Notes to the Financial Statements

1. Basis of Preparation

1.1 Corporate information

Zeta Resources Limited ("Zeta Resources" or "the Company") is an investment company incorporated on 13 August 2012, listed on the Australian Securities Exchange and domiciled in Bermuda. The financial statements of the Company as at and for the year ended 30 June 2024 comprise the Company only.

1.2 Basis of preparation

This report is based on accounts that are in the process of being audited.

This report does not include all of the notes normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the financial report for the year ended 30 June 2024 and any public announcements made by the Company during the reporting period in accordance with continuous disclosure requirements.

1.3 Functional and presentation currency

The Company's functional and presentation currency is United States dollars.

The board has determined by having regard to the currency of the Company's share capital and that Zeta invests in mining entities whose resources are valued in United States dollars, that United States dollars is the functional and reporting currency.

2. Adoption of New and Revised Standards

2.1 New standards, amendments and interpretations effective for annual periods beginning after 1 January 2024 that have not been adopted

Presentation & disclosure of information - (New standard IFRS 18) effective 1 January 2027

Lack of Exchangeability (Amendment to IAS 21) – effective 1 January 2025

Based on initial assessment, these standards are not expected to have a material impact on the Company.

3. Investment in Subsidiaries

17. Going Concern

The financial statements have been prepared on a going concern basis. The majority of the Company's assets consist of equity shares in listed companies which in most circumstances are realisable within a short timescale. The directors believe the Company will be able to cover the commitments arising in the period 12 months from the date of approval of these financial statements. The use of the going concern basis of accounting is appropriate because there are no material uncertainties related to events or conditions that may cast significant doubt about the ability of the Company to continue as a going concern. After making enquiries, the directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, the directors continue to adopt the going concern basis in preparing the accounts.

18. Segmental Reporting

The Company has five reportable segments, as described below, which are considered to be the Company's strategic investment areas. For each investment area, the Company's chief operating decision maker ("CODM") (ICM Limited – investment manager) reviews internal management reports on at least a monthly basis. The following summary describes each of the Company's reportable segments:

Gold: investments in companies which explore or mine for gold

Nickel: investments in companies which explore or mine for nickel

Copper: investments in companies which explore or mine for copper

Mineral exploration: investments in companies which explore or mine for other minerals

Administration: activities relating to financing received which does not specifically relate to any one segment as well as administrative activities

Information regarding the results of each reportable segment is included below. Performance is measured based on segment profit before tax, as included in the internal management reports that are reviewed by the Company's CODM. Segment profit is used to measure performance as management believes that such information is the most relevant in evaluating the performance of certain segments relative to other entities that operate within these industries.
