e-Commerce and digital marketing company RooLife Group Ltd (**ASX: RLG**) (“**RLG**” or the “**Company**”) is pleased to provide shareholders with the Company’s Quarterly Activities Report and Appendix 4C for the Quarter ended 30 September 2021 (the “**Quarter**”).

RLG’s technology platform manages the sale of food, beverages and health and wellbeing products, matching consumer demand with businesses and producers seeking to enter and sell into growth markets connecting global producers and brands directly to consumers.

RLG’s marketplace platform links consumers with brands and facilitates transaction control via its cloud-based operational dashboard with real-time visibility of inventory, consumer purchases and preferences with sales data and other business intelligence, managing sales from order to buyer through direct-to-consumer online store integration.

The Company continued the development and roll out of its technology platform marketplace and launched its direct-to-consumer food store in October 2021 selling products and utilising RLG’s database of proven social media influencers and key social e-commerce platforms.

During the Quarter the Company operated and delivered over 60 unique social/ecommerce/direct-to-consumer sales engagement events across multiple platforms for its represented brands and products.

RLG platform operation and promotion activities during the Quarter

In line with the model and reach of Pinduoduo, China’s largest online shopping platform in terms of the number of active users totalling over 850 million¹, RLG’s store and marketplace platform connect farmers and distributors with consumers directly through interactive shopping experience in a combination of group buying and social shopping where users can share their purchases on social media and can form a team to achieve a lower purchase price for shoppers and drive sales volume for RLG.

UNLOCK A WORLD
OF POTENTIAL

RLG is achieving strong sales growth from the first product line launched, with the Company expecting to continue to expand the range of products sold through the platform over the coming months.

Users can share on social media what they have browsed or purchased and can form a team to achieve a lower price by encouraging friends to purchase and buy collectively in greater volumes.

The Company now represents and sells a growing number of quality products and international brands from Australia, New Zealand, USA, Europe, UK and South America, selling online and directly to consumers with the technology and sales infrastructure necessary for products and brands to sell at scale.

Continued Strong Sales Revenue Growth

RLG expects that this strong sales performance will continue through FY2022, supported by the Company's current balance sheet.

RLG's revenue mix is increasingly progressing from marketing services fees to scalable product sales, validating its vision of being a platform between global suppliers and Chinese consumers. Initial investment in sales channels is already seeing rapid revenue growth and increased sales efficiency as the Company continues to add new online stores and distribution channels.
