

KAISER REEF

EASTERN STATES GOLD MINER

EXPLORATION, DEVELOPMENT, PRODUCTION

IMARC Conference, Sydney, 2025

Disclaimer

This presentation has been prepared by Kaiser Reef Limited “Kaiser” (ASX: KAU). This document contains background information about Kaiser current as at the date of this presentation. The presentation is in summary form and does not purport to be all inclusive or complete. Recipients should conduct their own investigations and perform their own analysis in order to satisfy themselves as to the accuracy and completeness of the information, statements and opinions contained in this presentation.

This presentation is for information purposes only. The presentation does not comprise a prospectus, product disclosure statement or other offering document under Australian law (and will not be lodged with the Australian Securities and Investments Commission) or any other law. The presentation also does not constitute or form part of any invitation, offer for sale or subscription or any solicitation for any offer to buy or subscribe for any securities nor shall they or any part of them form the basis of or be relied upon in connection therewith or act as any inducement to enter into any contract or commitment with respect to securities.

This presentation does not constitute investment advice and has been prepared without taking into account the recipient’s investment objectives, financial circumstances or particular needs and the opinions and recommendations in this presentation are not intended to represent recommendations of particular investments to particular persons. Recipients should seek professional advice when deciding if an investment is appropriate. All securities involve risks which include (among others) the risk of adverse or unanticipated market, financial or political developments.

To the fullest extent permitted by law, Kaiser, its officers, employees, agents and advisors do not make any representation or warranty, express or implied, as to the currency, accuracy, reliability or completeness of any information, statements, opinions, estimates, forecasts or other representations contained in this presentation. No responsibility for any errors or omissions from this presentation arising out of negligence or otherwise are accepted. This presentation may include forward-looking statements. Forward-looking statements are only predictions and are subject to risks, uncertainties and assumptions which are outside the control of Kaiser. Actual values, results or events may be materially different to those expressed or implied in this presentation. Given these uncertainties, recipients are cautioned not to place reliance on forward looking statements. Any forward looking statements in this presentation speak only at the date of issue of this presentation. Subject to any continuing obligations under applicable law, Kaiser does not undertake any obligation to update or revise any information or any of the forward looking statements in this presentation or any changes in events, conditions, or circumstances on which any such forward looking statement is based.

Kaiser's mineral tenements are at various stages of exploration, development, production or in care and maintenance. Mineral exploration, development and production are high-risk undertakings. There can be no assurance that exploration and development will result in the discovery of an economic ore deposit. Even if an apparently viable deposit is identified, there is no guarantee that it can be economically exploited.

This presentation may not be released to US wire services or distributed in the United States. The New Shares have not been, and will not be, registered under the US Securities Act of 1933 and may not be offered or sold in the United States except in transactions exempt from, or not subject to, the registration requirements of the US Securities Act and applicable US state securities laws.

The distribution of this presentation in the United States and elsewhere outside Australia may be restricted by law. Persons who come into possession of this presentation should observe any such restrictions, as any non-compliance could contravene applicable securities laws. Please refer to the section of this document headed “International Offer Restrictions” for more information. By accepting this document, you represent and warrant that you are entitled to receive such presentation in accordance with the above restrictions and agree to be bound by the limitations contained therein.

Investment Highlights

- Building a Gold Mining Company
- Strong and improving production base
 - Henty Gold Mine, bedded in under Kaiser
 - Produced over 8,000oz Au for the first full quarter
- Great Growth Asset
 - Maldon Gold Project in the heart of Victoria's Golden Triangle
 - 1.75M oz Au historically produced from quartz reefs.
- Team and strategy to deliver growth

