will continue as a going concern and therefore whether it will realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial report. No adjustments have been made relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Group not continue as a going concern.

2 Segment information

Description of segments

The Group operates in one segment, being gold exploration. This is the basis on which internal reports are provided to the Directors for assessing performance and determining the allocation of resources within the Group.

The accounting policies applied for internal reporting purposes are consistent with those applied in preparation of the financial statements.

All of the Group's assets are located in Australia and the Group has no major customers as it does not generate any revenue.

As part of the Company's capital management strategy, Horizon agreed to deposit surplus cash funds with Zeta Resources Limited (the Company's ultimate parent, holding 69.5%) as short-term loans. The loans are unsecured, repayable on call by the Company and accrue interest at a rate of 5% per annum. The short-term loans enable the Company to earn a much higher interest rate on these surplus cash funds compared to the interest rate earned on bank term deposits.

6 Non-current assets - Exploration and evaluation

	Consolidated entity	
	31 December	30 June
	2021	2021
	\$'000	\$'000

Closing net book value at the end of the period	29,813	26,118

The carrying value of exploration and evaluation expenditure has increased by \$3,695,000 during the current reporting period due to RC and diamond drilling programs and subsequent resource update work carried out by the Company on various prospects throughout the Gum Creek Gold Project. See further details outlined in the "Exploration and Evaluation Activities" section of the Directors' Report. The ongoing carrying value of the Group's interest in exploration and evaluation expenditure is dependent upon the continuance of the Group's rights to tenure of the areas of interest, results of future exploration and the recoupment of costs through successful development and exploitation of the areas of interest, or alternatively, by their sale.

7 Non-current liabilities - Provisions

	Consolidated entity	
	31 December	30 June
	2021	2021

Unwinding of discount	82	28
Remeasurement of liability	409	(230)
Closing net book value at the end of the period	11,210	10,719

A provision for rehabilitation is recognised in relation to the mining activities for costs such as reclamation, waste site closure, plant closure and other costs associated with the rehabilitation of a mining site. Estimates of the rehabilitation are based on the anticipated technology and legal requirements and future costs, which have been discounted to their present value. In determining the restoration provision, the entity has assumed no significant changes will occur in the relevant Federal and State legislations in relation to rehabilitation of such mines in the future.

Impact from the remeasurement of the rehabilitation liability has been recognised through the profit or loss given that the plant and equipment relating to this provision has been written down to its recoverable value.
