

Highlights

- **KSJV receives over \$30m of additional orders on Wheatstone project**
- **SCEE awarded first renewables projects with approximately \$10m of solar farm works in NSW**

Southern Cross Electrical Engineering Limited ('SCEE') is pleased to announce that its LNG-focused joint venture KSJV has received over \$30m of additional orders under its subcontract from Bechtel to deliver electrical and instrumentation installation services on the Chevron-operated Wheatstone Project. The total value of work awarded under the subcontract is now over \$95m. SCEE has a 50% interest in the KSJV joint venture.

SCEE is also pleased to advise that it has been awarded approximately \$10m of work on solar farm projects by Bouygues Construction Australia Pty Ltd. The scope of work includes the design and construction of photovoltaic (PV) electrical packages downstream of the delivery stations at four solar farms located at Parkes, Griffiths, Dubbo and Narromine in New South Wales.

Commenting on the awards SCEE Managing Director, Graeme Dunn, said "it is pleasing to continue to secure further work on our existing resources projects whilst increasingly diversifying organically with our first projects in the renewables sector."
