Cautionary statement

This presentation includes forward-looking statements. When used in this document, the words such as "could", "plan", "estimate", "expect", "intend", "may", "potential", "should" and similar expressions are forward-looking statements. Although Sunshine Metals Ltd. ("Sunshine Metals ") believes that the expectations reflected in these forward-looking statements are reasonable, such statements involve risks and uncertainties and no assurance can be given that actual results will be consistent with these forward-looking statements.

This presentation has been prepared by Sunshine Metals for the purpose of providing an overview of its current prospects and development strategy to recipients. This presentation and its contents are provided to recipients in confidence on the basis that it may not be reproduced or disclosed in whole or in part to any other person, without the written consent of Sunshine Metals.

This presentation is provided on the basis that neither Sunshine Metals nor its respective officers, shareholders, related bodies corporate, partners, affiliates, employees, representatives and advisers, make any representation or warranty (express or implied) as to the accuracy, reliability, relevance or completeness of the material contained in this presentation and nothing contained in the presentation is, or may be relied upon, as a promise, representation or warranty, whether as to the past or the future. Sunshine Gold hereby excludes all warranties that can be excluded by law.

All persons should consider seeking appropriate professional advice in reviewing the presentation and all other information with respect to Sunshine Metals and evaluating the business, financial performance and operations of Sunshine Metals. Neither the provision of the presentation nor any information contained in the presentation or subsequently communicated to any person in connection with the presentation is, or should be taken as, constituting the giving of investment advice to any person.

All amounts shown are in Australian dollars unless otherwise stated.

Gold Intercepts use a nominal 0.5 g/t Au lower cut off and incorporate up to 3m of internal dilution. Copper and molybdenum intersections are reported using a 0.1% Cu lower cut off and can include a maximum of 3m consecutive dilution providing grade is carried.

Liontown is comprised of a series of predominantly Au-Cu rich footwall lodes (Carrington, Gap and Western Footwall) and Zn-Pb-Ag dominant contact lodes (New Queen and Main Lode). Within the footwall lodes, Au accounts for 51% (Zn ~12%) of the contained metal value. Within the contact lodes, Zn accounts for 52% (Au ~15%) of the contained metal value. Both Au and Zn metal equivalents are provided for the Liontown Resource only. Zinc equivalent (%ZnEq) grades for Greater Liontown (Zn Eq) are based on zinc, copper, lead, gold and silver prices of US\$2500/t Zinc, US\$8500/t Copper, US\$2000/t Lead, US\$1800/oz Gold and US\$20/oz Silver, with metallurgical metal recoveries of 88.8% Zn, 80% Cu, 70% Pb, 65% Au and 65% Ag and are supported by metallurgical test work undertaken.

The zinc equivalent calculation is as follows: $Zn Eq = Zn grade\% * Zn recovery + (Cu grade \% * Cu recovery \% * (Cu price \$/t / Zn price \$/t)) + (Pb grade \% * Pb recovery \% * (Pb price \$/t / Zn price \$/t * 0.01)) + (Au grade g/t / 31.103 * Au recovery \% * (Au price \$/oz / Zn price \$/t)) + (Ag grade g/t / 31.103 * Ag recovery \% * (Ag price \$/oz / Zn price \$/t * 0.01))$. For Waterloo Transition ores recoveries of 76% Zn, 58% Cu and 0% Pb have been substituted into the ZnEq equation above. For Liontown Oxide ores recoveries of 44% Zn, 40% Cu and 35% Pb have been substituted into the ZnEq equation above. Further metallurgical testwork is required on the Liontown oxide domain. Reported on 100% Basis.

It is the opinion of Sunshine Metals and the Competent Person that all elements and products included in the metal equivalent formula have a reasonable potential to be recovered and sold.

The information in this report that relates to Exploration Results is based on, and fairly represents, information compiled by Mr Matt Price, a Competent Person who is a Member of the Australian Institute of Geoscientists (AIG). Mr Price has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration, and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the JORC Code. Mr Price consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

The information in this report that relates to Mineral Resources at Liontown is based on information compiled and reviewed by Mr. Lyon Barrett who is a Member of the Australian Institute of Mining and Metallurgy (AusIMM) and is a Principal Geologist employed by Measured Group Pty Ltd. Mr. Barrett has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Mineral Resources. Mr. Barrett consents to the inclusion in the report of the matters based on his information in the form and context in which it appears. ASX: SHN, 26th November 2025, Significant Upgrade in Liontown Shallow Gold Resource.

The information in this report that relates to Mineral Resources at Plateau is based on information compiled and reviewed by Dr Damien Keys, who is a Member of the Australasian Institute of Mining and Metallurgy and a Member of the Australian Institute of Geoscientists (AIG). Dr Keys has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Mineral Resources. Dr Keys consents to the inclusion in the report of the matters based on his information in the form and context in which it appears. SHN ASX Release, 20th January 2023, "Consolidation of High Grade Au Prospects RW". No new information has been collected and all material assumptions remain unchanged.

Cautionary statement (continued)

The information in this report that relates to Mineral Resources at Waterloo and Orient is based on information compiled and reviewed by Mr Stuart Hutchin, who is Member of the Australian Institute of Geoscientists (AIG) and is a Principal Geologist employed by Mining One Pty Ltd. Mr Stuart Hutchin has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Mineral Resources'. Mr Stuart Hutchin consents to the inclusion in the report of the matters based on his information in the form and context in which it appears. SHN ASX Release, 8 May 2023

The information in this report that relates to Mineral Resource at Liontown East is based on information compiled and reviewed by Mr Peter Carolan, who is a Member of the Australasian Institute of Mining and Metallurgy and was a Principal Geologist employed by Red River Resources Ltd. Mr Peter Carolan has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Mineral Resources'. Mr Peter Carolan consents to the inclusion in the report of the matters based on his information in the form and context in which it appears. SHN ASX Release, 8 May 2023

The information in this report that relates to Exploration Results at Sybil is based on, and fairly represents, information compiled by Mr Tav Bates, a Competent Person who is a Member of the Australian Institute of Geoscientists (AIG). Mr Bates has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration, and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the JORC Code. Mr Bates consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

JORC Code

It is a requirement of the ASX Listing Rules that the reporting of ore reserves and mineral resources in Australia comply with the Joint Ore Reserves Committee's Australasian Code for Reporting of Mineral Resources and Ore Reserves (JORC Code). Investors outside Australia should note that while Ore Reserve and Mineral Resource estimates of the Company in this presentation have been prepared by a competent person in accordance with the 2012 JORC Code (such ore reserves and mineral resources being "Ore Reserves" and "Mineral Resources" respectively), they may not comply with the relevant guidelines in other countries and, in particular, do not comply with (i) National Instrument 43-101 (Standards of Disclosure for Mineral Projects) of the Canadian Securities Administrators (the "Canadian NI 43-101 Standards"); or (ii) Item 1300 of Regulation S-K, which governs disclosures of mineral reserves in registration statements filed with the US Securities and Exchange Commission. Information contained in this document describing mineral deposits may not be comparable to similar information made public by companies subject to the reporting and disclosure requirements of Canadian or US securities laws. You should not assume that quantities reported as "resources" will be converted to reserves under the JORC Code or any other reporting regime or that the Company will be able to legally and economically extract them.

Not an offer

This Presentation is not and should not be considered an offer, invitation or recommendation to acquire, subscribe for or sell any New Shares or any other securities or financial products in any jurisdiction and does not and will not form any part of any contract for the acquisition of New Shares.

This Presentation may not be released to U.S. wire services or distributed in the United States. This Presentation does not constitute an offer to sell, or a solicitation of an offer to buy, any securities in the United States or any other jurisdiction. The New Shares have not been, and will not be, registered under the U.S. Securities Act of 1933 (the U.S. Securities Act) or the securities laws of any state or other jurisdiction of the United States. Accordingly, the New Shares may not be offered or sold, directly or indirectly, in the United States except in transactions exempt from, or not subject to, the registration requirements of the U.S. Securities Act and any applicable securities laws of any state or other jurisdiction of the United States. The distribution of this Presentation in the United States and elsewhere outside Australia may be restricted by law. Persons who come into possession of this Presentation should observe any such restrictions, including those set forth in the "International Offer Restrictions" section of this Presentation, as any non-compliance could contravene applicable securities laws.

Board of Directors

Managing Director	Damien Keys
Non-Executive Chairman	Alec Pismiris
Non-Executive Director	Jo Bergamin
Non-Executive Director	Fred White

2025 – 2026 Drilling success, strong share price

The Board

Damien Keys
Managing Director

A geologist with 25 years experience in mining and exploration. Has led teams to exploration success with Gold Fields Australia, Silver Lake Resources, Black Cat Syndicate and Spectrum Metals. Completed a PhD in Structural Geology (James Cook University, Townsville).

Alec Pismiris
Chair

Experienced director and company secretary with over 30 years' experience in the securities, finance and mining industries. Completed a Bachelor of Commerce degree (University of Western Australia). Other current directorships: Agrimin Limited, Frontier Resources Limited, the Market Herald Limited and Pacton Gold Inc., a company listed on the TSX Venture Exchange.

Fred White
Non-Executive Director

Metallurgist with extensive experience in gold and base metals. Held management and board roles at Mount Isa for both MIM and Xstrata. He later ran Sea Swift, Australia's largest private shipping company. Mr White brings hands-on expertise in operations, logistics, production, and start-ups.

