## ***Talisman Receives Second Royalty Payment from the Wonmunna Iron Ore Mine***

Further to its announcement of 15 April, Talisman Mining Ltd (ASX: TLM, **Talisman**) is pleased to advise that it has received a second royalty payment from Wonmunna Iron Ore Pty Ltd (**Wonmunna**), a wholly-owned subsidiary of Mineral Resources Limited (ASX: MIN, **MRL**), the owner and operator of the Wonmunna Iron Ore Mine in the Pilbara region of Western Australia.

Details of the royalty payable to Talisman from the Wonmunna Iron Ore Mine were provided in the ASX announcement of 15 April 2021.

As MRL continues its production ramp-up of the Wonmunna Iron Ore Mine<sup>1</sup>, sales for the month of April 2021 resulted in Talisman receiving a royalty payment of \$0.24 million.

In future, Talisman expects to provide updates on royalty receipts from Wonmunna on a quarterly basis.

## About Talisman Mining

Talisman Mining Limited (ASX:TLM) is an Australian mineral development and exploration company. The Company's aim is to maximise shareholder value through exploration, discovery and development of complementary opportunities in base and precious metals.

Talisman has secured tenements in the Cobar/Mineral Hill region in Central NSW through the grant of its own Exploration Licenses and through joint venture agreements. The Cobar/Mineral Hill region is a richly mineralised district that hosts several base and precious metal mines including the CSA, Tritton, and Hera/ Nymagee mines. This region contains highly prospective geology that has produced many long-life, high-grade mineral discoveries. Talisman has identified a number of areas within its Lachlan Cu-Au Project tenements that show evidence of base and precious metals endowment which have had very little modern systematic exploration completed to date. Talisman believes there is significant potential for the discovery of substantial base metals and gold mineralisation within this land package and is undertaking active exploration to test a number of these targets.

Talisman also has a majority participating interest in a joint venture with privately-owned Lucknow Gold Limited in relation to the Lucknow Gold Project (EL6455) in New South Wales. The Lucknow Goldfield was discovered in 1851 and was one of the earliest goldfields to be mined commercially in Australia. Historic production records at the Project are incomplete, however in excess of 400,000 ounces of gold has reportedly been produced at grades of 100 to 200 g/t gold<sup>2</sup>. Very little modern exploration has been completed outside of the existing mine workings and Talisman intends to undertake a program of geochemical surface sampling and mapping at the Project ahead of a drilling program to test for potential down plunge extensions of the high-grade gold ore shoots and repeat structures throughout the Project area.
