VEEM Ltd (ASX: VEE) (‘VEEM’ or ‘the Company’), manufacturer of disruptive, high-technology marine propulsion and stabilization systems for the global luxury motor yacht, fast ferry, commercial workboat and defence industries is pleased to provide an update on its expected results for the half year to 31 December 2020. The results are currently unaudited. Full results will be released before the end of February 2021.

Revenue increased significantly during the period to \$28.4 million due to increases in sales of VEEM Gyros, propulsion products and the commencement of deliveries to ASC under the Collins class submarine maintenance contract announced to the ASX on 18 March 2020.

EBITDA increased 111% over the previous corresponding period (“PCP”) to \$5.7 million and net profit after tax was \$3.0 million, an increase of 233% on the PCP. This result included JobKeeper receipts of \$1.5 million which were not received in the PCP.

**Mark Miocevich, Managing Director of VEEM said:** “We are very pleased with our results for the half year with significant revenue increases driving improved EBITDA and bottom line profit outcomes.

“The continued increases in sales of VEEM Gyros with minimal increase to the overhead burden should continue to see the business generate strong EBITDA and cash flow.

“Across the business, and within Gyros, propulsion and defence specifically, we continue to see evidence of strong sales and profit potential for the rest of 2021.

“VEEM is in the strongest position it ever has been with an existing robust core business which has allowed us to invest and support our focus on the rapid growth of our disruptive VEEM Gyro product into the global marine market. Following the signing of the framework agreement with Damen, one of the largest European shipbuilders, we are now on the cusp of delivering on what we have known for some time is a game changing opportunity.”