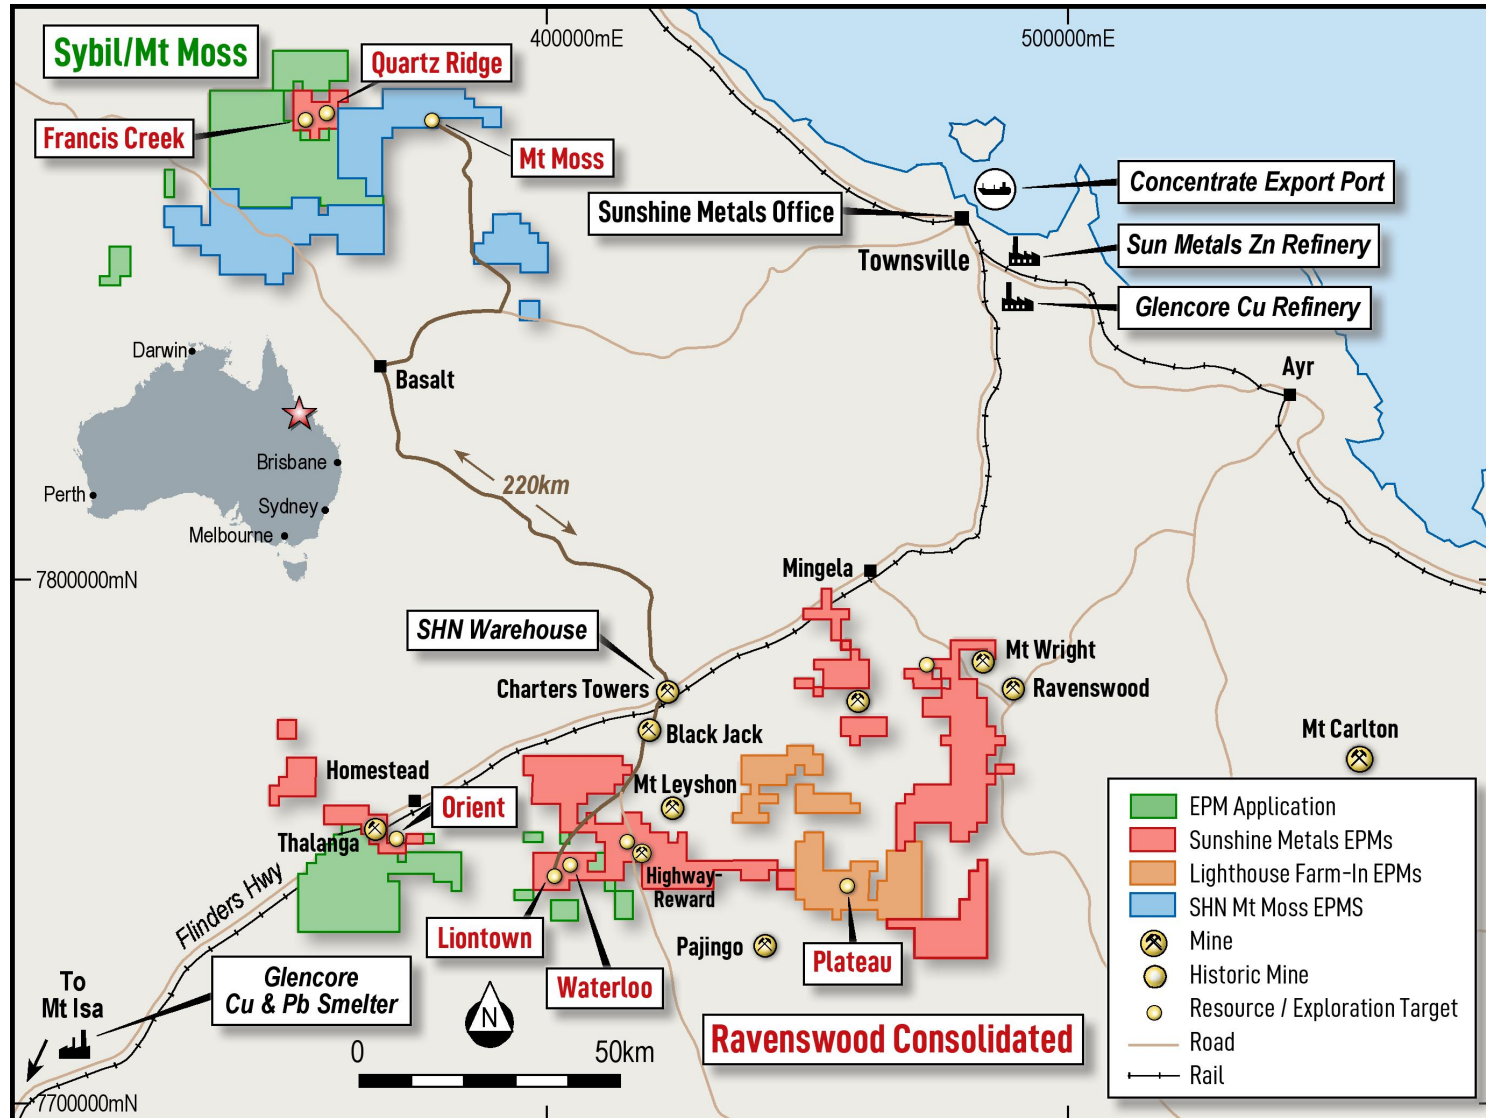

Jo Bergamin
Non-Executive Director

Communications and sustainability expertise across the resources and energy sectors in Queensland. Holds Bachelors of Arts and Commerce, an MBA and a Graduate Certificate in Sustainable Energy (University of Queensland).

Sunshine Metals

Gold-Copper-Silver in North Queensland

Assets

- *Liontown – gold & base metals*
- *Sybil – gold discovery*

- Resources – **929koz AuEq**
- **Liontown** resource:
 - 6.3Mt @ 3.6g/t AuEq
 - Resource update – April 2026
- Shallow, gold-only portion:
 - 749Kt @ 3g/t Au & 26g/t Ag (8% of resource)
- **Sybil** – shallow, high-grade epithermal discovery:
 - 4.5m at 17.2g/t Au from 82.5m
 - 4.4m @ 57.5g/t Au from 23.6m
 - 2.8m @ 15.2g/t Au from 37.0m

Acquisition

- *Mt Moss – process plant*

- **Mt Moss – A\$18M acquisition**
 - Ownership – 100%
 - Plant – front end of gold milling circuit, tailings dam, workshop, office and camp
 - Capex – A\$28.5M
 - Mining Lease – permitted
 - First production – June 2027 target
 - Production/cost benefits – owner operator v's toll milling
- **Capital Raising**
 - A\$22M capital raising comprising a A\$19M two-tranche placement and up to A\$3M¹ SPP at A\$0.027 per share
 - Restart capex debt funding discussions advancing

Outlook

- *Gold & Metals – production + resource growth*

1. **Gold – extend mine life**
 - Liontown – gold extensions (e.g. Gap Zone)
 - Sybil – 25km from Mt Moss (infill/extension drill)
 - Regional consolidation – multiple opportunities
2. **Base metals – consider adding a circuit**
 - Liontown base metals: 6.3Mt @ 10% ZnEq
 - Mt Moss copper and zinc potential:
 - 20m at 4.4% Cu
 - 12m at 19% Zn
3. **Exploration – leverage processing capability**

1. The Company reserves the right to accept oversubscriptions under the SPP, and / or place SPP shortfall

Production Outlook

PREVIOUS: Gold Mining via Toll Treating

- Toll Treating – 75koz gold over 4 years (8% of Resource)
- Owner operator – April 2026 gold study incorporating new mill
- Outlook for base metals – study on remaining 92% Resource 2026

NEW: Plant acquisition provides low-cost route to production

- \$28.5m capex to move into gold production
- Front end of gold milling circuit on permitted mining lease
- Room to expand mill & add base metal concentrator

Copper – Zinc Near Mill Upside

- Mt Moss 1.5km long magnetite copper-zinc skarn
- Historical drilling: **19.9m @ 4.41% Cu & 12m @ 19.09% Zn**

Sybil Gold Project

- Emerging high grade epithermal gold discovery, 25km to Mt Moss
- Similarities to the 4Moz Pajingo deposit
- Drilled 14 holes (2025), best result: **4.4m @ 57.51g/t Au.**

Willets Pit, Mt Moss

Mt Moss Acquisition

Key Terms

Consideration

- **A\$8M upfront & A\$10m deferred cash consideration¹**
- A\$7/t royalty on magnetite produced.

Front-end of gold processing plant

- ~300ktpa crushing & grinding circuit, last operated in 2022.
- Tailings capacity for ~18 months. Space to lift.
- Leaching, reagent and gold room required.

Fast-track Approvals

- **Permitted mining lease** with ability to fast-track (~14 months) permitting for processing gold.

Sybil Project access

- Ability to establish haul road to Sybil project ~25km west.

Site infrastructure

- Camp, office, workshop in excellent condition.

1. Includes A\$0.9m cash environmental bond held for Mt Moss and approximately A\$0.3m paid to date. Deferred consideration payable by April 2027.

Lilley's Pit, Mt Moss

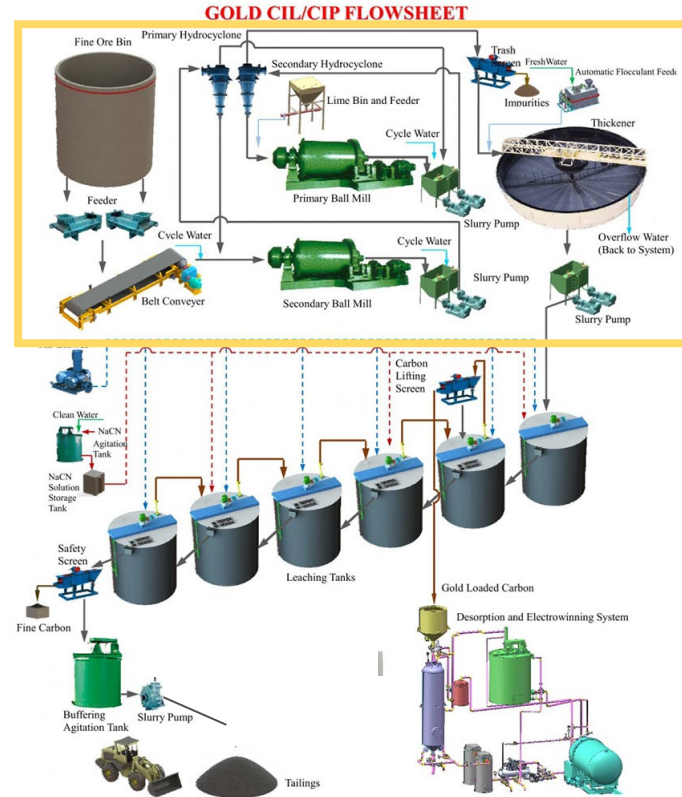

Mt Moss Acquisition

Mt Moss Site Overview

Mt Moss Mill

Grinding circuit in excellent condition

Mt Moss Mill

Plan and costings – low restart capex

- Detech Engineering (Townsville) – engineering assessment complete
- **Targeting first production in June 2027**
- **Debt funding discussions advancing**

Application	A\$M
Leaching/adsorption tanks and infrastructure	7.5
Grinding	6.9
Gold Room	6.4
Reagent storage	2.5
General site expenses camp, workshop, water and power also assessed	5.2
Total	28.5

Liontown Mining Study

**Robust Au economics,
Base Metal study in 2026**

ASX:SHN

shnmetals.com.au

Liontown Mining Study Toll Treating Scenario

A strong base case likely to improve with own mill

- 3 Stage open pit and underground mine.
- **Mining Scenario ONLY ~8%** of Ravenswood Consolidated Resource.
- Base Metal mining study to commence 2026.
- Highlights:
 - Gold/Silver Mined: 75,227oz / 653,967oz
 - Operating Cashflow After Capital: \$163M
 - Max cash draw down*: \$4.6M
 - All in sustaining cost: \$2,741/oz Au
 - Mine life: 47 months
 - Gold/silver price assumed: A\$6,500/oz Au & A\$100/oz Ag
- Model/study update in May/June 2026 incorporating latest drill results.
- **Study upside – owner operator v’s toll treatment**
 - Potential operating cost saving – removal of toll treatment charges
 - Potential increase in annual gold output – 300ktpa plant
 - Mine life upside – study covers only 8% of Liontown resource
 - Exploration upside – rapid monetization of exploration success

