The Group's provision for site reclamation and closure relates to ICO and is for disturbance due to construction activity to date. Once mining activity has been advanced, a provision for legal obligations for environmental remediation, reclamation, and decommissioning at the end of the mine life will be established. The undiscounted cash flows of the disturbance due to construction as at 30 September 2021 were US\$7.727 million or A\$10.739 million. The discount used to determine the present value of the obligation was nil, based on a US Treasury Bond rate of 1.40% and an inflation rate which exceeded the US Treasury Bond rate. Reclamation activities will primarily be initiated at cessation of construction activities; however, some reclamation will happen concurrently where possible on areas no longer required for the mining operation.

The bonds were issued by the Company's wholly owned subsidiary, Jervois Mining USA Limited, and are administered by the bond trustee, Nordic Trustee AS. The coupon rate is 12.5% per annum, with interest payable bi-annually in arrears.

Upon settlement, the proceeds of the bond were deposited into an escrow account, whilst the first year's interest payment of US\$12.5 million was deposited into a debt service account, both pursuant to the terms and conditions of the bond facility. These have been classified as "funds held in escrow" in the statement of financial position. Following the satisfaction of certain pre-disbursement conditions, the proceeds are to be applied towards capital expenditures, operating costs and other costs associated with the construction of ICO and bringing it into production. The bonds have been classified as a current liability in the statement of financial position until satisfaction of the pre-disbursement conditions results in drawdown of the bond proceeds from the escrow account.

The performance rights are subject to the satisfaction of certain vesting conditions relating to the Company's relative total shareholder return and the employee's continued employment with the Company, subject to certain provisions. Total shareholder return measures the growth in the price of the Company's shares as a percentage, factoring in dividends notionally being reinvested in the shares. Relative shareholder return measures the Company's total shareholder return ranking against entities in a particular comparator group at the end of the relevant performance period.

During the period, 1,489,709 performance rights were issued to employees. Nil performance rights were forfeited and nil expired, thus bringing the performance rights over ordinary shares in the Company to 1,489,709 as at 30 September 2021.

19. Business combination

On 1 September 2021, Jervois acquired 100% of Freeport Cobalt by purchasing all the shares of Freeport Cobalt Oy and four affiliated entities (the "Acquired Business") from Koboltti Chemicals Holdings Limited. The acquisition is expected to increase the Group's market share and transform Jervois into a global, vertically integrated cobalt and nickel company of scale.

(i) Acquisition related costs

Acquisition-related costs of A\$6.705 million are included in administrative expenses in profit or loss.

(ii) Contingent consideration

The contingent consideration arrangement requires Jervois to pay up to US\$40 million, payable in cash up to US\$10 million per year based on the Acquired Business's financial performance from 2022 through to 2026, and through a "catch-up" amount based on the Acquired Business's aggregate financial performance during that period.

Contingent consideration payable increases linearly from a payment of US\$0 million if the Acquired Business's EBITDA equals US\$20 million or less to a payment of US\$10 million if the Acquired Business's EBITDA equals more than the agreed target of US\$40 million. The "catch-up" amount is quantified as the difference between (a) the sum of all contingent amounts already payable and (b) the sum that would have been payable if the Acquired Business's aggregate EBITDA over the period (2022 to 2026) were averaged out over the period. This remains subject to the overall maximum contingent consideration payment of US\$40 million.

The fair value of the contingent consideration arrangement of A\$51.301 million was provisionally estimated by calculating the present value of the future expected cash flows. These estimates are based on a risk-free discount rate.

(iii) Identifiable net assets

The fair values of the identifiable net assets acquired have been determined provisionally at 30 September 2021 due to the acquisition being completed late in the period. The Group is currently obtaining the information necessary to finalise its valuation. As a result, these identifiable net assets may need to be subsequently adjusted, with a corresponding adjustment to goodwill, prior to 1 September 2022 (one year after the transaction date). In addition, the acquisition is subject to certain post-closing adjustments.

The fair value of trade and other receivables is A\$40.511 million and includes trade receivables with a fair value of A\$34.992 million. The gross contractual amount for trade receivables due is A\$35.129 million, of which A\$0.137 million has been provided for.

(iv) Revenue and profit contribution

The Acquired Business contributed revenues of A\$33.396 million and net profit after tax of A\$1.344 million to the Group for the period from 1 September 2021 to 30 September 2021. If the acquisition had occurred on 1 January 2021, consolidated revenue and consolidated net profit after tax of the Acquired Business for the period from 1 January 2021 to 30 September 2021 would have been A\$262.262 million and A\$12.587 million, respectively.

20. Related party transactions

Related party disclosure

The Company acquired a related party relationship between prior M2 Cobalt management personnel, Dr. Jennifer Hinton and Mr. Tom Lamb and an external services company Great Rift Geosciences ("Great Rift") via the M2 Cobalt merger. Acquired in September 2019, Jervois used Great Rift to provide Ugandan exploration management services including local administration and in-country management, accounting, payroll and treasury services, offices including a core shed and sample preparation area, employee accommodation, and exploration staffing. Dr. Jennifer Hinton and Mr. Tom Lamb are also principals and co-owners of Great Rift. The commercial arrangements with Great Rift were conducted on arms-length terms. Upon suspension of all exploration activities in Uganda, the relationship with Great Rift was terminated in February 2021. Amounts below represent payments to Great Rift (Canada) and Great Rift (Uganda) at which Dr. Hinton and Mr. Lamb are Directors. Payments made to Great Rift were solely for the in-country services outlined above. No loans have been made to key management personnel as of 30 September 2021.
