Highlights

- Heyday awarded commercial contracts totalling circa \$25m

Commercial Contracts

Southern Cross Electrical Engineering Limited (“SCEE Group”) is pleased to announce that its subsidiary Heyday has received contract awards totalling circa \$25m in the commercial sector in NSW and ACT as follows:

- Built Pty Limited has awarded Heyday the design and construct electrical services package for the 33 Alfred Street project located at Circular Quay in Sydney. 33 Alfred Street (“the AMP Building”) has been a prominent feature on the Sydney skyline for over 50 years and the 26-storey commercial development, totaling over 32,000 sq. mtrs. of net lettable area, will then be repositioned as a premium grade office tower. The existing structure will remain and then largely all other services and building fabric will be stripped back and fully reconstructed to new. Heyday’s works are due to commence in mid-November 2021 and the project is due for completion in the fourth quarter of 2023.
- In the ACT Heyday has been awarded the design and construct contract from Geocon Pty Ltd to provide electrical and communications services for the WOVA Development. The WOVA Development comprises four medium-rise towers of mixed-use residential living, made up of 797 apartments, 57 hotel rooms, 23 lettable commercial spaces, and multiple residential entertainment facilities and community spaces. Located within the Woden Town Centre, the works have an expected start date in December 2021 and are due for completion in mid-2023.

Comment

Commenting on the awards, SCEE Group Managing Director Graeme Dunn said “I am pleased we are participating in this iconic redevelopment in Sydney’s city centre where Heyday has had so much success in recent times. Canberra continues to be a steady source of work for us driven by the population growth in that region.

I note that in the last fortnight we have announced over \$150m of new work across multiple geographies and sectors of the Australian economy. This takes the SCEE Group order book to over half a billion dollars which is an all-time record for us.”