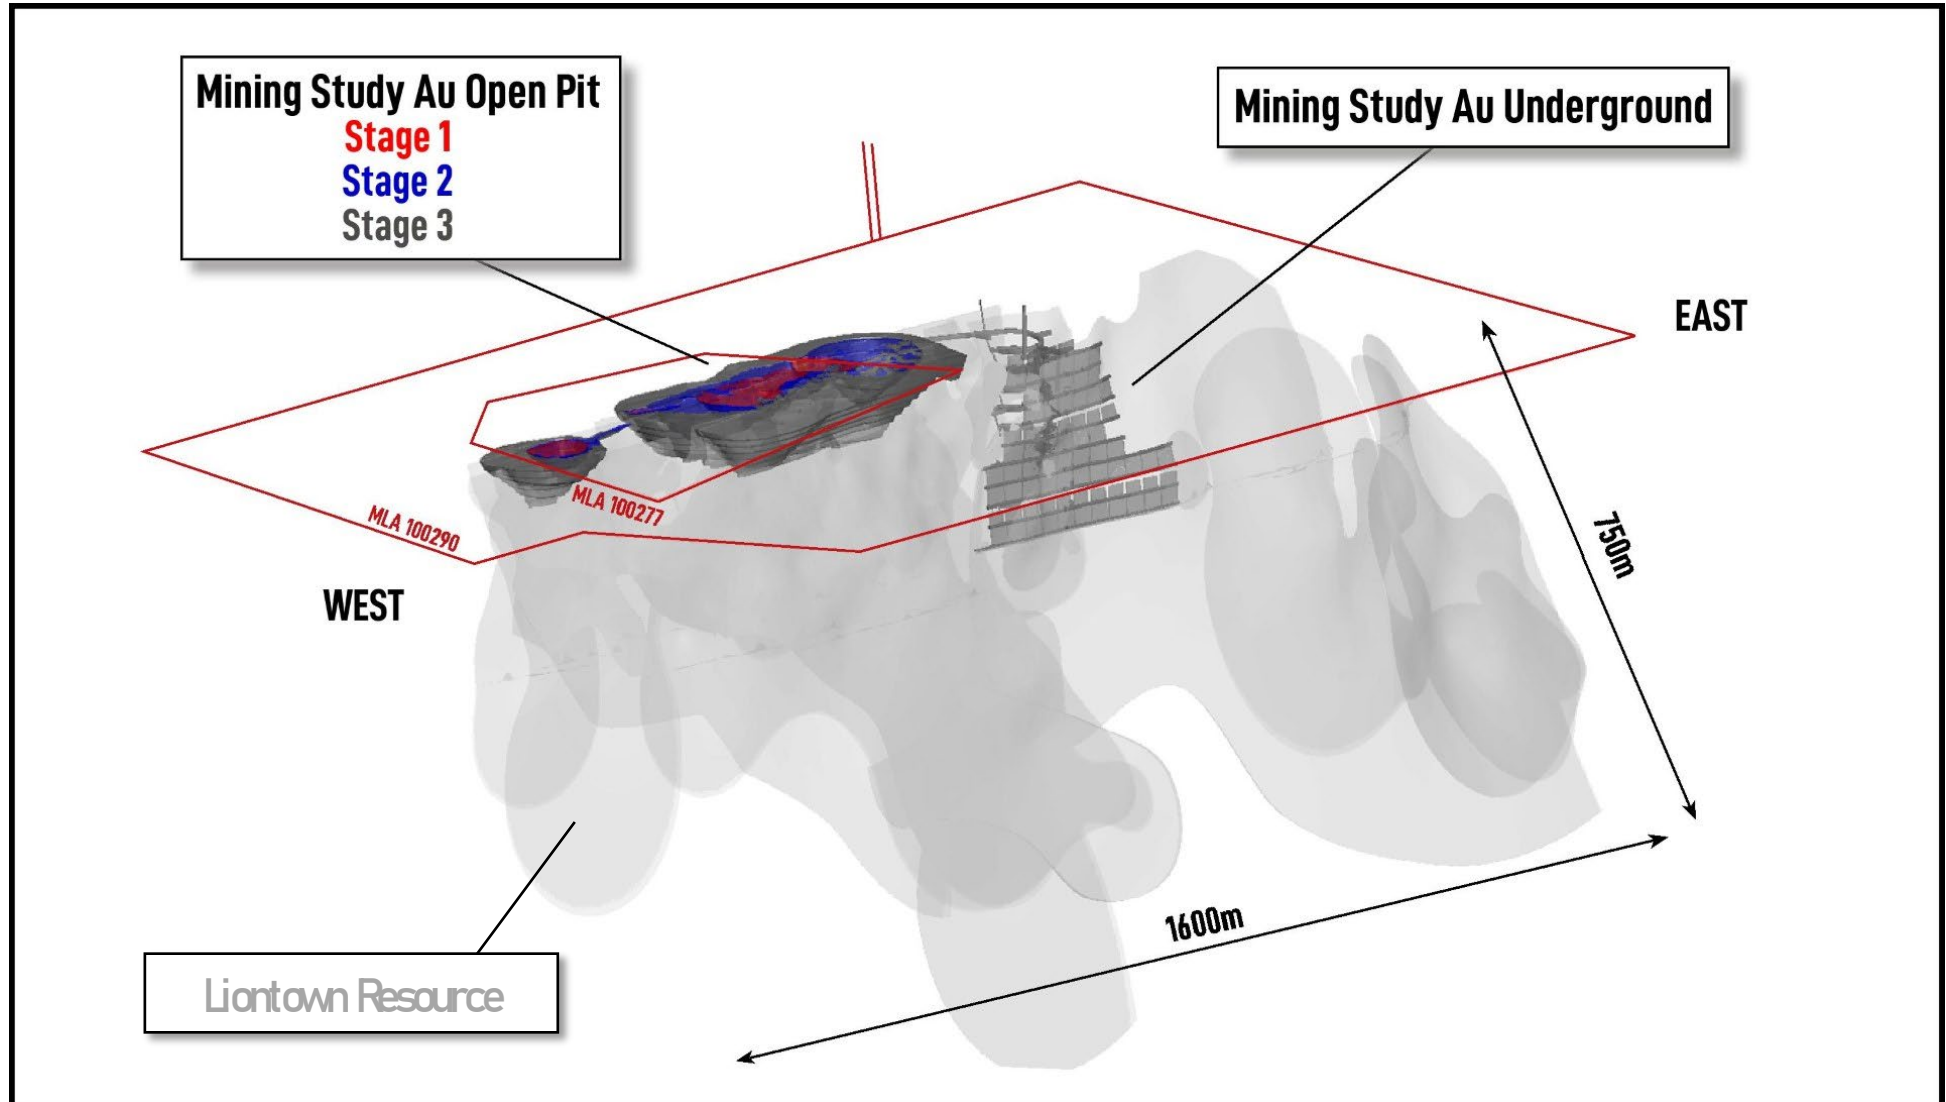

* Excludes Mt Moss capital works

Gold Price \$/oz	Operating Net Cashflow (\$M)
\$5,500	\$102.7
\$5,700	\$114.5
\$5,500	\$126.7
\$6,100	\$138.7
\$6,300	\$150.7
\$6,500 (Base Case)	\$162.7
\$6,700	\$174.8
\$6,900	\$186.8
\$7,100	\$198.8
\$7,300	\$210.8
\$7,500	\$222.8
\$7,700	\$234.8
\$7,900	\$246.9
\$8,100	\$258.9
\$8,300	\$270.9
\$8,500	\$282.9

Sensitivity to \$200/oz gold price increments

Liontown Gold Mining Study

~8% of Liontown Resource tonnes

Liontown Mining Study

Upside Gold-Silver

121-hole infill program recently completed

High-grade intersections – not in current Mining Study:

- **30m @ 6.68g/t Au & 528g/t Ag** from 17m
- **24m @ 7.08g/t Au & 305g/t Ag** from 14m
- **23m @ 4.19g/t Au & 113g/t Ag** from 7m
- **20m @ 5.62g/t Au & 310g/t Ag** from 8m
- **8.0m @ 7.31g/t Au & 1,321g/t Ag** from 10m

May/June 2026 – upgrades to be incorporated:

- Improved metallurgical test work
- Higher Ag grades, optimising process to maximise revenue
- Revised geotechnical parameters
- Owner-operated processing (no toll treating charge)

Liontown Gold Extensional Targets

Gap Zone

Echeloned gold zones with extensional targets east of current pit and underground design. Drilling planned 2026.

