Award of Road Maintenance Contract in the Kimberley

MACA Limited ('MACA') (ASX:MLD) is pleased to announce it has been awarded a contract for the provision of Resources, Plant, Materials, Traffic Management Services and Minor Works for the Kimberley Region in Western Australia for a period of 2 years with 2 additional 1 year options to extend.

This project will provide baseline revenues of \$8.4 million and a \$10 million provisional sum for other packages over the initial 2 year period. The works will employ approximately 18 personnel.

MACA's Operations Director, Geoff Baker, said "This award is part of MACA's growth strategy in its civil offering by providing a road asset management and maintenance service capability to the business in Western Australia. We look forward to growing our relationship with the Main Roads of Western Australia in this area of business".

East Coast Civil Business

In April this year MACA purchased a controlling interest (75%) in Services South East Pty Ltd, an Eastern States based business providing road asset management and maintenance services for VicRoads and local government. In October of this year MACA bought the remaining 25% of the business and has rebranded it as MACA Infrastructure, providing a platform from which to grow our service offering.

Recently this business has been awarded several civil works including a project for VicRoads for road safety improvements within the Wellington Shire for \$2.8 million.
