for the three months ended
31 March 2021

During the March quarter Renegade Exploration Limited (the **Company** or **Renegade**) completed geophysical and geological physical surveys at its Yandal East Project and submitted all documentation required to acquire Sovereign Metals Limited (ASX:SVM) interest in the Carpentaria Joint Venture located in Queensland.

Yandal East Project

During the quarter the Company completed substantial programs at the Yandal East Project and included:

- Ground geophysical surveys completed over Riches' and Baxters' Prospects
- Strong conductor discovered at Baxters' Prospect associated with outcropping Ferruginous zone
- Conductor is 600m in length, open to the south and dips at 50° to the east
- Follow up field programs including geological mapping, soil sampling, rock chip sampling were completed
- Soil sampling program conducted over 1200m x 300m grid, assays are pending
- The Company is working to secure rigs for the next phase of work on the new targets generated

Baxter's varies to the majority of Yandal East Project as it has outcrop at surface. An outcropping gossan was discovered during the recent surveys and samples have been sent for assay.

Carpentaria Joint Venture (CJV) Interest Acquisition

The Company announced in December it had agreed terms to acquire the CJV interest from Sovereign Metals Limited (ASX:SVM) (ASX Release dated 17 December 2020).

The Company lodged all documentation required by the Queensland Department of Natural Resources and Energy in early February and is awaiting approval for confirmation of the permit transfers. The Company understands the Department is currently operating remotely under Covid19 protocols and substantial delays are occurring in all processes. The Company has extended its agreement with Sovereign to accommodate the delays.

In the interim the Company has been reviewing the CJV data base and holding discussions with MIM to progress some smaller projects within the CJV not of interest to MIM. The Company outlined one of these projects in its publicly released presentation dated 15 March 2021.

The Company has made its first contribution to the CJV to maintain its 23.03% interest.

CJV Summary

The CJV was initially formed in 2001, with Sovereign acquiring its interest in the joint venture in 2007. Since 2001, total expenditure on the Carpentaria JVA has been approximately \$14.5m, with MIM contributing approximately \$11.6m and Sovereign contributing \$2.9m over that time. Sovereign elected to cease contributing to joint venture expenditure on the tenements, resulting in its joint venture interest reducing to the current interest of approximately 23%.

In consideration for acquiring the Carpentaria JVA interest from Sovereign, Renegade has agreed to make the following payments to Sovereign:

- On completion of the acquisition, Renegade will pay \$100,000 or, at Sovereign's election, issue 15m Renegade shares to Sovereign;
- On the 12 month anniversary of completion, Renegade will pay a further \$100,000 or, at Sovereign's election, issue 10m Renegade shares to Sovereign;
- On the 24 month anniversary of completion, Renegade will pay \$150,000 or, at Sovereign's election, issue 10m Renegade shares to Sovereign.

Any Renegade shares issued to Sovereign pursuant to the acquisition are subject to a 3 month trading restriction, and there is the ability for the parties to agree to any of the above payments being comprised of a combination of cash and Renegade shares.

The acquisition remains subject to receipt of all necessary regulatory approvals to transfer Sovereign's Carpentaria JVA interest to Renegade. Sovereign has advised Renegade that MIM has not exercised its right of first refusal to acquire the Carpentaria JVA interest, such that the sale of the Carpentaria JVA interest is not subject to any third party consents.

Initial due diligence suggests the potential to assess opportunities identified by historical work on the tenements, including both gold and copper prospects.

The key terms of the Carpentaria JVA are as follows:

- The partners contribute to the JVA in accordance with their respective Joint Venture percentage interest;
 - In the event a partner elects not contribute to joint venture expenditure, its interest will dilute by 1% for every \$200,000 spent by the other partner;
 - A partner can elect to sole risk prospects on the basis of the dilution arrangements outlined above;
 - In the event a parties joint venture interest dilutes to less than 10%, the interest will convert to a 1.5% net smelter royalty; and
 - MIM is the manager of the Carpentaria JVA.
-

The Carpentaria JVA holds the following permits:

- EPM 8586 (Mt Marathon);
- EPM 8588 (Mt Avarice);
- EPM 12180 (St Andrews Extended);
- EPM 12561 (Fountain Range); and
- EPM 12597 (Corella River).

Yukon Project

The Company advised by ASX Release dated 4 December 2020 that it had entered into an Option Agreement to sell the project to a Vancouver based investor group.

Corporate

At the end of the quarter the Company had 864,626,638 ordinary shares on issue and the equivalent funds of \$664,000 at bank as of 31 March 2021.

The cash expenditure incurred on exploration activities during the quarter as summarised in this report is approximately \$192,000. No expenditure was incurred on mining production or development activities during the quarter.

Payments totalling approximately \$68,000 were made to related parties of the Company, as shown in the Appendix 5B. These payments related to director and consulting fees payable to non-executive directors for services provided for field and corporate related activities.

This quarterly report has been authorised by the Board of Renegade Exploration Limited.

Ends.

About Renegade Exploration Limited

Renegade Exploration Limited (ASX:RNX) is an Australian based minerals exploration and development company.

The Company's flagship Yandal East Project is located within a well-endowed gold region known as the Yandal Greenstone Belt, 70km NE of Wiluna, Western Australia. The current major production centre is at Jundee, located ~25km west of Yandal East. The region has historically produced in excess of 10Moz of gold and the Company's tenements are contiguous to the historic Millrose gold deposit.

The Company recently acquired a 23.03% interest in the Carpentaria Joint Venture. The major partner and operator is Glencore subsidiary, MIM Limited, and has copper projects located in the prolific Cloncurry-Mt Isa region.

Renegade also owns 90% of the Yukon Base Metal Project located within the highly prospective Selwyn Basin, Yukon Territory, Canada. This Project is now under Option to sell.

The Company's primary objective is to deliver long-term shareholder value through the discovery, acquisition and development of economic mineral deposits.

Competent Person Statement

The information in this announcement that relates to exploration results for the Yandal East Gold Project is based on information compiled by Mr Ben Vallerine, who is a consultant to the Company.