Sybil Epithermal Gold

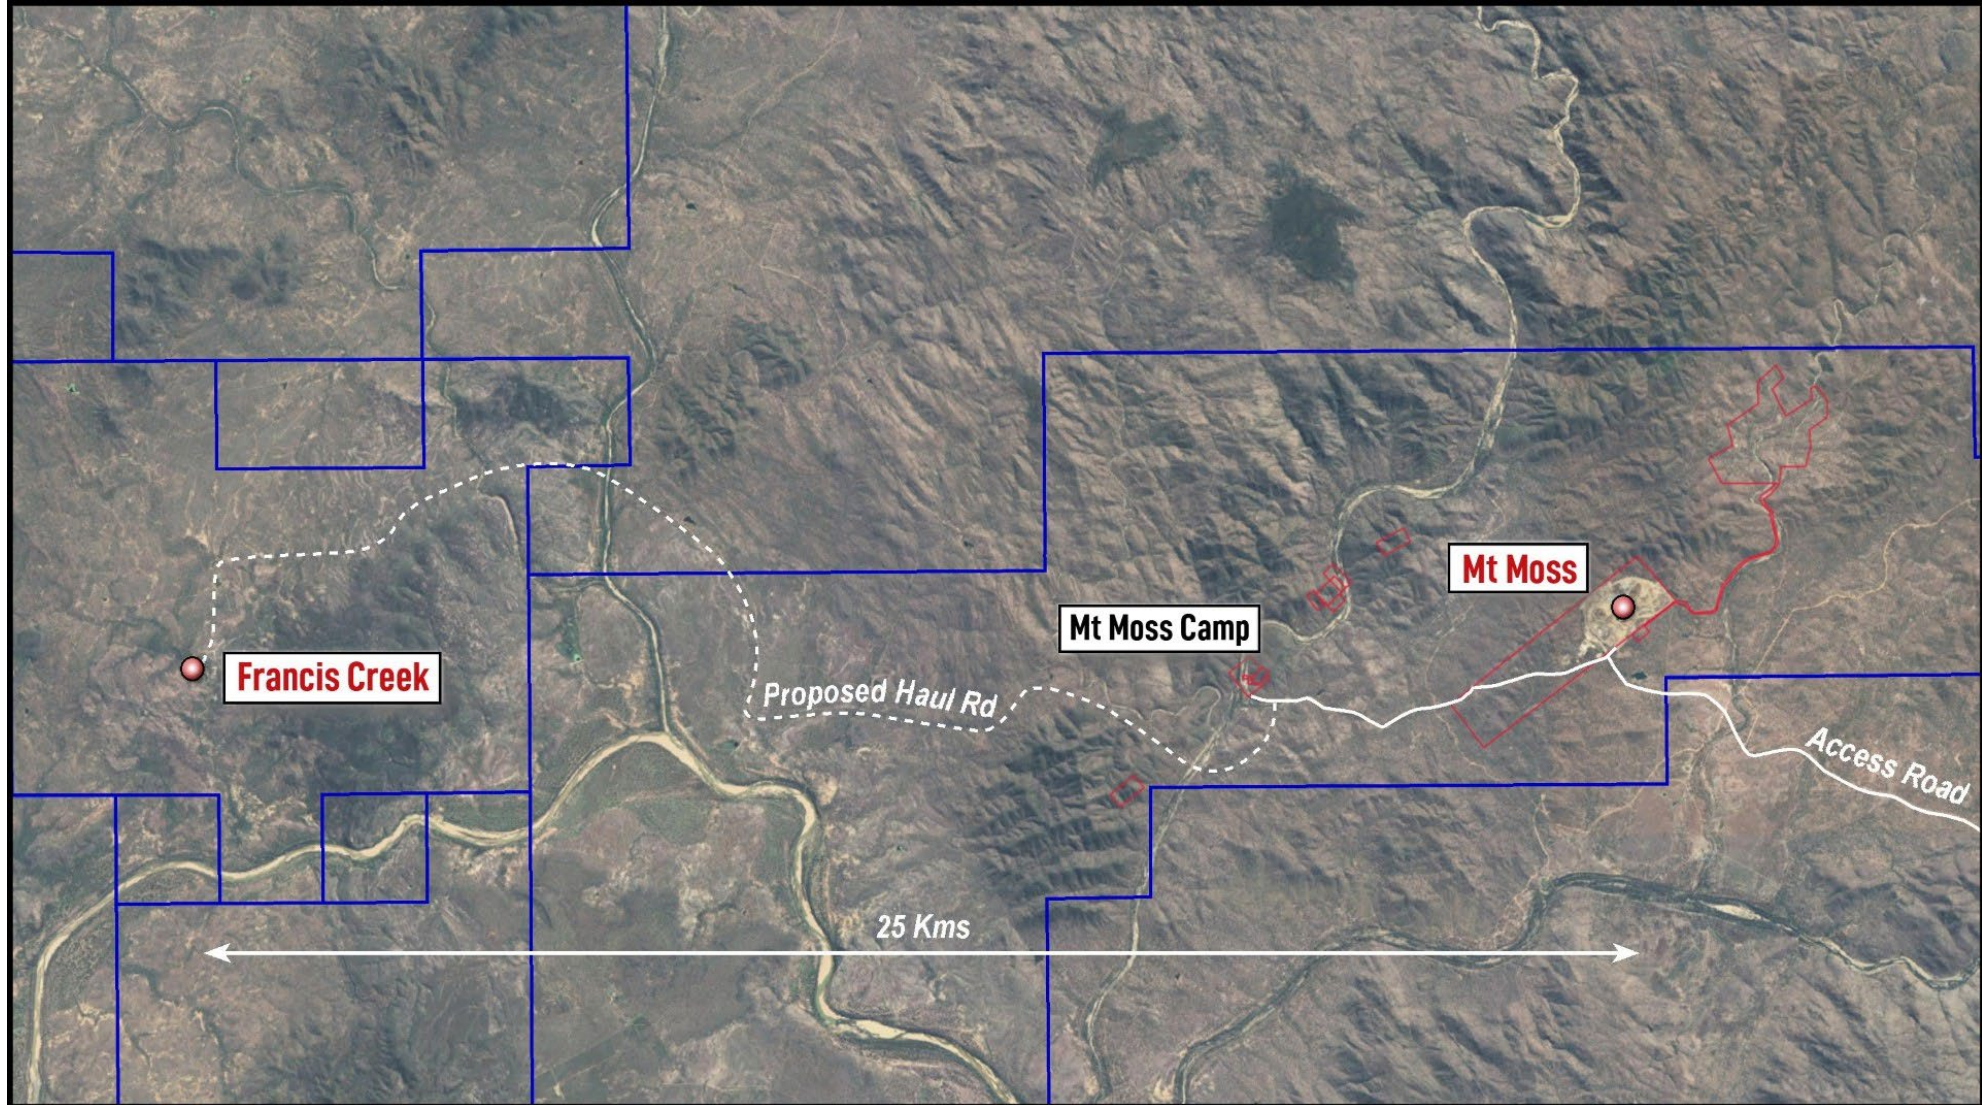

High-grade, scale potential

ASX:SHN

shnmetals.com.au

Francis Creek Project - Sybil Epithermal Au-Ag Utilise Mt Moss Camp & Coreshed

Sybil Epithermal Excellent results

High-grade intersections:

- 5.2m @ 9.01g/t Au
 - 4.5m @ 17.23g/t Au
 - 4.4m @ 57.51g/t Au
 - 3.8m @ 6.12g/t Au
 - 2.8m @ 15.15g/t Au
-
- 14 holes drilled, high-grade Au in 12 of 14.
 - First drilling at Francis Creek in ~18 yrs.
 - Contiguous tenure with Mt Moss, 25km from Mt Moss processing plant.

Sybil Epithermal 4Moz Au Pajingo analogue

- Prospective “boiling zone” thickens to E & SE
- Further drilling in April ‘26
- Other high-priority targets
- **Quartz Ridge**
68m @ 0.38g/t Au
from 36m, FSR070
- 22m @ 0.55g/t Au
from 0m, FSR035
- **Francis Creek East**
28.1g/t Au rock chip,
undrilled

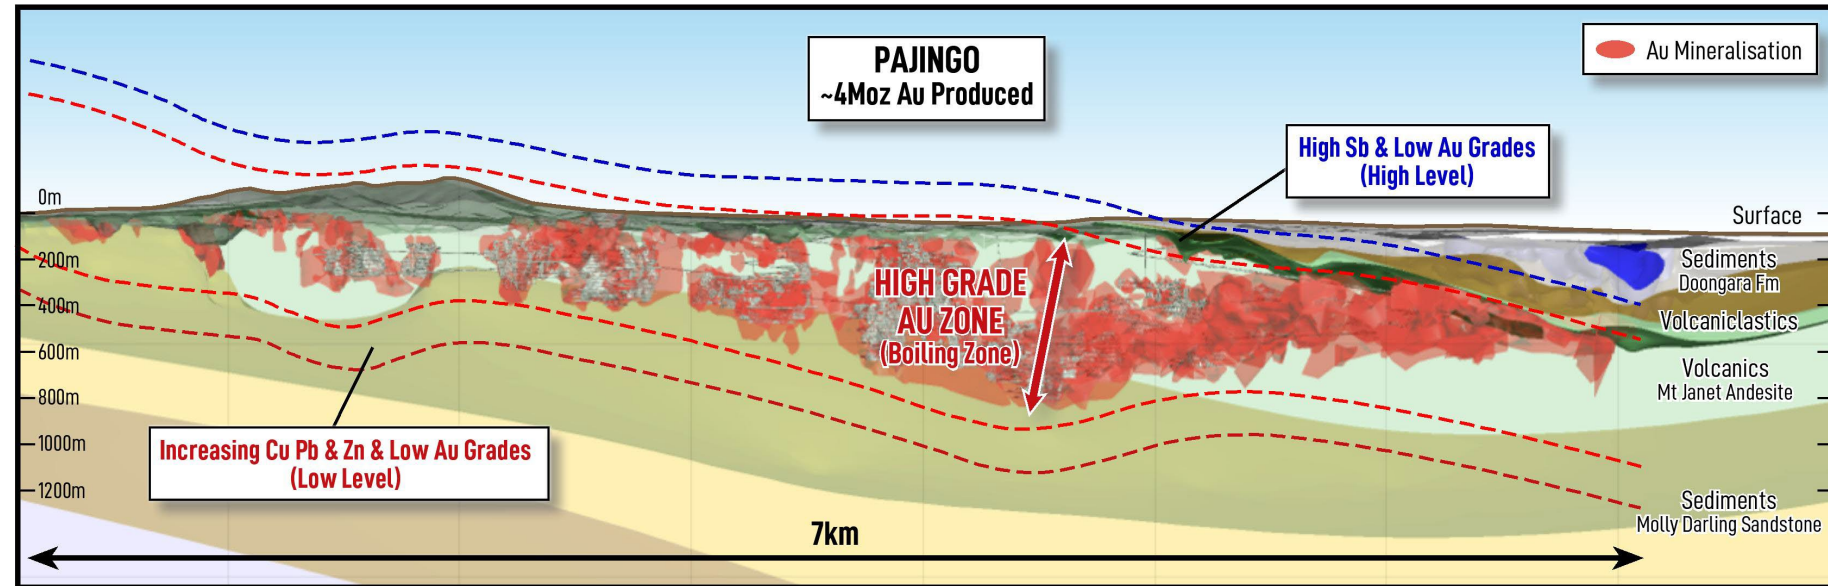

Figure modified from AIG NEQ Minerals Workshop Presentation, “Pajingo – exploring undercover”, March 2022.

