## QUARTERLY REPORT FOR THE PERIOD ENDING 31 DECEMBER 2025

### HIGHLIGHTS

- A 10-year binding export agreement is currently in place with South Korea's Hydro Lithium for all Phase 1 output. The agreement scales from an initial 150 tpa LCE up to a target of 10,000 tpa LCE, ensuring a long-term customer for the project's commercial-scale production.
- Secured a non-binding offtake agreement to supply 6,000 tonnes per annum of Lithium Carbonate Equivalent (LCE) in the form of concentrated Lithium Chloride (LiCl) to Stardust Power's Oklahoma refinery, further validating the economic viability of the world-class Prairie Lithium Project.
- Completed groundworks and geotechnical works at Pad #1 for the lithium extraction facility.
- Received approval from SaskPower to have Pad #1 connected to grid power.

Prairie Lithium Limited (ASX: PL9, OTC: PLIXF) ("Prairie Lithium", "PL9" or "the Company"), is pleased to provide an overview of the Company's activities for the period ending 31 December 2025 ("Quarter" or "Reporting Period") to accompany the Appendix 5B.

**Prairie Lithium Managing Director, Paul Lloyd, commented:**

*"This past quarter was a pivotal period for Prairie Lithium as we aligned rising market prices with the execution of several foundational project milestones. On the ground, we have completed essential geotechnical work and groundworks, secured grid electricity approval for Pad #1, and finalised contracts with the key vendors who will begin constructing our initial extraction facility in early 2026. These operational advancements ensure we remain on track to establish Canada's first commercial-scale lithium brine production.*

*Corporately, we have solidified our commercial trajectory through two transformative agreements that provide clear direction for our initial production. Our 10-year binding agreement with Hydro Lithium scales from 150 tpa to a target of 10,000 tpa LCE, while our agreement with Stardust Power for 6,000 tpa of Lithium Chloride further validates our project's economic viability. With a guaranteed price floor in place, we are uniquely positioned to capture the upside of the current lithium price ascent while maintaining a secure financial foundation.*

*These partnerships do more than just secure our revenue; they establish a strategic lithium supply chain from Canada to key global partners in South Korea and the United States. By diversifying international trade and supporting the transition to sustainable energy, Prairie Lithium is delivering on its promise to become a leader in the North American critical minerals sector."*

## Prairie Lithium Project

### Prairie Project Lithium Offtake

On 21 October 2025, the Company announced a strategic non-binding offtake agreement to supply Stardust Power with 6,000 metric tons of lithium carbonate equivalent per year.

On 10 December 2025, the Company signed an offtake heads of agreement to supply to Hydro Lithium 100% of the Lithium-bearing Crystallite produced at the Company's Phase 1 commercial-scale proof-of-concept plant (up to 150 tpa Lithium Carbonate Equivalent (LCE) for 10 years. The Company will use best endeavours to seek to increase supply of Lithium-bearing Crystallite to Hydro Lithium to a quantity necessary to produce up to 10,000tpa LCE.

### Prairie Project Pad #1 Construction

On 4 November 2025, the Company announced that it had commenced groundworks construction at Pad #1, the location where the lithium extraction Facility will be built, and that it had submitted an electricity application to SaskPower to connect Pad #1 to grid electricity.

On 2 December 2025, the Company announced that it had completed groundwork and geotechnical work at Pad #1 and that its application to SaskPower to connect Pad #1 to the grid had been approved.

### Capital Raising

#### At-the-Market-Raise

On 28 November, 2025 the Company announced that it has utilised its At-the-Market Subscription Agreement ("ATM") with Acuity Capital (see announcements on 3 May 2024, 25 October 2024, 17 January 2025, 9 April 2025, 18 July 2025 and 19 August 2025) to raise \$1,450,000 (inclusive of costs) by agreeing to issue 200,000,000 fully paid ordinary shares to Acuity Capital at an issue price of 0.725 cents per share.

The ASX Announcement is authorised for release by the Board.