Company Overview

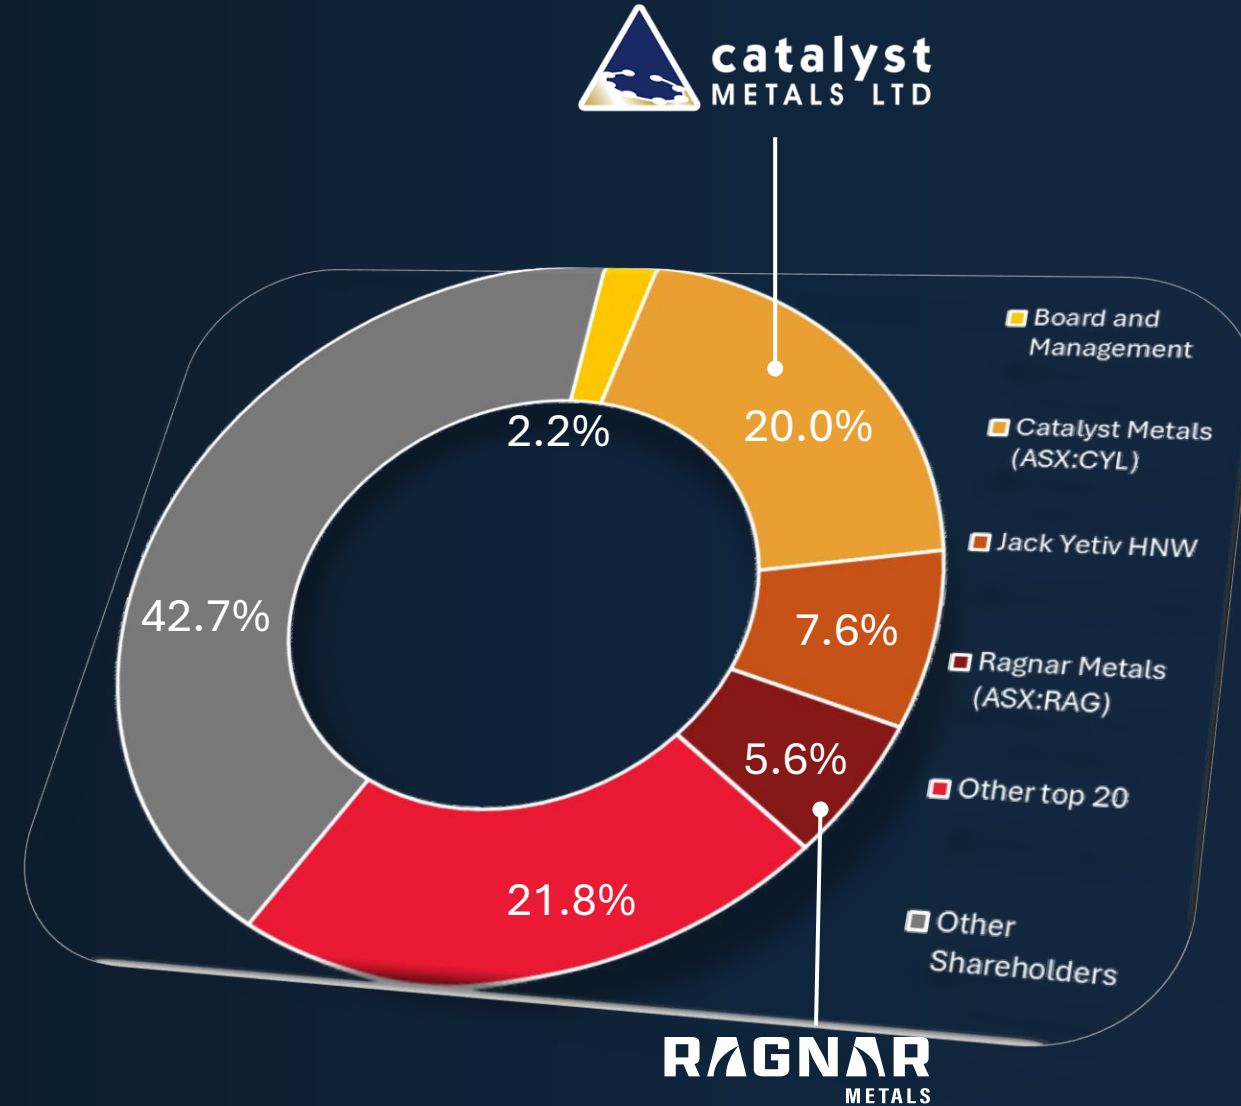

Capital Structure

Shares on Issue	593M
Share Price (22/10/2025)	\$0.32
Market Capitalisation	\$190M

Financial Position

Cash (30/06/2025)	\$24.7M
Gold Loan (1,352 ounces @ A\$6,000/oz Au)	-\$8.1M
Enterprise Value*	\$173M

*excludes equipment finance

Kaiser Team

Steve Formica

Non-Executive Chairman

Steve Formica offers extensive expertise in practical management and business development, having over 35 years of experience as a successful businessman and operations manager across various privately held ventures in multiple industry sectors. He is currently the Non-Executive Chairman of Ragnar Metals Limited (ASX:RAG) and Albion Resources Limited (ASX:ALB), and serves as a Non-Executive Director of EchoIQ Limited (ASX:EIQ), Bindi Metals Ltd (ASX:BIM), and Great Northern Minerals Limited (ASX:GNM). Steve has also held directorships with several ASX-listed companies, including Jade Gas Holdings Limited (ASX:JGH), Bowen Coking Coal Limited (ASX:BCB), Orminex Limited (ASX:ONX), and Lindian Resources Limited (ASX:LIN). Additionally, he is an active investor in numerous ASX-listed entities.

Stewart Howe

Executive Director

Stewart Howe brings over 40 years of experience in the global resources industry, including 18 years dedicated to mining. He previously served as Chief Development Officer at Zinifex Limited, establish Nyrstar N.V. and played a pivotal role in restarting the development of the Dugald River Mine, now owned by MMG. Over the past 12 years where he oversaw the spin-off of Zinifex's smelters to, Stewart has provided advisory services to boards, private equity firms, and financiers, focusing on restructuring and acquisitions of mining assets in base metals and bulk commodities. An experienced director, Stewart chairs the board of Whittle Consulting Group and also serves on the boards of a government-owned water authority and several not-for-profit organisations.

Brad Valiukas

Managing Director

Brad is a highly experienced mining engineer with 25 years of operations, management and executive experience, covering underground and open pit operations across multiple commodities around Australia and internationally. He has held corporate and management roles at Northern Star Resources Limited, Focus Minerals Ltd and Mincor Resources NL. He has extensive underground experience including several gold operations, with multiple mine start-ups and rectifications completed.

Craig Dingley

Non-Executive Director

Craig Dingley is a qualified Chartered Accountant with 20 years' experience in commercial roles in the natural resources sector. He has experience in capital markets, mergers and acquisitions, and investor relations across a range of commodities including oil and gas, iron ore and gold. Craig has held previous roles with Rio Tinto and KPMG, and is currently with Catalyst Metals Limited.