Next Phase Growth Base Metals

**+6Mt at Liontown
Mt Moss exploration upside**

ASX:SHN

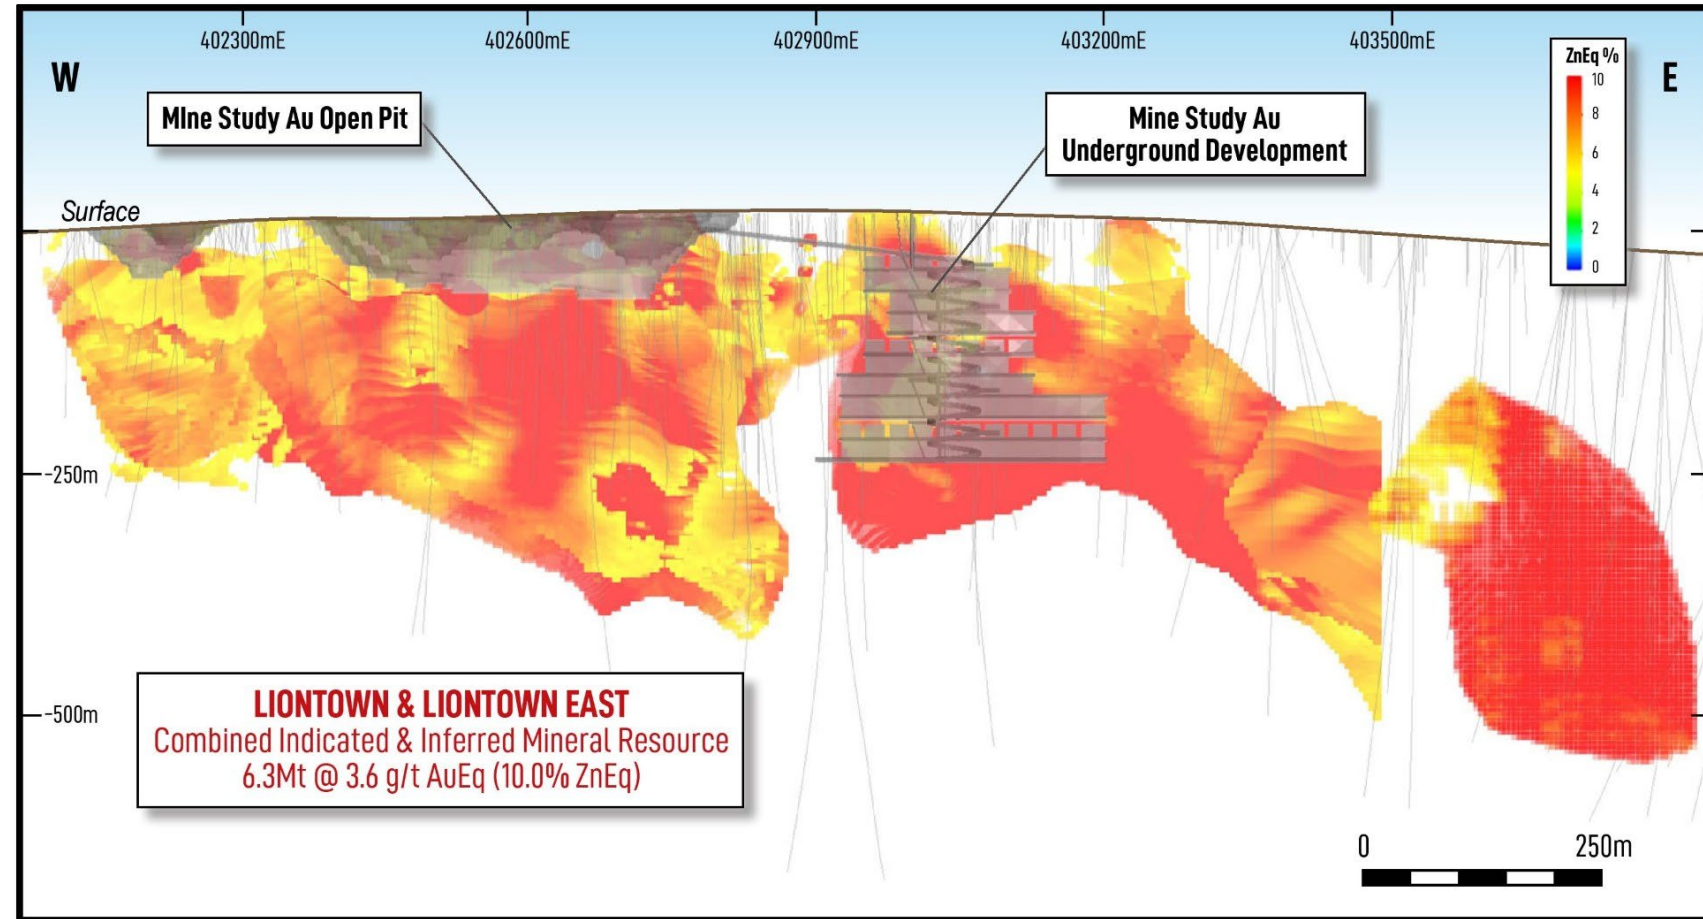

shnmetals.com.au

Liontown Base Metals

Capacity to be long term producer – updated mining study 2026

- Liontown Gold Mining Study
749Kt @ 3.0g/t Au & 25.7g/t Ag.
- Liontown Au-Cu-Zn-Ag Resource
6.3Mt @ 3.6g/t AuEq (10.0% ZnEq).
- Proposed gold operation provides access to Base Metal Resource.
- Base Metal Mining Study to commence 2026.
- Other Base Metal Resources:
 - Waterloo: **690Kt @ 6.3g/t AuEq (17.4% ZnEq)**
 - Orient: **363Kt @ 5.5g/t AuEq (15.4% ZnEq)**

Mt Moss Base Metals

Exploration History and Geology

History

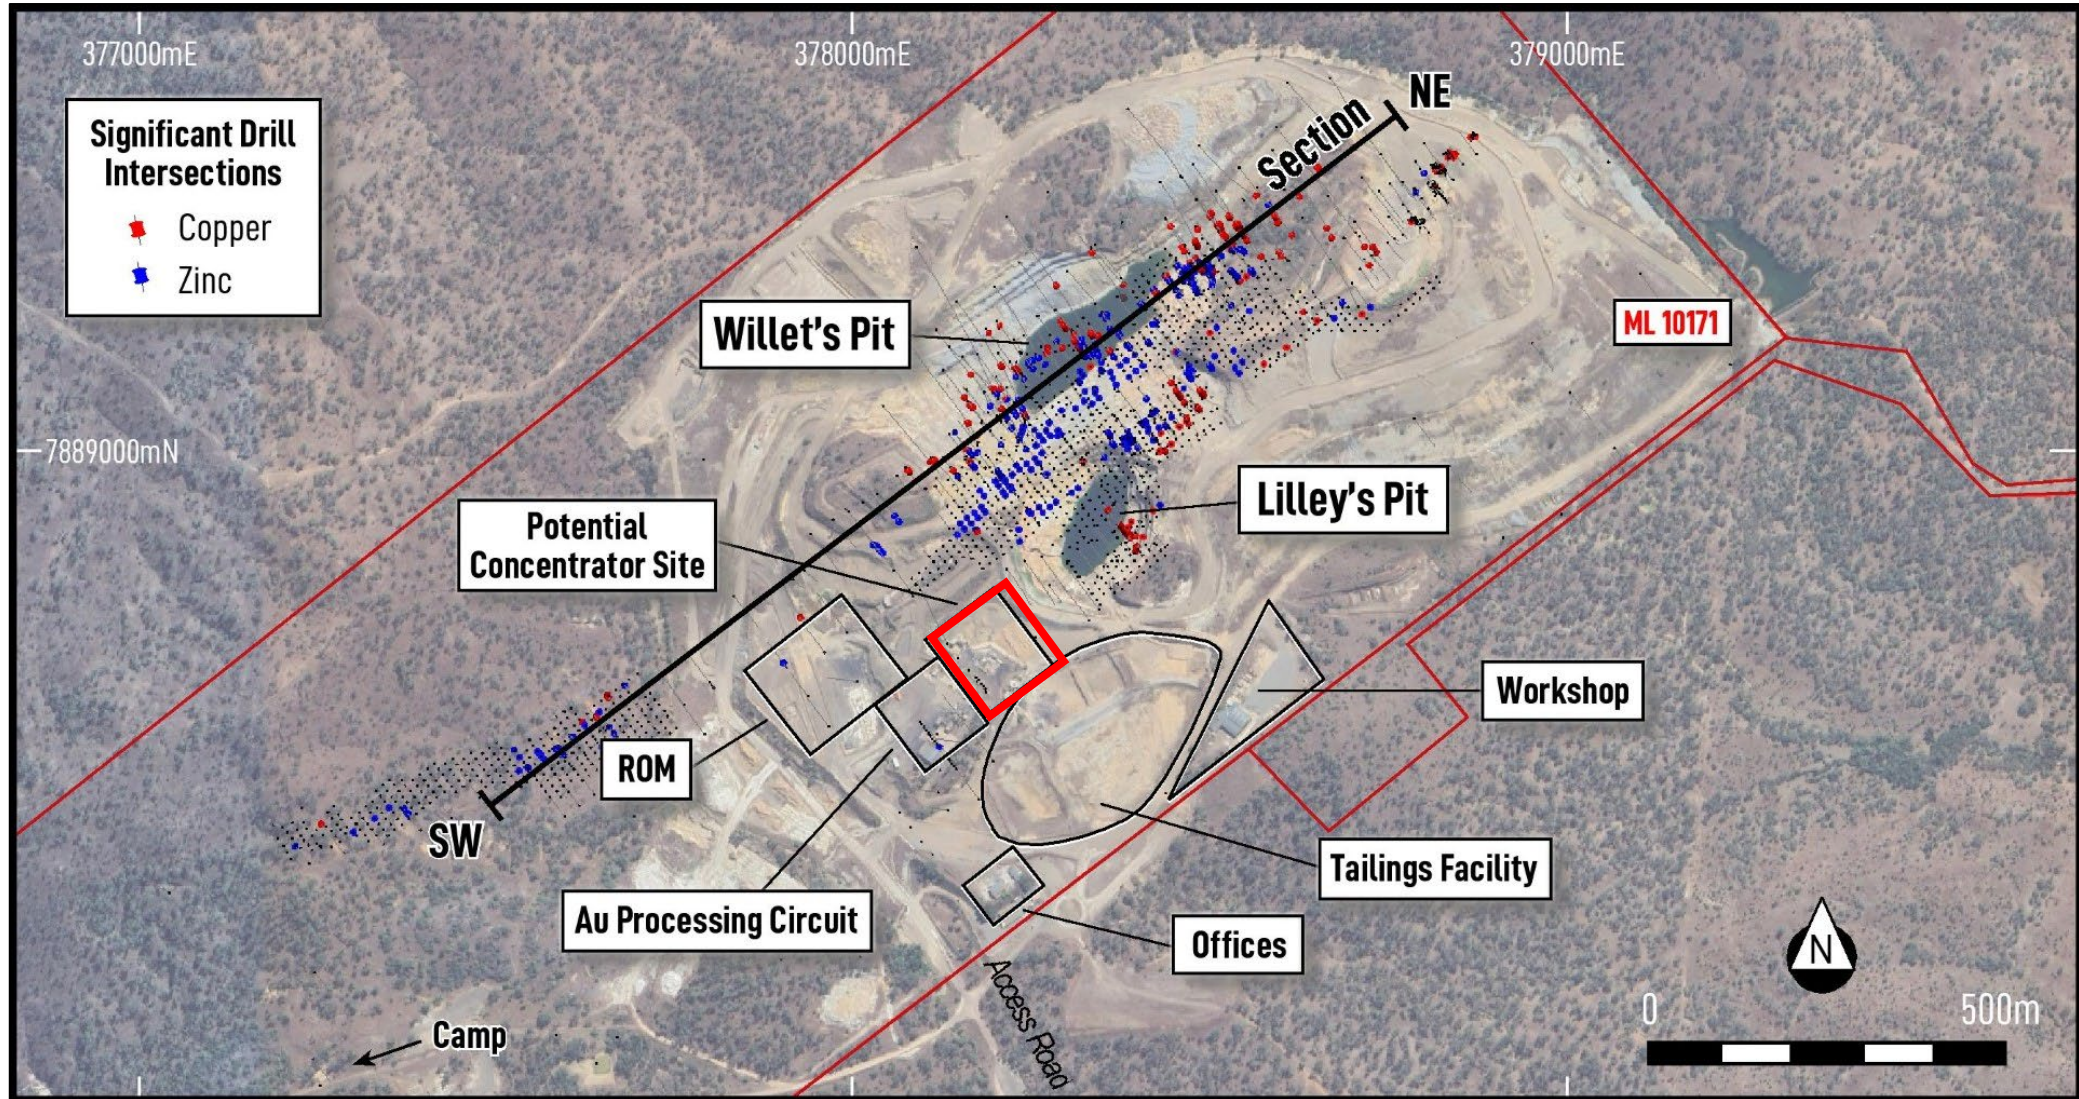

- Extensive exploration history since 1941 focussed initially on tin, copper, zinc and silver.
- Larger explorers including Noranda, Mt Isa Mines and Jervois Mining explored for gold and base metals in from 1987-2004.
- Magnetite became the sole focus of mining and exploration in 2005 (Curtain Brothers).

