3.9 Enquiries

Any questions concerning the Offers should be directed to Anthony Kain, Company Secretary, on (08) 6255 5504.

4. PURPOSE AND EFFECT OF THE OFFER

4.1 Purpose of the Offers

4.1.1 Purpose of the Placement Offer

Primary Purpose

The primary purpose of the Placement Offer is to raise \$2,000,000 (before costs and assuming full subscription);

The Company intends to use funds raised under the Placement Offer as follows:

Use	\$
Working capital and operating expenses	1,987,872
Expenses of the Placement Offer	19,058
Total	2,000,000

The above table is a statement of current intentions as of the date of these submissions. As with any budget, intervening events and new circumstances have the potential to affect the ultimate way funds will be applied. The Board reserves the right to alter the way funds are applied on this basis.

The Board believes that the funds raised from the Placement Offer, combined with existing cash reserves, provide the Company with sufficient working capital to progress its business objectives.

Actual expenditure may differ significantly from the above estimates due to a change in market conditions, the development of new opportunities and other factors.

Cleansing Purpose

In addition to raising funds to apply as set out above, the purpose of the Placement Offer made under this Prospectus is also to remove any trading restrictions that may have attached to Shares issued by the Company prior to the Closing Date of the Placement Offer (including prior to the date of this Prospectus).

Relevantly, section 708A(11) of the Corporations Act provides that a sale offer does not need disclosure to investors if:

- (a) the relevant securities are in a class of securities that are quoted securities of the body; and
- (b) either:
 - (i) a prospectus is lodged with the ASIC on or after the day on which the relevant securities were issued but before the day on which the sale offer is made; or
 - (ii) a prospectus is lodged with ASIC before the day on which the relevant securities are issued and offers of securities that have been made under the prospectus are still open for acceptance on the day on which the relevant securities were issued; and

- (c) the prospectus is for an offer of securities issued by the body that are in the same class of securities as the relevant securities.

4.1.2 Purpose of the Additional Offers

The Additional Offers are being made such that the relief provided under ASIC Corporations (Sale Offers That Do Not Need Disclosure) Instrument 2016/80 with respect to the on-sale provisions of section 707 of the Corporations Act is available.

Specifically, if the Options under the Additional Offers are issued with disclosure under this Prospectus then the Shares issued upon the exercise of any of those Options can be on-sold within 12 months of their issue, without a disclosure document for the on-sale offer.

4.2 Effect of the Offer

The principal effect of the Offers, assuming the Placement Offer is fully subscribed, will be to:

- (a) increase the cash reserves by approximately \$1,980,942 (after deducting the estimated expenses of the Placement Offer) immediately on completion of the Placement Offer;
- (b) increase the number of Shares on issue from 1,083,504,463 as at the date of this Prospectus to approximately 1,283,504,463 Shares following completion of the Placement Offer; and
- (c) increase the number of Options on issue from 104,000,000 as at the date of this Prospectus to approximately 184,500,000 Options following completion of the Additional Offers.

5. RIGHTS AND LIABILITIES ATTACHING TO SECURITIES

The following is a summary of the more significant rights and liabilities attaching to Securities being offered pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

5.1 Shares

Full details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

(a) General meetings

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution of the Company.

(b) Voting rights

Subject to any rights or restrictions for the time being attached to any class or classes of shares, at general meetings of shareholders or classes of shareholders:

each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;

on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and

on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each fully paid Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for each Share held, but in respect of partly paid shares shall have such number of votes as bears the same proportion to the total of such Shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

(c) Dividend rights

Subject to and in accordance with the Corporations Act, the ASX Listing Rules, the rights of any preference Shareholders and to the rights of the holders of any shares created or raised under any special arrangement as to dividend, the Directors may from time to time declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares.