KAISER REEF

HENTY GOLD MINE

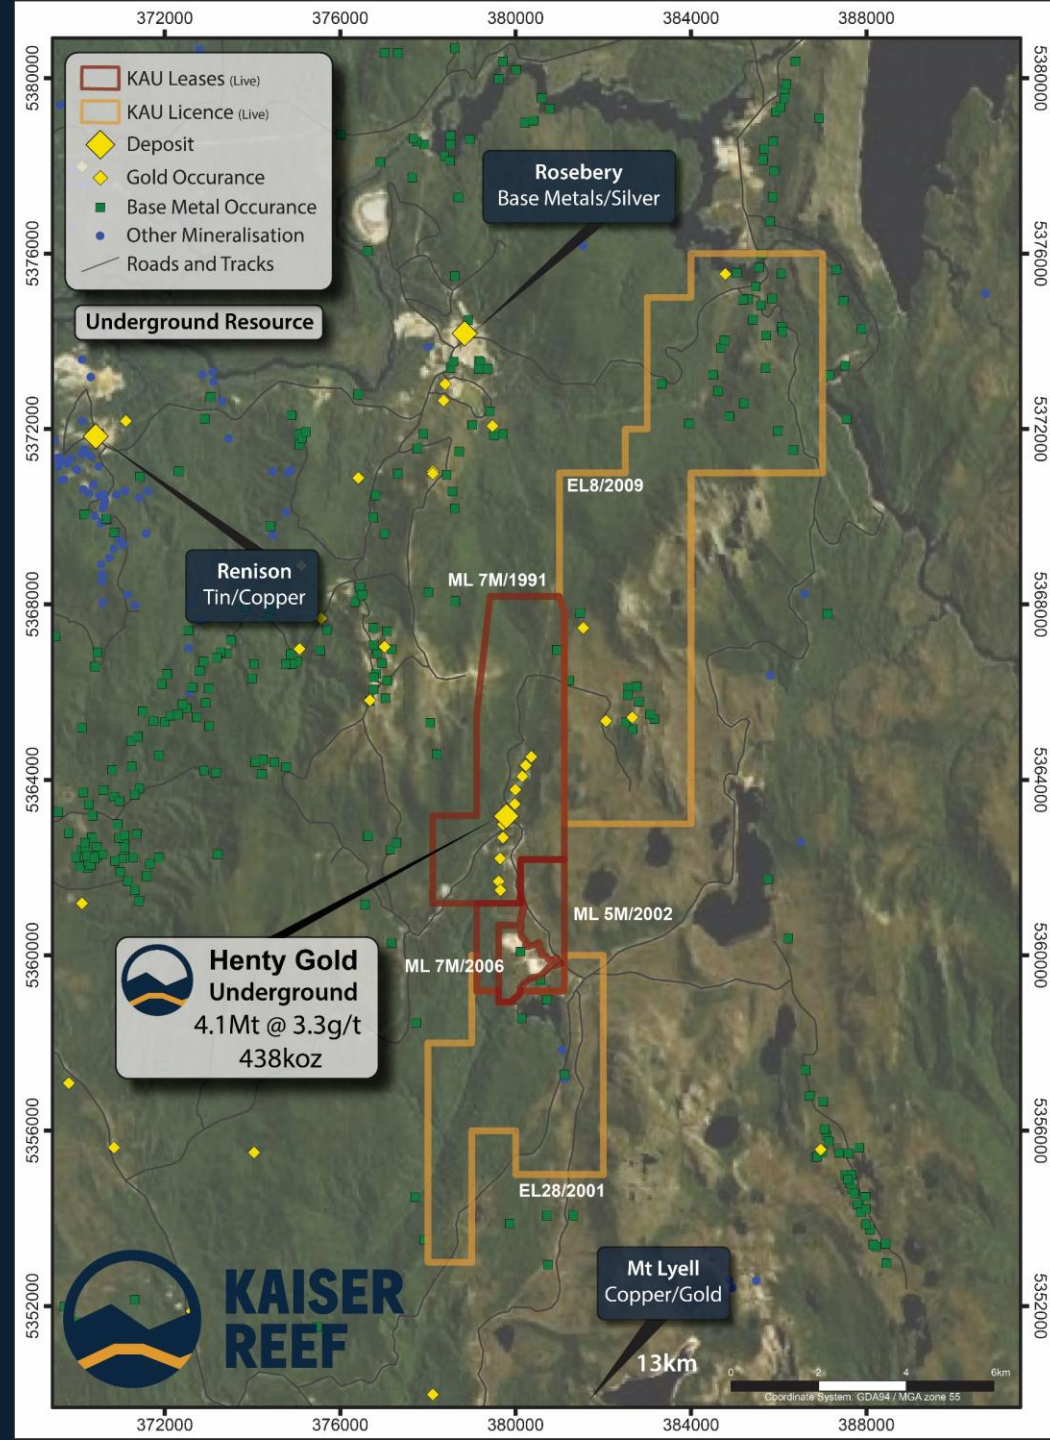

KAISER'S FLAGSHIP ASSET

WEST COAST, TASMANIA

Henty – asset overview

Location	<ul style="list-style-type: none">~23kms from Queenstown, West Coast Tasmania, Australia
Ownership	<ul style="list-style-type: none">100%
Acquired	<ul style="list-style-type: none">May 2025
Tenement Package	<ul style="list-style-type: none">3 MLs and 2 ELs covering 81km²All regulatory approvals in place
Mining Method	<ul style="list-style-type: none">Underground
JORC Resource	<ul style="list-style-type: none">4.1Mt @ 3.3g/t Au for 438koz as at 15 July 2025
JORC Reserve	<ul style="list-style-type: none">1.9Mt @ 3.3g/t Au for 199koz as at 15 July 2025
Historical Production	<ul style="list-style-type: none">Produced more than 1.4Moz of gold at ~8.9g/t AuProven track record of replacing mined ounces
Project Infrastructure	<ul style="list-style-type: none">300ktpa (nameplate) conventional CIL plantTailings Storage Facility, pre-approved 2x lifts and permitting underway expansion to give 2.1Mt total capacity.
FY25 Production	<ul style="list-style-type: none">26koz Au - Q1 FY2026 = 8,100oz
FY25 Recovery	<ul style="list-style-type: none">~87% - Q1 FY2026 = 89.1%
Regional Infrastructure	<ul style="list-style-type: none">West Coast Tasmania - Established mining region with excellent servicesSealed roads connect nearby main towns of Rosebery (10km North), Zeehan (19km West) and Queenstown (23km South)22kV grid power supply. Hydro power station located nearby, fed water from Henty
Mine Life	<ul style="list-style-type: none">6 years of underground mine life on the current Ore Reserves
Exploration Upside	<ul style="list-style-type: none">Clear opportunities in-mine, near mine and regionally

Reserve Growth

- Steady Resource position since acquisition
 - Minor depletion
- **30% Reserve increase** since acquisition
 - Significantly improved Resource to Reserve conversion
 - Mine life extended to **6 years** at the targeted production rate of 30,000oz Au per annum
- Second diamond drill rig commenced
 - Drilling exploration and resource extension

Henty Resource and Reserve

Production Growth

- Processing throughput lifted from 300ktpa (nameplate) to 400ktpa (trials)
 - Debottlenecks the entire operation
- Combination of UG decline stripping and bypass development is underway
 - To debottleneck the underground mine
- Commitments, and orders, made for larger trucks, loaders and using twin boom jumbos only to drive overall underground productivity

