Panoramic Resources Limited (ASX: PAN) (“**Panoramic**” or the “**Company**”) is pleased to provide an update on the second shipment of nickel-copper-cobalt concentrate since the restart of operations at the Company’s Savannah Nickel Project.

Second Shipment

The MV Maasgracht arrived at Wyndham Port on the evening of 11 February 2022. Stevedoring contractor CGL was responsible for loading the ship, which took four days inclusive of some rain delays. The ship was loaded to cargo capacity with a total of 9,409t nickel-copper-cobalt concentrate and departed on 15 February, sailing to the Port of Lianyungang in China for delivery to offtake partner Jinchuan. Following the second shipment, Port concentrate stocks are at approximately 160t.

As per the offtake agreement with Jinchuan, a provisional invoice has been submitted with payment expected in the week commencing 22 February 2022. The payment of US\$14.6M (~A\$20.5M) is inclusive of all three metals contained in the concentrate.

The third shipment has now been booked, with the MV Maasgracht expected to return to Wyndham Port in early April 2022.

Commenting on the successful second shipment, Managing Director and CEO, Victor Rajasoorian said:

“It’s pleasing to have successfully completed our second shipment of concentrate destined to our offtake partner in China. The current ore stockpile on surface at Savannah is approximately 30,000 tonnes, providing us with ample plant feedstock and clear visibility on our next shipment. Looking ahead, with metal prices forecast to remain buoyant into 2022, we look forward to more successful shipments throughout the year.”