The Directors may from time to time pay to the Shareholders any interim dividends as they may determine. No dividend shall carry interest as against the Company. The Directors may set aside out of the profits of the Company any amounts that they may determine as reserves, to be

applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

Subject to the ASX Listing Rules and the Corporations Act, the Company may, by resolution of the Directors, implement a dividend reinvestment plan on such terms and conditions as the Directors think fit and which provides for any dividend which the Directors may declare from time to time payable on Shares which are participating Shares in the dividend reinvestment plan, less any amount which the Company shall either pursuant to the Constitution or any law be entitled or obliged to retain, be applied by the Company to the payment of the subscription price of Shares.

(d) **Winding-up**

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any shares or other securities in respect of which there is any liability.

(e) **Shareholder liability**

As the Shares issued will be fully paid shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(f) **Transfer of shares**

Generally, shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the ASX Listing Rules.

(g) **Future increase in capital**

The issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of Securities contained in the ASX Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

(h) **Variation of rights**

Under section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

(i) **Alteration of constitution**

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

- (iii) \$0.025, in respect of 20,000,000 of the Broker Options, as detailed in Section 3.3,

(Exercise Price).

- (ii) the subject of the Broker Offer will expire at 5:00 pm (WST) on the date which is 3 years from the date of issue,

(Expiry Date).

An Option not exercised before the Expiry Date will automatically lapse on the Expiry Date.

(d) **Exercise Period**

The Options are exercisable at any time on or prior to the Expiry Date (**Exercise Period**).

(e) **Notice of Exercise**

The Options may be exercised during the Exercise Period by notice in writing to the Company in the manner specified on the Option certificate (**Notice of Exercise**) and payment of the Exercise Price for each Option being exercised in Australian currency by electronic funds transfer or other means of payment acceptable to the Company.

(f) **Exercise Date**

A Notice of Exercise is only effective on and from the later of the date of receipt of the Notice of Exercise and the date of receipt of the payment of the Exercise Price for each Option being exercised in cleared funds (**Exercise Date**).

(g) **Timing of issue of Shares on exercise**

Within 15 Business Days after the Exercise Date, the Company will:

- (i) issue the number of Shares required under these terms and conditions in respect of the number of Options specified in the Notice of Exercise and for which cleared funds have been received by the Company;
- (ii) if required, give ASX a notice that complies with section 708A(5)(e) of the Corporations Act, or, if the Company is unable to issue such a notice, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors; and
- (iii) if admitted to the official list of ASX at the time, apply for official quotation on ASX of Shares issued pursuant to the exercise of the Options.

If a notice delivered under (g)(ii) for any reason is not effective to ensure that an offer for sale of the Shares does not require disclosure to investors, the Company must, no later than 20 Business Days after becoming aware of such notice being ineffective, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors.

(h) **Shares issued on exercise**

Shares issued on exercise of the Options rank equally with the then issued shares of the Company.

(i) **Reconstruction of capital**

If at any time the issued capital of the Company is reconstructed, all rights of an Optionholder are to be changed in a manner consistent with the

Corporations Act and the ASX Listing Rules at the time of the reconstruction.

(j) **Participation in new issues**

There are no participation rights or entitlements inherent in the Options and holders will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the Options without exercising the Options.

(k) **Change in exercise price**

An Option does not confer the right to a change in Exercise Price or a change in the number of underlying securities over which the Option can be exercised.

(l) **Transferability**

The Options are transferable subject to any restriction or escrow arrangements imposed by ASX or under applicable Australian securities laws.

(m) **Quotation**

The Company will not apply for quotation of the New Options or the Broker Options.

6. RISK FACTORS

6.1 Introduction

The Securities offered under this Prospectus are considered highly speculative. An investment in the Company is not risk free and the Directors strongly recommend potential investors to consider the risk factors described below, together with information contained elsewhere in this Prospectus and to consult their professional advisers before deciding whether to apply for Securities pursuant to this Prospectus.

There are specific risks which relate directly to the Company's business. In addition, there are other general risks, many of which are largely beyond the control of the Company and the Directors. The risks identified in this Section, or other risk factors, may have a material impact on the financial performance of the Company and the market price of the Shares.