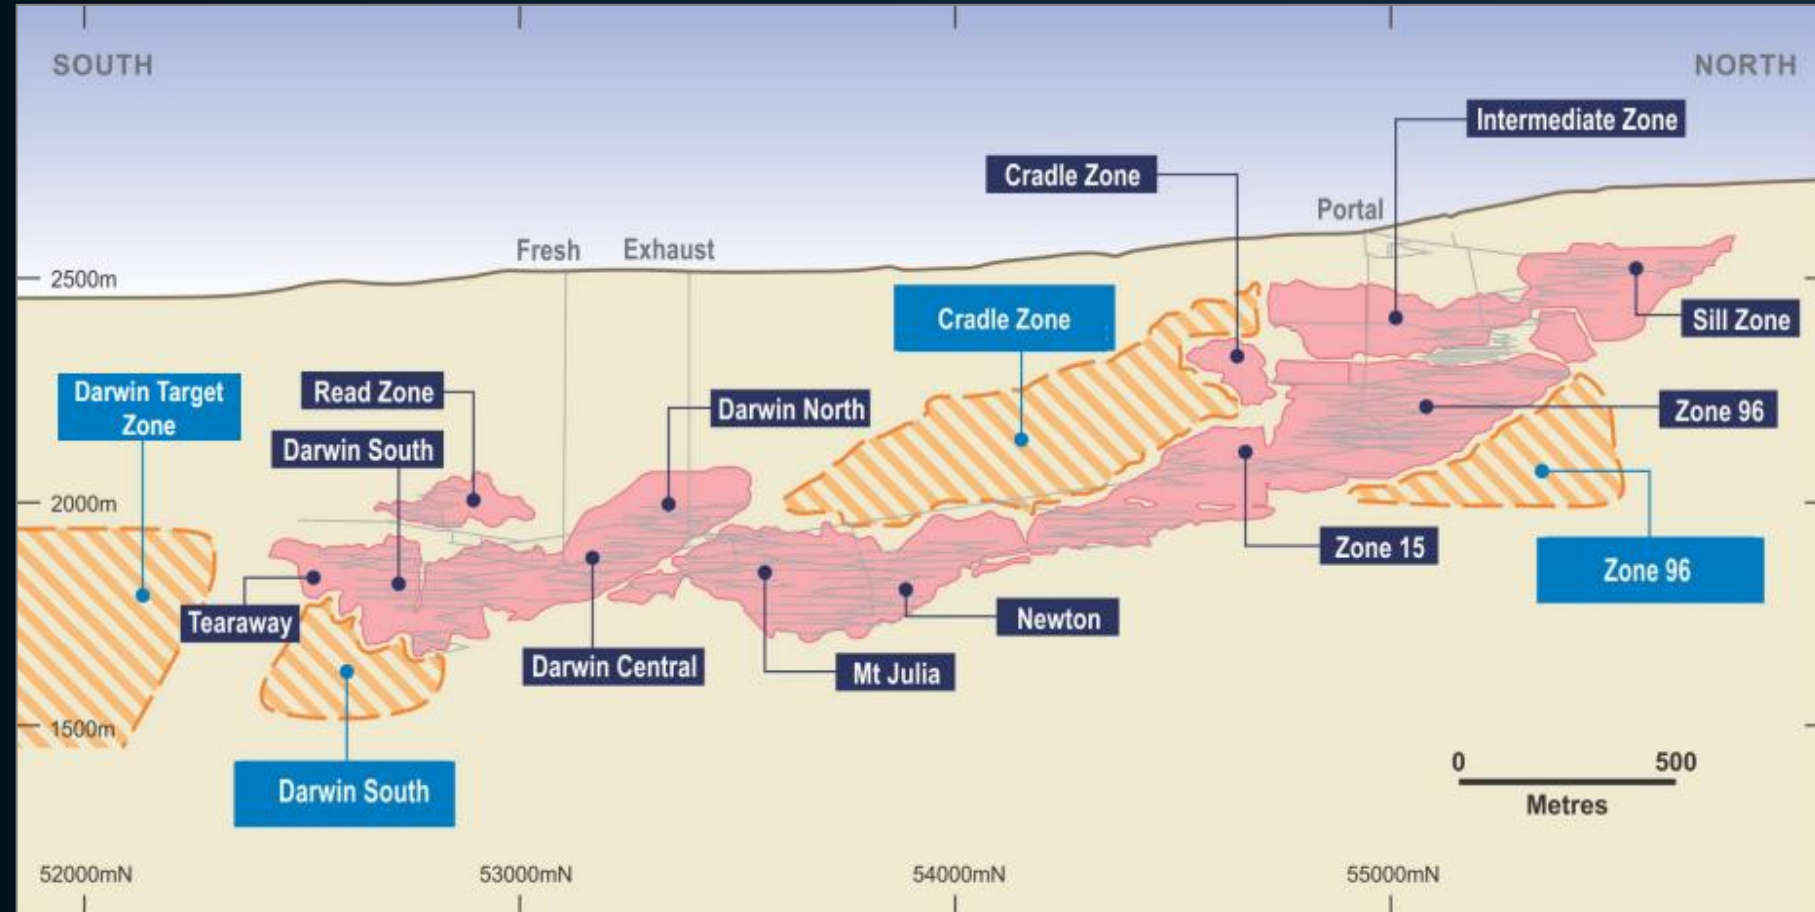

Exploration Upside – In Mine

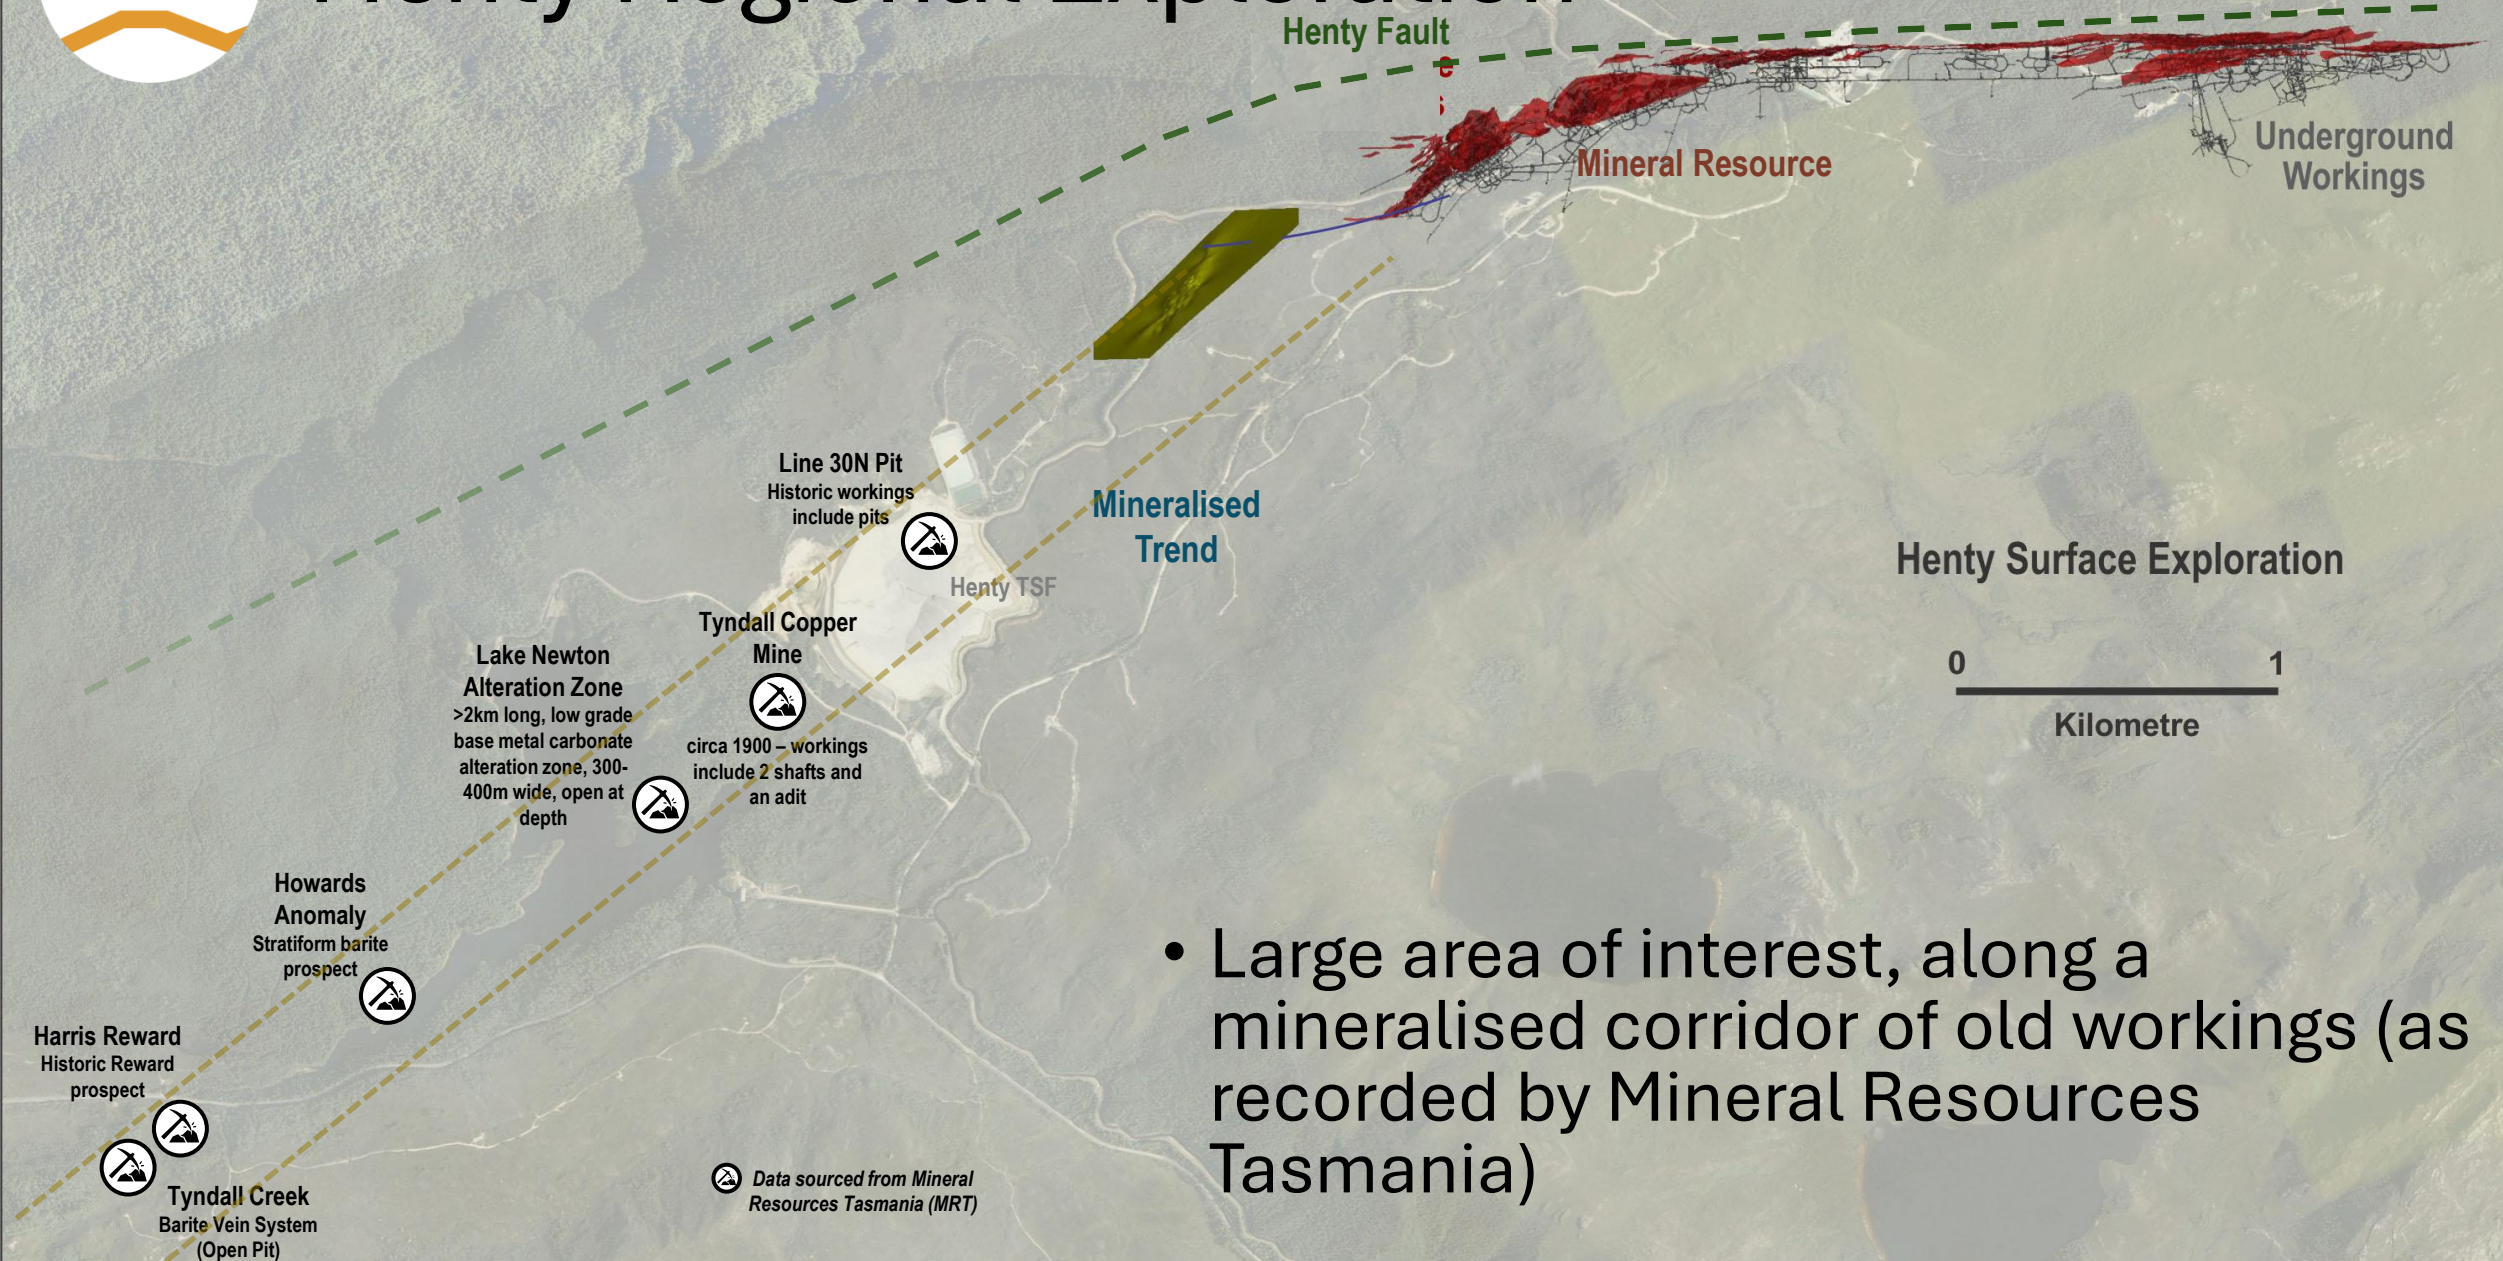

Second drill rig commenced underground to drive Resource growth

- Key targets Cradle Zone and Darwin South
- Development has commenced in Zone 96

Henty Regional Exploration

- Large area of interest, along a mineralised corridor of old workings (as recorded by Mineral Resources Tasmania)

