Award of Carnarvon Flood Mitigation Project – MRWA Program Alliance

MACA Limited ('MACA') (ASX: MLD) is pleased to announce that its majority owned subsidiary, MACA Civil Pty Ltd (60% owned by MACA), has been awarded the Carnarvon Flood Mitigation project in an Alliance based contract model with Main Roads Western Australia ('MRWA').

The project consists of constructing a number of flood levees (approximately 20km in length) close to Carnarvon in Western Australia. The project will be delivered by MRWA under a Program Alliance Delivery Model on behalf of Regional Development and Lands (Funder) and the Department of Water (Designer).

The value of the works is approximately \$60 million dependent on the final scope of works and will continue over a period of 12 months commencing in October 2012. The works will employ approximately 80 people.

This is the second contract that MACA Civil Pty Ltd has been awarded pursuant to the MRWA Alliance model, and follows the recent completion of the Gascoyne Alliance project for MRWA in Onslow and prior to that in Carnarvon.

Andrew Sarich, General Manager of MACA Civil Pty Ltd, said "we are delighted to have been awarded further Alliance works with MRWA and we look forward to working together again on this important project. This is the largest project awarded to MACA Civil Pty Ltd and we are pleased to be delivering on the strategic objectives developed by MACA."