The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

6.2 Coronavirus (COVID-19)

The outbreak of the coronavirus disease (COVID-19) is impacting global economic markets. The nature and extent of the effect of the outbreak on the performance of the Company remains unknown. The Company's Share price may be adversely affected in the short to medium term by the economic uncertainty caused by COVID-19. Further, any governmental or industry measures taken in response to COVID-19 may adversely impact the Company's operations and are likely to be beyond the control of the Company.

The Directors are monitoring the situation closely and have considered the impact of COVID-19 on the Company's business and financial performance. However, the situation is continually evolving, and the consequences are therefore inevitably uncertain. In compliance with its continuous disclosure obligations, the Company will continue to update the market in regard to the impact of COVID 19 on its revenue channels and any adverse impact on the Company. If any of these impacts appear material prior to close of the Offer, the Company will notify investors under a supplementary prospectus.

6.3 Company specific

(a) Acquisitions and Partnerships

The Company plans to investigate and consider potential acquisitions and opportunities to enter into new partnerships that are consistent with its stated growth strategy. The successful implementation of acquisitions will depend on a range of factors including funding arrangements and technical integration. The Company may also enter into partnerships in the future.

Subject to the relevant partnerships, the Company cannot control the actions of joint venture partners and therefore cannot guarantee that partnerships will be operated or managed in accordance with the Company's preferred direction, strategy or risk management parameters. To the extent that acquisitions or partnership arrangements are not successfully integrated with the Company's existing business lines, the growth and financial performance of the Company could be affected and, despite the terms of the relevant agreements, it may be

impractical to enforce all of the Company's rights (particularly if the partnerships operate overseas).

(b) **Contracts**

The Company may enter agreements with counterparties. In such cases, there is the risk that counterparties default on their obligations, which may in turn necessitate legal action. This could result in significant financial loss for the Company. In some cases, the contracts that the Company has entered into may be governed in jurisdictions outside Australia. It may be more difficult to resolve disputes in such jurisdictions than it would be under Australian law. As such, the Company cannot ensure that an appropriate legal resolution will be achieved.

(c) **Intellectual Property Rights**

The Company owns the intellectual property now being used by agents and commercial banks in the Philippines. While the Company has systems and procedures in place to protect its content and information, unauthorised use of its intellectual property could have a negative impact on its operations and brand. The Company also operates in a market where claims of infringement of intellectual property are common. There is a risk of third parties making claims of infringement of intellectual property against the Company. This could result in significant legal costs and negatively impact operations.

(d) **Operations and Management of Potential Growth**

The Company believes that it has attracted a highly skilled and experienced management team. However, the Company is a complex and dynamic business. The Company is working in a fast moving environment, engaged in business with multiple partners and operating in numerous geographies around the world. Navigating these issues while effectively dealing with prioritisation, timing, execution, cost control, and other business decisions is likely to provide real challenges for its small management team.

There can be no guarantee that successful execution of the Company's strategy will make it profitable or commercially viable. Current product development and marketing strategies may not have the intended effect of increasing customers. Similarly, strategies to create value from customers of the application may not yield the expected revenue.

(e) **Product Development**

The Company believes that it provides a meaningful and engaging offering. Moreover, in addition to its current products and services, the Company is planning to develop new products to suit the mobile banking, payments and remittance business it is building. There is also the risk that delays in product development, cost overruns, or difficulties in delivering new features will negatively impact the Company and its business.

(f) **Consistency of Supply**

Product shortages and prolonged delays in delivery may jeopardise the Company's ability to supply tangible products and therefore fulfil contractual obligations to customers and distributors. The Company will

continually adapt its inventory control processes as necessary to mitigate the effect of any supply shortages that may be encountered.

(g) **Maintenance of Reputation and Brand**

Usage and engagement with the Company products and services have the potential to be significantly affected by popular consumer sentiment. As such, the Company's exposure to public relations issues and threats to its reputation and brand name may be greater than for other businesses.