Geology

- Mt Moss is a magnetite-copper-zinc-silver skarn with nearby historic tin mines.
- Magnetite skarns are typically large-scale mineral systems (>10Mt).
- Mt Moss is a zoned system grading from Zn-rich to Cu-rich at depth; causative intrusion is at depth and close.
- Infrastructure on site to remove magnetite if required (saleable product), prior to sulphide concentration.

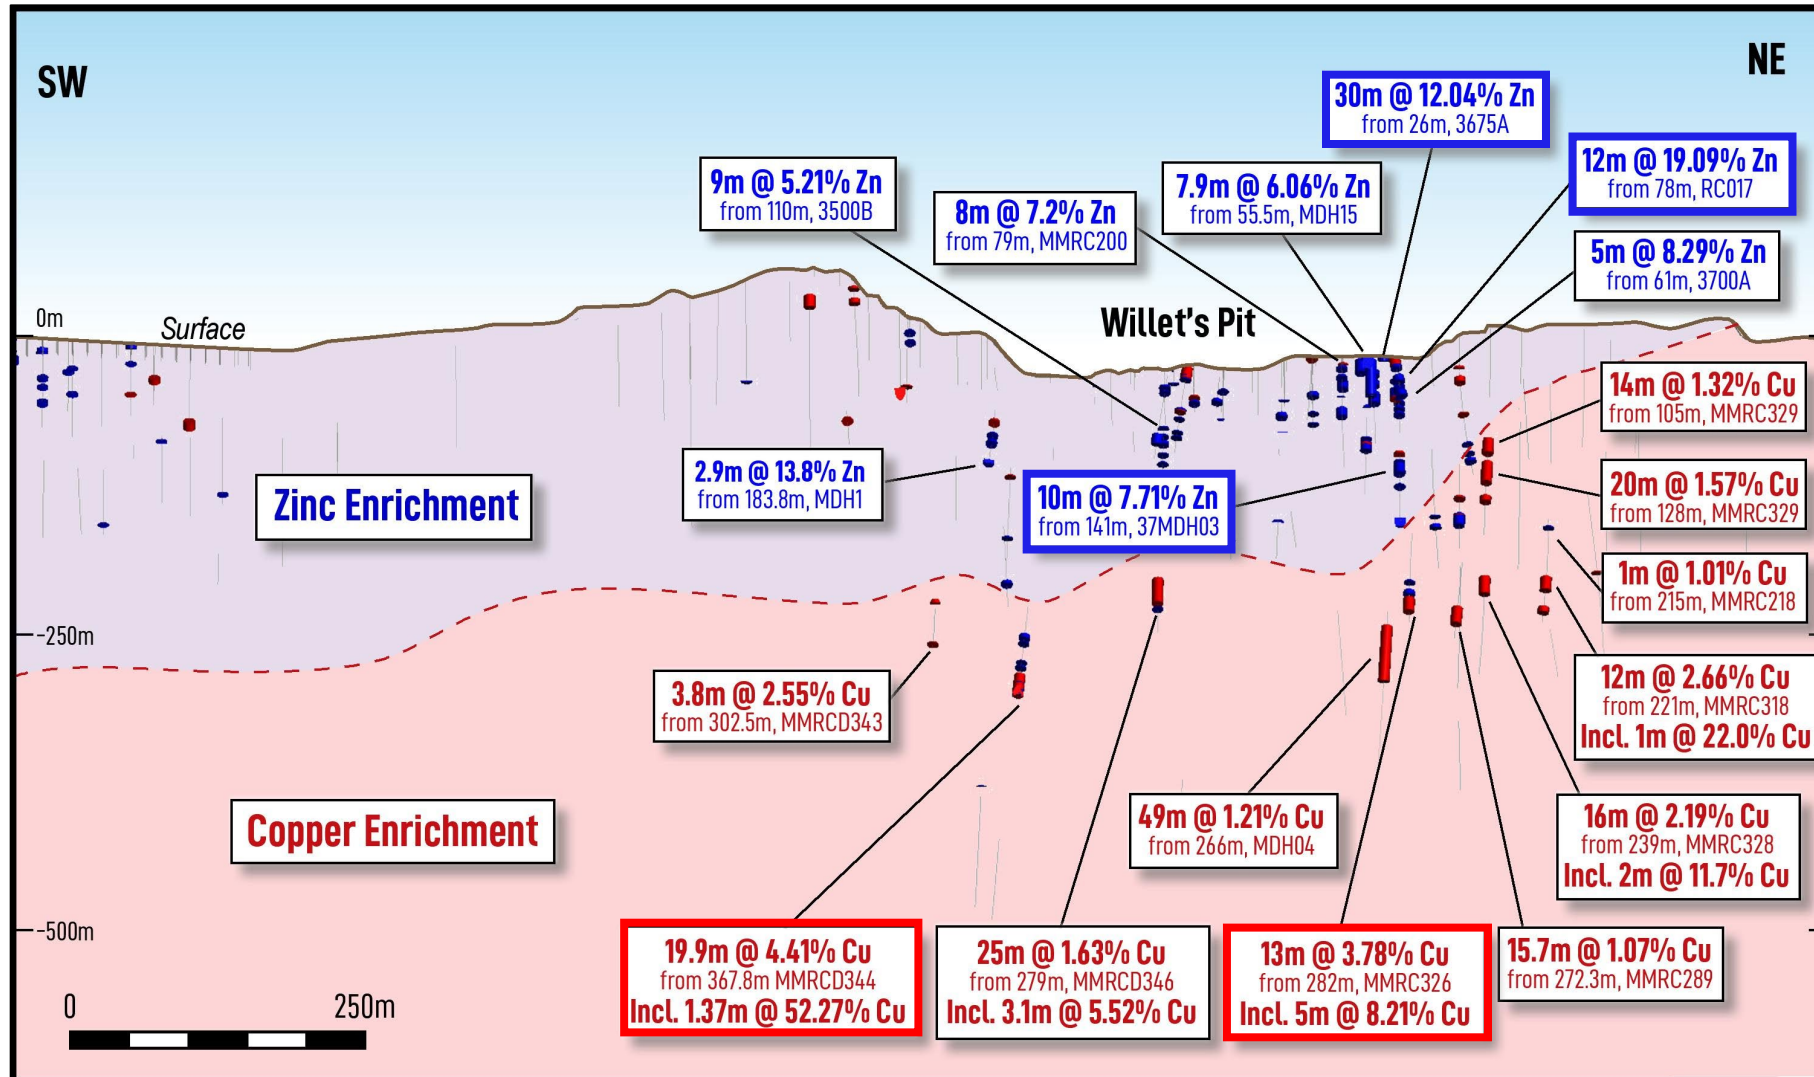

Mt Moss Mine Area

Room for the addition of concentrator

Mt Moss Mine Area

Mt Moss Copper-Zinc-(Magnetite) Potential

2026 Exploration & Development Plan

Upcoming work

Liontown – Advancing Toward Development

May - June

- Gold panel drilling results
- Update shallow gold resource to incorporate 121-hole GC program
- Update of Liontown Gold Mining Study

Sybil – Expanding the Epithermal System

April - May

- Drill pad and camp preparation
- Airborne magnetic survey
- Drilling at Francis Creek, Francis Creek East and Blue Ridge

Corporate Overview

Capital Structure, Sources and Uses

ASX:SHN

shnmetals.com.au

Equity Raising Overview

A\$22M CAPITAL RAISING

Offer structure and size	<ul style="list-style-type: none"> • A\$22M capital raising (Offer) comprising an A\$19M two-tranche placement (Placement) and up to A\$3M share purchase plan (SPP)¹ • The A\$19M Placement will be completed in two-tranches: <ul style="list-style-type: none"> • A\$16.9m under the Company’s ASX Listing Rules 7.1 & 7.1A; and • A\$2.1m subject to shareholder approval at a general meeting of the Company to be held in mid-June 2026. • The SPP will be available to eligible shareholders on the record date, being 29 April 2026 (Record Date), a share purchase plan (SPP), at the same price as the Placement. The Company reserves the right to accept oversubscriptions under the SPP and / or place SPP shortfall.
Offer Price	<ul style="list-style-type: none"> • A\$0.027 per share representing²: <ul style="list-style-type: none"> • 18.2% discount to last closing price of A\$0.033 as at 27 April 2026. • 15.9% discount to the 5-day volume weighted average trading price of A\$0.032 to 27 April 2026
Use of funds	<ul style="list-style-type: none"> • Upfront cash consideration for the acquisition of Mt Moss, Mt Moss long lead items, Liantown mine start up, exploration & resource development, working capital and Offer costs
Ranking	<ul style="list-style-type: none"> • New Shares will rank equally with existing shares from issue
Brokers³	<ul style="list-style-type: none"> • Petra Capital – Sole Bookrunner and Joint Lead Manager • Canaccord Genuity – Joint Lead Manager

1. The Company reserves the right, in its absolute discretion, to accept oversubscriptions under the SPP or place any SPP shortfall.

2. Source IRESS.

3. Following the general meeting of the Company to approve Tranche Two of the Placement, the Joint Lead Managers will receive a total of 35m options with an exercise price of A\$0.0405 and expiry 3 years from issue.

Indicative Timetable¹

SPP Record Date	29 April 2026
Offer Announcement	30 April 2026
Placement Settlement Date	7 May 2026
Placement Allotment Date	8 May 2026
SPP Closing Date	22 May 2026
SPP shares issued	On or before 29 May 2026

1. Timetable is indicative only and may be subject to change at the sole discretion of the Company, in consultation with the Bookrunner, in compliance with the ASX Listing Rules and Corporations Act.

Key Risks

Set out in this section are the potential risks associated with SHN, the Offer, the industry in which SHN operates and an investment in SHN shares. It is not an exhaustive list of every risk faced by SHN now or in the future.