KAISER REEF

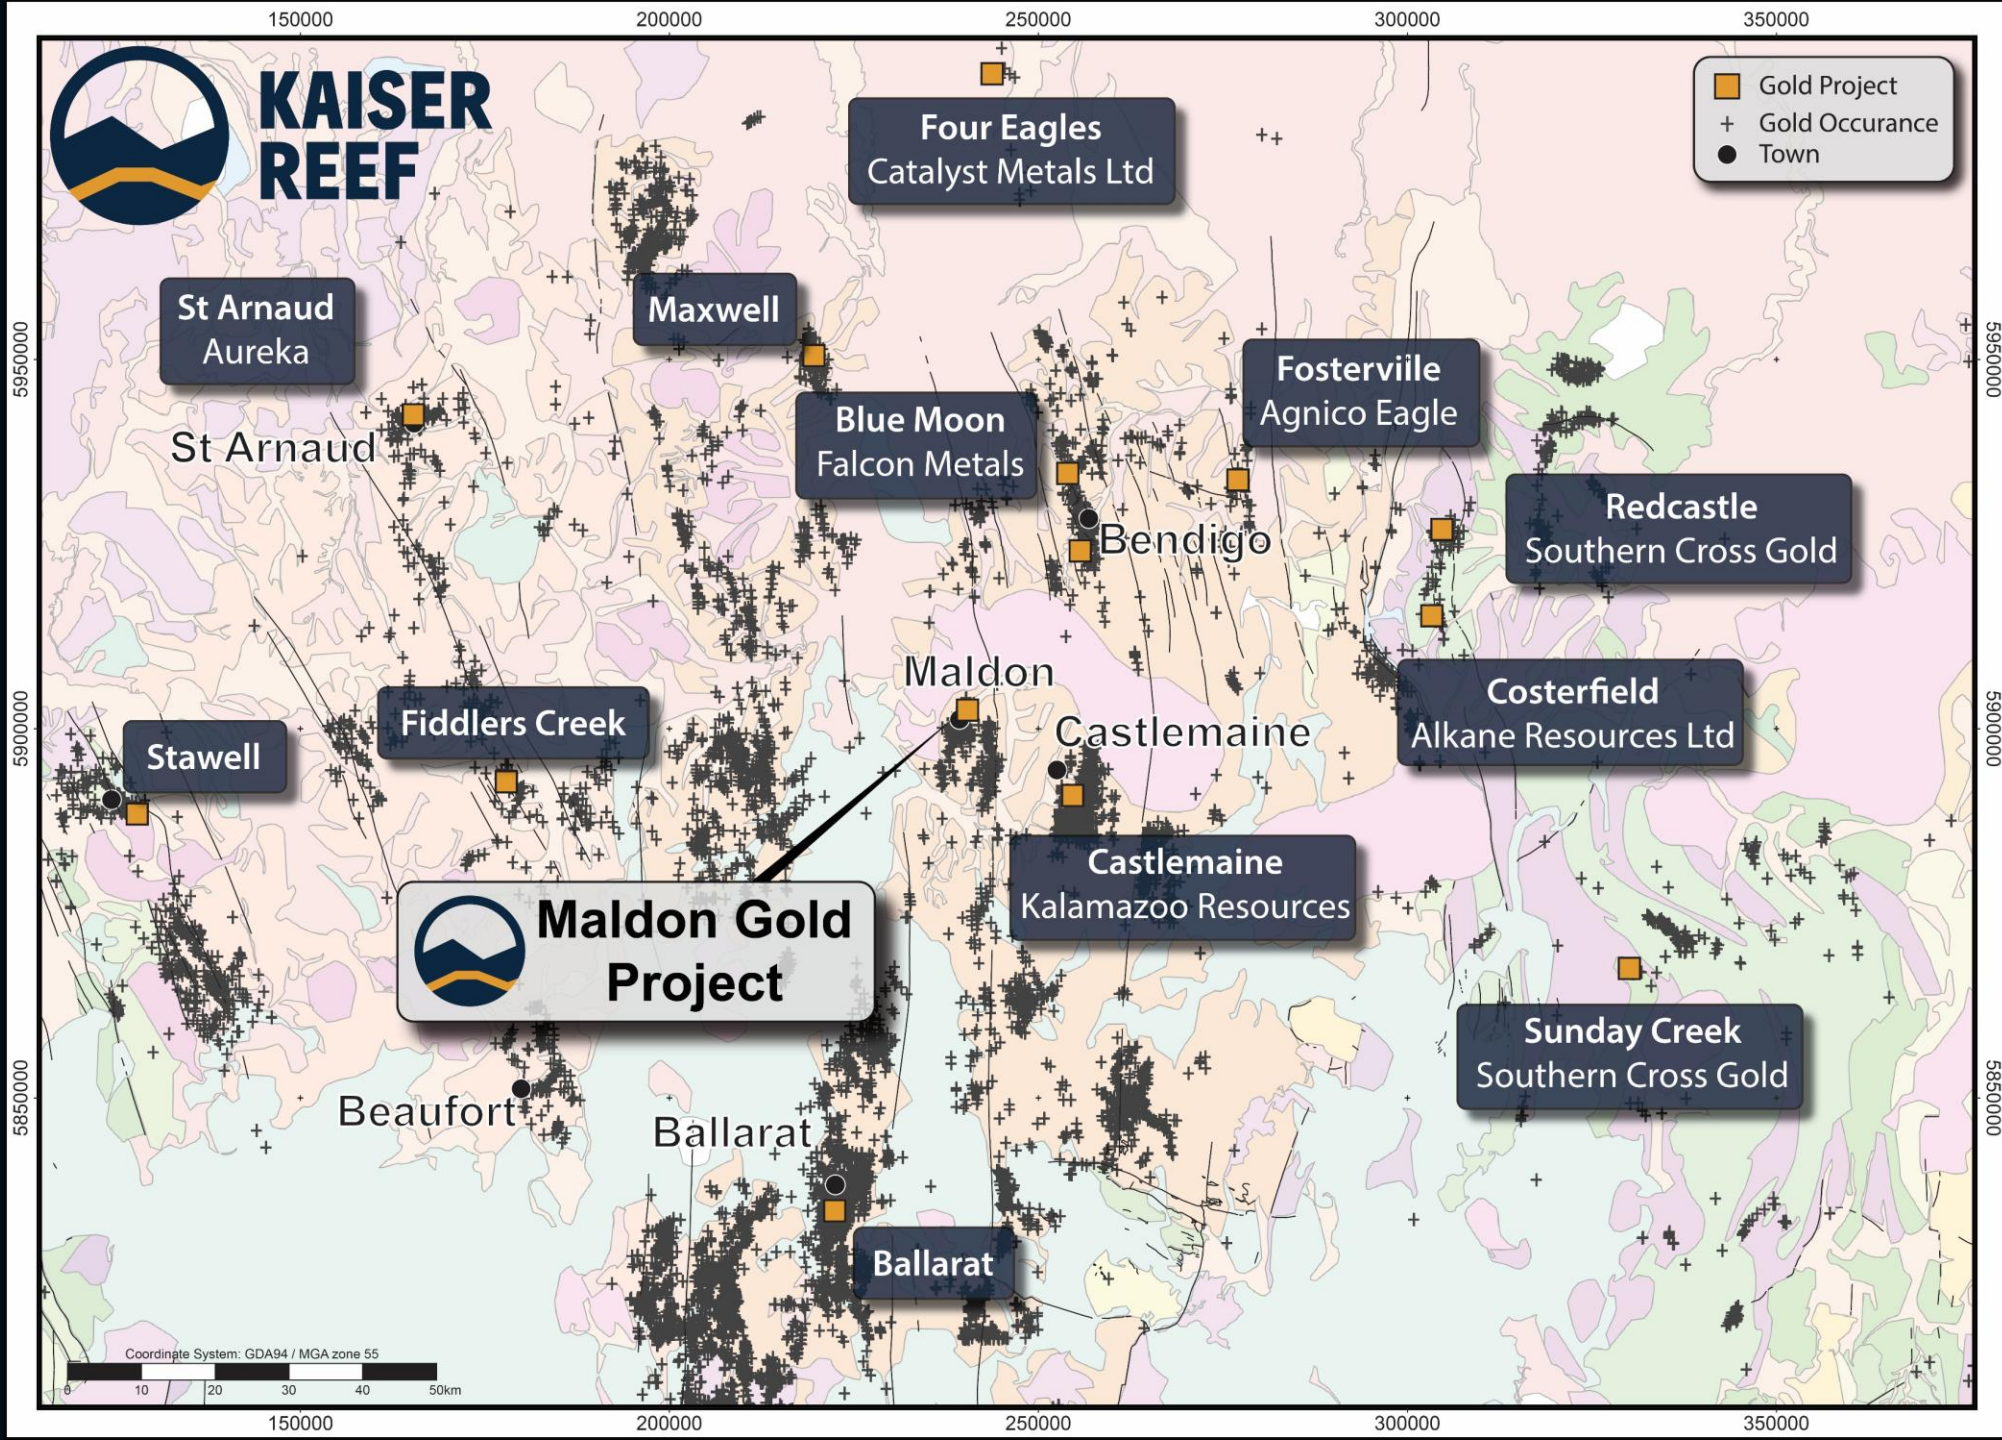

MALDON GOLD PROJECT

A HISTORIC GOLDFIELD

IN THE HEART OF THE GOLDEN TRIANGLE, VICTORIA

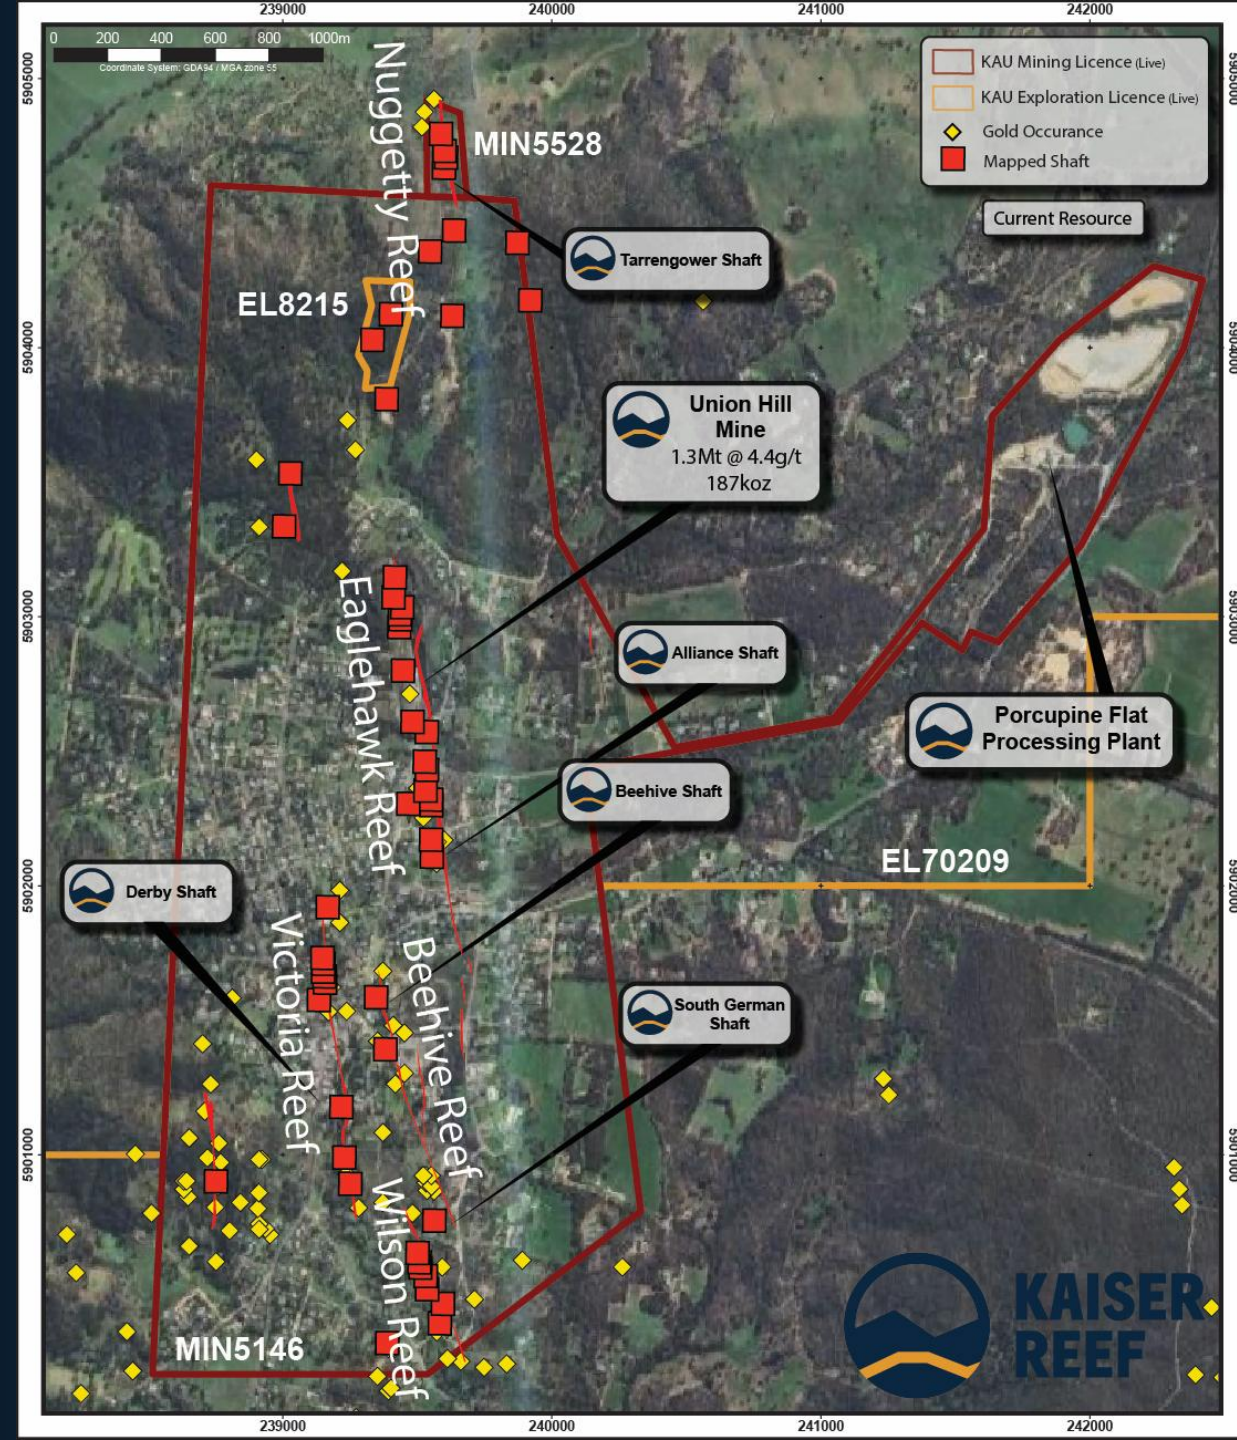

Maldon - in the heart of Victoria's Golden Triangle

Maldon Gold Project

- A historic goldfield, on granted mining licence
- 1.75Moz mined from quartz reefs
 - plus alluvial gold
- Multiple lines of lode
- Operating processing plant, on the mining licence

Existing Decline Access

- Near 3km decline into the mining area
 - Refurbishment required
 - Dewatered
 - Permitted
- Future UG drilling position

Union Hill Drilling

- 22 holes directly under the open pit
- Testing the Eagle Hawk Reef
- Drilling results due shortly
- Potential driver to re-establish UG drilling position

Porcupine Flat Processing Plant

- Conventional CIL circuit
- 200ktpa hard rock capacity
- Fully permitted and operating
- Strategic asset in Victoria's Golden Triangle
- Catalyst (ASX:CYL) have a 50/50 JV option