(h) **Dependence on other technological providers**

As a mobile banking and payment application business, the Company will maintain and rely extensively on information technology systems and network infrastructures for the effective operation of its business. As with any product that is dependent on technological systems if the integrity of Peppermint's products fails to meet its clients' expectations (whether or not through any fault of the Company), the Company's reputation could suffer.

PEP is heavily reliant on the operations of telecommunications networks for the provision of PEP's services to the marketplace concerned. Should any of these relationships or agreements terminate or become strained for any reason that would have a negative impact on our operations and business development plans.

(i) **Insurance**

While the Company has sought to be insured in a way that is in keeping with industry practices, there is the risk of an event occurring that is not fully covered by insurance. This may cause significant financial and material loss to the Company. Furthermore, there is the risk that the Company's insurer fails to respect a legitimate claim made by the Company.

(j) **Reliance on Core Information Technology, Other Systems and Security**

As a mobile banking and payment application business, the Company will maintain and rely extensively on information technology systems and network infrastructures for the effective operation of its business. It is also dependent on reliable telecommunication and information technology provision by third parties. As with any product that is dependent on technological systems if the integrity of the Company's products fails to meet its clients' expectations (whether or not through any fault of the Company), the Company's reputation could suffer.

Techniques used to gain unauthorised access to private networks are constantly evolving and the Company may be unable to anticipate or prevent unauthorised access to data pertaining to its customers, which could include credit card and debit card information, bank account details or other personally identifiable information. The Company's service is vulnerable to computer viruses, phishing attacks or other attacks and similar disruptions from unauthorized use of its systems, any of which could lead to system interruptions, delays or shutdowns, causing loss of critical data or the unauthorized access to personally identifiable information. If an actual or perceived breach of security occurs of the Company's systems, it may face civil liability and public perception of our security measures could be diminished, either of which would negatively

affect the Company's ability to attract or maintain customers. The Company also would be required to expend significant resources to mitigate any such breach of security and to address related matters.

(k) **International Expansion**

The Company's products and services are used in the Philippines but in the future intends to expand into other countries. It may therefore likely be subject to multiple overseas jurisdictions. In each different jurisdiction there may be increased compliance and operating costs. If and when it becomes necessary to have a local presence in overseas markets there will be increased overheads as well as development and marketing costs. There is no guarantee such expansions will be successful and increased costs may adversely impact the profitability and working capital of the Company.

(l) **Unforeseen Expenditure**

If the Company's expenses are greater than anticipated due to fluctuation in market prices or any factors which have not been taken into account during the development of this Prospectus, then it will have fewer funds with which to pursue its plan of operations and financing requirements will be greater than anticipated.

(m) **Ability to attract and retain skilled personnel**

The Company's success depends, to a large extent, on its ability to attract and retain appropriately skilled personnel. The Company is currently operated and managed by a small group of select team members. The departure, either temporary or permanent, of those key staff, or any delay in their replacement, could adversely affect The Company's performance. Similarly, as a company seeking to grow and expand, the Company's success in securing new talent will be critical going forward and may be constrained for a number of reasons. The attraction and retention of key staff is determined by a broad range of internal and external factors, some more or less within the Company's control, including, but not limited to, issues concerning: personal or health issues, company performance, public relations and branding, logistics and timing, the availability of IT staff in the market and macro-economic factors.

Additionally, the Company relies on offshore team members. In the event that offshore employees cease to continue working with the Company, this could cause significant disruption to the operations of the business and would require the Company to find alternative employees. Finding alternative employees would take time in recruiting and training them on the product and getting them to a professional level where they could assist in running the operations of the Company business and help to execute the Company business plan. This would have a significant impact on the costs of running the Company business and would likely delay the Company from achieving its objectives and business plan.

(n) **Going concern risk**

The Company's ability to continue as a going concern is dependent upon obtaining financing for planned operations. There can be no assurance that those funds will be raised, or if the Company is able to

raise funds that such funds will be in the amounts required or on terms favourable to the Company.