Global economic conditions	Changes in global economic conditions (including changes in interest rates, inflation, currency inflation, industrial disruption, foreign exchange rates and labour costs) may impact the operational and financial conditions performance of the Company.
Exchange rate risk	The Company's future operational expenditures and future project development expenditures are denominated in foreign currency which exposes the Company to exchange rate risk.
Global pandemic	Any future pandemic, may have a material adverse impact on the operations and financial performance of the Company. Local, national and international events of this nature are not within the control of the Company including impacts of government and regulatory restrictions that have or may be implemented including as to travel, employment, operational matters, imports or good/services.
Availability of capital	The Company will require further financing support in the future to support capital expenditure to meet future objectives. Despite the Company's strong capital raising track record, there is no certainty that it will be successful in obtaining the financing required as and when needed, on favourable terms, or at all. Changing investor and lender appetite for exposure to the resource sector may also limit the future availability of equity and debt capital. There can be no assurance that the Company can obtain future financing on a timely basis and this failure may compromise the Company's ability to achieve its strategic objectives or could ultimately impact upon its ability to continue as a going concern.
Share price fluctuations	The value of the Company's shares will be determined by the stock market and will be subject to varied and often unpredictable influences in the share market beyond the Company's control and the last trading price of the Company's shares on ASX prior to the presentation is not a reliable indicator as to the potential trading price of the Company in the future. These factors include, but are not limited to, the demand for, and availability of the Company's shares, movements in interest rates, exchange rates, and rates of inflation, fluctuations in the Australian and international stock markets, changes in fiscal, monetary and regulatory policies, and general domestic and international and economic activity. Depending on general market conditions and the Company's share price, the Company may not be able to attract new investors or raise capital as and when required.
Conditions and renewals of licences	The permits and agreements on the Company's projects are governed by Australian legislation and are evidenced by the granting of permits and agreements and the extension of such permits and agreements. Each permit, agreement or extension is for a specific term and carries with it annual expenditure and reporting commitments, as well as other conditions requiring compliance. There is a risk that tenements, environmental consents and any other land use approvals may not be granted, obtained or renewed, may be granted, obtained or renewed on terms that are not satisfactory to the Company, or may be obtained granted or renewed but not within the timeframes anticipated by the Company. This could have a material adverse effect on the Company's operations and financial performance.
Cyber risk	Like other entities the Company may be exposed to the risk of cyber attacks on its systems and operations. Such attacks may involve a denial of service, corruption of data, exposure of private data in breach of regulations or requests for payment of monies. The Company believes it has appropriate data security mitigations in place, however no guarantee that this will be sufficient to prevent a successful attack can be given.
Environmental and regulations risk	National and local environmental laws and regulations in jurisdictions in which the Company operates affect the Company. These laws and regulations set various standards regulating certain aspects of health and environmental quality, provide for penalties and other liabilities for the violation of such standards and establish, in certain circumstances, obligations to remediate current and former facilities and locations where operations are or were conducted. The Company will minimise the potential impact of these laws and regulations by taking steps to ensure compliance with environmental regulations and, where possible, by carrying appropriate insurance. Significant liability could be imposed on the Company for damages, clean-up costs or penalties in the event of certain discharges into the environment, environmental damage caused by previous owners of properties acquired by the Company, or non-compliance with environmental laws or regulations. This could have an adverse effect on the Company's financial and operational performance.
Taxation	Changes to corporate income tax, import duties, property tax, excise tax, withholding tax or any other applicable taxation legislation or policies in Australia, or other jurisdictions where the Company operates or procures supply may adversely affect the Company's financial profitability, net assets and cash flow and the returns to investors. The countries in which the Company operates or procures supply may impose additional taxes on the Company. The recoupment of taxation losses accrued by the Company from any future revenues is subject to the satisfaction of tests outlined in taxation legislation or regulations in relevant jurisdictions. There is no guarantee that the Company will satisfy all these requirements at the time it seeks to recoup its tax losses which may impact on the financial performance and cash flows of the Company.

Key Risks Continued

Litigation risk	Legal proceedings may arise from time to time in the course of the Company's business. The Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute, if proven, may impact adversely on the Company's operations, financial performance and financial position.
Mineral Resource and Ore Reserve estimates	<p>Mineral resource and ore reserve estimates are a subjective process based on drilling results, past experience with mining properties and modifying factors, knowledge, industry practice and many other factors. Estimates which are valid when made may change substantially when new information becomes available. Ore reserve estimation is an interpretive process based on a limited amount of geological data pursuant to JORC and applicable regimes and interpretations and thus estimations may prove to be inaccurate.</p> <p>The actual quality and characteristics of mineral deposits cannot be known until mining and processing takes place and will almost always differ from the assumptions used to develop mineral resources. Further, ore reserves are valued based on future costs and future prices and consequently, the actual mineral resources and ore reserves may differ from those estimated, which may result in either a positive or negative effect on operations. Should the Company's projects encounter mineralisation or formations different from those predicted by past drilling, sampling and similar examinations, mineral resource estimates may have to be adjusted and mining plans may have to be altered in a way which could adversely affect the Company's operations.</p>
Exploration and development risk	The exploration for and development of mineral deposits is speculative and involves significant risks. Whether a mineral deposit will be commercially viable depends on a number of factors, including: the particular attributes of the deposit (such as size, grade and proximity to infrastructure), metal prices, metallurgical recovery, capital construction and operating costs, and government regulation including regulations relating to prices, taxes, royalties, land tenure, land use, exporting of minerals and environmental protection. There is no certainty that the expenditures made by the Company towards the search for and evaluation of mineral deposits, will result in discoveries of commercial quantities of ore, nor will any discoveries be profitability exploited.
Occupational Health & Safety	The Company's operations are subject to a variety of industry specific health and safety laws and regulations which are formulated to improve and to protect the safety and health of employees. Mining operations are inherently hazardous. While the Company seeks to implement best practice procedures in occupational health and safety, the occurrence of any industrial accidents, workplace injuries or fatalities may result in workers' compensation claims, related common law claims and potential occupational health and safety prosecutions. Accordingly, any liabilities for workplace accidents could have a material adverse impact on the Company. It is not possible to anticipate the effect on the Company's business from any changes to workplace occupational health and safety legislation or directions or necessitated by concern for the health of the workforce. Such changes may have an adverse impact on the financial performance and/or financial position of the Company.
Insurance	<p>The Company's business is subject to a number of risks and hazards generally, including adverse environmental conditions, industrial accidents, labour disputes, code of conduct breaches, unusual or unexpected geological conditions, ground or slope failures and natural phenomena such as inclement weather conditions, floods and earthquakes. Such occurrences could result in damage to mining or production facilities, personnel injury or death, environmental damage to the Company's properties and the properties of others, delays in development or mining, monetary losses and possible legal liability. In addition, there is a risk that an insurer defaults in the payment of a legitimate claim by the Company.</p> <p>Although the Company maintains insurance to protect against certain risks in such amounts as it considers it to be reasonable, its insurance will not cover all of the potential risks associated with its operations. The Company may also be unable to maintain insurance to cover those risks at economically feasible premiums. Insurance coverage may not continue to be available or may not be adequate to cover any resulting liability. In addition, there is a risk that an insurer defaults on a payment of a legitimate claim by the Company. Losses from any of these events may cause the Company to incur significant costs that could have a material adverse effect on its financial performance and results of operations.</p>
Regulations	The Company's operations are subject to government laws, regulations and policies governing (among other things) taxation, exploration, production, exports, labour standards, occupational health and safety and environmental protection. Any future changes in these laws, regulations or policies may adversely affect the Company's operations. As an Australian domiciled company listed on the ASX, changes in relevant taxation, interest rates, other legal, legislative and administrative regimes, and Government policies in Australia, may have an adverse effect on operations and ultimately the financial performance of the Company and the market price of its securities.
Community and safety risk	The Company's relationship with the communities in which it operates is important to ensure the future success of its existing operations and the construction and development of its social risks projects. While the Company believes its relationships with the communities in which it operates are strong, there is an increasing level of public scrutiny regarding the effect of mining activities on the environment, aboriginal heritage and on communities impacted by such activities. A failure by the Company to adequately respond to changes in environmental laws (including those relating to climate change) or comply with regulations governing access may adversely affect the Company's relationship with key stakeholders, community relations and its social licence to operate.

Key Risks Continued

Acquisition and divestment risk	<p>From time to time, the Company evaluates opportunities for acquisition and divestment of assets and participates in discussions with third parties on a confidential basis. Neither the opportunities nor the negotiations will be disclosed publicly until such time as the prospects of transacting are sufficiently certain and the materiality of any transaction has been determined. The execution and implementation of transactions of this nature may impact the Company's operations, financial performance and financial position and lead to a change in the Company's future capital, operating expenditure and funding requirements. However, there is no guarantee that any such transaction will emerge or be consummated.</p>
Operating and capital costs	<p>The Company's operational results and financial condition may vary with fluctuations in operating and capital costs. No assurance can be given that the Company will achieve its production and costs estimates. The Company's future operations are subject to operating risks that could result in insufficient production and increased costs and, as a result, one or more projects becoming unprofitable or uneconomic. Changes in the costs of the Company's mining and processing operations as well as its capital costs could occur as a result of unforeseen events. Many of these factors may be beyond the Company's control, including adverse weather conditions, shortages in equipment and external services failure. In addition, accidents could lead to substantial claims against the Company for injury or loss of life, and damage or destruction to property, as well as regulatory investigations, clean up responsibilities, penalties and the suspension of operations. The Company will endeavour to take appropriate action to mitigate these operational risks (including by ensuring legislative compliance, properly documenting arrangements with counterparties, and adopting industry best practice policies and procedures) or to insure against them.</p>
Key personnel	<p>The Company's success depends on the continued services of its key personnel. The Company could be adversely affected if any of the key management team ceased to actively participate in the management of the Company or ceased employment with the Company entirely. As there may be a limited number of persons with the requisite experience and skills to serve in the Company's senior management positions if existing management leave the Company, the Company may not be able to locate or employ qualified executives on acceptable terms. If the Company cannot attract, train and retain qualified managers, it could adversely affect the Company's current exploration, development and production operations and its future growth plans. There can also be no assurance that the Company's operations will not be affected by labour related problems in the future, such as disputes relating to wage or requests for increased employee benefits.</p>
Commodity price risk	<p>The success of the Company's operations is primarily dependent on commodity prices. Commodity prices are volatile and may fluctuate as a result of numerous factors, which are beyond the control of the Company. Such factors include, but are not limited to:</p> <ul style="list-style-type: none">• speculative positions taken by investors or traders;• changes in global demand for specific commodities (as an investment and/or for other uses);• global and regional recessions or reduced economic activity and/or inflationary expectations;• financial market expectations regarding the rate of inflation;• the strength of the US dollar;• hedging and de-hedging by producers;• changes in production costs in major producing regions, and• domestic or international political or geopolitical events, unrest or hostilities.

International Offer Restrictions

This document does not constitute an offer of new ordinary shares (“New Shares”) of the Company in any jurisdiction in which it would be unlawful. In particular, this document may not be distributed to any person, and the New Shares may not be offered or sold, in any country outside Australia except to the extent permitted below.

