Sport Betting Turnover was up 54 per cent marking a new quarterly company record of \$1.4 billion and total Net Win was up 18% at \$76.9 million versus the PCP, which is testament to the quality of our team and our expansion strategy.*

We are pursuing the US opportunity by building a business focused on customer economics, spearheaded by industry leading technology and innovation across in-play betting. With our iGaming offering gathering steam, the expansion into more US states and our recent launch in the Ontario market in Canada, the building blocks are in place. We remain focused on efficient marketing spend that delivers long-term, high value customers.*

*“The Australian trading business continued its strong performance during the quarter with Net Win up 37% on the PCP. With a focus on profitability for the remainder of the financial year, we continue to expect positive EBITDA for the Australian Trading business for FY22.”*