6.4 Industry specific

(a) Competition from Existing Market Players

The Company may face competition from existing market players who may, for example, undertake aggressive marketing campaigns, product innovation or price discounting.

6.5 General risks

(a) Limited Operating History

The business has had limited operations and revenues to date in which potential investors can evaluate the business. Investors must consider all risks associated with and frequently encountered by companies operating in the same space, particularly companies involved in generally new, rapidly evolving markets.

(b) Loss of key clients

The business currently operates with a few key client relationships. The Company is expected to maintain current and establish new relationships through the continued enhancement of its products and solutions. In the event that these established relationships diminish or fail (including through a termination event arising under an agreement) the resulting effect may negatively impact the operating results of the Company.

(c) Shareholder Dilution

In the future, the Company may elect to issue Shares or engage in fundraisings and also to fund, or raise proceeds, for acquisitions. While the Company will be subject to the constraints of the ASX Listing Rules regarding the percentage of capital that it is able to issue within a 12 month period (other than where exceptions apply), Shareholders may be diluted as a result of such Shares and fundraisings.

(d) Economic

General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's exploration, development and production activities, as well as on its ability to fund those activities.

(e) Market conditions

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- (i) general economic outlook;
- (ii) introduction of tax reform or other new legislation;
- (iii) interest rates and inflation rates;

- (iv) changes in investor sentiment toward particular market sectors;
- (v) the demand for, and supply of, capital; and
- (vi) terrorism or other hostilities.

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and resource exploration stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

(f) **Competition risk**

The industry in which the Company will be involved is subject to domestic and global competition. Although the Company will undertake all reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, which activities or actions may, positively or negatively, affect the operating and financial performance of the Company's projects and business.

(g) **Additional requirements for capital**

The Company's capital requirements depend on numerous factors. Depending on the Company's ability to generate income from its operations, the Company may require further financing in addition to amounts raised under the Offer. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations and scale back its exploration programmes as the case may be. There is however no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.

(h) **Market Acceptance**

The global marketplace for most products is ever changing due to new technologies, new products, changes in preferences, changes in regulation and other factors influencing market acceptance or market rejection. This market volatility and risk exists despite the best endeavours of market research, promotion and sales and licensing campaigns.

Accordingly, there is a risk that the Company may not be able to commercialise its products, which could adversely impact the Company's operations

(i) **Reliance on key personnel**

The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees cease their employment.

(j) **Foreign Exchange Rate Risks**

The Company expects to derive a majority of its revenue and incur a major part of its expenses from its operations in the Philippines, in Philippine Pesos. Accordingly, changes in the exchange rate between the Philippine Peso and the Australian dollar would be expected to have a direct effect on the performance of the Company.

(k) **Legal Environment and Sovereign Risk**

The Company currently conducts its operations in the Philippines with intentions to develop its business through Asia, Europe and through other parts of the world in future.

While Australia is a stable and developed legal environment, there are still a range of sovereign risks that may adversely affect the performance of the Company. These include, but are not limited to changes to privacy, taxation, accounting, employment, licensing, exchange control or other legislation.

Particularly, over recent years, there has been an increased regulatory and public focus on the use of private information, especially how private information is collected and used for commercial purposes. Any further changes to laws and regulations governing the use of this information could result in an adverse impact on the markets in which the Company operates and, in its business, including its forecast revenues, profit margins, and compliance costs.

The Company's products and services are also used in numerous other countries and will be subject to the local laws and regulations where they apply. Some of the countries in which the Company's products and services are used represent emerging markets and/or less stable legal environments. This may involve risks related to the regularity, speed, transparency and expectations surrounding Government action, ease of gaining fair representation in court and clarity and consistency of the legal framework.