China	<p>Neither this document nor any other document relating to the New Shares may be distributed to the public in the People’s Republic of China (excluding, for purposes of this paragraph, Hong Kong Special Administrative Region, Macau Special Administrative Region and Taiwan). This document has not been approved by, nor registered with, any competent regulatory authority of the PRC. Accordingly, the New Shares may not be offered or sold, nor may any invitation, advertisement or solicitation for New Shares be made from, within the PRC unless permitted under the laws of the PRC.</p> <p>The New Shares may not be offered or sold to legal or natural persons in the PRC other than to: (i) “qualified domestic institutional investors” as approved by a relevant PRC regulatory authority to invest in overseas capital markets; (ii) sovereign wealth funds or quasi-government investment funds that have the authorization to make overseas investments; or (iii) other types of qualified investors that have obtained all necessary PRC governmental approvals, registrations and/or filings (whether statutorily or otherwise).</p>
European Union (excluding Austria)	<p>This document has not been, and will not be, registered with or approved by any securities regulator in the European Union. Accordingly, this document may not be made available, nor may the New Shares be offered for sale, in the European Union except in circumstances that do not require a prospectus under Article 1(4) of Regulation (EU) 2017/1129 of the European Parliament and the Council of the European Union (the “Prospectus Regulation”).</p> <p>In accordance with Article 1(4)(a) of the Prospectus Regulation, an offer of New Shares in the European Union is limited to persons who are “qualified investors” (as defined in Article 2(e) of the Prospectus Regulation).</p>
Hong Kong	<p>WARNING: This document has not been, and will not be, registered as a prospectus under the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32) of Hong Kong, nor has it been authorised by the Securities and Futures Commission in Hong Kong pursuant to the Securities and Futures Ordinance (Cap. 571) of the Laws of Hong Kong (the “SFO”). Accordingly, this document may not be distributed, and the New Shares may not be offered or sold, in Hong Kong other than to “professional investors” (as defined in the SFO and any rules made under that ordinance).</p> <p>No advertisement, invitation or document relating to the New Shares has been or will be issued, or has been or will be in the possession of any person for the purpose of issue, in Hong Kong or elsewhere that is directed at, or the contents of which are likely to be accessed or read by, the public of Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to New Shares that are or are intended to be disposed of only to persons outside Hong Kong or only to professional investors. No person allotted New Shares may sell, or offer to sell, such securities in circumstances that amount to an offer to the public in Hong Kong within six months following the date of issue of such securities.</p> <p>The contents of this document have not been reviewed by any Hong Kong regulatory authority. You are advised to exercise caution in relation to the offer. If you are in doubt about any contents of this document, you should obtain independent professional advice.</p>
Singapore	<p>This document and any other materials relating to the New Shares have not been, and will not be, lodged or registered as a prospectus in Singapore with the Monetary Authority of Singapore. Accordingly, this document and any other document or materials in connection with the offer or sale, or invitation for subscription or purchase, of New Shares, may not be issued, circulated or distributed, nor may the New Shares be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore except pursuant to and in accordance with exemptions in Subdivision (4) Division 1, Part 13 of the Securities and Futures Act 2001 of Singapore (the “SFA”) or another exemption under the SFA.</p> <p>This document has been given to you on the basis that you are an “institutional investor” or an “accredited investor” (as such terms are defined in the SFA). If you are not such an investor, please return this document immediately. You may not forward or circulate this document to any other person in Singapore.</p> <p>Any offer is not made to you with a view to the New Shares being subsequently offered for sale to any other party in Singapore. On-sale restrictions in Singapore may be applicable to investors who acquire New Shares. As such, investors are advised to acquaint themselves with the SFA provisions relating to resale restrictions in Singapore and comply accordingly.</p>

International Offer Restrictions Continued

<p>Switzerland</p>	<p>The New Shares may not be publicly offered in Switzerland and will not be listed on the SIX Swiss Exchange or on any other stock exchange or regulated trading facility in Switzerland. Neither this document nor any other offering or marketing material relating to the New Shares constitutes a prospectus or a similar notice, as such terms are understood under art. 35 of the Swiss Financial Services Act or the listing rules of any stock exchange or regulated trading facility in Switzerland.</p> <p>No offering or marketing material relating to the New Shares has been, nor will be, filed with or approved by any Swiss regulatory authority or authorised review body. In particular, this document will not be filed with, and the offer of New Shares will not be supervised by, the Swiss Financial Market Supervisory Authority (FINMA).</p> <p>Neither this document nor any other offering or marketing material relating to the New Shares may be publicly distributed or otherwise made publicly available in Switzerland. The New Shares will only be offered to investors who qualify as “professional clients” (as defined in the Swiss Financial Services Act). This document is personal to the recipient and not for general circulation in Switzerland.</p>
<p>United Kingdom</p>	<p>This document has not been delivered for approval to the Financial Conduct Authority in the United Kingdom and no prospectus (within the meaning of Regulation 21 of The Public Offers and Admissions to Trading Regulations 2024 (“POATRs”)) has been published or is required to be published in respect of the New Shares.</p> <p>This document is issued on a confidential basis to “qualified investors” (within the meaning of paragraph 2 of Schedule 1 to the POATRs) in the United Kingdom. The New Shares may not be offered or sold in the United Kingdom by means of this document or any other document except pursuant to an exemption from the general prohibition on offers of relevant securities to the public in the United Kingdom. This document should not be distributed, published or reproduced, in whole or in part, nor may its contents be disclosed by recipients to any other person in the United Kingdom.</p> <p>Any invitation or inducement to engage in investment activity (within the meaning of section 21 of the Financial Services and Markets Act 2000, as amended (“FSMA”)) received in connection with the offer or sale of the New Shares has been, and only will be, communicated or caused to be communicated in the United Kingdom in circumstances in which section 21(1) of the FSMA does not apply to the Company.</p> <p>In the United Kingdom, this document is being distributed only to, and is directed at, persons (i) who have professional experience in matters relating to investments falling within Article 19(5) (investment professionals) of the Financial Services and Markets Act 2000 (Financial Promotions) Order 2005 (“FPO”), (ii) who fall within the categories of persons referred to in Article 49(2)(a) to (d) (high net worth companies, unincorporated associations, etc.) of the FPO or (iii) to whom it may otherwise be lawfully communicated (“relevant persons”). The investment to which this document relates is available only to relevant persons. Any person who is not a relevant person should not act or rely on this document.</p>
<p>New Zealand</p>	<p>This document has not been registered, filed with or approved by any New Zealand regulatory authority under the Financial Markets Conduct Act 2013 (the “FMC Act”).</p> <p>The New Shares are not being offered or sold in New Zealand (or allotted with a view to being offered for sale in New Zealand) other than to a person who:</p> <ul style="list-style-type: none"> • is an investment business within the meaning of clause 37 of Schedule 1 of the FMC Act; • meets the investment activity criteria specified in clause 38 of Schedule 1 of the FMC Act; • is large within the meaning of clause 39 of Schedule 1 of the FMC Act; • is a government agency within the meaning of clause 40 of Schedule 1 of the FMC Act; or • is an eligible investor within the meaning of clause 41 of Schedule 1 of the FMC Act.
<p>United States</p>	<p>This document does not constitute an offer to sell, or a solicitation of an offer to buy, securities in the United States. The New Shares have not been, and will not be, registered under the US Securities Act of 1933 or the securities laws of any state or other jurisdiction of the United States. Accordingly, the New Shares may not be offered or sold in the United States except in transactions exempt from, or not subject to, the registration requirements of the US Securities Act and applicable US state securities laws.</p> <p>The New Shares may be offered and sold in the United States only to:</p> <ul style="list-style-type: none"> • institutional accredited investors within the meaning of Rule 501(a)(1), (2), (3), (7), (8), (9) and (12) under the US Securities Act; and • dealers or other professional fiduciaries organized or incorporated in the United States that are acting for a discretionary or similar account (other than an estate or trust) held for the benefit or account of persons that are not US persons and for which they exercise investment discretion, within the meaning of Rule 902(k)(2)(i) of Regulation S under the US Securities Act.

International Offer Restrictions Continued

Canada (British Columbia, Ontario and Quebec provinces)

This document constitutes an offering of New Shares only in the Provinces of British Columbia, Ontario and Quebec (the “Provinces”), only to persons to whom New Shares may be lawfully distributed in the Provinces, and only by persons permitted to sell such securities. This document is not a prospectus, an advertisement or a public offering of securities in the Provinces. This document may only be distributed in the Provinces to persons who are (i) “accredited investors” (as defined in National Instrument 45-106 – *Prospectus Exemptions*) and (ii) “permitted clients” (as defined in National Instrument 31-103 – *Registration Requirements, Exemptions and Ongoing Registrant Obligations*) if a lead manager offering the New Shares in Canada is relying upon the international dealer exemption under NI 31-103.

No securities commission or authority in the Provinces has reviewed or in any way passed upon this document, the merits of the New Shares or the offering of the New Shares and any representation to the contrary is an offence.

No prospectus has been, or will be, filed in the Provinces with respect to the offering of New Shares or the resale of such securities. Any person in the Provinces lawfully participating in the offer will not receive the information, legal rights or protections that would be afforded had a prospectus been filed and receipted by the securities regulator in the applicable Province. Furthermore, any resale of the New Shares in the Provinces must be made in accordance with applicable Canadian securities laws. While such resale restrictions generally do not apply to a first trade in a security of a foreign, non-Canadian reporting issuer that is made through an exchange or market outside Canada, Canadian purchasers should seek legal advice prior to any resale of the New Shares.

The Company as well as its directors and officers may be located outside Canada and, as a result, it may not be possible for purchasers to effect service of process within Canada upon the Company or its directors or officers. All or a substantial portion of the assets of the Company and such persons may be located outside Canada and, as a result, it may not be possible to satisfy a judgment against the Company or such persons in Canada or to enforce a judgment obtained in Canadian courts against the Company or such persons outside Canada.

Statutory rights of action for damages and rescission. Securities legislation in certain Provinces may provide a purchaser with remedies for rescission or damages if an offering memorandum contains a misrepresentation, provided the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser’s Province. A purchaser may refer to any applicable provision of the securities legislation of the purchaser’s Province for particulars of these rights or consult with a legal adviser.

Certain Canadian income tax considerations. Prospective purchasers of the New Shares should consult their own tax adviser with respect to any taxes payable in connection with the acquisition, holding or disposition of the New Shares as there are Canadian tax implications for investors in the Provinces.

Language of documents in Canada. Upon receipt of this document, each investor in Canada hereby confirms that it has expressly requested that all documents evidencing or relating in any way to the sale of the New Shares (including for greater certainty any purchase confirmation or any notice) be drawn up in the English language only. *Par la réception de ce document, chaque investisseur canadien confirme par les présentes qu’il a expressément exigé que tous les documents faisant foi ou se rapportant de quelque manière que ce soit à la vente des valeurs mobilières décrites aux présentes (incluant, pour plus de certitude, toute confirmation d’achat ou tout avis) soient rédigés en anglais seulement.*
