

NOTE 33. New Accounting Standards for Application in Future Periods (cont)

(v) AASB 2014-10: Amendments to Australian Accounting Standards – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (applicable to annual reporting periods beginning on or after 1 January 2018, as deferred by AASB 2015-10: Amendments to Australian Accounting Standards – Effective Date of Amendments to AASB 10 and AASB 128).

This Standard amends AASB 10: Consolidated Financial Statements with regards to a parent losing control over a subsidiary that is not a “business” as defined in AASB 3 to an associate or joint venture, and requires that:

- a gain or loss (including any amounts in other comprehensive income (OCI)) be recognised only to the extent of the unrelated investor’s interest in that associate or joint venture;

- the remaining gain or loss be eliminated against the carrying amount of the investment in that associate or joint venture; and

- any gain or loss from remeasuring the remaining investment in the former subsidiary at fair value also be recognised only to the extent of the unrelated investor’s interest in the associate or joint venture. The remaining gain or loss should be eliminated against the carrying amount of the remaining investment.

The application of AASB 2014-10 will result in a change in accounting policies for transactions of loss of control over subsidiaries (involving an associate or joint venture) that are businesses per AASB 3 for which gains or losses were previously recognised only to the extent of the unrelated investor’s interest. The transitional provisions require that the Standard should be applied prospectively to sales or contributions of subsidiaries to associates or joint ventures occurring on or after 1 January 2018. Although the directors anticipate that the adoption of AASB 2014-10 may have an impact on the Group’s financial statements, it is impracticable at this stage to provide a reasonable estimate of such impact.