Working in changing, complex and multiple regulatory environments involves a set of risks. These include the risk that the Company may fail to comply with laws or regulations or that laws or regulations may have unintended consequences or are open to interpretations that increase the risk of non-compliance. In addition, there is a risk that the Merged Group may fail to implement procedures within the statutory timeframes to ensure that it can provide services which comply with the introduction of these new laws and regulations.

Any substantial failure by the Company to comply with applicable laws and regulations could result in cessation of part or all of its operations, restriction on its ability to carry out operations, fines, penalties or other liabilities to customers, suppliers or third parties. Compliance failure could also damage the Company's reputation and reduce the attractiveness of its products and services.

(l) **Changes to Government Policies and Legislative Changes**

Government policy and legislative changes which are outside the control of the Company may have a negative impact on the financial

performance of the Company. This risk factor applies to government policy and legislative changes in the Philippine and in Australia.

(m) **Additional requirements for capital**

The Company's capital requirements depend on numerous factors. Depending on the Company's ability to generate income from its operations, the Company may require further financing in addition to amounts raised under the Offer. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations and scale back its exploration programmes as the case may be. There is however no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.

6.6 Speculative investment

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the Shares offered under this Prospectus

Therefore, the Shares to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those Shares.

Potential investors should consider that the investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for Shares pursuant to this Prospectus.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the 3 months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

The Company, as a disclosing entity under the Corporations Act states that:

The current amount has been set at an amount not to exceed \$300,000 per annum.

7.9 Electronic Prospectus

ASIC has exempted compliance with certain provisions of the Corporations Act to allow distribution of an electronic prospectus and electronic application form on the basis of a paper prospectus lodged with the ASIC, and the publication of notices referring to an electronic prospectus or electronic application form, subject to compliance with certain conditions.

If you have received this Prospectus as an electronic Prospectus, please ensure that you have received the entire Prospectus accompanied by the Application Form. If you have not, please phone the Company on + 61 8 6255 5504 and the Company will send you, for free, either a hard copy or a further electronic copy of the Prospectus, or both.

The Company reserves the right not to accept an Application Form from a person if it has reason to believe that when that person was given access to the electronic Application Form, it was not provided together with the electronic Prospectus and any relevant supplementary or Prospectus or any of those documents were incomplete or altered.

7.10 Clearing House Electronic Sub-Register System (CHES) and Issuer Sponsorship

The Company will not be issuing Share certificates. The Company is a participant in CHES, for those investors who have, or wish to have, a sponsoring stockbroker. Investors who do not wish to participate through CHES will be issuer sponsored by the Company. Because the sub-registers are electronic, ownership of securities can be transferred without having to rely upon paper documentation.

Electronic registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with a statement (similar to a bank account statement) that sets out the number of Shares issued to them under this Prospectus. The notice will also advise holders of their Holder Identification Number or Security Holder Reference Number and explain, for future reference, the sale and purchase procedures under CHES and issuer sponsorship.

Further monthly statements will be provided to holders if there have been any changes in their security holding in the Company during the preceding month.

7.11 Privacy Act

If you complete an application for Shares, you will be providing personal information to the Company. The Company collects, holds and will use that information to assess your application, service your needs as a Shareholder, facilitate distribution payments and corporate communications to you as a Shareholder and carry out administration.

The information may also be used from time to time and disclosed to persons inspecting the register, bidders for your securities in the context of takeovers, regulatory bodies, including the Australian Taxation Office, authorised securities brokers, print service providers, mail houses and the Company's Share Registry.

You can access, correct and update the personal information that we hold about you. Please contact the Company if you wish to do so at the relevant contact numbers set out in this Prospectus.

Collection, maintenance and disclosure of certain personal information is governed by legislation including the *Privacy Act 1988 (Cth)* (as amended), the Corporations Act and certain rules such as the ASX Settlement Operating Rules. You should note that if you do not provide the information required on the application for Shares, the Company may not be able to accept or process your application.

8. DIRECTORS' AUTHORISATION

This Prospectus is issued by the Company and its issue has been authorised by a resolution of the Directors.
