DRILLING UPDATE

YANDAL EAST GOLD PROJECT

Renegade Exploration Limited (ASX:RNX) (the **Company** or **Renegade**) is pleased to advise that Air Core (**AC**) drilling at the Coralie Jean prospect of the Yandal East Gold Project (**Project**) has been completed, for a total of 7,900 metres drilled.

The AC Rig has moved on to the Mizina/Ward prospects of the Project where a further 14,800 metres of drilling is planned. Drilling commenced at this location on the week beginning 25 June 2018.

Results from the Coralie Jean drilling program are expected by the end of July 2018.

The Project covers some 70 strike kilometres of underexplored, prospective greenstones within the world class Yandal Greenstone Belt and is located 25km's east of Northern Star's Jundee operation.
